Agenda
Campus Curricula Committee Meeting
September 1, 2009 Meeting
3:00 p.m. Room 117 Fulton Hall

Approval of May 5, 2009 minutes.

Review of submitted DC forms:
DC 0327, Interdisciplinary Engineering, effective Fall 2009.
A proposal to inactivate the Bachelor of Science degree in Interdisciplinary Engineering.

DC0328, Mining Engineering, effective Fall 2009.
A proposal to modify the current curriculum for the BS in Mining Engineering.

DC0329, Finance, effective Fall 2009.
A proposal to remove Econ 323 from the Finance minor.

DC0331, Cognitive Neuroscience, effective Spring 2010.
A proposal to modify the current requirements for the minor in Cognitive Neuroscience by requiring Psych 345.

DC0333, Business and Management Systems, effective Fall 2010.
A proposal to modify the current curriculum for the BS in Business and Management Systems.

DC0335, Information Science and Technology, effective Fall 2010.
A proposal to modify the current curriculum for the MS in Information Science and Technology.

DC 0336, Arts, Languages & Philosophy, effective Spring 2010.
A proposal to create a new minor called Studio Art Minor.

Review of submitted CC forms:
CC 7689, Mining Engineering 221, Mining Exploration, effective Fall 2009.

CC 7690, Mining Engineering 225, Surface Mine Design, effective Fall 2009.

CC 7691, Mining Engineering 235, Underground Mine Design, effective Fall 2009.
CC 7692, Mining Engineering 324, Underground Mining Methods and Equipment, effective Fall 2010.

CC 7693, Mining Engineering 326, Surface Mining Methods and Equipment, effective Spring 2010.

CC 7694, Mining Engineering 331, Rock Mechanics I, effective Fall 2009.

CC7695, Mining Engineering 332, Soils and Overburden Materials for Mining Engineering, effective Fall 2009.

CC 7696, Mining Engineering 392, Mine Design Project I, effective Fall 2009.

CC 7697, Mining Engineering 393, Mine Planning and Design, effective Fall 2009.

CC 7700, Arts, Languages & Philosophy 111, Global Village, effective Fall 2009.

CC 7701, Technical Communication 433, Proposal Writing, effective Fall 2009.

CC 7702, Psychology 345, Evolutionary Psychology, effective Fall 2009.

CC 7705, Computer Science 378, Introduction to Neural Networks & Applications, effective Fall 2009.

CC 7712, IST 336, Foundations of Internet Computing, effective Fall 2010.

CC 7713, IST 461, Information Systems Project Management, effective Fall 2010.

CC 7714, M&IS 397, Capstone Seminar in Management and Information Systems, effective Spring 2010.

CC 7715, M&IS 101, Special Topics, effective Spring 2010.

CC 7717, Art 30, Drawing II, effective Spring 2010.

CC 7718, Art 50, Painting II, effective Spring 2010.

CC 7726, Biological Sciences 358, Advanced Biodiversity, effective Spring 2010.
Review of submitted EC forms:

EC 2182, Business 301, Accounting and Finance Essentials, effective Spring 2010.

EC 2183, Business 301, Management, Marketing and Business Law Essentials, effective Spring 2010.

EC 2187, History 301, Making of Modern Germany, effective Spring 2010.

EC 2188, Biological Sciences 301, Pharmacology, effective Spring 2010.

EC 2189, Biological Sciences 301, Nanobiotechnology, effective Spring 2010.

EC 2191, Marketing 301, Integrated Marketing Communications, effective Fall 2009.

EC 2192, IST 301, Advanced Networking, effective Fall 2009.

EC 2195, History 301, Mark Twain's America, effective Spring 2010.

EC 2199, Biological Sciences 301, Genomics, effective Spring 2010.

Tabled Items:

CC 7635, ERP 442, Customer Relationship Management in an ERP Environment.

Tabled.

Catalog Description: This course emphasizes identification (targeting), acquisition, retention, and development (expansion of (profitable) customers. It also covers effective and efficient management of customers, using information technology. The SAP CRM and SAS BI tools are used to enhance student education with real world applications.

Credit Hours: 3 hour lecture

Prerequisites: ERP 345
Effective Year: 2009
Effective Term: Summer [ ] Fall [x] Spring [ ]
(Creating or modifying a degree program must be effective for a Fall term)

Degree Change Form (DC)

This form is to be used for creating or modifying degree programs, emphasis areas, and minors.

Title of degree program, emphasis area, or minor:
Interdisciplinary Engineering, BS

Department: Interdisciplinary Engineering

Briefly describe action requested (Attach documentation as appropriate):
Place program on "Inactive Status". Enrollment goals in this program were not realized.

Recommended by Department: ____________________________ Date: 4/6/09
(Chair signature)

Recommended by Discipline Specific Curricula Committee: ____________________________ Date: 4/9/09
(Chair signature)

Approved by Curricula Committee: ____________________________ Date: __________
(Chair signature)

Approved by Faculty Senate: ____________________________ Date: __________
(Chair signature)

04/01/09

(Revised 1/31/2008)
PROGRAM CHANGE FORM

1. Submitted by: Missouri University of Science and Technology
   Name of Institution (Campus or off-campus residential center in the case of multi-campus institutions)

2. Type of Program Change (Check those that apply):
   - Title change only
   - Combination program created out of closely allied existing programs
   - Option(s) added to existing program(s)
   - Addition of certificate program developed from approved existing parent degree
   - Addition of free-standing single-semester certificate program
   - Delete program(s)
   - Delete option(s)
   - X Program placed on "Inactive Status" list

3. Indicate Program Change or Addition of Options:

<table>
<thead>
<tr>
<th>Before the Proposed Change</th>
<th>After the Proposed Change</th>
</tr>
</thead>
<tbody>
<tr>
<td>Title of Old Program or Certificate Option</td>
<td>Degree</td>
</tr>
<tr>
<td>Interdisciplinary Engineering</td>
<td>BS</td>
</tr>
</tbody>
</table>

4. Attach a copy of the "before and after" curriculum, as applicable, and a rationale for the proposed change.

   The department has been eliminated - therefore, the degree will be phased out.

5. Intended date of program change, additional options, or "Inactive Status":

   August/2009 (Fall Semester 2009)

   Month/Year

   AUTHORIZATION

   [Signature]

   Provost 4/8/09

   Name/Title of Institutional Officer  Signature  Date

   Dr. William Schonberg, 341-4787

   Person to Contact for More Information  Telephone Number
Effective Year: 2009
Effective Term: Summer □ Fall □ Spring □
(Creating or modifying a degree program must be effective for a Fall term)

Degree Change Form (DC)

This form is to be used for creating or modifying degree programs, emphasis areas, and minors.

Title of degree program, emphasis area, or minor:
Bachelor of Science Degree in Mining Engineering

Department: Mining and Nuclear Engineering

Briefly describe action requested (Attach documentation as appropriate):
Department seeks approval by the appropriate Campus Committees for the proposed curriculum for the B.S. degree in Mining Engineering effective Fall 2009. The curriculum changes resulted from the periodic program quality audit by faculty, consultations with the program constituencies (students, faculty, industry, alumni and the Academy) and the 2008-2009 ABET Review process.

Recommended by Department: [Signature] Date: 04/21/09

Recommended by Discipline Specific Curricula Committee: [Signature] Date: 6-□-09

Approved by Curricula Committee: [Signature] Date: 

Approved by Faculty Senate: [Signature] Date:

1. The curriculum contains a total of 21 general education credit hours. The three HSS electives must be from the approved list with at least one course (3 or more hours) that builds on depth and at least one course (3 or more hours) that focuses on the economics of a large enterprise, such as the mining industry, e.g. Econ 340 or Econ 345. The latter also satisfies the depth requirement.

2. **Explosives Engineering Emphasis:** Mi Eng 350 (Blasting Tech) and either Mi Eng 301, 390 (Special Topics and Mining Research, both in an explosives area), Geol Eng 371 (Rock Engineering) or Mi Eng 333 (Tunneling/Construction) have to be taken as Technical Electives.

3. **Quarrying Engineering Emphasis:** CIV Eng 216 (Construction Materials) and Mi Eng 304 (Advanced Aggregate and Quarrying) have to be taken as Technical Electives.

4. **Coal Emphasis:** Mi Eng 343 (Coal Mine Development and Production), Mi Eng 311 (Mine Plant Management) or an approved substitute course has to be taken as Technical Electives.

5. **Mining and Environment Emphasis:** Geol Eng 235 (Environmental Geosciences), Geol Eng 333 (Risk Assessment in Environmental Studies), or approved substitute courses have to be taken as Technical Electives.

6. **Mining Health and Safety Emphasis:** Mi Eng 202 (Mine Rescue), Eng Mgt 311 (Human Factors), or other approved substitute courses have to be taken as Technical Electives.

7. **Sustainable Development Emphasis:** Pol Sci 315 (Public Policy Analysis), Econ 340 (Environmental and Natural Resource Economics), or other approved substitute courses have to be taken as Technical Electives.

8. Mining courses in italics are offered every semester.
The Engineering DSCC has voted not to approve the curriculum changes for Mining Engineering curriculum changes recently submitted. The main issue is the use of two Mining Engineering courses for general education courses. I will return the forms without our approval to the Registrar's Office.

Missouri University of Science and Technology
Rolla, MISSOURI

Dear Sir/Madam:

**RE: Proposed Curriculum for the B.S. Degree in Mining Engineering**

Attached is a proposed undergraduate Mining Engineering curriculum effective FS 2009, with changes in specific existing and new courses and a presentation I gave to the undergraduate mining engineering students on the new curriculum.

The existing program has been modified to incorporate specific courses, which strengthen and maintain the program quality for preparing graduates. These changes are the results from a program audit by the Mining Engineering faculty members based on the ABET program criteria for Mining Engineering, and extensive consultations with industry, alums and graduating seniors. The rationale, components and subsequent changes are detailed in the attached documents.

These changes do not require additional faculty and/or resources to execute the new curriculum. If you require additional information, clarification and/or suggestions, please do not hesitate to contact me.

Regards,

Samuel Frimpong, PhD, PEng
Professor and Chair
Robert H. Quenon Endowed Chair

File
Degree Change Form (DC)

This form is to be used for creating or modifying degree programs, emphasis areas, and minors.

Title of degree program, emphasis area, or minor:
Minor in Finance

Department: Business and Information Technology

Briefly describe action requested (Attach documentation as appropriate):
Remove ECON 323 International Finance from the possible electives for the minor. This change is required for our pursuit of AACSB accreditation. All business courses, including all finance courses, must be offered through the BIT department or a department accredited by ABET.

Recommended by Department: __________________________
(Chair signature) Date: 4/27/09

Recommended by Discipline Specific Curricula Committee: __________________________
(Chair signature) Date: 4/29/09

Approved by Curricula Committee: __________________________
(Chair signature) Date: __________________________

Approved by Faculty Senate: __________________________
(Chair signature) Date: __________________________
Degree Change Form (DC)

This form is to be used for creating or modifying degree programs, emphasis areas, and minors.

Title of degree program, emphasis area, or minor:
Cognitive Neuroscience Minor

Department: Psychological Science

Briefly describe action requested (Attach documentation as appropriate):
Changing requirements for the Minor:

Old required courses were:

New required courses are:
Psych 50, Psych 305, Psych 330, Psych 240 and Psych 340 or Psych 354 or Psych 362.

Recommended by Department:  
Nancy J. Stone  
(Chair signature)

Approved by Faculty Senate:  
(Chair signature)  
Date: 

04/10/09  
(Revised 1/31/2008)
Effective Year: 2010
Effective Term: Summer ☐ Fall ☒ Spring ☐
(Creating or modifying a degree program must be effective for a Fall term)

Degree Change Form (DC)

This form is to be used for creating or modifying degree programs, emphasis areas, and minors.

Title of degree program, emphasis area, or minor:
BS in Business and Management Systems

Department: Business and Information Technology

Briefly describe action requested (Attach documentation as appropriate):
Add BUS 422 International Business as a major requirement for the degree to comply with AACSB accreditation requirements.
Delete one free elective with the result that 9 hours of free electives are required instead of 12 to keep the degree program at 120 credit hours.

Recommended by Department: ____________________________ Date: 5/18/09
(Chair signature)

Recommended by Discipline Specific Curricula Committee: ____________________________ Date: 6/29/09

(Chair signature)

05/18/09
(Revised 1/31/2008)
Degree Change Form (DC)

This form is to be used for creating or modifying degree programs, emphasis areas, and minors.

Title of degree program, emphasis area, or minor:
M.S. in Information Science and Technology

Department: Business and Information Technology

Briefly describe action requested (Attach documentation as appropriate):
Graduate students in Information Science and Technology (IST) require more understanding of research directions in the field. Two required courses, IST 336 and IST 361, will be replaced by higher level courses, IST 436 and IST 461.
The degree requirements will then become:
M.S. with Thesis: The M.S. degree with thesis requires the completion of 24 hours of graduate course work (a minimum of 12 at the 400 level), 6 hours of research (IST 490), and the successful completion and defense of a research thesis.
M.S. without Thesis: The M.S. degree without thesis requires the completion of 30 hours of graduate course work (a minimum of 15 at the 400 level).
The following core courses are required of all M.S. students in IST. These courses are designed to insure that all IST M.S. students study the four information systems perspectives of networks and Web design, human perception, management of application implementation, and organizational systems.
- IST 351 Leadership in Technology-Based Organizations
- IST 385 Human-Computer Interaction
- IST 436 Foundations of Internet Computing
- IST 461 Information Systems Project Management

Degree Change Form (DC)

This form is to be used for creating or modifying degree programs, emphasis areas, and minors.

Title of degree program, emphasis area, or minor:
Studio Art Minor

Department: ALP

Briefly describe action requested (Attach documentation as appropriate):
The Studio Art Minor offers students the opportunity to pursue an area of focus in painting, drawing, photography, etc.

The minor requires 15 hours, including Art 80: Art Appreciation, which is a required course. Students may take additional 12 hours from these offerings:
Art 20: Drawing I;
Art 40: Painting I;
Art 64: Sculpture;
Art 120: Drawing II;
Art 140: Painting II;
Art 203: Architectural Design I;
Art 221: The Study of Photography.

PROPOSED
MI Eng 221 Mining Exploration (LEC 3.0) Classification of mineral deposits. Role of mining and processing in defining orebodies. Geology, geophysics, geochemistry, geobotany, and drilling in mineral exploration. Sampling methods (channeling, diamond drilling, trenching, bulk and grab), errors and mitigation. Resources/Reserves classification. Definitions and characteristics of proven, probable and possible resources/reserves. Reserve estimation project. Prerequisites: Geology 125 and MI Eng 110.

Mi Eng 393 Mine Planning and Design (LEC 2.0 and LAB 2.0): Selection of a mining design project that results in the preparation of a comprehensive engineering report and oral presentation for the economic exploitation of the selected geologic deposit. The course includes instruction and student guidance that integrates and applies engineering economics, sciences, use of commercial software and principles to develop a mineable deposit. Prerequisite: Completion of 110 hours in the Mining Engineering Curriculum.

PROPOSED

Mi Eng 393 Mine Design Project II (LEC 1.0 and LAB 3.0): Capstone design project that culminates in the completion and oral presentation of a comprehensive mine feasibility study. Project includes mine layouts design and optimization, production planning, equipment selection and flowsheet design based on detailed geological, mineral resources/reserves, geotechnical, hydrological and hydro-geological modeling. Project also incorporates commodity markets, environmental and permitting, conceptual mine planning and methods, mine-mill organization, facilities and infrastructure requirements, and economic and risk analyses. Prerequisites: Mi Eng 392 and completion of 110 hours in the Mining Engineering Curriculum.

   back propagation, BAM, and Hopfield memory, counterpropagation networks, self organizing
   maps, adaptive resonance theory, are the topics covered. Students experiment with the use of
   artificial neural networks in engineering through semester projects. (Co-listed with Sys Eng 378, El Eng
   378)
   Proposed:

5. If course requires field trip check box: □

6. Credit Hours:
   Present: Lecture: 3 Lab: Total: Proposed:
   Lecture: Lab: Total: 204 or equivalent

7. Prerequisites:
   Present: Math 229 or Math 204 or equivalent
   Proposed:

8. Required for Majors: □ Elective for Majors: X□

9. Justification: The neural network course housed in Engineering Management does not coincide with
   advanced content in the area. Thus, we request removal of the co-listing and deletion of CS 378.

10. Semesters previously offered as an experimental course (101, 201, 301, 401):

11. List all co-listed courses, initialed by Dept. Chair, if signature does not appear below.

Experimental Course Form (EC)

This form must be filed with the Secretary to the Campus Curricula Committee, after the department chair's notation, by the appropriate deadline. Filing deadlines for inclusion in the initial release of the Schedule of Classes are as follows:

Summer and Fall Semester Offerings – January 1
Spring Semester Offerings – August 1

An EC form must be submitted each semester it is to be offered, not to exceed two offerings. An experimental course that is required should be submitted on a CC form. Co-listed offerings should be submitted on one form, originating from the primary discipline.

Department: Business and Information Technology

Discipline and Course Number: BUS 301

Course Title: Accounting and Finance Essentials

Abbreviated Title (24 spaces or less): Acct & Fin Essentials

Instructor(s): Eng and Lin

Credit Hours: Lecture: 3.0 Lab: Total:

Prerequisites: None

Semester(s) previously taught: None

Brief Course Description: (40 words or less)
An introduction to the essentials of financial and managerial accounting and finance for running a business designed for students planning to enter the MBA program and for non-business students who want some business background. Credit in this course can not be applied to any major or minor in business, IST, or economics.

List all co-listed courses: Include initials of Dept. Chair, if signature is not already included below.

Department: Biological Sciences

Discipline and Course Number: Bio 301

Course Title: Pharmacology

Abbreviated Title (24 spaces or less): Pharmacology

Instructor(s): Robert S. Aronstam

Credit Hours: Lecture: 3 Lab: 0 Total: 3

Prerequisites: Cellular Biology (Bio 211) and organic chemistry Bio Sci 211 and Chem 221

Semester(s) previously taught: WS 2008

Brief Course Description: (40 words or less)
The study of chemicals that produce specific biological effects, as well as the search for new agents of therapeutic value. We will consider basic principles of drug action at the cellular and molecular levels, the chemotherapy of microbial and neoplastic diseases, and drug action on major physiological systems, including the nervous and cardiovascular systems.

Experimental Course Form (EC)

This form must be filed with the Secretary to the Campus Curricula Committee, after the department chair’s notation, by the appropriate deadline. Filing deadlines for inclusion in the initial release of the Schedule of Classes are as follows:

Summer and Fall Semester Offerings – January 1
Spring Semester Offerings – August 1

An EC form must be submitted each semester it is to be offered, not to exceed two offerings. An experimental course that is required should be submitted on a CC form. Co-listed offerings should be submitted on one form, originating from the primary discipline.

Department: BIT

Discipline and Course Number: IST 301

Course Title: Advanced Networking

Abbreviated Title (24 spaces or less): AdvNtwk

Instructor(s): S. Dalton; B. Kehr

Credit Hours: Lecture: 3 Lab: Total: 3

Prerequisites: IST 321 or equivalent

Semester(s) previously taught: none

Brief Course Description: (40 words or less)
Explores advanced networking topics including scalable interworks, IPv6, spanning tree protocol, network and subnet IP addressing, optimized converged networks, “Green” technology, fiber optic technology, emergency preparedness, disaster recovery; configuring LANs, WANs, frame relay, ATM, routing protocols; includes labs and simulations.

List all co-listed courses: Include initials of Dept. Chair, if signature is not already included below.

Department: Biological Sciences

Discipline and Course Number: BIO 301

Course Title: Genomics

Abbreviated Title (24 spaces or less): Genomics

Instructor(s): Ronald L. Frank

Credit Hours: Lecture: 3 Lab: 0 Total: 3

Prerequisites: BIO 331 Molecular Genetics

Semester(s) previously taught: N/A

Brief Course Description: (40 words or less)
This course offers a general overview of the field of genomics. Topics covered include genome sequencing and annotation, transcriptomics, proteomics, metabolomics, genomic variation, and an overview of human, and several animal, plant, and microbial genome projects.

List all co-listed courses: Include initials of Dept. Chair, if signature is not already included below.
