Requested	Fall 2016
Effective Change Date	
Department	Electrical and Computer Engineering
Discipline	Electrical Engineering (ELEC ENG)
Course Number	6335
Title	Discrete-Time Neural Network Control
Abbreviated Course Title	Discrete Neural Control

Catalog

Description

Neural network topologies, universal function approximation property, background on Lyapunov stability & dynamic systems, control of a class of nonlinear systems using single and multilayer neural networks, feedback linearization, strict & nonstrict feedback systems, MIMO system, system identification, output feedback control, and hardware implementation.

Prerequisites

Elec Eng 6300.

Field Trip

Statement

Requested Effective Change Date: Fall 2016

Department: Geosciences and Geological and Petroleum Engineering

Discipline: Geological Engineering (GEO ENG)

Course Number: 1880

Title: Civic Engagement

Abbreviated Course Title: Civic Engagement

Catalog Description
 Course provides a formal independent study framework so that Humanitarian Engineering & Science Minor students and other students have the opportunity to achieve formal recognition of experiential service learning that may occur during participation in extracurricular programs. Cannot be used for credit towards Geological Engineering B.S.

Prerequisites
 Open to undergraduate students pursuing the Humanitarian Engineering and Science Minor.

Field Trip Statement
 Students will work with S&T as well as corporate and community partners to formally identify extracurricular projects. Those projects may be executed near the

Pending CCC
Agenda post

Credit Hours LEC: 0 LAB: 0 IND: .5 RSD: 0 Total: .5

Required for
Majors No

Elective for
Majors No

Justification for new course: This course is to be offered for S/U credit. This course cannot be used as credit towards a B.S., M.S., M.E. or Ph.D. in Geological Engineering.
This is a required course for the Humanitarian Engineering and Science Minor. The civic engagement element of the HES Minor addresses Lever 1.1 of the Strategic Plan which requires all undergraduates to participate in some significant experiential learning activity before graduation. The development of a HES Minor is explicitly included in Prioritized Action 1.2. 6 “(d)develop minor and certificate programs in leadership, entrepreneurship, humanitarian engineering and science, and creativity”. Students participating in their civic engagement activities during any future intercession or spring break time periods would help address Prioritized Action 1.2.5.

*Updated prerequisite per Dr. Elmore 2/1/2016; already approved as a new course

This course has been taught successfully two semesters as an EC. Although business writing is an important part of several of our courses (e.g., ENGL/TCH COM 1600), we do not have a course devoted to business writing, and there is a need for a course.

Catalog Pages Using this Program	Computer Engineering
Start Term	Fall 2016
Program Code	CP ENG-BS
Department	Electrical and Computer Engineering
Title	Computer Engineering BS

Program Requirements and Description

Bachelor of Science Computer Engineering¹

Entering freshmen desiring to study Computer Engineering will be admitted to the Freshman Engineering Program. They will be permitted to state a Computer Engineering preference, which will be used as a consideration for available freshman departmental scholarships. The focus of the Freshman Engineering program is on enhanced advising and career counseling, with the goal of providing to the student the information necessary to make an informed decision regarding the choice of a major.

For the Bachelor of Science degree in Computer Engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in Computer Engineering.

Each student's program of study must contain a minimum of 21 credit hours of course work in general education and must be chosen according to the following rules:

- All students are required to take one American history course, one economics course, one humanities course, and . The history course is to be selected from [HISTORY 1200](#), [HISTORY 1300](#), [HISTORY 1310](#), or [POL SCI 1200](#), ~~[POL SCI 1200](#)~~. The economics course may be either [ECON 1100](#) ~~[ECON 1100](#)~~ or [ECON 1200](#). The humanities course must be selected from the approved lists for art, English, foreign languages, music, philosophy, speech and media studies, or theater.
- Depth requirement. Three credit hours must be taken in humanities or social sciences at the 2000 level or above and must be selected from the approved list. This course must have as a prerequisite one of the humanities or social sciences courses already taken. Foreign language courses numbered 1180 will be considered to satisfy this requirement. Students may receive humanities credit for foreign language courses in their native tongue only if the course is at the 4000 level. All courses taken to satisfy the depth requirement must be taken after graduating from high school.
- The remaining two courses are to be chosen from the list of approved humanities/social sciences courses and may include one communications course in addition to [ENGLISH 1120](#).
- Any specific departmental requirements in the general studies area must be satisfied.
- Special topics and special problems and honors seminars are allowed only by petition to and approval by the student's department chairman.

The Computer Engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design. These interrelations are presented and discussed through classroom and laboratory instruction.

Free Electives Footnote:

Each student is required to take three hours of free electives in consultation with his/her academic advisor. Credits which do not count towards this requirement are deficiency courses (such as algebra and trigonometry), and extra credits in required courses. Any courses outside of engineering and science must be at least three credit hours.

Notes: Student must satisfy the common engineering freshman year requirements and be admitted into the department.

1	The minimum number of hours required for a degree in Computer Engineering is 128.
2	Students that transfer to Missouri S&T after their freshman year are not required to enroll in Freshman Engineering Seminars.
3	A minimum grade of "C" must be attained in MATH 1214 , MATH 1215 , MATH 2222 , and MATH 3304 , PHYSICS 1135 and PHYSICS 2135 (or their equivalents), COMP SCI 1570 , COMP SCI 1580 , COMP SCI 1510 , COMP SCI 1200 , COMP SCI 3800 , COMP ENG 2210 , COMP ENG 2211 , COMP ENG 3150 , COMP ENG 3551 , COMP ENG 3110 , COMP ENG 5410 or COMP SCI 5600 , COMP ENG 4096 , and ELEC ENG 2100 , ELEC ENG 2101 , ELEC ENG 2120 , ELEC ENG 2200 , ELEC ENG 2201 , ELEC ENG 3410 , and ELEC ENG 3411 , and the COMP ENG electives A, B, C, D and E. Also, students may not enroll in other courses that use these courses as prerequisites until the minimum grade of "C" is attained.
4	Students may take PHYSICS 1111 and PHYSICS 1119 in place of PHYSICS 1135 . Students may take PHYSICS 2111 and PHYSICS 2119 in place of PHYSICS 2135 .
5	All electives must be approved by the student's advisor. Students must comply with the general education requirements with respect to selection and depth of study. These requirements are specified in the current catalog.
6	Students who drop a lecture course prior to the deadline to drop a class must also drop the corequisite lab course.
7	Students must earn a passing grade on the ELEC ENG Advancement Exam I (associated with ELEC ENG 2100) before they enroll in ELEC ENG 2120 or ELEC ENG 2200 and ELEC ENG 2201 .
8	Students must earn a passing grade on the COMP ENG Advancement Exam (associated with COMP ENG 2210) before they enroll in any course with COMP ENG 2210 and COMP ENG 2211 as prerequisites.
9	Students must earn a passing grade on the ELEC ENG Advancement Exam II (associated with ELEC ENG 2120) before they enroll in ELEC ENG 3410 and ELEC ENG 3411 .
10	Students must take one of the following courses: MATH 3103 , MATH 3108 , MATH 3109 , MATH 5302 , MATH 5603 , MATH 5105 , MATH 5106 , MATH 5107 , MATH 5108 , MATH 4209 , MATH 4211 , MATH 5215 , MATH 5222 , MATH 5325 , MATH 4530 , MATH 5737 , MATH 5351 , MATH 5154 , MATH 4096 , MATH 5483 , MATH 5585 , STAT 5644 , STAT 5346 , STAT 5353 .
11	Students must take MECH ENG 2340 , MECH ENG 2519 , MECH ENG 2527 , PHYSICS 2311 , PHYSICS 2401 , CHEM 2210 , BIO SCI 2213 , or BIO SCI 2223 . The following pairs of course are substitutions for any single course: CIV ENG 2200 and MECH ENG 2350 , PHYSICS 2305 and PHYSICS 4311 , PHYSICS 2305 and CER ENG 4240 , or PHYSICS 2305 and NUC ENG 3205 .
12	Students may replace STAT 3117 with STAT 3115 or STAT 5643 .
13	Student must take English 3560 or English 1160. Students may replace SpMS 1185 with the ROTC sequence of Mil Army 4250 and 4500 or Mil Air 4110 and 4120
14	Comp Eng Elective A must be a 4000 or 5000-level Comp Eng, Elec Eng, or Comp Sci course with at least a 3-hour lecture component. This normally includes all Comp Eng and Elec Eng 4000 or 5000-level courses except Comp Eng or Elec Eng 4000, 4099, 4096, and 4097 or Comp Sci 5000, 4010, 5600, and 4099.
15	Comp Eng Electives C, D, and E must be 3000, 4000 or 5000-level courses from an approved list of science, mathematics, and engineering courses. In particular, this list includes all 3000, 4000 or 5000-level Comp Eng, Elec Eng and Comp Sci courses except required courses in Comp Eng, Elec Eng, and Comp Sci and except Comp Eng 4096 and 4097, Elec Eng 2800, 1002, 1003, 4096, and 4097, and Comp Sci 2002 and 4600/5600). Comp Eng Electives C, D, and E must include at least six hours of engineering or computer science courses.
16	COMP ENG Electives C, D, and E cannot include more than three hours of COMP ENG 4000 , COMP ENG 4099 , ELEC ENG 4000 , or ELEC ENG 4099 .
17	Students pursuing dual degrees in COMP ENG and ELEC ENG may take either COMP ENG 4096 or ELEC ENG 4096 and COMP ENG 4097 or ELEC ENG 4097 . Students may not receive credit for both COMP ENG 4096 and ELEC ENG 4096 or COMP ENG 4097 and ELEC ENG 4097 in the same degree program.
18	Students are required to take at least three credit hours. Elec Eng 2800 level, ELEC ENG 4096 , ELEC ENG 4097 , COMP ENG 4096 and COMP ENG 4097 may not be used for free electives. No more than one credit hour of COMP ENG 3002 or ELEC ENG 3002 may be applied to the BS degree for free electives.
19	Comp Eng Elective B must be a 4000 or 5000 level COMP ENG course with at least a 3-hour lecture component, excluding COMP ENG 4096 and COMP ENG 4097 .

Emphasis Areas for Computer Engineering

Note: The following emphasis areas identify courses from which a student may opt to develop a specific emphasis. It is not required that students obtain an emphasis specialty within computer engineering.

Computational Intelligence

Highly Recommended		
COMP ENG 5310	Computational Intelligence	3

ELEC ENG 5370	Introduction To Neural Networks & Applications	3
COMP ENG 6310	Markov Decision Processes	3
Suggested		
ELEC ENG 5330	Fuzzy Logic Control	3
COMP ENG 5450	Digital Image Processing	3
COMP ENG 5460	Machine Vision	3

Computer ~~Computers and Architecture and Embedded Computer~~ Systems

Highly Recommended		
COMP ENG 5170	Real-Time Systems	3
COMP ENG 5151	Digital Systems Design Laboratory	3
COMP ENG 5160	Embedded Processor System Design	3
Suggested		
COMP ENG 5610	Real-Time Digital Signal Processing	3
ELEC ENG 3320	Control Systems	3
ELEC ENG 3100	Electronics I	3
COMP SCI 3100	Software Engineering I	3

Highly Recommended		
COMP ENG 5110	Principles of Computer Architecture	3
COMP ENG 5120	Digital Computer Design	3
COMP ENG 5151	Digital Systems Design Laboratory	3
COMP ENG 5160	Embedded Processor System Design	3
COMP ENG 5170	Real-Time Systems	3
COMP ENG 5510	Fault-Tolerant Digital Systems	3
Suggested		
COMP ENG 5610	Real-Time Digital Signal Processing	3
COMP ENG 5130	Advanced Microcomputer System Design	3
ELEC ENG 3320	Control Systems	3
ELEC ENG 3100	Electronics I	3
COMP SCI 3100	Software Engineering I	3

Integrated Circuits and Logic Design

Highly Recommended		
COMP ENG 2210	Introduction to Digital Logic	3
COMP ENG 5210	Introduction To VLSI Design	3
COMP ENG 5220	Digital System Modeling	3
COMP ENG 6210	Digital Logic	3
Suggested		
ELEC ENG 3100	Electronics I	3
COMP ENG 5110	Principles of Computer Architecture	3
COMP ENG 5151	Digital Systems Design Laboratory	3

COMP-ENG-6510	Resilient Networks	3
Suggested		
COMP-ENG-5410	Principles of Computer Architecture	3
COMP-SCI-3100	Software Engineering I	3
IS&T-4644	Electronic and Mobile Commerce	3
COMP-ENG-5510	Fault-Tolerant Digital Systems	3

Justification for request

There have been numerous faculty leave the Computer Engineering department at Missouri S&T since the current Emphasis Areas were adopted over 10 years ago. New faculty hires over this time period have had backgrounds and research interests in different areas not necessarily matching up with the current Emphasis Areas. The Computer Engineering faculty adopted new Emphasis area changes for the Computer Engineering, BS program in order to make the Emphasis Areas more reflective of current Computer Engineering faculty backgrounds and research areas. In addition to adopting new Emphasis Areas, the Highly Recommended and Suggested courses for each Emphasis Area have been updated based on currently offered courses and Computer Engineering faculty recommendations for those Emphasis Areas. As noted with the Emphasis Area description, students pursuing a Computer Engineering BS degree can optionally declare an Emphasis Area to guide their choices for Computer Engineering elective courses. Declaring an Emphasis Area is not a requirement for completion of a Computer Engineering BS degree program, and an Emphasis Area declaration is not shown on the student's transcription. Emphasis Areas for Computer Engineering BS degree program provide students with technical paths, background, and skills options that students may pursue in the Elective Areas of their degree programs. The Emphasis Area changes for the Computer Engineering, BS program were approved by the Computer Engineering faculty on October 28, 2015, as recorded in the Computer Engineering faculty meeting minutes. The ECE Academy was consulted and approved the need to update the Emphasis Areas.

The following documents are included with this DC form to support the MDHE Program Change request to be submitted to he.academicprogramactions@dhe.mo.gov:

1) "FormPC-CpE BS Degree Program Emphasis Area Changes - Oct 2015.docx" contains the MDHE Program Change form

2) "FormPC-BeforeAfter and Rationale for Emphasis Area Changes.docx" contains the before and after curriculum (Emphasis Areas with Highly Recommended and Suggest courses) with rationale for the change request. The rationale for the change request has been copied above.

CpE 3551 should be numbered as CpE 3151 (which is the correct course number).

Change the speech requirement

"SpMS 1185-Speech 3 hrs" with no footnote

to

"SpMS 1185-Speech 3 hrs" with footnote 13

"13) Students may replace English 3560 with English 1160. Students may replace SpMS 1185 with the ROTC sequence of Mil Army 4250 and 4500 or Mil Air 4110 and 4120"

Justification

The speech ROTC change will allow a 6-credit hour course sequence in Army and Air Force ROTC at the senior level to replace the 3-credit-hour, lower-level speech requirement and would not change our writing requirement. The proposal is strongly supported by the commanders of the S&T Army ROTC and Air Force ROTC Departments and was approved by the ECE faculty.

Catalog Pages Using this Program	Geotechnics
Start Term	Fall 2016 2015
Program Code	GEOT-ME
Department	Geosciences and Geological and Petroleum Engineering
Title	Geotechnics ME

Program Requirements and Description

Course Requirements

The M.E. degree program will require 30 semester hours of graduate credit in **4000, 5000, in-300** and **6000 level 400-level** courses. The following four core courses (12 hours) are required:

GEO ENG 5381	Intermediate Subsurface Hydrology And Contaminant Transport Mechs
GEO ENG 5471	Rock Engineering
GEO ENG 5441	Engineering Geology And Geotechnics
CIV ENG 5715	Intermediate Soil Mechanics
or MIN ENG 6842	Advanced Rock Mechanics

An additional 18 hours of coursework are required, included a 3 hour industrial (practice oriented) project ([GEO ENG 6400](#), ~~GEO-ENG-6000~~). Of the total 30 credit hours required to obtain the degree, a maximum of nine (9) credit hours of graduate-level work with a minimum grade of "B" can be transferred from other another institution, as long as the courses have not been used towards another degree, and have been approved by the student's advisor. The balance of the credit hours must be taken through

History

1. Jul 23, 2015 by pantaleoa

Missouri S&T. A minimum of fifteen (15) credit hours must be geological engineering courses.

Justification for
request

Request that the GE 6000 (Special Problems) course be replaced by GE 6400 (Practice Oriented Program) for the Industrial (practice oriented) project requirement of the Geotechnics ME.

The GE 6400 class was specifically created for the Geotechnics ME. It replaces the GE 6000 (Special Topics) class.

There was in the past confusion as to whether a GE 6000 class was a practice oriented project, or just a special study class. In addition Grad Faculty rules allow only a single GE 6000 class for a master's degree.

Discipline	Aerospace Engineering (AERO ENG)
Course Number	6001
Topic ID	001
Experimental Title	Control of Networked Multiagent Systems
Experimental Abbreviated Course Title	Control Multiagent Sys
Instructors	Tansel Yucelen

Experimental Catalog Description

An introduction to the basics of networked multiagent systems control. Throughout the course both synthesis and analysis of control laws for networked multiagent systems (particularly including large-scale modular systems and multivehicle systems) will be presented based on stability, robustness, and optimality considerations.

Prerequisites

Mech Eng 5481 or Aero Eng 5481.

Experimental Title	Mammal Ecology
Experimental Abbreviated Course Title	Mammal Ecology
Instructors	staff

Experimental Catalog Description

This course will build from basic knowledge of human biology and explore the ecology and adaptations of the major mammalian orders. A survey of local mammals and explorations of the field techniques used to study mammal ecology will be integrated. Field trips will be conducted at a new field station. There is no cost for these trips.

Prerequisites

Bio Sci 1223 or Bio Sci 2263.

Field Trip

Statement

Field trips to S&T's field station in Phelps County will be required. There is no cost for these trips. Given the timing of course offering (one week intensive class at end of May), there will be no conflict between this class and its field trips and other S&T

Justification for
new course:

This course is a required course for student entrepreneurial leads entering the newly awarded NSF I-Corps™ Site program (Dr. Bachman is PI for this new innovation and entrepreneurship center on campus). The I-Corps Site program will be rolled out to the UM System as well, where this course will be a shared course between campuses. This course is also the fifth required course in a proposed sequence of courses for the Technical Innovation and Entrepreneurship campus minor (special program) which is supported by 18 full-time tenured or tenure-track professors across 24 degree programs. It is modeled on the entrepreneurship and innovation curriculum first developed by Stanford University and subsequently became known as the NSF I-Corps curriculum and is now taught all over the world. This course was developed with assistance (two grants-2014 and 2015) from Epicenter, the National Science Center for Engineering Pathways to Innovation, funded by NSF and directed by Stanford University. Novel in its content and experiential learning approach, it is team taught and has a wide variety of external mentors such as entrepreneurs, intrapreneurs, venture capitalists, incubator directors and small business development directors that coach students throughout the semester. It leverages our students' traditional, technical strengths with a learning process where students have the freedom to develop knowledge and skills from direct experiences outside the typical academic framework while working in interdisciplinary teams.

The development of this course, Experiential Entrepreneurship, is also part of the International Affairs Study Abroad faculty grant and program for South Africa and Oman.

The campus Strategic Plan calls for more entrepreneurial content in the curriculum and this course helps meet those goals. Further, this course is in alignment with the Accreditation Board for Engineering and Technology (ABET), which requires students to demonstrate specific abilities in both technical and non-technical skills (e.g., address real-world problems, perceive opportunities, lead others, work in multidisciplinary teams, communicate effectively, react and adapt with flexibility in uncertain times and deal well with risk and failure).

Comments from students who have taken the CompSci 5001 course (precursor to the proposed Econ 5001/co-listed EngMgt 5001) include:

"Can you build a program like this class (CompSci 5001) and I-Corps where we get to work on our projects and experience the whole process of understanding customer context, needs and opportunities, and how to be creative, design the right thing, and how to build it so it solves real problems?"

"We aren't Silicon Valley where this is everyday stuff, but we're eager to learn. Can you give us the opportunity to do great things while learning a lot and developing

the skills we need to have an impact in today's world?"

"Can we have more than one class that helps us learn how to take our ideas out of the labs and find out if they can make it to the marketplace?"

Although CS 5001 has been taught successfully 2 times (Fall 2014 and Fall 2015), Computer Science will not be making this a numbered course, nor offer it and therefore, to keep this course alive, two other departments (Economics and Engineering Management) will be team teaching it going forward.

Semester(s) previously taught Taught as CS 5001 in FS20014 and FS2015 with different prereqs and course description.
