Authorization for Time Conflict
Missouri University of Science and Technology
Office of the Registrar

(This form may only be used prior to the beginning of classes and space must be available in the class.)

Joe’SS will not permit the scheduling of courses if meeting times are in conflict. If approval is given for a time conflict, the student should register through Joe’SS for all courses that are not in conflict and submit this form to the Registrar's Office, 103 Parker Hall, for processing the course which will conflict with the schedule entered through Joe’SS. It is assumed that the instructor of the course shown below has agreed to compensate for the missing class time and that all other classes will be met for the full scheduled time period.

Student Name _____________________________________________ Student ID __________________________

Term __________________________

Course with Time Conflict:

Subject ________________ Catalog Number ________________

5-digit Class Number ________________ Section ________________

The course listed above conflicts with ________________________________________________________________

Approval _____________________________________________ Date __________________________
