

Missouri University of Science and Technology

Formerly University of Missouri-Rolla

Minutes of the Campus Curricula Committee Meeting April 3, 2019 9:00am, Bertelsmeyer 110H (For Faculty Senate Meeting of April 25, 2019)

Attendees: Steve Raper, Petra Dewitt, Thomas Schuman, Barry Flachsbart, Kyle Perry, Katie Shannon and Brittany Parnell

The following curriculum forms were discussed and approved:

Course Change Forms:

File: 4369.9	ART 3100: Advanced Art Studio
File: 4428.9	ART 3500: Innovation Through Design Thinking
File: 4601	CHEM 5640: Neurochemistry with Clinical Correlations
File: 642.1	CIV ENG 3116: Construction Materials, Properties And Testing
File: 176.6	EDUC 3280: Teaching Methods and Skills in Content Areas
File: 1189.3	EDUC 4299: Student Teaching

File: 153.60	CP ENG-BS: Computer Engineering BS
File: 155.47	EL ENG-BS: Electrical Engineering BS
File: 165.25	GE ENG-MS: Geological Engineering MS (overview)
File: 268.1	GEO ENG-MS: GEOLOGICAL ENGINEERING MS (program requirements)
File: 166.4	GL&GPH-MS: Geology and Geophysics MS
File: 271	PROPOSED*: Geology and Geophysics PhD
File: 86.39	MC ENG-BS: Mechanical Engineering BS

Office of the Registrar • 103 Parker Hall • 300 West 13th Street • Rolla, MO 65409-0930 Phone: 573-341-4181 • Fax: 573-341-4362 • Email: registrar@mst.edu • Web: http://registrar.mst.edu

Formerly University of Missouri-Rolla

Experimental Course Forms:

File: 4600	AERO ENG 6001.003: The Thermo-Fluid Dynamics of Advanced Aerospace Propulsion
	Systems
File: 4602	ARCH ENG 5001.001: Building Physics
File: 4610	BIO SCI 5001.005 Pathogenic Microbiology Lab
File: 4591	CHEM ENG 5001.004: Catalysis and Reaction Kinetics
File: 4606	ENGLISH 3001.007: Lives and Works of J.R.R. Tolkien and C.S. Lewis
File: 4587	GEO ENG 5001.004: Field Methods in Surface and Subsurface Hydrology
File: 4603	GEOLOGY 5001.003: Preparation and Review for ASBOG Exam
File: 4607	MATH 5001.001: Introduction to Numerical Analysis
File: 4615	MKT 5001.002: Brand Management
File: 4580	MUSIC 2001.002: History of Music in Film
File: 4613	NUC ENG 5001.002: Nuclear Forensics
File: 4585	PHILOS 3001.003: Philosophy of Technology
File: 4599	STAT 5001.001: Pensions and Social Security

*File 271 Geology and Geophysics PhD is an existing degree program.

The experimental course form, *NUC ENG 5001.002: Nuclear Forensics,* was shredded as the Nuclear Engineering department has replaced this form with a proposal for NUC ENG 5577 - an item on the next curricula agenda.

The meeting adjourned at 10:06 a.m.

Steph a. Ropen

Stephen A. Raper, Chair Missouri S&T Campus Curricula Committee

Required for Majors	Νο	Approved for CCC Secretary
Elective for Majors	Yes	3. 03/18/19 11:09 am Stephen Raper
Justification for new course:	This course facilitates human capital development in nuclear security career path. The nuclear engineering program is expanding its focus areas to include nuclear nonproliferation, security, deterrence, safeguards and policy. It is designed to provide graduate level studies to professionals and students who are on nuclear security career path or intend to have a career in nuclear security. The United States of America, through various executive departments like Department of Energy (DOE), Department of State (DOS) and Department of Defense (DoD), is fully vested in nuclear security. For example, DOE's National Nuclear Security Administration (NNSA), DoD's Defense Threat Reduction Agency (DTRA), and DOS's Threat Reduction Programs are staffed by personnel with knowledge in this area of study. These agencies also require continued staffing by hiring people who possess this knowledge. Bachelor of Science Computer Engineering¹

Entering freshmen desiring to study Computer Engineering will be admitted to the Freshman Engineering Program. They will be permitted to state a Computer Engineering preference, which will be used as a consideration for available freshman departmental scholarships. The focus of the Freshman Engineering program is on enhanced advising and career counseling, with the goal of providing to the student the information necessary to make an informed decision regarding the choice of a major.

For the Bachelor of Science degree in Computer Engineering, a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in Computer Engineering.

Electrical and Computer Engineering degree programs will require a minimum of **21** 24-credit hours of humanities/social-sciences as specified below:

- ENGLISH 1120
- HISTORY 1200 or HISTORY 1300 or HISTORY 1310 or POL SCI 1200
- ECON 1100 or ECON 1200
- Technical Communication Elective: ENGLISH 1160 or ENGLISH 3560
- SP&M S 1185
- The remaining minimum of 6 9-additional credit hours must be three-credit hour lecture courses offered in disciplines in the humanities and social sciences. Humanities courses are defined as those in: Art, English and Technical Communication, Etymology, Foreign Languages, Music, Philosophy, Speech and Media Studies, and Theatre. Social Sciences courses are defined as those in: Economics, History, Political Science, and Psychology. At least one of the courses must be at the upper level. Economics, History, Political Science, Upper level H/SS courses are defined as those at the 2000 level or above, and Psychology. that require as a prerequisite the successful completion of a lower-level H/SS course. Study abroad courses may count as H/SS courses. H/SS courses upper level H/SS courses, even if they do not have a prerequisite. H/SS courses numbered 2001, 3001, and 4001 (experimental courses) may also be used to complete these elective requirements.

Courses in business, education, information science and technology, or any other discipline not listed above will **not** satisfy the humanities/social sciences elective requirement, although such courses may count toward general education requirements. Transfer credits from other universities in sociology and general humanities may count as humanities or social science electives.

The Computer Engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design. These interrelations are presented and discussed through classroom and laboratory instruction.

Free Electives Footnote:

Each student is required to take three hours of free electives in consultation with his/her academic advisor. Credits which do not count towards this requirement are deficiency courses (such as algebra and trigonometry), and extra credits in required courses. Any courses outside of engineering and science must be at least three credit hours.

Notes: Student must satisfy the common engineering freshman year requirements and be admitted into the department.

1	The minimum number of hours required for a degree in Computer Engineering is 128.
2	Students that transfer to Missouri S&T after their freshman year are not required to enroll in Freshman Engineering Seminars.
3	A minimum grade of "C" must be attained in <u>MATH 1214</u> , <u>MATH 1215</u> , <u>MATH 2222</u> , and <u>MATH 3304</u> , <u>PHYSICS 1135</u> and <u>PHYSICS 2135</u> (or their equivalents), <u>COMP SCI 1570</u> , <u>COMP SCI 1580</u> , <u>COMP SCI 1575</u> , <u>COMP SCI 1200</u> , <u>COMP SCI 2500</u> or <u>COMP SCI 3800</u> , <u>COMP ENG 2210</u> , <u>COMP ENG 2211</u> , <u>COMP ENG 3150</u> , <u>COMP ENG 3151</u> , <u>COMP ENG 3110</u> , <u>COMP ENG 5410</u> , <u>COMP ENG 4096</u> , and <u>ELEC ENG 2100</u> , <u>ELEC ENG 2101</u> , <u>ELEC ENG 2120</u> ,

CP ENG-BS: Computer Engineering BS

	ELEC ENG 2200, ELEC ENG 2201, and ELEC ENG 3410 and the COMP ENG electives A, B, C, D and E. Also, students may not enroll in other courses that use these courses as prerequisites until the minimum grade of "C" is attained.
4	Students may take <u>PHYSICS 1111</u> and <u>PHYSICS 1119</u> in place of <u>PHYSICS 1135</u> . Students may take <u>PHYSICS 2111</u> and <u>PHYSICS 2119</u> in place of <u>PHYSICS 2135</u> .
5	All electives must be approved by the student's advisor. Students must comply with the general education requirements with respect to selection and depth of study. These requirements are specified in the current catalog.
6	Students who drop a lecture course prior to the deadline to drop a class must also drop the corequisite lab course.
7	Students must earn a passing grade on the ELEC ENG Advancement Exam I (associated with <u>ELEC ENG 2100</u>) before they enroll in <u>ELEC ENG 2120</u> or <u>ELEC ENG 2200</u> and <u>ELEC ENG 2201</u> .
8	Students must earn a passing grade on the COMP ENG Advancement Exam (associated with <u>COMP ENG 2210</u>) before they enroll in any course with <u>COMP ENG 2210</u> and <u>COMP ENG 2211</u> as prerequisites.
9	Students must earn a passing grade on the ELEC ENG Advancement Exam II (associated with <u>ELEC ENG 2120</u>) before they enroll in <u>ELEC ENG 3410</u> and <u>ELEC ENG 3411</u> .
10	Students must take one of the following courses: <u>MATH 3108, MATH 3109, MATH 5302, MATH 5603, MATH 5105, MATH 5106, MATH 5107, MATH 5108, MATH 4209,</u> <u>MATH 4211, MATH 5215, MATH 5222, MATH 5325, MATH 4530, MATH 5737, MATH 5351, MATH 5154, MATH 4096, MATH 5483,</u> <u>MATH 5585, STAT 5644, STAT 5346, STAT 5353</u> .
11	Students must take one of MECH ENG 2340, MECH ENG 2519, MECH ENG 2527, PHYSICS 2311, PHYSICS 2401, CHEM 2210, BIO SCI 2213, BIO SCI 2223, CIV ENG 2200, MECH ENG 2350, PHYSICS 2305, PHYSICS 4311, CER ENG 4240, or NUC ENG 3205.
12	Students may replace <u>STAT 3117</u> with <u>STAT 3115</u> or <u>STAT 5643</u> .
13	Student must take English 3560 or English 1160. Students may replace SpMS 1185 with the ROTC sequence of Mil Army 4250 and 4500 or Mil Air 4110 and 4120
14	Comp Eng Elective A must be a 4000 or 5000-level Comp Eng, Elec Eng, or Comp Sci course with at least a 3-hour lecture component. This normally includes all Comp Eng and Elec Eng 4000 or 5000-level courses except Comp Eng or Elec Eng 4000, 4099, 4096, and 4097 or Comp Sci 5000, 4010, 5600, and 4099.
15	Comp Eng Electives C, D, and E must be 3000, 4000 or 5000-level courses from an approved list of science, mathematics, and engineering courses. In particular, this list includes all 3000, 4000 or 5000-level Comp Eng, Elec Eng and Comp Sci courses except required courses in Comp Eng, Elec Eng, and Comp Sci and except Comp Eng 4096 and 4097, Elec Eng 2800, 1002, 1003, 4096, and 4097, and Comp Sci 2002 and 4600/5600). Comp Eng Electives C, D, and E must include at least six hours of engineering or computer science courses.
16	COMP ENG Electives C, D, and E cannot include more than three hours of <u>COMP ENG 4000</u> , <u>COMP ENG 4099</u> , <u>ELEC ENG 4000</u> , or <u>ELEC ENG 4099</u> .
17	Students pursuing dual degrees in COMP ENG and ELEC ENG may take either <u>COMP ENG 4096</u> or <u>ELEC ENG 4096</u> and <u>COMP ENG 4097</u> or <u>ELEC ENG 4097</u> . Students may not receive credit for both <u>COMP ENG 4096</u> and <u>ELEC ENG 4096</u> or <u>COMP ENG 4097</u> and <u>ELEC ENG 4097</u> in the same degree program.
18	Students are required to take at least three credit hours. Elec Eng 2800 level, <u>ELEC ENG 4096</u> , <u>ELEC ENG 4097</u> , <u>COMP ENG 4096</u> and <u>COMP ENG 4097</u> may not be used for free electives. No more than one credit hour of <u>COMP ENG 3002</u> or <u>ELEC ENG 3002</u> may be applied to the BS degree for free electives.
19	Comp Eng Elective B must be a 4000 or 5000 level COMP ENG course with at least a 3-hour lecture component, excluding <u>COMP ENG 4096</u> and <u>COMP ENG 4097</u> . Students admitted to the accelerated BS/MS program must satisfy Cp Eng Electives B and C with 5xxx or 6xxx-level courses and a minimum grade of B.
20	Students must take one of the following courses: BUS 5980, ECON 4430, ECON 5337, ENG MGT 2310, ENG MGT

3320, ENG MGT 4110, ENG MGT 5514, PHIL 3225

An A-accelerated BS/MS program is optional.

Emphasis Areas for Computer Engineering

Note: The following emphasis areas identify courses from which a student may opt to develop a specific emphasis. It is not required that students obtain an emphasis specialty within computer engineering.

Computational Intelligence

Highly Recommended		
COMP ENG 5310	Computational Intelligence	3
ELEC ENG 5370	Introduction to Neural Networks and Applications	3
COMP ENG 6310	Markov Decision Processes	3
Suggested		
ELEC ENG 5330	Fuzzy Logic Control	3
COMP ENG 5450	Digital Image Processing	3
COMP ENG 5460	Machine Vision	3

Computer Architecture and Embedded Systems

Highly Recommended		
COMP ENG 5110	Principles of Computer Architecture	3
COMP ENG 5120	Digital Computer Design	3
COMP ENG 5151	Digital Systems Design Laboratory	3
COMP ENG 5160	Embedded Processor System Design	3
COMP ENG 5170	Real-Time Systems	3
Suggested		
COMP ENG 5610	Real-Time Digital Signal Processing	3
COMP ENG 5130	Advanced Microcomputer System Design	3
ELEC ENG 3100	Electronics I	3
COMP SCI 3100	Software Engineering I	3

Integrated Circuits and Logic Design

Highly Recommended		
COMP ENG 2210	Introduction to Digital Logic	3
COMP ENG 5210	Introduction To VLSI Design	3
COMP ENG 5220	Digital System Modeling	3
COMP ENG 6210	Digital Logic	3
Suggested		
ELEC ENG 3100	Electronics I	3
COMP ENG 5110	Principles of Computer Architecture	3
COMP ENG 5151	Digital Systems Design Laboratory	3

COMP ENG 5120	Digital Computer Design	3
COMP ENG 5130	Advanced Microcomputer System Design	3
COMP ENG 5510	Fault-Tolerant Digital Systems	3

Networking, Security, and Dependability

Highly Recommended		
COMP ENG 5420	Introduction to Network Security	3
COMP ENG 5430	Wireless Networks	3
COMP ENG 6440	Network Performance Analysis	3
COMP ENG 6510	Resilient Networks	3
Suggested		
COMP ENG 5510	Fault-Tolerant Digital Systems	3

Accelerated BS/MS Program Option for EE and CpE Majors

Electrical engineering or computer engineering undergraduates in ECE at Missouri S&T may opt to apply for an accelerated BS/MS ECE program where a student can achieve both degrees faster than if pursuing the degrees separately. The degrees may be BS EE and MS EE, BS CpE and MS CpE, BS EE and MS CpE, or BS CpE and MS EE. The benefits of the program for admitted students are:

- Undergraduate and graduate courses may be chosen with greater flexibility,
- Dual enrollment status is automatically granted, Up to six Six hours of 5000-level or above ECE coursework may apply to to both the BS and MS requirements,
- The dual counted classes may be taken for shared BS/MS credit may be taken at the lower undergraduate tuition rate,
- The GRE is not required for admission,
- Other graduate credit courses may be taken anytime after entering the program, and
- Work on a thesis project may begin before the BS requirements are completed.

The BS-degree requirements are modified for admitted students such that EE Electives D and E or CpE Electives B and C will be satisfied by six-credit-hours of 5000-level or above ECE coursework. To be eligible for the accelerated BS/MS ECE program, an e-EE or CpE undergraduate must be at or beyond the junior level with a minimum of 60 credit hours and must have completed 18 credit hours of EE and/or CpE courses at Missouri S&T with at least a 3.50 GPA in the ECE courses. To be admitted, the student must complete the program application and must have the recommendation of an en-ECE faculty member who agrees to serve as the graduate thesis advisor. No other MS degree requirements The Craduate Form 1 must be completed no later than the beginning of the semester after the dual counted courses are changed, completed. Until completing their BS degree, students must fill out a form each semester indicating which courses will be completed for graduate credit. The courses must be identified as dual counted courses and must be completed with a B or better. These six hours of coursework will be taken as undergraduate credit, must be approved by the academic advisor, and may not be undergraduate research, special problems, or transfer courses. The (A co-listed course can only apply for these undergraduate requirements if it is under an EE or CpE registration. Note that the choice of EE or CpE registration may effect how a course can apply within an MS program.) Other courses for the MS-degree program-must be for the identified as graduate credit when taken. All other MS degree requirements are not changed and the MS degree must be for the thesis option. The program may be The program may be-combined with existing honors research and emphasis area options. Admitted students will have both undergraduate and graduate records in the Registrar's Office.

The Accelerated program application must be completed within one semester after the shared-credit courses are completed. Courses taken for shared credit will be identified on this application form and on Graduate Form 1, which is submitted after the student enters the graduate program. The These six hours of shared-credit coursework will be taken as undergraduate credit, must be approved by the academic advisor, and may not be undergraduate research, special problems, or transfer courses (a co-

CP ENG-BS: Computer Engineering BS

listed course can only apply for these undergraduate requirements if it is under an EE or CpE registration. Note that the choice of EE or CpE registration may affect how a course can apply within an MS program.) An additional six credit hours of coursework for graduate credit (beyond the shared BS/MS credits) can be taken while in the undergraduate program by applying for dual undergraduate/graduate enrollment. courses. Taking additional courses for graduate credit will require formal application to the graduate program. Acceptance to the MS degree from the Accelerated Program is automatic so long as the student meets ECE graduate student academic performance requirements. Upon separate completion of requirements, the BS degree would be awarded followed by the MS degree at a later semester, or the BS and MS degrees may be awarded simultaneously at the same semester. To be eligible for the accelerated BS/MS ECE program, a EE or CpE undergraduate must be at or beyond the junior level with a minimum of 60 eredit hours and must have completed 18 credit hours of EE and/or CpE courses at Missouri S&T with at least a 3.50 GPA in the ECE courses. To be admitted, the student must complete the program application and must have the recommendation of an ECE faculty member who agrees to serve as the graduate thesis advisor. The Graduate Form 1 must be completed no later than the beginning of the ester after the dual-counted courses are completed. Until completing their BS dearee, students must fill out a form indicating which courses will be completed for graduate credit. To remain in the program, the student must maintain good standing within the undergraduate EE or CpE program and must maintain continuous enrollment at Missouri S&T. If the student exits the program before completion of the MS degree requirements or fails to maintain continuous enrollment at Missouri S&T, the shared-credit dual-counted courses may not apply toward graduate requirements in the event of future readmission.

The student is responsible for checking on how dual-enrollment status and graduate coursework will affect scholarships and other financial aid. International students should check with international affairs during completion of an accelerated BS/MS to ensure immigration status will be maintained throughout the program.

The student is responsible for checking on how dual-enrollment status and graduate coursework will affect scholarships and other financial aid. Once you become a graduate student, you <u>are not</u> eligible for Federal Pell Grants, though are still eligible for Federal Financial Aid and will be eligible for fellowships and teaching/research assistantships. International students should check with international affairs during completion of an accelerated BS/MS to ensure immigration status will be maintained throughout the program.

Justification for request

In addition to changes made to add the Professional Elective to the EE program, modifications were made to the description of the Accelerated BS/MS program. Modifications are a result of interactions between ECE, Graduate Studies, Cashiers, and the Registrar and are intended to improve consistency between the Accelerated program and the existing BS and MS program, and to make implementation easier overall. The description was modified to:

- Improve readability. Most edits were simply to change the order of the text.

 Remove statement "dual enrollment status is automatically granted". To make the process smoother for the registrar and graduate studies, students must apply for dual undergraduate/graduate enrollment (though status should be automatically granted once the student applies)

- Refer to classes taken for "shared credit" rather than "dual counted classes" or similar to avoid confusion with classes taken as dual undergraduate/graduate enrollment

- State that students must complete the undergraduate program, then apply and begin the MS degree program. They will be awarded a BS and MS degree separately. This change was made to make it clear

CP ENG-BS: Computer Engineering BS

to the cashier when the student would stop paying for courses at the undergraduate rate and would begin paying at the graduate rate. At most, students can have 6 shared BS/MS credits and 6 credits as dual undergraduate/graduate enrollment which are counted as graduate credit but paid for at the undergraduate rate.

- State that the student must specify which courses will be used for shared credit in the application form and in Graduate Form 1.

- Add a few details regarding scholarships and grants that students might want to double check before applying for the program.

Course Reviewer Comments

ershenb (11/27/18 1:35 pm): Removed Math 3103 from footnote 10 per Dr. Stanley's email (Math 3103 is being deactivated Spring 2019).

ershenb (12/04/18 9:10 am): grammatical edits

ershenb (01/02/19 12:07 pm): Rollback: Rollback per the request of Dr. Raper and Dr. Beetner. daryl (01/02/19 2:24 pm): The previous changes to add a Professional Elective are acceptable.

Additional modifications were made to improve the description of the Accelerated BS/MS program. daryl (01/02/19 2:26 pm): Modest change to justification.

sraper (02/27/19 8:50 am): Changed wording as requested by DSCC. Email confirmation from ECE as to the specific wording.

In Spring 2018, the College of Engineering and Computing made a uniform requirement for engineering degree programs of 21 humanity and social science credit hours, which meets ABET requirements. The EE and CpE BS degree programs in Spring 2018 had 24 humanity and social science credit hours, providing an opportunity for The ECE department to adopt a new 3 credit hour course addressing EE and CpE BS degree program needs. In Spring 2018, the ECE department presented the 3 credit hour opportunity to the ECE Academy and to ECE Faculty and requested feedback for 3 credit hour course that would better prepare our students for post-graduation opportunities. The ECE Academy and Faculty recommended a "Systems" elective or similar area course, where students select from a course list which could include: Project Management; Engineering Ethics; Engineering Economics; Entrepreneurship; Leadership. For CpE, in reviewing possible course adoption options, the EE and CpE Associate Chairs and the Department Chair examined the ASEE Computer Engineering Curriculum Recommendations from 2016, which include the following areas:

- Circuits and Electronics
- Computing Algorithms
- Computer Architecture and Organization
- Digital Design
- Computer Networks
- Preparation for Professional Service
- Information Security
- Signal Processing
- Systems and Project Engineering
- System Resource Management
- Software Design

In the current CpE BS degree program curriculum, there are 4 areas from the ASEE recommendations that are weakly addressed, including Information Security, Systems and Project Engineering, and System Resource Management. In evaluating the recommendations from the ECE Academy and Faculty for a "Systems" area type course could be utilized to enhance the experience for students in Preparation for Professional Service, Systems and Project Engineering, and/or System Resource Management.

This "Systems" area elective was presented to the ECE Faculty at the August 2018 ECE Faculty Retreat. The ECE Faculty recommended contacting companies and exploring currently offered undergraduate courses in the proposed course list areas. At the beginning of the Fall 2018 semester, the EE and CpE Associate Chairs for Undergraduate Studies identified possible offerings for a possible "Systems" elective. The CpE Associate Chair for Undergraduate Studies consulted with the Civil, Architectural and Environmental Engineering, Engineering Management, and Mechanical and Aerospace Engineering departments about the content, frequency of offering, and prerequisites for courses on the course list. The CpE Associate Chair for Undergraduate Studies met with 12 companies at the September 2018 Career Fair to question what course area(s) would strengthen our graduates in preparing them for internship/co-op and full time positions. The feedback from the 12 companies for a new course area includes:

- Embedded systems/Real-time systems/PLCs (3 companies)
- Leadership/Project management (5 companies)
- Communication skills (4 companies)

- Project work/Team building (5 companies)
- Business or engineering economics (2 companies)
- Technical and personal communication (4 companies)
- Ethics (1 company)

In taking the compiled list of courses from the EE and CpE Associate Chairs for Undergraduate Studies for a possible "Systems" elective and looking at the ECE Academy and Company recommendations as well as the recommendations from the departments offering the courses, the following list of undergraduate courses was compiled for a 3 credit hour Professional Elective:

- BUS 5980 Business Models for Entrepreneurship and Innovation (LEC 3.0)
- ECON 4430 Cost-Benefit Analysis (LEC 3.0)
- ECON 5337 Financial Mathematics (LEC 3.0)
- ENG MGT 2310 Introduction to System Engineering (LEC 3.0)
- ENG MGT 3320 Introduction to Project Management (LEC 3.0)
- ENG MGT 4110 General Management-Design and Integration (LEC 3.0)
- ENG MGT 5514 Patent Law (LEC 3.0)
- PHIL 3225 Engineering Ethics (LEC 3.0)

The course list was reviewed in September 2018 by the ECE Executive Committee and Department Chair. The Executive Committee was receptive to the course list but wanted to insure that the courses would be offered regularly for students and that would be room for ECE in the sections for these courses. The Executive Committee agreed that the courses meet the intent of the ECE Academy and Company recommendations, and they fill a Professional Development elective in the "Systems" area. Accordingly, the following motion for a 3 credit hour Professional Development Elective was put together for consideration for the ECE Faculty at the October 18, 2018 faculty meeting.

Proposed motion:

- Replace the 3.0 credit hour upper level Hum/SS requirement in the EE and CpE BS degree programs with:
 - 3.0 credit hour Professional Development Elective where EE and CpE students must take one of the following courses:
 - BUS 5980 Business Models for Entrepreneurship and Innovation (LEC 3.0)
 - ECON 4430 Cost-Benefit Analysis (LEC 3.0)
 - ECON 5337 Financial Mathematics (LEC 3.0)
 - ENG MGT 2310 Introduction to System Engineering (LEC 3.0)
 - ENG MGT 3320 Introduction to Project Management (LEC 3.0)
 - ENG MGT 4110 General Management-Design and Integration (LEC 3.0)
 - ENG MGT 5514 Patent Law (LEC 3.0)
 - PHIL 3225 Engineering Ethics (LEC 3.0)
- Professional Development Elective is either a co- or prerequisite for EE 4096/CpE 4096
 The proposed motion will reduce the EE and CpE Hum/SS requirements from 24 hours to 21 hours which meets the engineering Hum/SS requirement for S&T

After discussion, the motion was unanimously approved by the ECE Faculty to adopt this Professional Development Elective and is sought to be made effective for the Fall 2019 semester.

Bachelor of Science Electrical Engineering¹

Entering freshmen desiring to study Electrical Engineering will be admitted to the Freshman Engineering Program. They will be permitted to state a Electrical Engineering preference, which will be used as a consideration for available freshman departmental scholarships. The

EL ENG-BS: Electrical Engineering BS

focus of the Freshman Engineering Program is on enhanced advising and career counseling, with the goal of providing to the student the information necessary to make an informed decision regarding the choice of a major.

For the Bachelor of Science degree in Electrical Engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in Electrical Engineering.

Electrical and Computer Engineering degree programs will require a minimum of **21** 24-credit hours of humanities/social-sciences as specified below:

- ENGLISH 1120
- ENCLISH 1120HISTORY 1200 or HISTORY 1300 or HISTORY 1310 or POL SCI 1200HISTORY 1200 ECON 1100 or HISTORY 1300 or HISTORY 1310 or POL SCI 1200 ECON 1200
- ECON 1100 or ECON 1200
- Technical Communication Elective: ENGLISH 1160 or ENGLISH 3560
- SP&M S 1185
- ENCL 1160 or ENCL 3560SP&M 1185
 The remaining minimum of 6 9-additional credit hours must be three-credit hour lecture courses offered in disciplines in the humanities and social sciences. Humanities courses are defined as those in: Art, English and Technical Communication, Etymology, Foreign Languages, Music, Philosophy, Speech and Media Studies, and Theatre. Social Sciences courses are defined as those in: Economics, History, Political Science, and Psychology. At least one of the courses must be at the upper level. Economics, History, Political Science, Upper level H/SS courses are defined as those at the 2000 level or above, and Psychology. that require as a prerequisite the successful completion of a lower level H/SS courses. Study abroad courses may count as H/SS courses. H/SS courses upper level H/SS courses, even if they do not have a prerequisite. H/SS courses numbered 2001, 3001, and 4001 (experimental courses) may also be used to complete these elective requirements.

Courses in business, education, information science and technology, or any other discipline not listed above will **not** satisfy the humanities/social sciences elective requirement, although such courses may count toward general education requirements. Transfer credits from other universities in sociology and general humanities may count as humanities or social science electives.

The Electrical Engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

Free Electives Footnote:

Students are required to take five hours of free electives in consultation with their academic advisor. Credits which do not count towards this requirement are deficiency courses (such as algebra and trigonometry), and extra credits in required courses. Any courses outside of engineering and science must be at least three credit hours.

Note: Student must satisfy the common engineering freshman year requirements and be admitted into the department. See Freshman Engineering.

1	The minimum number of hours required for a degree in Electrical Engineering is 128.
2	Students that transfer after their freshman year are not required to enroll in FR ENG 1100.
3	A minimum grade of "C" must be attained in <u>MATH 1214</u> , <u>MATH 1215</u> , <u>MATH 2222</u> , and <u>MATH 3304</u> , <u>PHYSICS 1135</u> and <u>PHYSICS 2135</u> (or their equivalents), <u>ELEC ENG 2100</u> , <u>ELEC ENG 2101</u> , <u>ELEC ENG 2120</u> , <u>ELEC ENG 2200</u> , <u>ELEC ENG 2201</u> , <u>ELEC ENG 3320</u> , <u>ELEC ENG 3321</u> , <u>ELEC ENG 3430</u> , <u>ELEC ENG 3431</u> , <u>ELEC ENG 3100</u> , <u>ELEC ENG 3101</u> , and <u>ELEC ENG 3600</u> , the ELEC ENG power elective (<u>ELEC ENG 3500</u> and <u>ELEC ENG 3501</u> or <u>ELEC ENG 3540</u> and

EL ENG-BS: Electrical Engineering BS

	ELEC ENG 3541), ELEC ENG 4096 and COMP ENG 2210 and COMP ENG 2211. Also, students may not enroll in other courses that use these courses as prerequisites until the minimum grade of "C" is attained.
4	Students may take <u>PHYSICS 1111</u> and <u>PHYSICS 1119</u> in place of <u>PHYSICS 1135</u> . Students may take <u>PHYSICS 2111</u> and <u>PHYSICS 2119</u> in place of <u>PHYSICS 2135</u> .
5	All electives must be approved by the student's advisor. Students must comply with the general education requirements with respect to selection and depth of study. These requirements are specified in the current catalog.
6	Students who drop a lecture course prior to the last week to drop a class must also drop the corequisite lab.
7	Students must earn a passing grade on the ELEC ENG Advancement Exam I (associated with <u>ELEC ENG 2100</u>) before they enroll in <u>ELEC ENG 2120</u> or <u>ELEC ENG 2200</u> and <u>ELEC ENG 2201</u> .
8	Students must earn a passing grade on the COMP ENG Advancement Exam (associated with <u>COMP ENG 2210</u>) before they enroll in any course with <u>COMP ENG 2210</u> and/or <u>COMP ENG 2211</u> as prerequisites.
9	Students must earn a passing grade on the ELEC ENG Advancement Exam II (associated with <u>ELEC ENG 2120</u>) before they enroll in <u>ELEC ENG 3500</u> , <u>ELEC ENG 3540</u> , <u>ELEC ENG 3501</u> , <u>ELEC ENG 3541</u> , <u>ELEC ENG 3320</u> , <u>ELEC ENG 3321</u> , <u>ELEC ENG 3430</u> , <u>ELEC ENG 3431</u> , <u>ELEC ENG 3100</u> , <u>ELEC ENG 3101</u> , or <u>ELEC ENG 3600</u> , or other courses with <u>ELEC ENG 2120</u> as a prerequisite.
10	Students must earn a passing grade on the ELEC ENG Advancement Exam III (associated with <u>ELEC ENG 2200</u>) before they enroll in <u>ELEC ENG 3100</u> and <u>ELEC ENG 3101</u> or other courses with <u>ELEC ENG 2200</u> as a prerequisite.
11	Students must take <u>MECH ENG 2340</u> , <u>MECH ENG 2519</u> , <u>MECH ENG 2527</u> , <u>PHYSICS 2305</u> , <u>PHYSICS 2311</u> , <u>PHYSICS 2401</u> , <u>NUC ENG 3103</u> , <u>CHEM 2210</u> , <u>BIO SCI 2213</u> , or <u>BIO SCI 2223</u> . The following pairs of course are substitutions: <u>CIV ENG 2200</u> and <u>MECH ENG 2350</u> or <u>ENG MGT 2110</u> and <u>ENG MGT 3310</u> .
12	Students may replace <u>STAT 3117</u> with <u>STAT 3115</u> or <u>STAT 5643</u> . Students may replace <u>COMP SCI 1580</u> with ELEC ENG 3001 Circuits and Systems Laboratory.
13	Students must take <u>ENGLISH 3560</u> or <u>ENGLISH 1160</u> . Students may replace <u>SP&M S 1185</u> with the ROTC sequence of <u>MIL ARMY 4250</u> and <u>MIL ARMY 4500</u> or <u>MIL AIR 4110</u> and <u>MIL AIR 4120</u> .
14	ELEC ENG Electives A, B, and C must be chosen from ELEC ENG 56XX, <u>ELEC ENG 3500</u> , <u>ELEC ENG 3540</u> , <u>ELEC ENG 3410</u> , <u>ELEC ENG 3250</u> , <u>ELEC ENG 3340</u> , <u>ELEC ENG 3440</u> , <u>ELEC ENG 3120</u> , and <u>COMP ENG 3150</u> . Only one ELEC ENG 56XX course may be used.
15	The ELEC ENG Power Elective may be satisfied with <u>ELEC ENG 3500</u> and <u>ELEC ENG 3501</u> or <u>ELEC ENG 3540</u> and <u>ELEC ENG 3541</u> .
16	ELEC ENG Elective D must be a 4XXX-level or above ELEC ENG or COMP ENG course with at least a 3-hour lecture component. <u>ELEC ENG 4000</u> , <u>ELEC ENG 5000</u> , <u>COMP ENG 4000</u> , <u>COMP ENG 5000</u> , <u>ELEC ENG 4099</u> , <u>COMP ENG 4099</u> , <u>ELEC ENG 4096</u> , <u>ELEC ENG 4097</u> , <u>COMP ENG 4097</u> , <u>ELEC ENG 5070</u> , <u>COMP ENG 5070</u> , ELEC ENG 58XX, and COMP ENG 58XX may not be used for Elective D.
17	ELEC ENG Elective E may be any 3XXX-level or above ELEC ENG or COMP ENG course except <u>ELEC ENG 3002</u> , ELEC ENG 38XX, <u>ELEC ENG 4096</u> , <u>ELEC ENG 4097</u> , and ELEC ENG 5070 and <u>COMP ENG 3002</u> , COMP ENG 38XX, <u>COMP ENG 4000</u> , <u>COMP ENG 4096</u> , <u>COMP ENG 4097</u> , and COMP ENG 5070.
18	Students are required to take five hours of free elective in consultation with their academic advisors. Credits that do not count toward this requirement are deficiency courses (such as algebra and trigonometry) and extra credits from courses meeting other requirements. Any courses outside of engineering and science must be at least three credit hours. ELEC ENG 28XX, ELEC ENG 38XX, <u>ELEC ENG 4096</u> , <u>ELEC ENG 4097</u> , COMP ENG 28XX, COMP ENG 38XX, <u>COMP ENG 4096</u> and <u>COMP ENG 4097</u> may not be used for free electives. No more than one credit hour of <u>ELEC ENG 3002</u> or <u>COMP ENG 3002</u> may be applied to the BS degree for free electives.
19	Students that pursue an optional degree emphasis area have restricted options for EI Eng Electives A, D, and E. Students

admitted to the accelerated BS/MS program must satisfy EI Eng Electives D and E with 5xxx or 6xxx-level courses and a minimum grade of B.

²⁰ Students must take one of the following courses: <u>BUS 5980</u>, <u>ECON 4430</u>, <u>ECON 5337</u>, <u>ENG MGT 2310</u>, <u>ENG MGT 3320</u>, <u>ENG MGT 4110</u>, <u>ENG MGT 5514</u>, or <u>PHILOS 3225</u>.

All Electrical Engineering students are encouraged to take the fundamentals of Engineering Examination prior to graduation. It is the first step toward becoming a registered professional engineer.

An accelerated BS/MS program and a formal emphasis in circuits and electronics, optics and devices, controls and systems, communications and signal processing, power and energy, electromagnetics, or computer engineering are optional.

Emphasis Areas for Electrical Engineering

Circuits and Electronics, Communications and Signal Processing, Computer Engineering, Controls and Systems, Electromagnetics, Optics and Devices, Power and Energy

A declared emphasis area is not required. A student may choose to obtain an Electrical Engineering degree without a formal emphasis or may choose to obtain an Electrical Engineering degree with a declared emphasis in one or more of the emphasis areas of electrical engineering. A major change request is required to add the emphasis area option to the degree program.

For students who seek an Electrical Engineering degree without a formal emphasis, these emphasis areas may guide the choice of their ELEC ENG Electives A, B, C, D, and E as well as their free electives. Students should consult with their advisors on such course selections.

For students who seek an Electrical Engineering degree with a declared emphasis, courses in the declared emphasis area will be applied to ELEC ENG Electives A, D, and E in the degree requirements. For students who choose to have multiple emphasis areas, the additional courses will apply to ELEC ENG Elective B or C and free elective requirements. Students should seek guidance from their advisors on emphasis areas and on courses that are relevant to more than one emphasis area. Students may have an emphasis area or emphasis areas listed on their transcript by completing three three-credit-hour courses in electrical and computer engineering from the designated lists with at least one of the courses being at the 4XXX-level or above. This requirement will be satisfied by completing the relevant ABC Elective course, a 4XXX-level or above course for Elective D, and another 3XXX-level or above course for Elective E from the designated listing. The required ELEC ENG courses <u>ELEC ENG 3320</u>, <u>ELEC ENG 3430</u>, <u>ELEC ENG 3100</u>, and <u>ELEC ENG 3600</u> and the course used to satisfy the power requirement (<u>ELEC ENG 3500</u> or <u>ELEC ENG 3540</u>) may not be used to meet the three course requirement. Transfer courses do not apply to emphasis areas. A co-listed course may count toward both areas. Experimental courses <u>ELEC ENG 3001</u>, <u>ELEC ENG 4001</u>, <u>ELEC ENG 5001</u>, <u>COMP ENG 5001</u>, <u>COMP ENG 5001</u>, <u>require departmental approval to apply toward an emphasis area.</u>

Accelerated BS/MS Program Option for EE and CpE Majors

Electrical engineering or computer engineering undergraduates in ECE at Missouri S&T may opt to apply for an accelerated BS/MS ECE program where a student can achieve both degrees faster than if pursuing the degrees separately. The degrees may be BS EE and MS EE, BS CpE and MS CpE, BS EE and MS CpE, or BS CpE and MS EE. The benefits of the program for admitted students are:

- Undergraduate and graduate courses may be chosen with greater flexibility,
- Dual enrollment status is automatically granted, Up to six Six hours of 5000-level or above ECE coursework may apply to to both the BS and MS requirements,
- The dual-counted-classes may be taken for shared BS/MS credit may be taken at the lower undergraduate tuition rate,
- The GRE is not required for admission,
- Other graduate credit courses may be taken anytime after entering the program, and
- Work on a thesis project may begin before the BS requirements are completed.

The BS-degree requirements are modified for admitted students such that EE Electives D and E or CpE Electives B and C will be satisfied by six-credit-hours of 5000-level or above ECE coursework. To be eligible for the accelerated BS/MS ECE program, an e-EE or CpE undergraduate must be at or beyond the junior level with a minimum of 60 credit hours and must have completed 18 credit hours of EE and/or CpE courses at Missouri S&T with at least a 3.50 GPA in the ECE courses. To be admitted, the student must complete the program application and must have the recommendation of an an-ECE faculty member who agrees to serve as the graduate thesis advisor. No other MS degree requirements The Graduate Form 1 must be completed no later than the beginning of the semester after the dual-counted courses are changed. completed. Until completing their BS degree, students must fill out a form each semester indicating which courses will be completed for graduate credit. The (A co-listed course can only apply for these dergraduate requirements if it is under an EE or CpE registration. Note that the choice of EE or CpE registration may effect how a cour ean apply within an MS program.) Other courses for the MS-degree program must be for the identified as graduate credit when taken. All other MS degree requirements are not changed and the MS degree must be for the thesis option. The program may be The program may be combined with existing honors research and emphasis area options. Admitted students will have both undergraduate and graduate records in the Registrar's Office.

The Accelerated program application must be completed within one semester after -If-the shared-credit student exits the program before completion of the MS degree requirements or fails to maintain continuous enrollment at Missouri S&T, the dual counted-courses are completed. Courses taken may not apply toward graduate requirements in the event of future readmission. The student is responsible for shared credit will be identified checking on the application form how dual enrollment status and on Graduate Form 1, which is submitted after the student enters the graduate graduate coursework will affect scholarships and other financial aid. International https://nextcatalog.mst.edu/courseleaf/approve/?role=admin

EL ENG-BS: Electrical Engineering BS

students should check with international affairs during completion of an accelerated BS/MS to ensure immigration status will be maintained throughout the program. The courses must be identified as dual-counted courses and must be completed with a B or better. The These six hours of shared-credit coursework will be taken as undergraduate credit, must be approved by the academic advisor, and may not be undergraduate research, special problems, or transfer courses (a co-listed course can only apply for these undergraduate requirements if it is under an EE or CpE registration. Note that the choice of EE or CpE registration may affect how a course can apply within an MS program.) An additional six credit hours of coursework for graduate credit (beyond the shared BS/MS credits) can be taken while in the undergraduate program by applying for dual undergraduate/graduate enrollment. courses. Taking additional courses for graduate credit will require formal application to the graduate program. Acceptance to the MS degree program from the Accelerated program is automatic so long as the student meets ECE graduate student academic performance requirements. (A co-listed course can only apply for these undergraduate requirements if it is under an EE or CpE registration. the choice of EE or CpE registration may effect how a course can apply within an MS program.) Other courses for the MS degree program must be identified as graduate credit when taken. All other MS degree requirements are not changed and the MS degree must be fo thesis option. The program may be combined with existing honors research and emphasis area options. Admitted students will have both undergraduate and graduate records in the Registrar's Office. Upon separate completion of requirements, the BS degree would be awarded followed by the MS degree at a later semester, or the BS and MS degrees may be awarded simultaneously at the same semester. To be eligible for the accelerated BS/MS ECE program, a EE or GpE undergraduate must be at or beyond the junior level with a minimum of 60 edit hours and must have completed 18 credit hours of EE and/or CpE courses at Missouri S&T with at least a 3.50 CPA To be admitted, the student must complete the program application and must have the recommendation of an ECE faculty mber who agrees to serve as the graduate thesis advisor. The Graduate Form 1 must be completed no later than the beginning of the semester after the dual counted courses are completed. Until completing their BS degree, students must fill out a form each comester indicating which courses will be completed for graduate credit. To remain in the Accelerated program, the student must maintain good standing within the undergraduate EE or CpE program and must maintain continuous enrollment at Missouri S&T. If Upon separate completion of requirements, the student exits BS degree would be awarded followed by the program before completion of the MS degree requirements at a later semester, or fails to maintain continuous enrollment at Missouri S&T, the shared-credit courses the BS and MS degrees may not apply toward graduate requirements in the event of future readmission. be awarded simultaneously at the same semester.

The student is responsible for checking on how dual-enrollment status and graduate coursework will affect scholarships and other financial aid. Once you become a graduate student, you <u>are not</u> eligible for Federal Pell Grants, though are still eligible for Federal Financial Aid and will be eligible for fellowships and teaching/research assistantships. International students should check with international affairs during completion of an accelerated BS/MS to ensure immigration status will be maintained throughout the program.

If the student exits the program before completion of the MS degree requirements or fails to maintain continuous enrollment at Missouri S&T, the dual-counted courses may not apply toward graduate requirements in the event of future readmission. The student is responsible for checking on how dual-enrollment status and graduate coursework will affect scholarships and other financial aid. International students should check with international affairs during completion of an accelerated BS/MS to ensure immigration status will be maintained throughout the program.

Justification for request

In addition to changes made to add the Professional Elective to the EE program, modifications were made to the description of the Accelerated BS/MS program. Modifications are a result of interactions between ECE, Graduate Studies, Cashiers, and the Registrar and are intended to improve consistency between the Accelerated program and the existing BS and MS program, and to make implementation easier overall. The description was modified to:

- Improve readability

 Remove statement "dual enrollment status is automatically granted". To make the process smoother for the registrar and graduate studies, students must apply for dual undergraduate/graduate enrollment (though status should be automatically granted once the student applies)

- Refer to classes taken for "shared credit" rather than "dual counted classes" or similar to avoid confusion with classes taken as dual undergraduate/graduate enrollment

- State that students must complete the undergraduate program, then apply and begin the MS degree program. They will be awarded a BS and MS degree separately. This change was made to make it clear to the cashier when the student would stop paying for courses at the undergraduate rate and would begin paying at the graduate rate. At most, students can have 6 shared BS/MS credits and 6 credits as dual undergraduate/graduate enrollment which are counted as graduate credit but paid for at the undergraduate rate.

- State that the student must specify which courses will be used for shared credit in the application form and in Graduate Form 1.

- Add a few details regarding scholarships and grants that students might want to double check before applying for the program.

History

Sep 5, 2014 by pantaleoa Jul 23, 2015 by pantaleoa Jul 23, 2015 by pantaleoa Jul 23, 2015 by pantaleoa Apr 23, 2016 by pantaleoa Feb 4, 2019 by Brittany Parnell (ershenb)

The department of Geosciences and Geological and Petroleum Engineering is home to three separate programs, geological engineering, geology and geophysics, and petroleum engineering. Geotechnics is a part of the geological engineering program.

Geological engineering is the application of the knowledge and principles of geology to the solution of problems in engineering practice. These applications include the evaluation of geological conditions for natural hazard assessment, environmental protection studies, groundwater resource and pollution investigations, mineral and energy development, site selection of civil works facilities, and land use and environmental impact analysis.

The geological engineering laboratories are well equipped for research relating to physical and hydraulic properties of rock, groundwater hydrology, remote sensing, and geographic information systems. Computer applications are emphasized, and the department has a laboratory equipped with a variety of personal computer equipment for student use. A groundwater hydrology laboratory is equipped to conduct research in subsurface fluid flow and computer facilities are available for the modeling of flow through porous media.

Recent research projects in the GE program include:

- Designing excavating tools for geomaterials on earth and in space.
- Measuring the permeability of soils using satellites, drones and ground-based geophysics.
- Evaluating earthquake hazards along the New Madrid fault.
- Using satellite data to investigate aquifer depletion and land subsidence.
- · Studying blasting efficiency for enhancing productivity in the mining industry.
- Predicting water pollution based on geologic and land use factors.
- Developing a rock fall hazard rating system for Missouri highways.
- Using LIDAR to research the rock raveling process.
- Developing a virtual geotechnical database for the greater St. Louis Metropolitan Area.
- Identifying areas suitable for managed aquifer recharge in the U.S. and Iraq.
- Creation of a geologic GIS database for the St. Louis Metropolitan Area.
- Detection of underground mines and caverns using geophysical methods.
- Using drone data to find the locations to drill wells in fractured rock.
- Applying mining methods to potential space mining applications, and reducing the size of asteroid on potential collision courses with earth.
- · Developing sustainable point of use drinking water systems in developing areas.
- Using renewable energy systems to power active groundwater pumping and remediation systems.

GE ENG-MS: Geological Engineering MS

· Characterizing the reliability of wind and solar energy system prediction models.

The department maintains a computer learning center and Geographic Information Systems Laboratory with PCs, and a variety of peripheral devices such as scanners, digitizers, and printers. ArcGIS, ERDAS, IDRIS, AutoCAD Map and World, and other software packages are available for instruction and research. Applications of GIS and Remote Sensing Technology which are stressed include site characterization and selection, geologic hazards mapping, and terrain analysis. The department also offers graduate certificates in geotechnics, subsurface water resources, water resources, natural hazards, and space mining. The minimum Graduate Record Examinations (GRE) scores required for acceptance consideration in the Geology and Geophysics graduate program are Q = 148, Q+V = 300, and A(W) = 3.0.

Contact information, e-mail gee@mst.edu or visit our website at http://gse.mst.edu/.

Justification for request Supporting Documents Course Reviewer Comments ershenb (02/07/19 10:40 am): You will see two Geological Engineering MS degree forms coming through workflow. This form corresponds to information that will be listed on the overview tab in the graduate catalog for Geological Engineering. The other degree form corresponds to program

requirements/emphasis areas that will be listed on a new Master's tab in the catalog.

MS Program requirements:

For students pursuing a thesis-based master's degree, the requirements are those of the **campus**, college, as given on Form 1 (https://grad.mst.edu/currentstudents/forms/). For students interested in a course-based (non-thesis) master's degree, the following study plan is required.

30 hr non-thesis MS-degree study plan for Geological Engineering

Non-thesis MS students must take at least one course in each of the three core geological engineering **areas** courses-indicated below, and then must select one or more courses from each emphasis area. Substitutions for core geological engineering courses may be made on a case-by-case basis, especially if some of these courses have been completed as part of the undergraduate curriculum. 30 credit hours must be passed to earn the MS degree.

Core Geological Engineering Areas Courses

(take all 3) = 9 hrs

· · · · · · · · · · · · · · · · · · ·		
<u>GEO ENG 5443</u>	Subsurface Exploration	3
GEO ENG 5331	Subsurface Hydrology	3
or <u>GEO ENG 5381</u>	Intermediate Subsurface Hydrology And Contaminant Transport Mechs	
<u>GEO ENG 5441</u>	Engineering Geology And Geotechnics	3
or <u>GEO ENG 6441</u>	Geotechnical Construction Practice	
or <u>GEO ENG 6625</u>	Applications in Geological Engineering	
GEO ENG 6001	Special Topics	0-6

Engineering Geology and Geotechnics Emphasis Area

(choose 1-3 courses, at least one course must be in the Geological Engineering department) = 3 to 9 hrs

<u>GEO ENG 5471</u>	Rock Engineering	3
<u>GEO ENG 6441</u>	Geotechnical Construction Practice	3
<u>GEO ENG 6477</u>	Discontinuous Rock	3
<u>GEO ENG 6625</u>	Applications in Geological Engineering	3
<u>CIV ENG 5715</u>	Intermediate Soil Mechanics	3
<u>CIV ENG 5716</u>	Geotechnical Earthquake Engineering	3
<u>CIV ENG 5729</u>	Foundation Engineering II	3

https://nextcatalog.mst.edu/courseleaf/approve/?role=admin

Environmental and Hydrology Emphasis Area

(1)

(chose 1-3 courses) = 3 to 9 hrs		
<u>GEO ENG 5233</u>	Risk Assessment In Environmental Studies	3
<u>GEO ENG 5235</u>	Environmental Geological Engineering	3
<u>GEO ENG 5237</u>	Geological Aspects Of Hazardous Waste Management	3
<u>GEO ENG 5381</u>	Intermediate Subsurface Hydrology And Contaminant Transport Mechs	3
<u>GEO ENG 6235</u>	Advanced Concepts Of Environmental Geological Engineering	3
<u>GEO ENG 6237</u>	Advanced Geological & Geotechnical Design For Hazardous Waste Mgt	3
<u>GEO ENG 6331</u>	Advanced Subsurface Hydrology	3

Engineering Geophysics Emphasis Area

(choose 1 to 2 courses) = 3 to 6 hrs

<u>GEO ENG 5736</u>	Geophysical Field Methods	3
<u>GEO ENG 5761</u>	Transportation Applications of Geophysics	3
<u>GEO ENG 5782</u>	Environmental and Engineering Geophysics	3
<u>GEO ENG 6782</u>	Surface Waves (MASW) and Ground Penetrating Radar (GPR)	3

Data Analysis Emphasis Area

(choose 1 to 2 courses) = 3 to 6 hrs

<u>GEO ENG 5144</u>	Remote Sensing Technology	3
<u>GEO ENG 5146</u>	Applications Of Geographic Information Systems	3
<u>GEO ENG 5315</u>	Advanced Statistical Methods in Geology and Engineering	3
<u>GEO ENG 5556</u>	Renewable Energy Systems	3
COMP SCI 5204	Regression Analysis	3
<u>STAT 5260</u>	Statistical Data Analysis Using SAS	3
<u>STAT 5346</u>	Regression Analysis	3
<u>STAT 5353</u>	Statistical Data Analysis	3
<u>STAT 5814</u>	Applied Time Series Analysis	3

*Additional substitutions may be made depending on availability, pre-requisites, and desired focus.

**These requirements will be viewed by the geological engineering graduate faculty at intervals no longer than three years.

Graduate work in geology and geophysics is offered at both the master of science (thesis and non-thesis) and doctoral levels. Programs are designed to provide you with an understanding of the fundamentals and principles of geology, geochemistry, and geophysics. Research investigations comprise a significant part of each program, and at the doctoral level an original contribution to the science is required.

Research emphasis of the program is in:

- Low Temperature and Environmental Geochemistry
- Mineralogy/Petrology/Economic Geology
- Geophysics/Tectonics/Remote Sensing
- Sedimentology/Paleontology/Stratigraphy/Petroleum Exploration

In geology and geochemistry, opportunities for research at both the M.S. and Ph.D. levels are available in mining geology, petroleum geology, stratigraphy and sedimentation, geochemistry, clay mineralogy, remote sensing, GIS, palynology, structural geology, igneous and metamorphic petrology, and volcanology.

In geophysics, opportunities for research at both the M.S. and Ph.D. levels are available in the areas of reflection and refraction seismology, theoretical seismology, geophysical data analysis, gravity, magnetics, seismic hazards, and computational geophysics.

GL&GPH-MS: Geology and Geophysics MS

The study of the Earth and other planets includes all areas of scientific inquiry. To work effectively in so broad a discipline requires considerable depth and breadth of understanding of physical principles and advanced proficiency in mathematics, particularly for those students contemplating advanced studies in geophysics. A thorough undergraduate training in an earth or physical science is ordinarily regarded as necessary prerequisite for advanced study in geology or geophysics.

Earth sciences have been an integral part of the university since its founding. The program has a long and proud history of faculty and students who have contributed to the advancement of the science and to mineral and hydrocarbon exploration. The university was formerly the Missouri School of Mines. Because of the school's tradition and location near the Missouri Lead **District**, District the emphasis of the program has been in hard rock exploration. The program has now expanded to include geochemistry, geophysics, and soft rock geology. Our graduates find employment in mining, environmental, and petroleum industries. It is our intention to provide the student with a sufficiently diverse and complete education that he or she may seek employment in any area of the earth sciences.

The program has a wide variety of equipment for research and exploration in geology, geochemistry, and geophysics. In addition to its own facilities, the Missouri Department of Natural Resources, and the U.S. Geological Survey's mid-continent mapping division are also located in Rolla. Cooperative research with other departments within the university or other campuses of the University of Missouri may be undertaken by our faculty and graduate students. Interaction with mining engineering, geological engineering, petroleum engineering, metallurgy, environmental engineering, biological sciences and various other programs/departments is routine. Cooperative programs are also undertaken with local mining companies, petroleum companies, or other industries using the skills and techniques of the earth scientist. Thus, your research interests need not fall entirely within the interests of our faculty or within the bounds of the equipment directly available within the program.

Although an advanced degree level is not a requirement for professional practice in geology or geophysics, the B.S. should usually be considered a preparatory, the M.S. should be considered the professional degree, and the Ph.D. should be sought by candidates interested in a career in teaching or research.

The M.S. degree is typically granted with the thesis option, although a non-thesis option is now available. All Geology and Geophysics MS students are required to take the Professional Geosciences Skills course (<u>GEOLOGY 5100</u>) and either Advanced Physical Geology (<u>GEOLOGY 5111</u>) or Global Tectonics (<u>GEOPHYS 5096</u>).

A qualifying examination is required of all Ph.D.students during the third semester of residency. For students whose native language is not English, a minimum score of **79** 550-on the standard Test of English as a Foreign Language is generally required for admission. The minimum Graduate Record Examinations (GRE) scores required for acceptance consideration in the Geology and Geophysics graduate program are Q = 148, Q+V = 300, and A(W) = 3.0.

Justification for request

The first required courses are being included because Graduate students need mentoring and experience in developing both research skills and professional soft-skills required for a successful geoscience career. They also need experience in researching papers and opportunities to present scientific content to larger groups of peers. New CC forms for these courses (GEO 5100 and GEO 6100) have been submitted as required. Graduate students need one or the other of the second courses (or even both depending upon the committee) to establish a firm understanding of fundamental concepts in the Geosciences such that they will be able to use this information in understanding the broader significance of their research. These course are already in the books and offered on a regular basis.

The faculty decided to make explicit the entrance requirements for the GRE etc. Supporting Documents Course Reviewer Comments ershenb (02/07/19 3:50 pm): Rollback: Dr. Hogan needs put some information on this Geology and Geophysics MS form. Rolling it back for those edits. ershenb (02/08/19 11:52 am): Rollback: Sharon Lauck needs to make additional edits. ershenb (02/13/19 1:18 pm): . ershenb (02/13/19 1:20 pm): changed start term to Fall 2019 ershenb (02/13/19 1:24 pm): .

Bachelor of Science Mechanical Engineering

Entering freshmen desiring to study mechanical engineering will be admitted to the Freshman Engineering Program. They will, however, be permitted, if they wish, to state a mechanical engineering preference, which will be used as a consideration for available freshman departmental scholarships. The focus of the Freshman Engineering program is on enhanced advising and career counseling, with the goal of providing to the student the information necessary to make an informed decision regarding the choice of a major.

For the bachelor of science degree in mechanical engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. An average of at least two grade points per credit hour must also be attained in all courses taken in mechanical engineering.

Each student's program of study must contain a minimum of 21 credit hours of course work in general education as follows:

- 1. ENGLISH 1120
- 2. HISTORY 1200 or HISTORY 1300 or HISTORY 1310 or POL SC 1200
- 3. ECON 1100 or ECON 1200
- 4. ENGL 1160 or ENGL 3560 or SP&MS 1185
- 5. A literature elective
- 6. A humanity or social science elective*

7. A humanity or social science elective* that has, as a prerequisite, a humanity or social science course already taken.

* Humanity and social science electives must be at least 3 credit hours of lecture designation, and also meet the requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog.

The mechanical engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

Note: Students must satisfy the common engineering freshman year course requirements, and be admitted into the department, in addition to the sophomore, junior and senior year requirements listed above with a minimum of 128 hours.

4/9/2019 MC ENG-BS: Mechanical Engineering BS а A grade of "C" or better is required in CHEM 1310, MATH 1214, MATH 1215, MATH 2222, MATH 3304, PHYSICS 1135, PHYSICS 2135, programming elective, MET ENG 2110, CIV ENG 2200, CIV ENG 2210, MECH ENG 2519, MECH ENG 2360, and MECH ENG 3411, both as prerequisite for follow-up courses in the curriculum and for graduation. b MATH 1208 and MATH 1221 may be substituted for MATH 1214 and MATH 1215, respectively. The programming elective consists of a lecture and lab combination, and may be selected from COMP SCI 1970/COMP SCI 1980, С COMP SCI 1971/COMP SCI 1981, or COMP SCI 1972/COMP SCI 1982, or COMP SCI 1570/COMP SCI 1580. Note that COMP SCI 1570/COMP SCI 1580 requires one more credit hour than the other options. d This course must be selected from the following: ENGLISH 1160, ENGLISH 3560 or SP&M S 1185, or the complete four course sequence in Advanced ROTC (MILARMY 3250, MILARMY 3500, MILARMY 4250, and MILARMY 4500; or MILAIR 3110, MIL AIR 3120, MIL AIR 4110 and MIL AIR 4120). This course must be selected from the following: COMP SCI 3200, MATH 3108, STAT 3113, STAT 3115 or any 5000-level math or е computer science course approved by the student's advisor, All electives must be approved by the student's advisor. Humanity and social science electives must be at least 3 credit hours of f lecture designation, and also meet requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog. Six hours of technical electives, subject to approval by the student's advisor, must be in the department of mechanical and g aerospace engineering. At least three of these technical elective hours must be at the 5000 level. This elective may not include coop, special problems, or research credits, such as as 3002, 4000, or 4099. Honors students have special requirements for technical electives. h This elective must be a three credit hour course, subject to approval by the student's advisor, from any of the following areas: math, statistics, science, engineering, or computer science. The course must be at the 3000 or higher level, or have a prerequisite that is part of the required mechanical engineering curriculum. Exceptions to the course level may be approved by the student's advisor. The elective may not include co-op, special problems, or research credits, such as 3002, 4000, or 4099. i This elective consists of three credit hours, subject to approval by the student's advisor, and may be satisfied by any of the following: (1) A three credit hour course from any of the following areas: math, statistics, science, engineering, computer science, business, or IST. The course must be at the 3000 or higher level, or have a prerequisite that is part of the required mechanical engineering curriculum. Exceptions to the course level may be approved by the student's advisor; (2) Any three credit hour course in the list of approved courses for the global studies minor; or (3) Any combination of three credit hours from co-op (3002), special problems (3000, 4000, or 5000), research (4099), or design team credit (ENG MGT 2011, 2012, or 2013). j All mechanical engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree. However, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in assessment requirements found

Energy Conversion Emphasis Area for Mechanical Engineering

Students desiring to obtain a bachelor of science degree in mechanical engineering with an emphasis area in energy conversion must satisfy all the requirements of the bachelor of science degree in mechanical engineering, with the additional stipulation that four courses must be taken as follows:

a. Two courses from the following	list:	6
MECH ENG 5527	Combustion Processes	3
or <u>AERO ENG 5527</u>	Combustion Processes	
MECH ENG 5533	Internal Combustion Engines	3
MECH ENG 5566	Solar Energy Technology	3

elsewhere in this catalog.

Note: By using the breadth elective and technical electives to satisfy the above requirements, this emphasis area requires the same total number of credit hours as the BSME degree. A change of major form should be submitted to designate the energy conversion emphasis area.

Manufacturing Processes Emphasis Area for Mechanical Engineering

Students desiring to obtain a bachelor of science in mechanical engineering with an emphasis area in manufacturing processes must satisfy all requirements of the bachelor of science in mechanical engineering with the additional stipulation that four courses must be taken as follows:

a. The following course:		3
MECH ENG 3653	Manufacturing	3
b. One course from the following Manufacturing/Automation courses:		3
MECH ENG 5653	Computer Numerical Control of Manufacturing Processes	3
MECH ENG 5655	Manufacturing Equipment Automation	3
MECH ENG 5449	Robotic Manipulators and Mechanisms	3
MECH ENG 5606	Material Processing By High-Pressure Water Jet	3
c. One course from the following	Design courses:	3
MECH ENG 5763	Computer Aided Design: Theory and Practice	3
MECH ENG 5656	Design For Manufacture	3
MECH ENG 5702	Synthesis Of Mechanisms	3
d. One course from the following list:		3

Total Credits: 63

A grade of "C" or better is required in <u>CHEM 1310</u>, <u>MATH 1214</u>, <u>MATH 1215</u>, <u>MATH 2222</u>, <u>MATH 3304</u>, <u>PHYSICS 1135</u>,
 <u>PHYSICS 2135</u>, programming elective, <u>MET ENG 2110</u>, <u>CIV ENG 2200</u>, <u>CIV ENG 2210</u>, <u>MECH ENG 2519</u>, <u>MECH ENG 2360</u> and <u>MECH ENG 3411</u>, both as prerequisite for follow-up courses in the curriculum and for graduation.

b <u>MATH 1208</u> and <u>MATH 1221</u> may be substituted for <u>MATH 1214</u> and <u>MATH 1215</u>, respectively.

 C The programming elective consists of a lecture and lab combination, and may be selected from <u>COMP SCI 1970/COMP SCI 1980</u>, <u>COMP SCI 1971/COMP SCI 1981</u>, <u>COMP SCI 1972/COMP SCI 1982</u>, or <u>COMP SCI 1570/COMP SCI 1580</u>. Note that <u>COMP SCI 1570/COMP SCI 1580</u> requires one more credit hour than the other options.

d This course must be selected from the following: ENGLISH 1160, ENGLISH 3560 or SP&M S 1185, or the complete four course sequence in Advanced ROTC (<u>MILARMY 3250</u>, <u>MILARMY 3500</u>, <u>MILARMY 4250</u>, and <u>MILARMY 4500</u>; or <u>MILAIR 3110</u>, <u>MILAIR 3120</u>, <u>MILAIR 4110</u> and <u>MILAIR 4120</u>).

e All electives must be approved by the student's advisor. Humanity and social science electives must be at least 3 credit hours of lecture designation, and also meet requirements as specified under "Engineering Degree Requirements" published in the current

undergraduate catalog.

f	The nine hours of manufacturing technical elective must be selected as follows:
	One course from the following manufacturing/automation courses: MECH ENG 5653, MECH ENG 5655, MECH ENG 5449,
	<u>MECH ENG 5606</u> .
	One of the following design courses: MECH ENG 5763, MECH ENG 5656, MECH ENG 5702.
	One course from the following list: MECH ENG 5708, MECH ENG 5758.

g All mechanical engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree, however, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in Assessment Requirements found elsewhere in this catalog.

Mechanical Design and Analysis Emphasis Area

Students desiring to obtain a bachelor of science in mechanical engineering with an emphasis area in mechanical design and analysis must satisfy all requirements of the bachelor of science in mechanical engineering, with the additional stipulation that four courses must be taken as follows:

a. One design course from the following list:		3
MECH ENG 5709	Machine Design II	3
MECH ENG 5702	Synthesis Of Mechanisms	3
MECH ENG 5704	Compliant Mechanism Design	3
MECH ENG 5708	Rapid Product Design And Optimization	3
MECH ENG 5715	Concurrent Engineering	3
MECH ENG 5656	Design For Manufacture	3
MECH ENG 5757	Integrated Product And Process Design	3
MECH ENG 5760	Probabilistic Engineering Design	3
MECH ENG 5763	Computer Aided Design: Theory and Practice	3
MECH ENG 5761	Engineering Design Methodology	3
b. One analysis course from th	e following list:	3
MECH ENG 5307	Vibrations I	3
MECH ENG 5211	Introduction To Continuum Mechanics	3
MECH ENG 5212	Introduction to Finite Element Analysis	3
MECH ENG 5234	Stability of Engineering Structures	3
MECH ENG 5236	Fracture Mechanics	3
MECH ENG 5313	Intermediate Dynamics Of Mechanical And Aerospace Systems	3
MECH ENG 5222	Introduction To Solid Mechanics	3
MECH ENG 5238	Fatigue Analysis	3
MECH ENG 5449	Robotic Manipulators and Mechanisms	3
MECH ENG 5478	Mechatronics	3
c. Two additional courses from	either of the previous lists.	6

Note that by using the breadth elective and technical electives to satisfy the above requirements, this emphasis area requires the same total number of credit hours as the BSME degree A change of major form should be submitted to designate the mechanical design and analysis

emphasis area.

Systems Integration Emphasis Area

The Systems Integration emphasis area is required and available only for students pursuing a bachelor of science in mechanical engineering in the cooperative program delivered at Missouri State University. This emphasis area includes all requirements of the bachelor of science in mechanical engineering, except for the substitutions stipulated below.

ELEC ENG 2800	Electrical Circuits	3
<u>ENG MGT 1100</u>	Practical Concepts for Technical Managers	1
Elective-Advanced Math/S	Stat or Comp Sci	3
MECH ENG 5000-level tec	hnical elective	3
Technical elective		3
Breadth elective		3
The following requiremen	ts are added (16 credit hours):	
ELEC ENG 2100	Circuits I	3
ELEC ENG 2101	Circuit Analysis Laboratory I	1
ELEC ENG 2120	Circuits II	3
ENG MGT 3320	Introduction to Project Management	3
Systems Integration tech	nical elective. One of the following:	3
MECH ENG 5307	Vibrations I	3
<u>MECH ENG 5478</u>	Mechatronics	3
<u>MECH ENG 5481</u>	Mechanical And Aerospace Control Systems	3
<u>MECH ENG 5533</u>	Internal Combustion Engines	3
<u>MECH ENG 5571</u>	Environmental Controls	3
<u>MECH ENG 5575</u>	Mechanical Systems For Environmental Control	3
<u>MECH ENG 5656</u>	Design For Manufacture	3
<u>MECH ENG 5704</u>	Compliant Mechanism Design	3
<u>MECH ENG 5708</u>	Rapid Product Design And Optimization	3
MECH ENG 5709	Machine Design II	3
<u>MECH ENG 5715</u>	Concurrent Engineering	3
MECH ENG 5757	Integrated Product And Process Design	3
<u>MECH ENG 5763</u>	Computer Aided Design: Theory and Practice	3
One of the following:		
<u>STAT 3113</u>	Applied Engineering Statistics	3
<u>STAT 3115</u>	Engineering Statistics	3
<u>STAT 3117</u>	Introduction To Probability And Statistics	3
COMP SCI 3200	Introduction To Numerical Methods	3

All of the substitutions for this emphasis area appear in the junior and senior years. A suggested sequence for the junior and senior years is given below.

First Semester	Credits	Second Semester	Credits
MECH ENG 3313	3	<u>MECH ENG 3411</u> ^a	3
<u>MECH ENG 3521</u>	3	MECH ENG 3131	3

Total Credits: 63			

а	A grade of "C" or better is required
	in <u>CHEM 1310, MATH 1214, MATH 1215, MATH 2222, MATH 3304, PHYSICS 1135, PHYSICS 2135</u> , programming
	elective, <u>MET ENG 2110, CIV ENG 2200, CIV ENG 2210,</u> <u>MECH ENG 2519, MECH ENG 2360</u> and <u>MECH ENG 3411</u> , both as
	prerequisite for follow-up courses in the curriculum and for graduation.

- b <u>MATH 1208</u> and <u>MATH 1221</u> may be substituted for <u>MATH 1214</u> and <u>MATH 1215</u>, respectively.
- C The programming elective consists of a lecture and lab combination, and may be selected from <u>COMP SCI 1970/COMP SCI 1980</u>, <u>COMP SCI 1971/COMP SCI 1981</u>, or <u>COMP SCI 1972/COMP SCI 1982</u>, or <u>COMP SCI 1570/COMP SCI 1580</u>. Note that <u>COMP SCI 1570/COMP SCI 1580</u> requires one more credit hour than the other options.
- d This course must be selected from the following: <u>ENGLISH 1160</u>, <u>ENGLISH 3560</u> or <u>SP&M S 1185</u>, or the complete four course sequence in Advanced ROTC (<u>MIL ARMY 3250</u>, <u>MIL ARMY 3500</u>, <u>MIL ARMY 4250</u>, and <u>MIL ARMY 4500</u>; or <u>MIL AIR 3110</u>, <u>MIL AIR 3120</u>, <u>MIL AIR 4110</u> and <u>MIL AIR 4120</u>).
- All electives must be approved by the student's advisor.
 Humanity and Social Science electives must be at least 3 credit hours of lecture designation, and also meet requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog.
- f The mechanical engineering technical elective is subject to approval by the student's advisor, and must be in the department of mechanical and aerospace engineering. This elective may not include co-op, special problems, or research credits, such as 3002, 4000, or 4099. Honors students have special requirements for technical electives.
- g The systems integration technical elective must be selected from the following list: MECH ENG 5307, 5478, 5481, 5533, 5571, 5575, 5656, 5704, 5708, 5709, 5715, 5757, 5763.

MC ENG-BS: Mechanical Engineering BS

All mechanical engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree. However, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in assessment requirements found elsewhere in this catalog.

Justification for request

The Systems Integration emphasis area targets the needs of employers seeking a mechanical engineer with strength in managing projects requiring integration of sub-systems. This emphasis area differs from the base mechanical engineering degree only in the junior and senior years of the curriculum. It focuses the curriculum by replacing some of the electives with expanded coverage of electrical circuits (ELEC ENG 2100, 2101, and 2120 instead of ELEC ENG 2800), engineering management (ENG MGT 3320 instead of ENG MGT 1100), and a systems integration elective from a select list. The emphasis area requires no new courses. The Program Change form for MDHE is attached.

PCRequestforStaffReviewSept17_000 Systems Integration Emphasis.pdf

Course Reviewer Comments

ershenb (02/26/19 8:16 am): formatting

ershenb (02/26/19 9:30 am): Removed MATH 3103 from footnote e (BS in MECH ENG), per the request of Dr. Keith Nisbett. Also, attached MDHE form for the Systems Integration emphasis area per the request of Dr. Keith Nisbett.

Experimental Title	Philosophy of Technology	1. 01/24/19 11:25
Experimental Abbreviated Course Title	Philosophy of Technology	am Audra Merfeld- Langston
Instructors	Dr. Patrick Gamez	(audram): Approved for
Experimental Catalog Description	Students will learn the conceptual tools and skills for reflection on the ethical, social, and philosophical dimensions of life in a technological society. Specific topics covered might include: philosophy of engineering, artificial intelligence, information ethics, cybernetics, technological unemployment, human enhancement, existentialism, and others.	RPHILOSO Chair 2. 01/24/19 11:48 am Brittany Parnell (ershenb): Approved for CCC
Prerequisites	Sophomore standing or above.	Secretary
Field Trip Statement	There will be no field trips associated with this course.	3. 01/25/19 8:18 ar Petra Dewitt (dowittp):
Credit Hours	LEC: 3 LAB: 0 IND: 0 RSD: 0 Total: 3	(dewittp): Approved for Art
Justification for new course:	First, a philosophy of technology course will meet the needs of students in STEM fields who want to explore the humanities in a way that it is relevant to their central interests in science and technology. Especially for engineering students who are not interested in the epistemological issues raised by theorizing in the natural sciences, this will be a more attractive and important elective than, e.g., philosophy of science. Moreover, it will be make our students more competitive; employers have recently stated that they want STEM graduates to have a humanities background, and philosophical reflection on technological society meets this desideratum. Second, this course will serve to bolster existing minors. If successful, the plan is to make this course a recommended elective for our existing minor in Philosophy of Technology, as well as hopefully integrating it into the existing interdisciplinary Science, Technology, and Society minor (housed in the Department of History and	& Humanities DSCC Chair 4. 03/07/19 9:12 an Brittany Parnell (ershenb): Approved for Pending CCC Agenda post 5. 04/08/19 4:31 pr Brittany Parnell (ershenb): Approved for CCC Meeting Agenda
	Political Science). Third, this course will allow current and new faculty to integrate their research and teaching. As we do not have a graduate program, often our course offerings are not	6. 04/09/19 8:29 ar Stephen Raper (sraper): Approved for
