

**Minutes of the Campus Curricula Committee Meeting  
February 10, 2021  
8:15am, Virtual Zoom  
(For Faculty Senate Meeting of February 25, 2021)**

**Attendees:** Steve Raper, Petra Dewitt, Katie Shannon, Michael Gosnell, Cecil Eng Huang Chua, Michael Davis, Kyle Perry, Kristy Giacomelli-Feys, Marita Tibbetts

The following curriculum forms were discussed and approved:

**Course Change Forms:**

File: 4770 GEOLOGY 5510 : Organic Geochemistry  
File: 4767 HISTORY 3534 : History of Medieval and Early Modern Science  
File: 4690 HISTORY 4580 : Issues in Science, Technology and Society

File: 4768 COMP SCI 5001.013 : Theory of Reinforcement Learning

**Name Change forms:**

Nuclear Engineering and Radiation Science

The remaining Spring 2021 Curricula meeting dates were discussed and approved; meetings will be moved to the specified Tuesdays at 8am-9:15am via Zoom.

The optional March meeting will be held on March 2, 2021 at 8am.

The meeting adjourned at 8:59 am.

A handwritten signature in black ink that reads "Stephen A. Raper".

Credit Hours	LEC: 3	LAB: 0	IND: 0	RSD: 0
Total: 3				
Required for Majors	No			
Elective for Majors	Yes			

Justification for  
new course:

I taught this as a special topics course (5001) twice previously with enrollments of 10 (spring 2018) and 8 (spring 2020) and would like to assign a permanent number prior to fall 2021. The original course was called "Petroleum Geochemistry", but it turned out that the content and background needed for the students was quite broad so it really became an "organic geochemistry" course. This is why I suggested this as the new title for the experimental course.

Total: 3

#### Required for

No

#### Majors

#### Elective for

No

#### Majors

#### Justification for

#### new course:

This is a required core course in the proposed undergraduate certificate in Science, Technology, and Society. This is a capstone course that will introduce students to theory and practice of STS. It would tie together the experiences that students have had in other interdisciplinary STS oriented courses in several departments and provide a topical summary of the field.

**We discuss methods and techniques of data analytics on data from eCommerce websites and Internet of Things (IoT) devices that help create understanding of online business or detect patterns of IoT sensors. Challenges of data collection, key digital marketing metrics, and results interpretation and communication will be covered. Fundamental concepts of management and application to IT and support of commerce. Examines use of IT in business processes and everyday interactions such as IoT. Explores management issues of integrating IT into processes to run businesses better. Includes a major end-of-semester project.**

#### Prerequisites

Knowledge of management information systems.

Principles and applications of **refined** metal production by electrochemical methods.

The course will address basic copper and zinc **electrometallurgy**. **processing,**  
~~electrometallurgy, anodes and anodic processes, cathode deposit control and~~  
~~contamination mechanisms, Faraday's Law and current efficiency, and current state~~

**of practice. This includes discussion of anodes and anodic processes, cathode deposit control and contamination mechanisms, Faraday's Law and current efficiency, and current state of practice.**

#### Prerequisites

Cer Eng **3230, ~~3230~~** and Met Eng **3220, ~~3220~~** or graduate **standing, or instructor approval. ~~standing.~~**

#### Field Trip

#### Statement

Credit Hours      LEC: **3 ~~0~~**      LAB: 0      IND: 0      RSD: 0

Total: **3 ~~2-3~~**

Required for      No

Majors

Elective for      Yes

Majors

#### Justification for

change:

Course was redesigned to provide instruction to senior and graduate level students on the electrochemical production of copper and zinc. These principles can be applied to many other metal production systems which will be needed to address critical materials needs for the pending energy transition.

This change reflects the modification of the course from an independent study course to a classroom lecture based course which can also be offered asynchronously and as part of future graduate certificates under design.

#### Semesters

previously

offered as an

experimental

course

**Course was offered as an independent studies course in Fall 2018. Will be offered again in Fall 2021. Plan is to offer the course every other year as an elective course.**

Total: 1

Required for  
Majors No

Elective for  
Majors **Yes** ~~No~~

Justification for  
change:

The pre-req/co-req NE 1105 was removed. Students who have participated in the nuclear engineering summer camp and transfer students are given waivers for NE 1105. In some semesters, a large portion of 2406 students have not taken/are not taking NE 1105. This also results in a large number of permission numbers being generated (relative to enrollment).

Committee Chair

An introduction to the principles and equations used in nuclear fission reactor technology including: reactor types; neutron physics and reactor theory; reactor kinetics and control; radiation protection; reactor safety and licensing; and environmental aspects of nuclear power.

#### Prerequisites

**Math 3304; Preceded ~~Physics 2305~~ or accompanied by Physics 2305 or 2311, or Nuc Eng 3103. ~~3103; Math 3304.~~**

#### Field Trip

#### Statement

Credit Hours	LEC: 3	LAB: 0	IND: 0	RSD: 0
Total: 3				

Required for Majors	<b>Yes</b> <del>No</del>
---------------------	--------------------------

Elective for Majors	No
---------------------	----

#### Justification for change:

Historical records of Nuc Eng 3205 show that these course (Physics 2305, 2311 or Nuc Eng 3103 need not be prerequisite to Nuc Eng 3205. The elements of Physics 2305 or 2311 or Nuc Eng 3103, which are needed in the course are covered early in those co-requisites. The knowledge gained is primarily applicable to Nuc Eng 3205 during the second half of the semester.

Physics 2311 is included in the list as alternative co-requisite course because some students who double major in nuclear engineering and physics take Physics 2311 instead of Physics 2305. The addition of Physics 2311 prevents the need to perform course substitution of Physics 2311 for Physics 2305 for degree audit purposes.

#### Semesters

## Master of Science

### Geological Engineering

A master's degree in geological engineering can be earned in any of several ways:

- Research Master of Science (MS), during which the student completes a research project under the direction of a graduate faculty member and writes a comprehensive thesis about the results.
- Non-thesis (also called coursework) MS. This consists of passing a selection of courses customized to serve the needs of the student.
- Master of Engineering (ME). This consists of a selective course curriculum in addition to a practice-oriented project, for which a comprehensive engineering report is written. Currently our program offers a ME degree in geotechnics that is completed online.

### Research MS in Geological Engineering

The thesis MS program consists of a minimum of 30 credit hours, including at least 21 credit hours of lecture courses (at least 9 of which must be in geological engineering), 6 or more credit hours of Geo Eng 6099 (Research), and enrollment in Geo Eng 6010 (Geological Engineering Graduate Seminar) for a minimum of two semesters.

The research topic and the course schedule are selected by the student in consultation with the advisor, who is assigned during the first semester of the student's program. The research is conducted, and the thesis is written and defended, by the student. Details of departmental and campus-wide requirements for the research MS degree can be found in the GGPE Department and Graduate Studies section of this catalog, respectively.

### Coursework MS in Geological Engineering

The non-thesis MS program consists of a minimum of 30 credit hours, including at least one course in each of the three core areas (first table below), plus one or more courses from each of the four emphasis areas following. No fewer than four courses of the total must be geological engineering courses. Course substitutions may be made on a case-by-case basis, especially if some of these courses have been completed as part of the undergraduate curriculum.

#### Core Geological Engineering Courses

Take all 3 (9 credit hours).

<a href="#">GEO ENG 5443</a>	Subsurface Exploration	3
------------------------------	------------------------	---

<a href="#">GEO ENG 5331</a>	Subsurface Hydrology	3
or <a href="#">GEO ENG 5381</a>	Intermediate Subsurface Hydrology And Contaminant Transport Mechs	
<a href="#">GEO ENG 5441</a>	Engineering Geology And Geotechnics	3
or <a href="#">GEO ENG 6441</a>	Geotechnical Construction Practice	
or <a href="#">GEO ENG 6625</a>	Applications in Geological Engineering	

### Engineering Geology and Geotechnics Emphasis Area

Choose 1-3 courses; at least one course must be in geological engineering (3 to 9 credit hours).

<a href="#">GEO ENG 5471</a>	Rock Engineering	3
<a href="#">GEO ENG 6441</a>	Geotechnical Construction Practice	3
<a href="#">GEO ENG 6477</a>	Discontinuous Rock	3
<a href="#">GEO ENG 6625</a>	Applications in Geological Engineering	3
<a href="#">CIV ENG 5715</a>	Intermediate Soil Mechanics	3
<a href="#">CIV ENG 5716</a>	Geotechnical Earthquake Engineering	3
<a href="#">CIV ENG 5729</a>	Foundation Engineering II	3

### Environmental and Hydrology Emphasis Area

Chose 1-3 courses (3 to 9 credit hours).

<a href="#">GEO ENG 5233</a>	Risk Assessment In Environmental Studies	3
<a href="#">GEO ENG 5235</a>	Environmental Geological Engineering	3
<a href="#">GEO ENG 5237</a>	Geological Aspects Of Hazardous Waste Management	3
<a href="#">GEO ENG 5381</a>	Intermediate Subsurface Hydrology And Contaminant Transport Mechs	3
<a href="#">GEO ENG 6235</a>	Advanced Concepts Of Environmental Geological Engineering	3
<a href="#">GEO ENG 6237</a>	Advanced Geological & Geotechnical Design For Hazardous Waste Mgt	3
<a href="#">GEO ENG 6331</a>	Advanced Subsurface Hydrology	3

### Engineering Geophysics Emphasis Area

Choose 1 to 2 courses (3 to 6 credit hours).

<a href="#">GEO ENG 5736</a>	Geophysical Field Methods	3
<a href="#">GEO ENG 5761</a>	Transportation Applications of Geophysics	3
<a href="#">GEO ENG 5782</a>	Environmental and Engineering Geophysics	3
<a href="#">GEO ENG 6782</a>	Surface Waves (MASW) and Ground Penetrating Radar (GPR)	3
<a href="#">GEO ENG 6784</a>	Advanced Engineering And Environmental Geophysics	3

### Data Analysis Emphasis Area

Choose 1 to 2 courses (3 to 6 credit hours).

<a href="#">GEO ENG 5144</a>	Remote Sensing Technology	3
<a href="#">GEO ENG 5146</a>	Applications Of Geographic Information Systems	3
<a href="#">GEO ENG 5315</a>	Advanced Statistical Methods in Geology and Engineering	3
<a href="#">GEO ENG 5556</a>	Renewable Energy Systems	3
<a href="#">COMP SCI 5204</a>	Regression Analysis	3

<a href="#">STAT 5260</a>	Statistical Data Analysis Using SAS	3
<a href="#">STAT 5346</a>	Regression Analysis	3
<a href="#">STAT 5353</a>	Statistical Data Analysis	3
<a href="#">STAT 5814</a>	Applied Time Series Analysis	3

#### Justification for request

The Geological Engineering non-thesis master's degree will be offered online and main campus.

Graduate work in geology and geophysics is offered at both the master of science (thesis and non-thesis) and doctoral levels. Programs are designed to provide you with an understanding of the fundamentals and principles of geology, geochemistry, and geophysics. Research investigations comprise a significant part of each program, and at the doctoral level an original contribution to the science is required.

Research emphasis of the program is in:

- Low Temperature and Environmental Geochemistry
- Mineralogy/Petrology/Economic Geology
- Geophysics/Tectonics/Remote Sensing
- Sedimentology/Paleontology/Stratigraphy/Petroleum Exploration

In geology and geochemistry, opportunities for research at both the M.S. and Ph.D. levels are available in mining geology, petroleum geology, environmental geochemistry, stratigraphy and sedimentation, clay mineralogy, remote sensing, GIS, palynology, structural geology, igneous and metamorphic petrology, volcanology, and planetary geology.

In geophysics, opportunities for research at both the M.S. and Ph.D. levels are available in the areas of reflection and refraction seismology, theoretical seismology, geophysical data analysis, gravity, magnetics, seismic hazards, and computational geophysics.

The study of the Earth and other planets includes all areas of scientific inquiry. To work effectively in so broad a discipline requires considerable depth and breadth of understanding of physical principles and advanced proficiency in mathematics, particularly for those students contemplating advanced studies in geophysics. A thorough undergraduate training in an earth or physical science is a prerequisite for advanced study in geology or geophysics.

Earth sciences have been an integral part of the university since its founding. The program has a long and proud history of faculty and students who have contributed to the advancement of the science, to mineral and hydrocarbon exploration, and to protecting the environment. The university was formerly the Missouri School of Mines. Because of the school's tradition and location near the Missouri

Lead District, the emphasis of the program has been in exploration for mineral and petroleum resources. The program has expanded to include environmental geochemistry, geophysics, soft rock geology, and planetary geology. Our graduates find employment in the mining, petroleum, and environmental industries, as well as with government agencies and academia. The program provides students with diverse educational opportunities to prepare themselves to seek employment in any area of the earth sciences.

The program has a wide variety of equipment for research and exploration in geology, geochemistry, and geophysics. Interaction with mining engineering, geological engineering, petroleum engineering, metallurgy, environmental engineering, biological sciences and various other programs/departments is routine. Our faculty and graduate students commonly participate in collaborative research with other departments on campus as well as universities worldwide. In addition, cooperative research and internship opportunities with the Missouri Geological Survey, the U.S. Geological Survey's National Geospatial Technical Operations Center and the Mark Twain National Forest Service, all located in Rolla, are available. Cooperative programs with local mining companies, petroleum companies, or other industries are also possible. Thus, your research interests need not fall entirely within the interests of our faculty or within the bounds of the equipment directly available within the program.

A B.S. degree is essential for professional practice in geology or geophysics in industry. Due to the increasing complexity of jobs in the geosciences, the M.S. degree is recognized as the "professional degree" for geoscientists desiring employment in the Petroleum, Minerals, and many other industries. The Ph.D. degree is for those students that want to conduct original research with purpose of adding new knowledge in a specific area of the geosciences. Successful Ph.D. candidates find employment in academia or research centers in government agencies or corporate research labs.

Two M.S. degree options are available: thesis and non-thesis. All Geology and Geophysics MS students are required to take the Professional Geosciences Skills course ([GEOLOGY 5100](#)) and either Advanced Physical Geology ([GEOLOGY 5111](#)) or Global Tectonics ([GEOPHYS 5096](#)). For students whose native language is not English, a minimum score of 79 TOEFL, or a minimum of 53 PTE, or a minimum of 6.5 IELTS is generally required for admission. Suggested minimum GRE scores: Q150 and A(W) 3.0 and (verbal score + quantitative score = 300)

#### Justification for request

The Geology and Geophysics non-thesis master's degree will be offered online and main campus.

## History

1. Jul 24, 2015 by  
pantaleoa
2. Jul 1, 2020 by  
Kristy Giacomelli-  
Feys (kristyg)

The petroleum engineering program offers courses of study leading to the masters of science, doctor of philosophy, or doctor of engineering degrees. The master's degree can be earned with either a thesis option or a non-thesis option.

While the program encourages students with an undergraduate degree in petroleum engineering to pursue graduate study, many graduate students are accepted with backgrounds in other areas of engineering, such as chemical engineering, mechanical engineering, or geological engineering. The program accepts such students with the expectation that any remedial petroleum engineering coursework will be met by the student while in residence for the master's degree. Students with backgrounds in geology or geophysics will also need to complete all fundamental engineering courses required for a degree in engineering.

Graduate students studying for a masters degree with a thesis option typically find support for their study depending on current research projects and the availability of funding. Students preferring the non-thesis option are typically self-funding for their masters degree.

Each student's graduate degree program is designed around a set of core petroleum engineering courses and other courses selected to support the thesis topic of interest. Students identify their thesis topic by the end of their first semester.

Research specialties of the petroleum engineering program include reservoir enhancement, hydraulic fracturing, CO2 sequestration, gel treatments, drilling, well completion performance studies, and geomechanics of petroleum recovery.

The program emphasizes mechanical earth modeling (MEM) as a specialty. The MEM group owns part of the university numerical intensive computing cluster. Students with a strong background in geological engineering and geomechanics will likely find excellent opportunities for advanced studies.

The petroleum engineering laboratories contain modern equipment designed to study the many problems encountered in oil and gas production, as well as support research. The department laboratories include gas porosimeter and permeameter, liquid permeameter, viscometers, tensiometers, and a HPTP core flooding cell. The program also utilizes departmental facilities that include core cutting and preparation, laser ablation, XRD, SEM, and a triaxial and fracture cell and a direct shear apparatus for determining rock and fracture properties.

Students externally supported by international oil and gas operating companies may also suggest research topics related to their professional experience or special topics of interest to their companies.

Suggested minimum GRE scores: Q150 and A(W) 3.0 and (verbal score + quantitative score = 300)

For additional information regarding graduate study opportunity contact [rocks@mst.edu](mailto:rocks@mst.edu). Additional information may also be found at the web pages at: <http://gse.mst.edu/> or <http://petroleum.mst.edu/>.

**Justification for request**

The Petroleum Engineering non-thesis master's degree will be offered online and main campus.

Students must complete a minimum of 120 hours for a Bachelor of Science in English & Technical Communication, and obtain a grade point average of 2.0. These requirements for the B.S. are in addition to credit received for basic ROTC.

Communications. Student must take the following 9 hours of courses:		
<a href="#">ENGLISH 1120</a>	Exposition And Argumentation	3
<a href="#">ENGLISH 2002</a>	Critical Approaches To Literature	3
One writing intensive course out of major OR two writing emphasized courses out of major		3

Math and Sciences. Students must take **18 hours of math and science courses**, including at least one in biological science and one in the physical sciences and at least one math course at the level of college algebra or higher. In addition to these requirements, students may count [STAT 1115](#), up to 3 hours from psychology classes, and up to 3 hours from history of science and technology classes ([HISTORY 2510](#), [HISTORY 3510](#), or [HISTORY 3530](#)), but may not use them to satisfy another requirement.

Humanities. Students must complete **9 hours in humanities** with at least one course from each of the following: literature, philosophy, and fine arts (Art, Music, or Theater Appreciation).

Social Sciences. Students must complete **12 hours in social science courses**. Students must take at least one course in two of these four areas: economics, history, political science, and psychology.

One of the following courses must be taken to satisfy the requirement of the state of Missouri (the "Williams Law"); this course may count toward fulfilling the social sciences requirement		
<a href="#">HISTORY 1200</a>	Modern Western Civilization	3
<a href="#">HISTORY 1300</a>	American History To 1877	3
<a href="#">HISTORY 1310</a>	American History Since 1877	3
<a href="#">POL SCI 1200</a>	American Government	3

**English and Technical Communication.** Students must complete **33 credit hours of courses in ENGLISH and/or TCH COM**. The student must earn a grade of C or better in these required courses.

All students must take the following 9 hours for the major:

<a href="#">ENGLISH 2410</a>	Theory Of Written Communication	3
<a href="#">TCH COM 4410</a>	Theory and Practice of Technical Communication	3
<a href="#">TCH COM 5620</a>	Research Methods in Technical Communication	3

Each student chooses *at least* one of the following **CORE MODULES**, which helps define each student's focus for the degree and provides foundational skills within that focus:

I. **Technical Communication** (12 hours):

<a href="#">TCH COM 1600</a>	Introduction to Technical Communication	3
------------------------------	---	---

<a href="#">TCH COM 2540</a>	Layout and Design	3
<a href="#">TCH COM 5510</a>	Technical Editing	3
One of the following:		
<a href="#">TCH COM 3550</a>	Writing for Social Media	3
<a href="#">TCH COM 3580</a>	Business Communication	3
<a href="#">TCH COM 3570</a>	Writing in the Sciences	3
<a href="#">TCH COM 5560</a>	Web-Based Communication	3

## II. Literature (12 hours):

- One 1000 or 2000 level literature class
- One 2000 or 3000 level literature class with a “media” or “genre” designation
- One 3000 level literature class with a geographical designation
- One 3000 level literature class with a historical or cultural designation

## III. Linguistics (12 hours):

<a href="#">ENGLISH 3301</a>	A Linguistic Study Of Modern English	3
<a href="#">ENGLISH 3302</a>	History And Structure Of The English Language	3
<a href="#">ENGLISH 3303</a>	The Grammatical Structure of English	3
<a href="#">ENGLISH 3304</a>	Language in Society	3

Students should choose the remaining required hours in E&TC in consultation with their advisor to complete specialized modules and certificates that correspond with their interests and future goals. Specialized modules are generally sets of 3-4 courses that allow students to pursue specialized areas of our degree program. Please refer to E&TC website and/or consult your advisor for a full list of current modules and certificates. Some of these include: Creative Writing, Professional Writing, Game Studies, English Education, Digital Presence Management.

**Electives Credit.** Each student will elect sufficient additional courses to complete a minimum of 120 credit hours, at the discretion of the major adviser. Electives housed in other departments can and should be used to fulfill requirements for interdisciplinary specialized modules and certificates. At least 9 hours of these electives must be at the 3000 or above level, although substitutions may be permitted at the discretion of the major adviser. All electives must accumulate to at least a 2.0 grade point average.

**English Education Certification.** The student will fulfill the general requirements for the bachelor of science degree, the requirements for the ETC major, and the requirements for Missouri certification in the teaching of English including a 3.0 in all content courses, a 2.75 cumulative GPA, and passage of the Missouri Content exam. Contact the Missouri S&T English & Tech Com department for advising. Students preparing for teacher certification should note that the major requirements for English certification are as follows:

1. [ENGLISH 1211](#) [ENGLISH 1211](#)[ENGLISH 1211](#)[ENGLISH 1211](#), [ENGLISH 1212](#)  
[ENGLISH 1212](#)[ENGLISH 1212](#)[ENGLISH 1212](#), [ENGLISH 1221](#) [ENGLISH 1221](#)[ENGLISH 1221](#)[ENGLISH 1221](#), [ENGLISH 1222](#)  
[ENGLISH 1222](#)[ENGLISH 1222](#)[ENGLISH 1222](#).
2. [ENGLISH 2002](#) [ENGLISH 2002](#)[ENGLISH 2002](#)[ENGLISH 2002](#) Critical Approaches to Literature.
3. Capstone course for major: [TCH COM 4410](#).
4. Fifteen hours of course work at the 2000 or 3000 level in English and American literature, including two courses in English Literature; and two American Literature courses, including literature for adolescents.
5. Six hours of linguistics.

6. Twelve hours of writing, including a course in the teaching of writing. Six of these hours will also be satisfied by the general education composition requirement for the B.S. degree; three of these hours will also be satisfied by the capstone course.

7. A minimum of fifteen hours must be at the 3000 level or above.

### **Graduate Track Pathway to MS in Technical Communication:**

An undergraduate in the Department of English and Technical Communication at Missouri S&T, and select undergraduates in other departments, may opt to apply for the Graduate Track Pathway in Technical Communication (TC). This program allows a student to complete a bachelor's degree and then the MS in Tech Com in less time than if pursuing each degree consecutively. In this program, 9 hours of TC MS coursework may apply to both the BS and MS requirements. The credit hours transferred from their Missouri S&T bachelor's degree to their Technical Communication master's degree may be taken at the lower undergraduate tuition rate.

To be eligible for the GTP, an undergraduate must be one year from completion of their bachelor's degree (excluding the semester in which they are currently enrolled). They must have completed 9 credit hours of any combination of English and TC courses selected from 1160, 1600, 2002, 2410, 2540, 2560, and any 3000 or 4000 level English or TC course at Missouri S&T with at least a 3.50 GPA in those courses and a cumulative GPA of 3.0 or higher.

To be admitted, the student must complete the GTP Admission and Course Approval Form and must have the recommendation of a TC faculty member. Once admitted to the GTP, the student may transfer nine credit hours from their Missouri S&T bachelor's degree to their Technical Communication master's degree. Depending on the bachelor's program, some or all of those hours might also fulfill elective undergraduate categories. These nine hours of shared credit will be charged at the undergraduate tuition rate. The nine hours of shared-credit coursework must be approved by the academic advisor and must be courses approved to be part of the MS curriculum. Taking additional courses for graduate credit beyond these nine hours will require formal application and acceptance to the MS program. Acceptance to the MS program from the GTP is assured so long as the student maintains a 3.0 GPA or higher in TC coursework.

E&TC majors are encouraged to consult with their academic advisor during their sophomore or junior year about preparing for GTP admission.

### **Justification for request**

The Department of English & Technical Communication is proposing these changes for several reasons:

- **Pedagogical efficacy:** Because the majority of our departmental faculty teach both English and tech com courses, we've recognized that our majors perform better, both in school and in their later careers, if they have a solid grounding in both. We are in our second year of an introduction to the department/major(s) that teaches literary study, linguistics, and technical communication as distinct but complementary fields. That course, English 2002, has been very successful and has encouraged us toward this combined major.
- **Career-readiness:** Technical writers with a strong background in composition, rhetoric, and textual analysis are better able to adapt to a changing work world. English majors with a background in technical editing and layout and design are more likely to win the entry-level positions from which they can advance.
- **Practical concerns:** Enrollments in humanities fields are shrinking across the country and across the state. Budgetary constraints are also shrinking humanities faculties. In E&TC, we feel we can offer a higher quality degree if we concentrate on what we do well rather than trying to offer several separate programs at once.
- **Institutional mission:** Our combined program will be unique in the Missouri System and within the state. It makes sense to take this technical focus at S&T and to play to the traditional strengths of our campus.

Our majors do well after college when they can speak to the benefits of being an English & Tech Com major on a STEM-focused campus. We want to enhance their ability to do that.

## Bachelor of Arts Psychology

A minimum of 120 credit hours is required for a bachelor of arts degree in psychology and an average of at least two grade points per credit hour must be obtained. The psychology B.A. curriculum requires 6 hours of English Composition, 14 hours of math and science, 12 semester hours in humanities, 12 semester hours is required in social sciences, 11-16 hours of foreign language and a minimum of 35 hours are required in psychology. Up to 12 credit hours of advanced ROTC may be credited toward the degree. Specific requirements for the bachelor of arts degree are outlined in the sample program listed below.

1. [ENGLISH 1120](#) and one additional three hour composition course (6 hours).
2. Western civilization ([HISTORY 1100](#) and [HISTORY 1200](#)) (6 hours).
3. Foreign languages for at least 3 semesters of basic study in French, German, Russian, Spanish or an approved substitute; or one year of basic study in a foreign language in either French, German, Russian, Spanish, or an approved substitute, and a humanities or social sciences course taught in a foreign country and employing the language of that country; or one year of

basic study in each of two of the foreign languages of French, German, Russian or Spanish or an approved substitute (11-16 hours).

4. Sciences. At least one course taken in biological (biological sciences) and physical (chemistry, geology and geophysics, physics) sciences. A laboratory course is required (and a lab offered in engineering also may count at the discretion of the student's major advisor) toward the total requirement. Stat 1115 is required, and an additional elective in Science or Math (14 hours).
5. Humanities and fine arts. Courses used to satisfy this requirement must include one course in each of the three areas of literature (English or American), philosophy, and fine arts (art, music or theater), but not to include studio and performance offerings (12 hours).
6. Social Sciences. At least two of the following social science areas are to be included: economics, political science, or history (6 hours).

7.	Psychology Courses (35 hours)		
	Required:*		
	General Skills Courses:		
	<a href="#">PSYCH 1100</a>	Introduction to Psychology	1
	<a href="#">PSYCH 1101</a>	General Psychology	3
	<a href="#">PSYCH 2200</a>	Research Methods	4
	Content Courses:		
	<a href="#">PSYCH 3310</a>	Developmental Psychology	3
	<a href="#">PSYCH 4400</a>	Cognitive Psychology	3
	<a href="#">PSYCH 4501</a>	Abnormal Psychology	3
	<a href="#">PSYCH 4600</a>	Social Psychology	3
	And one of the following 2 courses:		
	<a href="#">PSYCH 4410</a>	Neuroscience	3
	<a href="#">PSYCH 4411</a>	Sensation and Perception	3
	Capstone Course:		
	Select three credit hours from the Capstone courses:		
	<a href="#">PSYCH 4010</a>	Seminar	0-6
	<a href="#">PSYCH 4099</a>	Undergraduate Research	0-6
	<a href="#">PSYCH 4200</a>	Tests and Measurements	3
	<a href="#">PSYCH 4590</a>	Health Psychology	3
	<a href="#">PSYCH 4994</a>	Psychology in Media	3
	<a href="#">PSYCH 4992</a>	Cross-Cultural Psychology	3
	<a href="#">PSYCH 4993</a>	Psychology of Gender	3
	<a href="#">PSYCH 4990</a>	Internship	0-6
	*These required courses total 26 hours.		
	Elective Courses:		
	Select an additional 9 hours of psychology electives to complete the 35 hour degree requirement.		

8. Major-field requirements: A cumulative grade point average of 2.0 must be earned in all course work taken in the major field. Upper-class (3000-4000-level) courses completed with grades of "D" may not be included in the course work for the major field without the approval of the chair of the department. At least nine hours of upper-class work in the major field must be completed in residence at Missouri S&T.

9. Minor: A minor will be selected from any discipline other than the major with the approval of the student's advisor. A total of at least 15 hours is required for the minor, but may include courses which also satisfy other requirements. At least nine hours must be beyond the introductory level. A cumulative grade point average of 2.0 must be earned in all course work required in the minor field. At least six hours of work in the minor field must be completed in residence at Missouri S&T.
10. Basic ROTC may be elected in the freshman and sophomore years, but is not creditable toward a degree. Up to 12 credit hours of advanced ROTC may be credited toward a degree.
11. Elective Credits: In consultation with his/her advisor, each student will elect sufficient additional courses to complete a minimum of 120 credit hours.

## Emphasis Areas

Note: The following areas identify courses from which a student may opt to develop an emphasis area. It is not required that students obtain an emphasis specialty within psychology. **At least one class for each emphasis area is already required for all majors, so the remaining three may be taken as the additional 9 hours of required psychology electives. In this way, getting an emphasis requires no additional courses, just less flexibility in which courses you take.**

## Bachelor of Arts Psychology (Secondary Education Emphasis Area)

You may earn a B.A. degree in psychology from Missouri S&T and certification to teach at the secondary level in the schools of Missouri with the secondary education emphasis area program. This program can be completed in four academic years and student teaching is arranged with public schools within 30 miles of the Rolla campus.

Students interested in this emphasis area should consult with the advisor for the secondary education emphasis area in the department of psychological science.

In order to successfully complete this emphasis area, students must have at least 22 on the ACT, maintain a cumulative GPA of at least 2.5, and attain at least a 2.5 GPA in psychology courses taken. Current Missouri S&T or transfer students who wish to pursue this emphasis area must meet both of these GPA requirements to be accepted into the program. Students must also meet all requirements listed under the teacher education program in this catalog. Students who do not meet all the teacher certification requirements will not be eligible for the secondary education emphasis area, even if they have completed all course work.

A degree with this emphasis area requires 125 credit hours. The required courses are provided below.

Communications Skills: 6 semester hours		
<a href="#">ENGLISH 1120</a>	Exposition And Argumentation	3
<a href="#">ENGLISH 1160</a>	Writing And Research	3
Humanities: 12 semester hours		
Art, Music, or Theatre course		3
Philosophy course		3
Literature course		3
One additional humanities from the above course groups, Foreign Language, or Etymology		3
Social Sciences: 21 semester hours		
<a href="#">HISTORY 1300</a>	American History To 1877	3
<a href="#">HISTORY 1310</a>	American History Since 1877	3
<a href="#">POL SCI 1200</a>	American Government	3

A minimum of 120 credit hours is required for a bachelor of science degree in psychology and a cumulative grade point average of 2.0 must be obtained. These requirements for the B.S. degree are in addition to credit received for basic ROTC.

The psychology bachelor of science curriculum requires six hours of English composition; 20 hours of math, science and computer science; twelve semester hours in the humanities; and twelve semester hours in the social sciences. Specific requirements for the bachelor degree are outlined in the sample program listed below.

1. [ENGLISH 1120](#) and [ENGLISH 1160](#) (entering students will normally take [ENGLISH 1120](#) either semester of the first year.) (6 hours)
2. A total of 20 hours in biological, physical, (chemistry, geology and geophysics, and physics), and mathematical (mathematics/statistics and computer science or information science & technology) sciences, to include at least one course taken in the biological and one in the physical sciences. Of the biological and physical science offerings, at least one must be a laboratory course. Stat 1115 is required. Engineering courses may, at the discretion of the student's major advisor, also count toward this total requirement. (20 hours)
3. 12 hours in humanities and fine arts (literature, philosophy, art, music, or theater). Foreign language courses may count toward fulfilling this requirement. Courses used to satisfy this requirement must be taken in at least two humanities areas. (12 hours)
4. 12 hours in at least two social sciences fields outside the major area (economics or history or political science). A course in Modern Western Civilization ([HISTORY 1200](#)), American History To 1877 ([HISTORY 1300](#)) or American History Since 1877 ([HISTORY 1310](#)), or American Government ([POL SCI 1200](#)) must be taken to satisfy the requirement of the state of Missouri (the "Williams Law"), and this course may count toward fulfilling the social sciences requirement. (12 hours)
5. Minor: A minor will be selected from any discipline other than the major with the approval of the student's advisor. A total of at least 15 hours is required for the minor, but may include courses which also satisfy other requirements. At least nine hours must be beyond the introductory level.
6. Basic ROTC may be elected in the freshman and sophomore years, but is not creditable toward a degree. Six credit hours of advanced ROTC may be credited toward a degree.
7. Elective Credits: In consultation with his/her advisor, each student will elect sufficient additional courses to complete a minimum of 120 credit hours which may include [MATH 1160](#) and one of [MATH 1120](#) or [MATH 1140](#).

8. Psychology Courses (35 hours)

Required:\*

General Skills Courses:

<a href="#">PSYCH 1100</a>	Introduction to Psychology	1
----------------------------	----------------------------	---

<a href="#">PSYCH 1101</a>	General Psychology	3
----------------------------	--------------------	---

<a href="#">PSYCH 2200</a>	Research Methods	4
----------------------------	------------------	---

Content Courses:

<a href="#">PSYCH 3310</a>	Developmental Psychology	3
----------------------------	--------------------------	---

<a href="#">PSYCH 4400</a>	Cognitive Psychology	3
----------------------------	----------------------	---

<a href="#">PSYCH 4501</a>	Abnormal Psychology	3
----------------------------	---------------------	---

<a href="#">PSYCH 4600</a>	Social Psychology	3
----------------------------	-------------------	---

And one of the following 2 courses:

<a href="#">PSYCH 4410</a>	Neuroscience	3
----------------------------	--------------	---

<a href="#">PSYCH 4411</a>	Sensation and Perception	3
----------------------------	--------------------------	---

Capstone Course:

Select three credit hours from the following Capstone courses:

<a href="#">PSYCH 4010</a>	Seminar	0-6
----------------------------	---------	-----

<a href="#">PSYCH 4099</a>	Undergraduate Research	0-6
----------------------------	------------------------	-----

<a href="#">PSYCH 4200</a>	Tests and Measurements	3
----------------------------	------------------------	---

<a href="#">PSYCH 4590</a>	Health Psychology	3
----------------------------	-------------------	---

<a href="#">PSYCH 4994</a>	Psychology in Media	3
<a href="#">PSYCH 4992</a>	Cross-Cultural Psychology	3
<a href="#">PSYCH 4993</a>	Psychology of Gender	3
<a href="#">PSYCH 4990</a>	Internship	0-6
*These required courses total 26 hours.		
Elective Courses:		
Select an additional 9 hours of psychology electives to complete the 35 hour degree requirement.		

9. A cumulative grade point average of 2.0 must be earned in all course work taken in the major field. Upper class (3000-level and above) courses completed with grades of "D" may not be included in the course work for the major field without the approval of the advisor and the chair of the department concerned.

## Emphasis Areas

Note: The following areas identify courses from which a student may opt to develop an emphasis area. It is not required that students obtain an emphasis specialty within **psychology**. **At least one class for each emphasis area is already required for all majors, so the remaining three may be taken as the additional 9 hours of required psychology electives.** ~~psychology~~. In this way, getting an emphasis requires no additional courses, just less flexibility in which courses you take.

## Bachelor of Science Psychology (Secondary Education Emphasis Area)

You may earn a B.S. degree in psychology from Missouri S&T and certification to teach at the secondary level in the schools of Missouri with the secondary education emphasis area program. This program can be completed in four academic years and student teaching is arranged with public schools within 30 miles of the Rolla campus.

Students interested in this emphasis area should consult with the advisor for the secondary education emphasis area in the department of psychological science.

In order to successfully complete this emphasis area, students must have at least 22 on the ACT, maintain a cumulative GPA of at least 2.5, and attain at least a 2.5 GPA in psychology courses taken. Current Missouri S&T or transfer students who wish to pursue this emphasis area must meet both of these GPA requirements to be accepted into the program. Students must also meet all requirements listed under the teacher education program in this catalog. Students who do not meet all the teacher certification requirements will not be eligible for the secondary education emphasis area, even if they have completed all course work.

A degree in this emphasis area requires **125** ~~128~~ credit hours. The required courses are provided below.

Communications Skills: 3 semester hours		
<u>ENGLISH 1120</u>	Exposition And Argumentation	3
Humanities: 12 semester hours		
Art, Music, or Theatre course		3
Philosophy course		3
Literature course		3
One additional humanities from the above course groups, Foreign Language, or Etymology		3-4
Social Sciences: 21 semester hours

<a href="#">HISTORY 3240</a>	Contemporary Europe	
<a href="#">HISTORY 3660</a>	Modern East Asia	

#### Justification for request

Updating emphases to reflect changes in departmental focus and offerings.

We also reduced the number of math and science electives in the secondary education emphasis to bring the total credit burden down to 125, in line with the BA.

## Business Analytics and Data Science

Data analytics facilitates realization of objectives by identifying trends, creating predictive models for forecasting, and optimizing business processes for enhanced performance. Three main categories of analytics are:

- Descriptive - the use of data to find out what happened in the past.
- Predictive - the use of data to find out what could happen in the future.
- Prescriptive - the use of data to prescribe the best course of action for the future.

Big data is an emerging phenomenon. Computing systems today are generating 15 petabytes of new information every day—eight times more than the combined information in all the libraries in the U.S.; about 80% of the data generated every day is textual and unstructured data.

This graduate certificate is one of three graduate certificates offered by cooperating departments at Missouri S&T to fulfill the needs in the area described as "big data." The other two graduate certificates are:

- Big Data and Security
- Big Data Management and Analytics

Required Core Courses:	
<a href="#">IS&amp;T 5420</a>	Business Analytics and Data Science
<a href="#">IS&amp;T 5450</a>	Course IS&T 5450 Not Found
One course from the following:	
<a href="#">BUS 5730</a>	Machine Learning and Artificial Intelligence for Business
<a href="#">IS&amp;T 5520</a>	Data Science and Machine Learning with Python
<a href="#">ERP 5410</a>	Use of Business Intelligence
<a href="#">COMP SCI 5204</a>	Regression Analysis
<a href="#">COMP SCI 5402</a>	Introduction to Data Mining
<a href="#">COMP SCI 6304</a>	Cloud Computing and Big Data Management
<a href="#">COMP ENG 6330</a>	Clustering Algorithms
<a href="#">STAT 5814</a>	Applied Time Series Analysis
One course from the following:	
<a href="#">IS&amp;T 5445</a>	Course IS&T 5445 Not Found
<a href="#">IS&amp;T 5535</a>	Machine Learning Algorithms and Applications
<a href="#">IS&amp;T 6443</a>	Information Retrieval and Analysis
<a href="#">IS&amp;T 6641</a>	Advanced Digital Commerce and the Internet of Things
<a href="#">IS&amp;T 6444</a>	Essentials of Data Warehouses
<a href="#">IS&amp;T 6448</a>	Building the Data Warehouse

<a href="#">IS&amp;T 6887</a>	Research Methods in Business and IS&T
<a href="#">ERP 5210</a>	Performance Dashboard, Scorecard and Data Visualization
<a href="#">ERP 6610</a>	Advanced Customer Relationship Management in ERP Environment
<a href="#">ERP 6220</a>	Data Modeling & Visualization Prototyping for Enterprise Decision Dashboards
<a href="#">BUS 6425</a>	Supply Chain and Project Management

~~A student admitted to this graduate certificate must complete four courses:~~

<del>IS&amp;T 5420</del>	<del>Business Analytics and Data Science</del>
<del>IS&amp;T 6450</del>	<del>Information Visualization</del>
<del>One course from the following:</del>

## Cybersecurity and Information Assurance Management

Cybersecurity is one of the fastest growing employment segments in IT. As technology grows and progresses, with our devices and lives becoming more and more interconnected, the challenges of cybersecurity and information assurance will continue to grow. This presents a career to those with the necessary skills that will be exciting, rewarding, fast-paced, and highly sought after.

A student admitted to this graduate certificate must complete four courses:

Required core courses:	
<a href="#">BUS 5910</a>	Privacy and Information Security Law
<del>IS&amp;T 6780</del>	<del>Adv Human and Organizational Factors in Cybersecurity</del>
<b>IS&amp;T 5780</b>	<b>Course IS&amp;T 5780 Not Found</b>
Two courses from the following list:	
<a href="#">ERP 5240</a>	Enterprise Application Development and Software Security
<del>IS&amp;T 6335</del>	<del>Mobile Technology for Business</del>
<b>IS&amp;T 5335</b>	<b>Course IS&amp;T 5335 Not Found</b>

Stephen Raper (sraper): Approved for Campus Curricula Committee Chair

## History

1. Jul 1, 2020 by Sharon Lauck (laucks)

The graduate certificate in Geoanalytics and Geointelligence is designed to provide formalized education in the areas of geoanalytics, geospatial data analysis, and geointelligence.

The Geoanalytics and Geointelligence Certificate Program is open to all persons holding a B.S., M.S., or Ph.D. degree in Geology, Geophysics, Geological Engineering, Geotechnics, Civil Engineering, or similar programs or who are currently accepted into a graduate degree program in one of these fields at Missouri S&T. Once admitted to the program, the student must take the four designated courses (provided in the curriculum section). In order to receive a Graduate Certificate, the student must have an average cumulative grade point of 3.0 or better in the certificate courses. Once admitted to the program, a student will be given three years to complete the program.

Students admitted to the Geoanalytics and Geointelligence Certificate Program will have non-degree graduate status, however, they will earn graduate credit for the courses they complete. If the student completes the four-course sequence with a grade of B or better in each of the courses taken, they, upon application, will be admitted to their choice of non-thesis M.S. degree programs in either Geological Engineering or Geology and Geophysics. The certificate credits taken by the students admitted to the M.S. degree program will count towards their master's degree. Students who do not have all of the prerequisite courses necessary to begin the courses in the Geoanalytics and Geointelligence Certificate Program will be allowed to take "bridge" courses at either the graduate or undergraduate level to prepare for the formal certificate courses.

Required Course:

<a href="#">GEOLOGY 4831</a>	Computational Geology	3
<a href="#">IS&amp;T 5535</a>	<b>Machine Learning Algorithms and Applications</b>	<b>3</b>
<a href="#">SYS ENG 6213</a>	<b>Deep Learning and Advanced Neural Networks</b>	<b>3</b>

1. Only one of the listed courses may count toward completion of this certificate.

2. Only one of the listed courses may count toward completion of this certificate.

#### Justification for request

1. Modality Change: The Geoanalytics and Geointelligence certificate is offered online and main campus.

2. Course Additions: The purpose of the revision is to add the following two graduate courses to the Geoanalytics and Geointelligence certificate's required course options: IST 5535 "Machine Learning Algorithms and Applications"; Sys Eng 6213 "Deep Learning and Advanced Neural Networks".

## Geophysics

The graduate certificate in Geophysics is designed to provide graduate students who want to emphasize this area of research with course guidance and a formal recognition. A certificate in Geophysics will give students an advantage when applying for careers in oil and gas, mining, and other fields.

The Geophysics Certificate Program is open to all persons holding a B.S., M.S., or Ph.D. degree in Geology, Geophysics, Geological Engineering, Petroleum Engineering, or Civil Engineering or are currently accepted into a graduate degree program in one of these fields at Missouri S&T. Once admitted to the program, the student must take the four designated courses (provided in the curriculum section). In order to receive a Graduate Certificate, the student must have an average cumulative grade point of 3.0 or better in the certificate courses. Once admitted to the program, a student will be given three years to complete the program.

Students admitted to the Geophysics Certificate Program will have non-degree graduate status, however, they will earn graduate credit for the courses they complete. If the student completes the four-course sequence with a grade of B or better in each of the courses taken, they, upon application, will be admitted to the non-thesis M.S. degree program in Geology and Geophysics. The certificate credits taken by the students admitted to the M.S. degree program will count towards their master's degree. Students who do not have all of the prerequisite courses necessary to begin the courses in the Geophysics Certificate Program will be allowed to take "bridge" courses at either the graduate or undergraduate level to prepare for the formal certificate courses.

Four of the following courses are required:		
<a href="#">GEOPHYS 4231</a>	Seismic Interpretation	3
<a href="#">GEOPHYS 5096</a>	Global Tectonics	3
<a href="#">GEOPHYS 5202</a>	Exploration and Development Seismology	3
<a href="#">GEOPHYS 5211</a>	Seismic Stratigraphy	3
<a href="#">GEOPHYS 5221</a>	Wave Propagation	3

## Management and Leadership

This certificate is designed to prepare students to be the leaders of the future, by enabling them to manage through the use of technology. Understanding technology is becoming ever more critical in business as a tool used by efficient and effective managers. These leaders not only understand the managerial process and how to inspire others, but also know how to harness technology to expedite the process. The

certificate incorporates management theories, technological savvy, and leadership skills to create a student who is ready for the challenges of a fast paced managerial position.

A student admitted to this graduate certificate must complete four courses:

<b>Required Core Course:</b>	
<b><u>BUS 6121</u></b>	<b>Teambuilding and Leadership</b>
<b>Elective courses (choose three):</b>	
<b><u>BUS 5580</u></b>	<b>Strategic Management</b>
<b><u>BUS 5111</u></b>	<b>Course BUS 5111 Not Found</b>
<b><u>BUS 5470</u></b>	<b>Human Resource Management</b>
<b><u>BUS 6425</u></b>	<b>Supply Chain and Project Management</b>
<b><u>BUS 6723</u></b>	<b>Artificial Intelligence, Robotics, and Information Systems Management</b>
<b><u>IS&amp;T 6261</u></b>	<b>Advanced Information Systems Project Management</b>
<b><u>IS&amp;T 5251</u></b>	<b>Technological Innovation Management and Leadership</b>
<b><u>IS&amp;T 5168</u></b>	<b>Law and Ethics in E-Commerce</b>
<b><u>MKT 5150</u></b>	<b>Course MKT 5150 Not Found</b>
<b><u>ENG MGT 5320</u></b>	<b>Project Management</b>

~~Required Core Course: BUS 6121 Team-building and Leadership~~  
~~Elective Courses (Choose Three): BUS 5580: Strategic Management~~  
~~IST 5251 Technological Innovation Mgmt and Leadership~~  
~~IST 6261: Advanced Information Systems Project Management~~  
~~IST/PHILOS 5168 — Law and Ethics in E-Commerce~~  
~~BUS 6111 — Business Negotiations~~  
~~MKT 6150 — Advanced Customer Focus and Satisfaction~~  
~~BUS 5470 — Human Resource Management~~  
~~EMGT 5320 — Project Management~~  
~~BUS 6425 — Supply Chain and Project Management~~  
~~BUS 6723 — Artificial Intelligence, Robotics, and Information Systems Management~~

Justification for request

Course renumbering. Expansion of elective offerings.

## Petroleum Systems

The graduate certificate in Petroleum Systems is designed to provide graduate students in the geosciences, geological engineering, and petroleum engineering with the key interdisciplinary backgrounds they will need to be successful in the oil and gas industry.

The Petroleum Systems Certificate Program is open to all persons holding a B.S., M.S., or Ph.D. degree in Geology, Geophysics, Geological Engineering, or Petroleum Engineering or are currently accepted into a graduate degree program in one of these fields at Missouri S&T. Once admitted to the program, the student must take the four designated courses (provided in the curriculum section). In order to receive a Graduate Certificate, the student must have an average cumulative grade point of 3.0 or better in the certificate courses. Once admitted to the program, a student will be given three years to complete the program.

Students admitted to the Petroleum Systems Certificate Program will have non-degree graduate status, however, they will earn graduate credit for the courses they complete. If the student completes the four-course sequence with a grade of B or better in each of the courses taken, they, upon application, will be admitted to the non-thesis M.S. degree program in Geology and Geophysics. The certificate credits taken by the students admitted to the M.S. degree program will count towards their master's degree. Students who do not have all of the prerequisite courses necessary to begin the courses in the Petroleum Systems Certificate Program will be allowed to take "bridge" courses at either the graduate or undergraduate level to prepare for the formal certificate courses.

Required Courses:		
<a href="#">GEOLOGY 5513</a>	Petroleum Geology	3
One of the following Geophysics courses:		
<a href="#">GEOPHYS 4231</a>	Seismic Interpretation	3
<a href="#">GEOPHYS 5202</a>	Exploration and Development Seismology	3
<a href="#">GEOPHYS 5211</a>	Seismic Stratigraphy	3
<a href="#">GEOPHYS 5231</a>	Seismic Data Processing	3
<a href="#">GEOPHYS 5261</a>	Computational Geophysics	3
One of the following Geology courses:		
<a href="#">GEOLOGY 5311</a>	Depositional Systems	3
<a href="#">GEOLOGY 5511</a>	Applied Petroleum Geology	3
<a href="#">GEOLOGY 5631</a>	Carbonate Petrology	3

Interest among students in the pre-modern era remains strong, but the undergraduate humanities programs at Missouri S&T are oriented chiefly around the modern era. This certificate allows students to learn more about pre-modern history, literature, or philosophy of the period between approximately 500 to 1700 CE. By taking an interdisciplinary approach and combining the faculty who teach pre-modern subject from three departments, this certificate will provide a meaningful academic program for students interested in that era. The developments of these eras were instrumental in shaping the modern world, from the emergence of representative government and the middle class to religious toleration and secular literature, theater, and art.

Take FOUR courses from at least TWO different disciplines		
<a href="#">HISTORY 3130</a>	Medieval History I	3
<a href="#">HISTORY 3135</a>	Medieval History II	3
<a href="#">HISTORY 3140</a>	History Of Renaissance Thought	3
<a href="#">HISTORY 3150</a>	Tudor and Stuart England	3
<a href="#">HISTORY 3534</a>	Course HISTORY 3534 Not Found	
<a href="#">HISTORY 4145</a>	The Reformation	3
<a href="#">ENGLISH 1211</a>	British Literature I: The Beginnings To 1800	3
<a href="#">ENGLISH 3210</a>	Survey Of Old And Middle English Literature	3
<a href="#">ENGLISH 3211</a>	Chaucer	3
<a href="#">ENGLISH 3212</a>	Sixteenth Century English Literature	3
<a href="#">ENGLISH 3213</a>	Seventeenth Century English Literature	3
<a href="#">ENGLISH 3214</a>	The Plays Of William Shakespeare	3
<a href="#">ENGLISH 3234</a>	Myth & Folklore	3
<a href="#">PHILOS 3302</a>	Medieval Philosophy	3
<a href="#">MUSIC 3251</a>	History and Analysis of Music I	3

#### Justification for request

Students at Missouri S&T are very interested in pre-modern history but existing undergraduate programs focus primarily on the modern era and students have limited options if they wish to study pre-modern history, literature, and philosophy. This certificate offers an interdisciplinary approach by combining faculty who teach pre-modern subject matter from three different departments. This certificate will also advance Missouri S&T's core value of inclusion by enabling students to be better able to respond to white nationalists and others who has misappropriated the period in recent years in pursuit of their exclusionary agendas.

The undergraduate certificate in Science, Technology, and Science (STS) is designed to provide students with background in the understanding of the field of science, technology, and society. Students who complete this certificate will understand more fully how integrated the perspectives of humanities and the social sciences are in shaping the technological world. Students will learn the valuable quality of knowing how their work is shaped by, and in turn shapes, social values and contexts in an increasingly interconnected world.

#### Justification for request

This certificate introduces students to the theory and practices of STS and offers an interdisciplinary approach to exploring the connections between science, engineering, and the human experience.

entry

Lectures topics will focus on fundamental soil science and relation to in-situ testing to assess soil properties as related to geotechnical engineering for infrastructure.

Lecture material will relate the soil properties to a breadth of field testing approaches and methods to assess data collection, data assessment and interpretation, and impacts to design.

#### Prerequisites

Civ Eng 3715 or Graduate standing.

#### Field Trip

#### Statement

Field trips to deep soil site that are assisted by professionals in the field of in-situ testing methods development and application. Students will interact with technical staff.

Credit Hours

LEC: 2

LAB: 1

IND: 0

RSD: 0

Total: 3

Justification for

new course:

This course will cover soil exploration methods where the soil is tested in-place by instruments and/or equipment that are placed in a borehole or penetrate the ground. The course will also examine the use of direct measurement and empirical correlations from in-situ testing.

This course introduces the fundamentals of Reinforcement Learning (RL) theory from a Machine Learning perspective. Iterative algorithms to solve problems in RL will be described. Exploration strategies based on Upper Confidence Bounds and Monte Carlo sampling will be discussed. Sample complexity of algorithms will be theoretically analyzed and quantified.

#### Prerequisites

A grade of "C" or better in both Comp Sci 1575 and Math 3108, and in one of Stat 3113, Stat 3115, Stat 3117, or Stat 5643.

#### Field Trip

#### Statement

Credit Hours

LEC: 3

LAB: 0

IND: 0

RSD: 0

Total: 3

Justification for

new course:

The theory of Reinforcement Learning (RL) has seen renewed research interest, partly because of their recent impressive successes. This has brought new perspectives into the field. Currently the Computer Science department doesn't have a RL course offered regularly. This course will be a first step for graduate students wanting to do RL research, or apply RL algorithms in their area of research. It will also be a natural elective course for students wanting to learn more in Machine Learning. Interest from students in other departments such as Electrical and Computer Engineering, Information Science & Technology, Mathematics and Statistics, and others is expected.

## MEMORANDUM

October 1, 2020

To: Mohammad Dehghani, Ph.D.  
Chancellor

From: Stephen Roberts, Ph.D.   
Interim Provost and Executive Vice Chancellor

Re: Nuclear Engineering and Radiation Science

Please find the attached proposal to create a new academic department titled, "Nuclear Engineering and Radiation Science." This new department will be comprised solely of the existing resources for the Nuclear Engineering program currently residing in the Mining and Nuclear Engineering department. The dawn of the new nuclear age is upon us and Missouri S&T intends to lead the way with a revitalized nuclear engineering program. The new department will provide much greater visibility for this program, statewide and nationally.

The College of Engineering and Computing (CEC) department chairs have endorsed, the CEC vice provost and dean has endorsed, and last week the S&T Faculty Senate endorsed the proposal. I hereby provide my enthusiastic endorsement as well.

Please confirm your approval below.

Approve /  Disapprove Nuclear Engineering and Radiation Science

Signature   
Mohammad Dehghani, Ph.D.  
Chancellor
