Social Sciences
DSCC Chair

Students will examine research regarding safe and healthy learning environments for young children. Early childhood education regulations, policies, and risk management will be reviewed, and inequities related to health, safety, and nutrition will be critically examined. Students will create learning experiences for young children from course content.

Prerequisites

Education emphasis declared.

Field Trip

Statement

Credit Hours	LEC: 3	LAB: 0	IND: 0	RSD: 0
Total: 3				

Required for Majors	No
Elective for Majors	No

Justification for
new course:

This course is required for the new early childhood program, currently under development. An undergraduate certificate in early childhood education will also use this course. This course needs a permanent number because it will be required for DESE certification in early childhood. Changing the number from an experimental one to a permanent one would require additional paperwork with DESE and creates problems for students with the experimental course number.

History

1. Aug 5, 2019 by ungerb (1532.1)
2. Apr 27, 2020 by ungerb (1532.4)

This course provides an introduction to the Air Force, hopefully encouraging students to pursue an AF career or at least seek additional information to be better informed about the role of the USAF. The course allows students to examine general aspects of the Department of the Air Force, AF Leadership, Air Force benefits, and opportunities for AF officers.

Prerequisites

Must be accompanied by MIL AIR 1100.

2. Apr 27, 2020 by ungerb (418.4)

This course is designed to provide a fundamental understanding of both leadership and team building. It is imperative that cadets are taught from the beginning that there are many layers to leadership, including aspects that don't always jump to mind. Such things include listening, understanding themselves, being a good follower and problem solving.

Prerequisites

Must be accompanied by MIL AIR 1100.

Communication Theory

Abbreviated Communication Theory

Course Title

Catalog

Description

Deals with the concerns addressed by communication theory: language, cybernetics, visual arts, general semantics, information theory, and electronic communications. The university's fairly extensive media and communications resources are made use of, both for their content and for a study of the impact of their forms upon the transfer of information.

Catalog
Description

History

1. Oct 24, 2016 by
denises (427.1)

The course explores the historical, social, and psychological impact of media through study and practice of academic and non-academic theories of effective media communication. The course supplies an integrated critical framework for application in student's day-to-day consumption of media.

Prerequisites

Sp&M S 1185.

Description

Focus on developing students' intermediate-level proficiency by strengthening their understanding of basic linguistic features of Spanish and introducing more advanced concepts. The course also integrates diverse cultural content from the Spanish-speaking world. For students who have completed Spanish 1102 or the equivalent. ~~Intermediate readings in Spanish.~~

Prerequisites

Spanish 1102.

The Medical Laboratory Scientist 3+1 emphasis area is designed for students who wish to earn a B.S. degree in Biological Sciences, and become board certified by the American Society of Clinical Pathologists as a Medical Laboratory Scientist. Students who pursue this emphasis area complete three years of course work at Missouri S&T. The fourth year of clinical/professional study takes place at an affiliated accredited school of medical technology. Students who wish to complete this emphasis area will apply to University affiliated clinical programs in their third year, and must be accepted into a clinical program in order to complete this emphasis area. Students who are

interested in the MLS 3+1 emphasis area should seek advisement early in their degree program from the Biological Sciences MLS 3+1 emphasis area advisor in order to insure adherence to special program requirements.

The Biological Science B.S. degree in the MLS 3+1 emphasis area must include a minimum of 38 semester hours of biological sciences course work plus an additional minimum of 32 hours of clinical program coursework.

Required biological sciences courses:

[BIO SCI 1201](#) Biological Sciences Freshman Seminar (1 hours)

[BIO SCI 1113](#) General Biology (3 hours) OR [BIO SCI 1213](#) Principles of Biology (3 hours)

[BIO SCI 1219](#) General Biology Lab (1 hours)

[BIO SCI 1223](#) Biodiversity (3 hours)

[BIO SCI 1229](#) Biodiversity Lab (1 hours)

[BIO SCI 2213](#) Cell Biology (3 hours)[BIO SCI 2219](#) Cell Biology Laboratory (1 hours)

[BIO SCI 2223](#) General Genetics (3 hours)

[BIO SCI 3233](#) Evolution (3 hours)[BIO SCI 3313](#) Microbiology (3 hours)[BIO SCI 3319](#) Microbiology Lab (2 hours)

[BIO SCI 4393 IMMUNOLOGY \(3 HOURS\)](#)

[BIO SCI 4010](#) Seminar (1 hours)

Selection of ten hours of additional advanced biological sciences courses should be informed by the recommendations of specific clinical affiliate programs. Suggested electives:

[BIO SCI 5313](#) Pathogenic Microbiology (3 hours)

[BIO SCI 4493](#) General Virology (3 hours)

[BIO SCI 3333](#) Human Anatomy and Physiology I (3 hours)

[BIO SCI 3343](#) Human Anatomy and Physiology II (3 hours)

[BIO SCI 3359 PHYSIOLOGY LAB \(1 HOUR\)](#)

Clinical program coursework typically includes a total of 32 credit hours, but may include more, depending on clinical affiliate program.

Courses are enrolled at Missouri S&T from the following options in consultation with the MLS 3+1 emphasis area advisor:

[BIO SCI 4900 CLINICAL CHEMISTRY \(5-10 HOURS\)](#)

[BIO SCI 4901 CLINICAL MICROSCOPY \(1-3 HOURS\)](#)

[BIO SCI 4902 HEMATOLOGY AND COAGULATION \(5-8 HOURS\)](#)

[BIO SCI 4903 SEROLOGY IMMUNOLOGY \(2-4 HOURS\)](#)

[BIO SCI 4904 CLINICAL MICROBIOLOGY \(4-9 HOURS\)](#)

[BIO SCI 4905 BLOOD BANK IMMUNOHEMATOLOGY \(2-4 HOURS\)](#)

[BIO SCI 4906 TOPICS IN MEDICAL TECHNOLOGY \(1-8 HOURS\)](#)

20 semester hours of chemistry to include:

[CHEM 1100](#) Introduction To Laboratory Safety & Hazardous Materials (1 hours)

[CHEM 1301](#) Introductory Chemistry (3 hours)

[CHEM 1319](#) General Chemistry Laboratory (1 hours)

[CHEM 1320](#) General Chemistry II (3 hours)

[CHEM 2210](#) Organic Chemistry I (3 hours)

[CHEM 2219](#) Organic Chemistry I Lab (1 hours)

[CHEM 2220](#) Organic Chemistry II (3 hours)

[CHEM 2229](#) Organic Chemistry II Lab (1 hours)

[CHEM 4610](#) General Biochemistry (3 hours)

2 semesters of College (Engineering) Physics and labs

[PHYSICS 1145](#) College Physics I (4 hours) [PHYSICS 1135](#) Engineering Physics I (4 hours)

[PHYSICS 2145](#) College Physics II (4 hours) [PHYSICS 2135](#) Engineering Physics II (4 hours)

Math and Statistics

[MATH 1120](#) College Algebra (5 hours) [MATH 1140](#) College Algebra (3 hours)

[STAT 3425](#) Introduction to Biostatistics (4 hours)

12 semester hours of humanities, excluding foreign language, and to include:

[ENGLISH 1120](#) Exposition And Argumentation (3 hours)

[ENGLISH 1160](#) Writing And Research (3 hours)

9 hours of social sciences, to include:

[HISTORY 1100](#) Early Western Civilization (3 hours) [HISTORY 1300](#) American History To 1877 (3 hours) [HISTORY 1310](#) American History Since 1877 (3 hours) [POL SCI 1200](#) American Government (3 hours)

Justification for request

The Biological Sciences Department at Missouri S&T is proposing to expand our program offerings by adding a new emphasis area to our BS degree that will provide students with a path to board certification to work as a Medical Laboratory Scientist. There is strong workforce demand for medical lab scientists to work in hospital settings across the state. The only way that a person can work as a medical lab scientist is if they have completed clinical training in a program accredited by the National Accrediting Agency for Clinical Laboratory Science (NAACLS), allowing them to become certified by the American Society of Clinical Pathologists. There are several such accredited clinical training programs around Missouri, including Mercy in St. Louis and Joplin, Cox Health in Springfield, and North Kansas City Hospital. The demand for certified medical laboratory scientists is so high that these students who graduate and become MLS certified are virtually guaranteed jobs in their field.

These accredited clinical programs are dependent on a pipeline of qualified student applicants from partnering affiliated university BS programs. Students complete three years of course work in a BS

program during which they satisfy clinical program prerequisites. Then they enter a clinical program where they complete additional coursework and clinical rotations for one year after which they receive their BS degree from their home institution and are eligible to take the national certification exam. All of the clinical programs maintain affiliation agreements with multiple universities. It is vital that they maintain multiple agreements in order to insure a pipeline of highly qualified applicants to their clinical programs. During the development of this emphasis area proposal, we have reached out to multiple accredited clinical programs and all are interested in pursuing affiliations with Missouri S&T, so they can have access to our students. Once we obtain approval for our 3+1 MLS emphasis area, we intend to pursue affiliation agreements with as many clinical programs in Missouri as are available. This will place the Biological Sciences Program at Missouri S&T on par with similar programs at most other universities, and will place a path to MLS certification in the rural south central region of Missouri, where no such program currently exists.

Mobile Business and Digital Transformation Technology

Interest in the use of mobile technology **and digital transformation** among organizations has seen a strong, upward trend over the past few years. **Indeed, many organizations now have Chief Digital Officers, whose role differs from the Chief Information Officer. The CDO's role is principally centered around positioning the organization to leverage emerging technologies, in contrast to the CIO's role of supporting existing technologies.**

~~The proliferation of smart phone and tablet devices has presented organizations with new challenges creating and developing a coherent strategy associated with this new innovation. In order to create this strategy, organizations will need an understanding of the mobile industry in general and specific technologies supporting the trend.~~ People capable of creating and maintaining **digital mobile** technology strategies are needed.

This certificate is designed to cover managing emerging technologies. ~~This certificate is designed to cover the mobile industry as well as the technologies, devices, operating systems, user interface design, and tools of mobile applications.~~ The focus will be on **allowing the mobile industry and technologies that allow** an organization to make decisions in this dynamic domain.

A student admitted to this graduate certificate must complete four courses:

IS&T 6335	Mobile Technology for Business
Three courses from the following list:	
<u>IS&T 5335</u>	Fundamentals of Mobile Technology for Business
<u>IS&T 6641</u>	Advanced Digital Commerce and the Internet of Things
<u>IS&T 6654</u>	Advanced Web Design and Digital Media Studies
<u>BUS 6723</u>	Artificial Intelligence, Robotics, and Information Systems Management
<u>IS&T 5251</u>	Management and Leadership of Technological Innovation
<u>ERP 5240</u>	Enterprise Application Development and Software Security
Elective courses (choose one):	
<u>ERP 5210</u>	Performance Dashboard, Scorecard and Data Visualization
<u>ERP 5310</u>	Supply Chain Management Systems in an ERP Environment
<u>ERP 6610</u>	Advanced Customer Relationship Management in ERP Environment
<u>IS&T 5652</u>	Advanced Web Development
<u>IS&T 5886</u>	Prototyping Human-Computer Interactions
<u>IS&T 5168</u>	Law and Ethics in E-Commerce
<u>IS&T 6680</u>	Advanced Digital Media Development and Interactive Design
<u>MKT 5310</u>	Digital Marketing and Promotions

Justification for request

Repositioning the certificate to a more management audience.

This certificate is designed to give students background in important educational concepts such as instructional design, learner engagement, assessment, diversity, and inclusion. This would be helpful for students who intend to work in higher education or nonprofit organizations as well as those who want to conduct industry training. The courses in this certificate may be used to meet some of the requirements for teacher certification programs.

Students must meet regular Missouri S&T undergraduate admission requirements.

Certificate Requirements

A student must have completed the following courses, totaling 13 hours.

EDUC 1040	Perspectives In Education	2
EDUC 1174	School Organization and Administration For Teachers	2
EDUC 3216	Instructional Literacy in the Content Area	3
EDUC 3340	Assessment of Student Learning	3
EDUC 4310	Course EDUC 4310 Not Found	3

Justification for request

This undergraduate certificate provides an educational foundation for students who wish to pursue teaching in informal contexts, like museums or nonprofit organizations, or who wish to continue to graduate school to eventually become a professor.

Currently, students have to complete the entire education program intended for K-12 teacher certification. This certificate will allow them to earn a credential for other contexts outside of K-12 schools.

This certificate has been approved by MDHE per the attached documents.
