## Carbon Capture Process Engineering

Abbreviated Course Title      Carbon Capture

### Catalog

#### Description

An introduction to the process technologies and material design associated with capturing carbon in industrial operations to reduce carbon emission, reutilizing captured carbon in oil and chemical process industries, and extracting carbon from the atmosphere to mitigate green-house effect and climate change.

#### Prerequisites

Chem Eng 3150 or graduate standing.

#### Field Trip

#### Statement

Credit Hours	LEC: 3	LAB: 0	IND: 0	RSD: 0
--------------	--------	--------	--------	--------

Total: 3

Required for	No
--------------	----

Majors

Elective for	Yes
--------------	-----

Majors

#### Justification for

new course:

Carbon management has become the central theme for combating climate change.

It channels a spectrum of methodologies and strategies where carbon capture plays critical roles on many levels. This course introduces the students to the capabilities of process engineering in achieving carbon capture on multiple fronts. It is intended to be a required course for the new Graduate Certificate in Carbon Management Engineering as well as a new technical elective course to interested students across several disciplines.

## Introduction to Computer Networks

Abbreviated Intro. Computer Networks  
Course Title

### Catalog

#### Description

This course covers general principles of computer networking, focusing primarily on internet protocols. It covers the TCP/IP stack, with the application layer first, moving down through link and physical layers. Topics include network virtualization, security, wireless, and mobile networks, with extensive live protocol analysis. Coursework is project based.

#### Prerequisites

A grade of "C" or better in Comp Sci 3800.

#### Field Trip

#### Statement

Credit Hours	LEC: 3	LAB: 0	IND: 0	RSD: 0

## Software Engineering Capstone I

Abbreviated SE Capstone I

Course Title

### Catalog

#### Description

This is the first course in the Software Engineering Capstone sequence covering the Software Life Cycle. Students will learn about software engineering, and work in teams to spec, design, prototype, implement, test, document, deploy, and maintain a software system. This course is programming intensive, writing emphasized and addresses ethical considerations.

#### Prerequisites

A grade of "C" or better in all of Comp Sci 2300, Comp Sci 2500, and Comp Sci 3610.  
~~3610, and in one of Philos 3225, Philos 3235, Philos 4340, or Philos 4368.~~

#### Field Trip

Statement

Credit Hours

LEC: 3

LAB: 0

IND: 0

RSD: 0

Total: 3

Required for Majors	Yes
Elective for Majors	No

Justification for  
change:

Philos 3225, Philos 3235, Philos 4340, or Philos 4368 are not directly needed for CS4090. The prerequisites have been updated to better reflect content application within the Capstone courses.

Semesters  
previously  
offered as an  
experimental  
course

Co-Listed

Required for            No

Majors

Elective for

Yes ~~No~~

Majors

Justification for

change:

CS4600 was never really taught, and thus it should be removed. CpE4410 does not exist anymore, and thus it should be removed. CS5600 used to be our only core networking course. Now, we have an introduction to networking, CS3610, which itself requires 3800. So we update the prerequisite and the course description.

Semesters

Comments

**tibbettsmg (03/16/22 12:09 pm):** this change cannot be considered for Fall 22; updated term to Spring 23. While the description seems to be significantly changed, it does not appear that the content of the course is dramatically altered. MR

## Carbon Conversion and Energy Utilization

Abbreviated Course Title      Carbon&Energy Conversion

### Catalog

#### Description

An introduction to energy conversion processes involving carbon, non-carbon replacements, fuel chemistry, carbon utilization and conversions, carbon reuse and recycling; including topics such as decarbonization, combustion, other energy conversion processes involving carbon, non-energy carbon use, and life cycle and techno-economic analyses of energy systems

#### Prerequisites

Graduate standing.

#### Field Trip

#### Statement

Credit Hours	LEC: 3	LAB: 0	IND: 0	RSD: 0
--------------	--------	--------	--------	--------

Total: 3

Required for Majors	No
---------------------	----

Elective for Majors	Yes
---------------------	-----

#### Justification for

new course:

Carbon management has become the central theme for combating climate change. It channels a spectrum of methodologies and strategies where carbon capture plays critical roles on many levels. This course introduces the students to carbon conversion processes and the roles these processes play in creating a more sustainable energy future. It is intended to be a required course for a future Graduate Certificate in Carbon management as well as a new technical elective course that can benefit interested students across several disciplines.

Formation Evaluation ~~Well Logging~~

Abbreviated      Formation Evaluation ~~Well~~  
 Course Title      ~~Logging~~

Catalog  
 Description  
 An introduction to the electrical, nuclear, and acoustic properties of rocks: theory and interpretation of ~~conventional~~ well logs.

Prerequisites  
 Physics 2135 or 2111; Pet Eng 3320.

Field Trip  
 Statement

Credit Hours	LEC: 2	LAB: 1	IND: 0	RSD: 0
Total: 3				
Required for Majors	Yes			
Elective for	No			

## Majors

Justification for  
change:

The logging interpretation is a process of formation evaluation. In addition, change the name of the course to "Formation Evaluation" will make it more flexible to add formation evaluation skills in the teaching with time.

Semesters  
previously  
offered as an  
experimental  
course

Natural Gas Engineering

Abbreviated          Natural Gas Engineering

## Course Title

## Catalog

## Description

This course will cover basic and fundamental knowledge for a future natural gas engineer, including natural gas properties, natural gas underground storage estimates, natural gas exploration/drilling/and completion, natural gas productivity and deliverability estimates, natural gas related processing after it reaches the surface. ~~Gas reserves estimation, deliverability, and future production performance prediction. Deliverability testing of gas wells including isochronal, flow after flow, drawdown and buildup. Gasfield development and underground storage. Gas production metering gauging and transmission.~~

## Prerequisites

Pet Eng 2510 ~~Preceded~~ or consent of instructor. ~~accompanied by Pet Eng 3520.~~

## Field Trip

## Statement

Credit Hours	LEC: 3	LAB: 0	IND: 0	RSD: 0
--------------	--------	--------	--------	--------

Total: 3

Required for	<u>Yes</u> <del>No</del>
--------------	--------------------------

Majors

Elective for	No
--------------	----

Majors

## Justification for

change:

The course is increasingly important as Natural Gas is an important energy resource. It becomes a "required" class.

The pre-requisite is relatively loosened to include students from more background and make the class extendable.

Teaching content is slightly adjusted.

Semesters  
previously  
offered as an  
experimental  
course

## Professional Spanish

Abbreviated            Professional Spanish  
Course Title

## Catalog

## Description

Through practical examples and exercises, this course helps you develop linguistic proficiency, intercultural competence, and knowledge of the Spanish-language professional world. Focus on applications in a variety of professional milieu, depending on students' specializations and areas of interest. Readings, lectures, and discussions in Spanish.

## Prerequisites

Any Spanish course at the 2000 level or above.

## Field Trip

## Bachelor of Science Aerospace Engineering

The aerospace engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application. Indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

~~Bachelor of Science Aerospace Engineering Entering freshmen desiring to study aerospace engineering will be admitted to the Foundational Engineering and Computing Program. They will, however, be permitted, if they wish, to state an aerospace engineering preference, which will be used as a consideration for available freshman departmental scholarships. The focus of the Foundational Engineering and Computing Program is on enhanced advising and career counseling, with the goal of providing to the student the information necessary to make an informed decision regarding the choice of a major. A cumulative GPA of 2.5, and math/science GPA of 2.25 are the minimum requirements for admission to the aerospace engineering program.~~ Students must comply with the requirements specified in the current online catalog published by the registrar. For the bachelor of science degree in aerospace engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in aerospace engineering. Each student's program of study must contain a minimum of 24 credit hours of course work in general education and must be chosen to satisfy the following requirements:

1. [ENGLISH 1120](#).
2. [HISTORY 1200](#), [HISTORY 1300](#), [HISTORY 1310](#), or [POL SCI 1200](#)
3. [ECON 1100](#) or [ECON 1200](#)
4. [ENGLISH 1160](#) or [ENGLISH 3560](#) or [SP&M S 1185](#)
5. A literature elective\*
6. An ethics elective\*
7. Depth elective. A humanities or social science elective that has a humanities or social science course already taken as a prerequisite\*
8. A humanities or social science elective\*

\*Humanities and social science elective must be at least 3 credit hours of lecture designation, and also meet the requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog.

Total Credits: 128-129			

1 [CHEM 1310](#), [CHEM 1319](#) and [CHEM 1100](#) or an equivalent training program approved by Missouri S&T.

2 Must be one of the following: [POL SCI 1200](#), [HISTORY 1200](#), [HISTORY 1300](#), or [HISTORY 1310](#).

3 Must be one of the following: [ECON 1100](#) or [ECON 1200](#).

4 A grade of "C" or better in [CHEM 1310](#), [MATH 1214](#) or [MATH 1211](#), [MATH 1215](#), [MATH 2222](#), [MATH 3304](#), [PHYSICS 1135](#), [PHYSICS 2135](#), [CIV ENG 2200](#), [CIV ENG 2210](#), and computer programming elective, [AERO ENG 2360](#), [AERO ENG 2861](#), and [MECH ENG 2519](#), as prerequisite for follow-up courses in the curriculum and for graduation.

5 Must be one of the following: [AERO ENG 5830](#), [COMP SCI 3200](#), [MATH 3108](#), [STAT 3113](#), [STAT 3115](#), or any 5000-level math or computer science course approved by the student's advisor.

6 Electives must be approved by the student's advisor. Nine hours of technical electives must be in mechanical and aerospace engineering. Three hours of departmental technical electives must be at the 5000-level. [AERO ENG 3877](#) and the 5000-level Asteroid Mining course co-listed with geological engineering are not to be used for 5000-level technical elective.

7 This course can be selected from [ENGLISH 1160](#), [ENGLISH 3560](#), [SP&M S 1185](#), or the complete four-course sequence in advanced ROTC ([MIL ARMY 3250](#), [MIL ARMY 3500](#), [MIL ARMY 4250](#), and [MIL ARMY 4500](#); or [MIL AIR 3110](#), [MIL AIR 3120](#), [MIL AIR 4110](#) and [MIL AIR 4120](#)).

8 To satisfy the depth requirement, this course should have a humanities and social science course already taken as a prerequisite.

9 Must be a course on engineering ethics, business ethics, bio ethics, social ethics, or any ethics course approved by the student's advisor.

~~The aerospace engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application. Indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.~~

For the

~~Bachelor of Science Computer Engineering 1 Entering freshmen desiring to study Computer Engineering will be admitted to the Foundational Engineering and Computing Program. They will be permitted to state a Computer Engineering preference, which will be used as a consideration for available freshman departmental scholarships. The focus of the Foundational Engineering and Computing program is on enhanced advising and career counseling, with the goal of providing to the student the information necessary to make an informed decision regarding the choice of a major.~~ **Bachelor of Science degree in Computer Engineering<sup>1</sup>**

For the Bachelor Engineering, a minimum of Science degree in Computer Engineering, a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade

points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in Computer Engineering.

Electrical and Computer Engineering degree programs will require a minimum of 21 credit hours of humanities/social-sciences as specified below:

- [ENGLISH 1120](#)
- [HISTORY 1200](#) or [HISTORY 1300](#) or [HISTORY 1310](#) or [POL SCI 1200](#)
- [ECON 1100](#) or [ECON 1200](#)
- Technical Communication Elective: [ENGLISH 1160](#) or [ENGLISH 3560](#)
- [SP&M S 1185](#)
- The remaining minimum of 6 additional credit hours must be three-credit hour lecture courses offered in disciplines in the humanities and social sciences. Humanities courses are defined as those in: Art, English and Technical Communication, Etymology, Foreign Languages, Music, Philosophy, Speech and Media Studies, and Theatre. Social Sciences courses are defined as those in: Economics, History, Political Science, and Psychology. Study abroad courses may count as H/SS courses. H/SS courses numbered 2001, 3001, and 4001 (experimental courses) may also be used to complete these elective requirements.

Courses in business, education, information science and technology, or any other discipline not listed above will **not** satisfy the humanities/social sciences elective requirement, although such courses may count toward general education requirements.

Transfer credits from other universities in sociology and general humanities may count as humanities or social science electives.

The Computer Engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design. These interrelations are presented and discussed through classroom and laboratory instruction.

## Free Electives Footnote:

Each student is required to take three hours of free electives in consultation with his/her academic advisor. Credits which do not count towards this requirement are deficiency courses (such as algebra and trigonometry), and extra credits in required courses. Any courses outside of engineering and science must be at least three credit hours.

Total Credits: 128			

1

The minimum number of hours required for a degree in Computer Engineering is 128.

2

Students that transfer to Missouri S&T after their freshman year are not required to enroll in Foundational Engineering and Computing Seminars.

3

A minimum grade of "C" must be attained in [MATH 1214](#) or [MATH 1211](#), [MATH 1215](#), [MATH 2222](#), and [MATH 3304](#), [PHYSICS 1135](#) and [PHYSICS 2135](#) (or their equivalents), [COMP SCI 1570](#), [COMP SCI 1580](#), [COMP SCI 1575](#), [COMP SCI 1200](#), [COMP SCI 2500](#) or [COMP SCI 3800](#), [COMP ENG 2210](#), [COMP ENG 2211](#), [COMP ENG 3150](#), [COMP ENG 3151](#), [COMP ENG 3110](#), [COMP ENG 5410](#), [COMP ENG 4096](#), and [ELEC ENG 2100](#), [ELEC ENG 2101](#), [ELEC ENG 2120](#), [ELEC ENG 2200](#), [ELEC ENG 2201](#), and [ELEC ENG 3410](#) and the COMP ENG electives A, B, C, D and E. Also, students may not enroll in other courses that use these courses as prerequisites until the minimum grade of "C" is attained.

4

Students may take [PHYSICS 1111](#) and [PHYSICS 1119](#) in place of [PHYSICS 1135](#). Students may take [PHYSICS 2111](#) and [PHYSICS 2119](#) in place of [PHYSICS 2135](#).

5

All electives must be approved by the student's advisor. Students must comply with the general education requirements with respect to selection and depth of study.

These requirements are specified in the current catalog.

6

Students who drop a lecture course prior to the deadline to drop a class must also drop the corequisite lab course.

7

Students must earn a passing grade on the ELEC ENG Advancement Exam I (associated with [ELEC ENG 2100](#)) before they enroll in [ELEC ENG 2120](#) or [ELEC ENG 2200](#) and [ELEC ENG 2201](#).

8

Students must earn a passing grade on the COMP ENG Advancement Exam (associated with [COMP ENG 2210](#)) before they enroll in any course with [COMP ENG 2210](#) and [COMP ENG 2211](#) as prerequisites.

9

Students must earn a passing grade on the ELEC ENG Advancement Exam II (associated with [ELEC ENG 2120](#)) before they enroll in [ELEC ENG 3410](#).

10

Students must take one of the following courses:

[MATH 3108](#), [MATH 3109](#), [MATH 5302](#), [MATH 5603](#), [MATH 5105](#), [MATH 5106](#), [MATH 5107](#), [MATH 5108](#), [MATH 4209](#), [MATH 4211](#), [MATH 5215](#), [MATH 5222](#), [MATH 5325](#), [MATH 4530](#), [MATH 5737](#), [MATH 5351](#), [MATH 5154](#), [MATH 4096](#), [MATH 5483](#), [MATH 5585](#), [STAT 5644](#), [STAT 5346](#), [STAT 5353](#).

11

Students must take one of [MECH ENG 2340](#), [MECH ENG 2519](#), [MECH ENG 2527](#), [PHYSICS 2311](#), [PHYSICS 2401](#), [CHEM 2210](#), [BIO SCI 2213](#), [BIO SCI 2223](#), [CIV ENG 2200](#), [MECH ENG 2350](#), [PHYSICS 2305](#), [PHYSICS 4311](#), [CER ENG 4240](#), or [NUC ENG 3205](#).

12

Students may replace [STAT 3117](#) with [STAT 3115](#) or [STAT 5643](#).

13

Student must take [ENGLISH 3560](#) or [ENGLISH 1160](#). Students may replace [SP&M.S 1185](#) with the ROTC sequence of [MIL ARMY 4250](#) and [MIL ARMY 4500](#) or [MIL AIR 4110](#) and [MIL AIR 4120](#).

14

Comp Eng Elective A must be a 4000 or 5000-level Comp Eng, Elec Eng, or Comp Sci course with at least a 3-hour lecture component. This normally includes all Comp Eng and Elec Eng 4000 or 5000-level courses except Comp Eng or Elec Eng 4000, 4099, 4096, and 4097 or Comp Sci 5000, [COMP SCI 4010](#), [COMP SCI 5600](#), and Comp Sci 4099.

15

Comp Eng Electives C, D, and E must be 3000, 4000 or 5000-level courses from an approved list of science, mathematics, and engineering courses. In particular, this list includes all 3000, 4000 or 5000-level Comp Eng, Elec Eng and Comp Sci courses except required courses in Comp Eng, Elec Eng, and Comp Sci and except Comp Eng 4096 and 4097, [ELEC ENG 2800](#), 4096, and 4097, and [COMP SCI 2002](#) and [COMP SCI 3610](#) and [COMP SCI 5600](#)). Comp Eng Electives C, D, and E must include at least six hours of engineering or computer science courses.

16

COMP ENG Electives C, D, and E cannot include more than three hours of [COMP ENG 4000](#), [COMP ENG 4099](#), [ELEC ENG 4000](#), or [ELEC ENG 4099](#).

17

Students pursuing dual degrees in COMP ENG and ELEC ENG may take either [COMP ENG 4096](#) or [ELEC ENG 4096](#) and [COMP ENG 4097](#) or [ELEC ENG 4097](#). Students may not receive credit for both [COMP ENG 4096](#) and [ELEC ENG 4096](#) or [COMP ENG 4097](#) and [ELEC ENG 4097](#) in the same degree program.

18

Students are required to take at least three credit hours. [ELEC ENG 2800](#) level, [ELEC ENG 4096](#), [ELEC ENG 4097](#), [COMP ENG 4096](#) and [COMP ENG 4097](#) may not be used for free electives. No more than one credit hour of [COMP ENG 3002](#) or [ELEC ENG 3002](#) may be applied to the BS degree for free electives.

19

Comp Eng Elective B must be a 4000 or 5000 level COMP ENG course with at least a 3-hour lecture component, excluding [COMP ENG 4096](#) and [COMP ENG 4097](#). Students admitted to the accelerated BS/MS program must satisfy Cp Eng Electives B and C with 5xxx or 6xxx-level courses and a minimum grade of B.

20

Students must take one of the following courses: [BUS 5980](#), [ECON 4430](#), [ECON 5337](#), [ENG MGT 2310](#), [ENG MGT 3320](#), [ENG MGT 4110](#), [ENG MGT 5514](#), [PHILOS 3225](#).

21

The course combination MATH 1210 and MATH 1211 may be taken in place of MATH 1214.

**Notes:** Student must satisfy the common freshman year academic requirements and be admitted into the department. An accelerated BS/MS program is optional.

## Emphasis Areas for Computer Engineering

**Note:** The following emphasis areas identify courses from which a student may opt to develop a specific emphasis. It is not required that students obtain an emphasis specialty within computer engineering.

### Computational Intelligence

Highly Recommended		
<a href="#">COMP ENG 5310</a>	Computational Intelligence	3
<a href="#">ELEC ENG 5370</a>	Course ELEC ENG 5370 Not Found	3
<a href="#">COMP ENG 6310</a>	Markov Decision Processes	3
Suggested		
<a href="#">ELEC ENG 5330</a>	Fuzzy Logic Control	3
<a href="#">COMP ENG 5450</a>	Digital Image Processing	3
<a href="#">COMP ENG 5460</a>	Machine Vision	3

### Computer Architecture and Embedded Systems

Highly Recommended		
<a href="#">COMP ENG 5110</a>	Principles of Computer Architecture	3
<a href="#">COMP ENG 5120</a>	Digital Computer Design	3
<a href="#">COMP ENG 5151</a>	Digital Systems Design Laboratory	3
<a href="#">COMP ENG 5160</a>	Embedded Processor System Design	3
<a href="#">COMP ENG 5170</a>	Real-Time Systems	3
Suggested		
<a href="#">COMP ENG 5610</a>	Real-Time Digital Signal Processing	3
<a href="#">COMP ENG 5130</a>	Advanced Microcomputer System Design	3

Highly Recommended		
<a href="#">COMP ENG 5420</a>	Introduction to Network Security	3
<a href="#">COMP ENG 5430</a>	Wireless Networks	3
<a href="#">COMP ENG 6440</a>	Network Performance Analysis	3
<a href="#">COMP ENG 6510</a>	Resilient Networks	3
Suggested		
<a href="#">COMP ENG 5510</a>	Fault-Tolerant Digital Systems	3

## Accelerated BS/MS Program Option for EE and CpE Majors

Electrical engineering or computer engineering undergraduates in ECE at Missouri S&T may opt to apply for an accelerated BS/MS ECE program where a student can achieve both degrees faster than if pursuing the degrees separately. The degrees may be BS EE and MS EE, BS CpE and MS CpE, BS EE and MS CpE, or BS CpE and MS EE. The benefits of the program for admitted students are:

- Undergraduate and graduate courses may be chosen with greater flexibility,
- Up to ~~nine~~ **six** hours of 5000-level or above ECE coursework may apply to both the BS and MS requirements,
- The classes taken for shared BS/MS credit may be taken at the lower undergraduate tuition rate,
- The GRE is not required for admission,
- Other graduate credit courses may be taken anytime after entering the program, and
- Work on a thesis project may begin before the BS requirements are completed.

~~The BS degree requirements are modified for admitted students such that EE Electives D and E or CpE Electives B and C will be satisfied by six credit hours of 5000-level or above ECE coursework.~~ To be eligible for the accelerated BS/MS ECE program, an EE or CpE undergraduate must be at or beyond the junior level with a minimum of 60 credit hours and must have completed 18 credit hours of EE and/or CpE courses at Missouri S&T with at least a 3.50 GPA in the ECE courses. To be admitted, the student must complete the program application and must have the recommendation of an ECE faculty member who agrees to serve as the graduate thesis advisor. No other MS degree requirements are changed. The MS degree must be for the thesis option. The program may be combined with existing honors research and emphasis area options. Admitted students will have both undergraduate and graduate records in the Registrar's Office.

The Accelerated program application must be completed within one semester after the shared-credit courses are completed. Courses taken for shared credit will be identified on this application form and on Graduate Form 1, which is submitted after the student enters the graduate program. The ~~nine~~ **six** hours of shared-credit coursework will be taken as undergraduate credit, ~~must be approved by the academic advisor,~~ and may not be undergraduate research, special problems, or transfer courses (a co-listed course can only apply for these undergraduate requirements if it is under an EE or CpE registration. Note that the choice of EE or CpE registration may affect how a course can apply within an MS program.) An additional ~~nine~~ **six** credit hours of coursework for graduate credit (beyond the shared BS/MS credits) can be taken while in the undergraduate program by applying for dual undergraduate/graduate enrollment. Taking additional courses for graduate credit will require formal application to the graduate program. Acceptance to the MS degree from the

Accelerated Program is automatic so long as the student meets ECE graduate student academic performance requirements. To remain in the program, the student must maintain good standing within the undergraduate EE or CpE program and must maintain continuous enrollment at Missouri S&T. If the student exits the program before completion of the MS degree requirements or fails to maintain continuous enrollment at Missouri S&T, the shared-credit courses may not apply toward graduate requirements in the event of future readmission.

The student is responsible for checking on how dual-enrollment status and graduate coursework will affect scholarships and other financial aid. Once you become a graduate student, you **are not** eligible for Federal Pell Grants, though are still eligible for Federal Financial Aid and will be eligible for fellowships and teaching/research assistantships. International students should check with international affairs during completion of an accelerated BS/MS to ensure immigration status will be maintained throughout the program.

#### Justification for request

The course combination, Math 1210/1211, provide a new option for students to satisfy the Math 1214 requirement.

ECE Faculty approved proposal to increase transfer of credit hours from six to nine for students enrolling in the Accelerated BS/MS Program.

The freshman engineering program references in the CpE BS degree program description have been removed, as the freshman engineering program has been discontinued.

EE 5370 has been removed as a highly recommended course for the emphasis area Computational Intelligence because EE 5370 is no longer offered.

#### Course Reviewer Comments

**watkins (11/22/21 1:28 pm):** Rollback: Correct Date

**tibbettsmg (12/17/21 9:10 am):** updated formatting. mt

**srapr (12/20/21 1:27 pm):** Rollback: hold until Direct Admissions language removal.

**tibbettsmg (03/02/22 12:36 pm):** Rollback: rollback for additional changes per Dr. Stanley request.

Please also remove the FEP language.

**tibbettsmg (03/04/22 3:04 pm):** updated footnote formatting. MR

**tibbettsmg (03/07/22 11:40 am):** updated CS 4600 to CS 3610 and removed EE 1002 and EE 1003 per Chair approval email on 3/4/22.

**srapr (03/18/22 8:36 am):** see this note: discuss during CCC meeting. 1) CP-ENG-BS seems to show in the four-year schedule Math 1214 or Math 1211, with footnote 3 and 21. Footnote 21 states Math 1210 and Math 1211 may be taken in place of Math 1214. These don't quite match? I'm not sure that footnote 21 is needed, as the prereq for Math 1211 is Math 1210 or by placement exam. Why reject the placement exam?

## Civil Engineering Bachelor of Science

The Civil Engineering ~~Civil Engineering~~ program at Missouri S&T is characterized by its focus on the scientific basics of ~~of~~ engineering and its innovative application; indeed, the underlying theme of ~~of~~ this educational program is the application of the ~~of the~~ scientific basics to engineering practice through attention to problems and needs of the ~~of the~~ public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

~~Civil Engineering Bachelor of Science Entering freshmen desiring to study Civil Engineering will be admitted to the Foundational Engineering and Computing Program. They will, however, be permitted, if they wish, to state a Civil Engineering preference, which will be used as a consideration for available freshman departmental scholarships. The focus of the Foundational Engineering and Computing Program is on enhanced advising and career counseling, with the goal of providing to the student the information necessary to make an informed decision regarding the choice of a major. For the Bachelor of Science degree in Civil Engineering a minimum of 129 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. An average of at least two grade points per credit hour must also be attained in all courses taken in Civil Engineering.~~

Each student's program of study must contain a minimum of 21 credit hours of course work in general education and must be chosen according to the following rules:

1. All students are required to take one American history course, one economics course, one humanities course, and [ENGLISH 1120](#) . The history course is to be selected from [HISTORY 1200](#) , [HISTORY 1300](#) , [HISTORY 1310](#) , or [POL SCI 1200](#) . The economics course may be either [ECON 1100](#) or [ECON 1200](#) . The humanities course must be selected from the approved lists for art, English, foreign languages, music, philosophy, speech and media studies, or theater.
2. Depth requirement. Three credit hours must be taken in humanities or social sciences at the 2000-level or above and must be selected from the approved list. This course must have as a prerequisite one of the humanities or social sciences courses already taken. Foreign language courses numbered 1180 will be considered to satisfy this requirement. Students may receive humanities credit for foreign language courses in their native tongue only if the course is at the 4000-level. All courses taken to satisfy the depth requirement must be taken after graduating from high school.
3. The remaining two courses are to be chosen from the list of approved humanities/social sciences courses and may include one communications course in addition to [ENGLISH 1120](#) .
4. Any specific departmental requirements in the general studies area must be satisfied.
5. Special topics and special problems and honors seminars are allowed only by petition to and approval by the student's department chair.

Total Credits: 129			

1

All general education electives must be approved by the student's advisor. Students must comply with the general education requirements with respect to selection and depth of study. These requirements are specified in the current catalog. One general education elective must be from [ENGLISH 1160](#), [ENGLISH 3560](#), or [SP&M S 1185](#).

2

A grade of 'C' or better required to satisfy graduation requirements.

3

A grade of 'C' or better may be required in CE technical and depth elective prerequisite courses. Refer to the Missouri S&T undergraduate catalog for this

prerequisite information.

4

Choose depth electives using Guidelines for Depth and Technical Electives.

5

Choose technical electives using Guidelines for Depth and Technical Electives.

~~The Civil Engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.~~ **Note:** All Civil Engineering students must take the Fundamentals of Engineering examination prior to graduation.

A passing grade on this examination is not required to earn a B.S. degree; however, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in Assessment Requirements found elsewhere in this catalog. Students must sign a release form giving the University access to their Fundamentals of Engineering Examination score.

## Guidelines for Depth and Technical Electives

Please consult the Department's Advising Center or your academic advisor for guidelines regarding the selection of depth and technical electives. A maximum total of 6 credit hours of independent study ([CIV ENG 5000](#) or [CIV ENG 4099](#) ) can be used as depth or technical electives in the B.S. Civil Engineering curriculum.

For the

~~**Bachelor of Science Electrical Engineering 1** Entering freshmen desiring to study Electrical Engineering will be admitted to the Foundational Engineering and Computing Program. They will be permitted to state a Electrical Engineering preference, which will be used as a consideration for available freshman departmental scholarships. The focus of the Foundational Engineering and Computing Program is on enhanced advising and career counseling, with the goal of providing to the student the information necessary to make an informed decision regarding the choice of a major. Bachelor of Science degree in Electrical Engineering<sup>1</sup>~~

For the Bachelor a minimum of Science degree in Electrical Engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in Electrical Engineering.

Electrical and Computer Engineering degree programs will require a minimum of 21 credit hours of humanities/social-sciences as specified below:

- [ENGLISH 1120](#)
- [HISTORY 1200](#) or [HISTORY 1300](#) or [HISTORY 1310](#) or [POL SCI 1200](#)
- [ECON 1100](#) or [ECON 1200](#)
- Technical Communication Elective: [ENGLISH 1160](#) or [ENGLISH 3560](#)
- [SP&M S 1185](#)
- The remaining minimum of 6 additional credit hours must be three-credit hour lecture courses offered in disciplines in the humanities and social sciences. Humanities courses are defined as those in: Art, English and Technical Communication, Etymology, Foreign Languages, Music, Philosophy, Speech and Media Studies, and Theatre. Social Sciences courses are defined as those in: Economics, History, Political Science, and Psychology. Study abroad courses may count as H/SS courses. H/SS courses numbered 2001, 3001, and 4001 (experimental courses) may also be used to complete these elective requirements.

Courses in business, education, information science and technology, or any other discipline not listed above will **not** satisfy the humanities/social sciences elective requirement, although such courses may count toward general education requirements. Transfer credits from other universities in sociology and general humanities may count as humanities or social science electives.

The Electrical Engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

## Free Electives Footnote:

Students are required to take five hours of free electives in consultation with their academic advisor. Credits which do not count towards this requirement are deficiency courses (such as algebra and trigonometry), and extra credits in required courses. Any courses outside of engineering and science must be at least three credit hours.

Total Credits: 128			

1

The minimum number of hours required for a degree in Electrical Engineering is 128.

2

Students that transfer after their freshman year are not required to enroll in [FR ENG 1100](#).

3

A minimum grade of "C" must be attained in [MATH 1214](#), [MATH 1215](#), [MATH 2222](#), and [MATH 3304](#), [PHYSICS 1135](#) and [PHYSICS 2135](#) (or their equivalents), [ELEC ENG 2100](#), [ELEC ENG 2101](#), [ELEC ENG 2120](#), [ELEC ENG 2200](#), [ELEC ENG 2201](#), [ELEC ENG 3320](#), [ELEC ENG 3321](#), [ELEC ENG 3430](#), [ELEC ENG 3431](#), [ELEC ENG 3100](#), [ELEC ENG 3101](#), and [ELEC ENG 3600](#), the ELEC ENG power elective ([ELEC ENG 3500](#) and [ELEC ENG 3501](#) or [ELEC ENG 3540](#) and [ELEC ENG 3541](#)), [ELEC ENG 4096](#) and [COMP ENG 2210](#) and [COMP ENG 2211](#). Also, students may not enroll in other courses that use these courses as prerequisites until the minimum grade of "C" is attained.

4

Students may take [PHYSICS 1111](#) and [PHYSICS 1119](#) in place of [PHYSICS 1135](#). Students may take [PHYSICS 2111](#) and [PHYSICS 2119](#) in place of [PHYSICS 2135](#).

5

All electives must be approved by the student's advisor. Students must comply with the general education requirements with respect to selection and depth of study. These requirements are specified in the current catalog.

6

Students who drop a lecture course prior to the last week to drop a class must also drop the corequisite lab.

7

Students must earn a passing grade on the ELEC ENG Advancement Exam I (associated with [ELEC ENG 2100](#)) before they enroll in [ELEC ENG 2120](#) or [ELEC ENG 2200](#) and [ELEC ENG 2201](#).

8

Students must earn a passing grade on the COMP ENG Advancement Exam (associated with [COMP ENG 2210](#)) before they enroll in any course with [COMP ENG 2210](#) and/or [COMP ENG 2211](#) as prerequisites.

9

Students must earn a passing grade on the ELEC ENG Advancement Exam II (associated with [ELEC ENG 2120](#)) before they enroll in [ELEC ENG 3500](#), [ELEC ENG 3540](#), [ELEC ENG 3501](#), [ELEC ENG 3541](#), [ELEC ENG 3320](#), [ELEC ENG 3321](#), [ELEC ENG 3430](#), [ELEC ENG 3431](#), [ELEC ENG 3100](#), [ELEC ENG 3101](#), or [ELEC ENG 3600](#), or other courses with [ELEC ENG 2120](#) as a prerequisite.

10

Students must earn a passing grade on the ELEC ENG Advancement Exam III (associated with [ELEC ENG 2200](#)) before they enroll in [ELEC ENG 3100](#) and [ELEC ENG 3101](#) or other courses with [ELEC ENG 2200](#) as a prerequisite.

11

Students must take [MECH ENG 2340](#), [MECH ENG 2519](#), [MECH ENG 2527](#), [PHYSICS 2305](#), [PHYSICS 2311](#), [PHYSICS 2401](#), [NUC ENG 3103](#), [CHEM 2210](#), [BIO SCI 2213](#), or [BIO SCI 2223](#). The following pairs of course are substitutions: [CIV ENG 2200](#) and [MECH ENG 2350](#) or [ENG MGT 2110](#) and [ENG MGT 3310](#).

12

Students may replace [STAT 3117](#) with [STAT 3115](#) or [STAT 5643](#).

13

Students must take [ENGLISH 3560](#) or [ENGLISH 1160](#). Students may replace [SP&M S 1185](#) with the ROTC sequence of [MIL ARMY 4250](#) and [MIL ARMY 4500](#) or [MIL AIR 4110](#) and [MIL AIR 4120](#).

14

ELEC ENG Electives A, B, and C must be chosen from ELEC ENG 56XX, [ELEC ENG 3500](#), [ELEC ENG 3540](#), [ELEC ENG 3410](#), [ELEC ENG 3250](#), [ELEC ENG 3340](#), [ELEC ENG 3440](#), [ELEC ENG 3120](#), and [COMP ENG 3150](#). Only one ELEC ENG 56XX course may be used.

15

The ELEC ENG Power Elective may be satisfied with [ELEC ENG 3500](#) and [ELEC ENG 3501](#) or [ELEC ENG 3540](#) and [ELEC ENG 3541](#).

16

ELEC ENG Elective D must be a 4XXX-level or above ELEC ENG or COMP ENG course with at least a 3-hour lecture component. [ELEC ENG 4000](#), [ELEC ENG 5000](#), [COMP ENG 4000](#), [COMP ENG 5000](#), [ELEC ENG 4099](#), [COMP ENG 4099](#), [ELEC ENG 4096](#), [COMP ENG 4096](#), [ELEC ENG 4097](#), [COMP ENG 4097](#), [ELEC ENG 5070](#), [COMP ENG 5070](#), ELEC ENG 58XX, and COMP ENG 58XX may not be used for Elective D.

17

ELEC ENG Elective E may be any 3XXX-level or above ELEC ENG or COMP ENG course except [ELEC ENG 3002](#), ELEC ENG 38XX, [ELEC ENG 4096](#), [ELEC ENG 4097](#), and [ELEC ENG 5070](#) and [COMP ENG 3002](#), COMP ENG 38XX, [COMP ENG 4000](#), [COMP ENG 4096](#), [COMP ENG 4097](#), and [COMP ENG 5070](#).

18

Students are required to take six hours of free elective in consultation with their academic advisors. Credits that do not count toward this requirement are deficiency courses (such as algebra and trigonometry) and extra credits from courses meeting other requirements. Any courses outside of engineering and science must be at least three credit hours. ELEC ENG 28XX, ELEC ENG 38XX, [ELEC ENG 4096](#), [ELEC ENG 4097](#), COMP ENG 28XX, COMP ENG 38XX, [COMP ENG 4096](#) and [COMP ENG 4097](#) may not be used for free electives. No more than one credit hour of [ELEC ENG 3002](#) or [COMP ENG 3002](#) may be applied to the BS degree for free electives.

19

Students that pursue an optional degree emphasis area have restricted options for EI Eng Electives A, D, and E. Students admitted to the accelerated BS/MS program must satisfy EI Eng Electives D and E with 5xxx or 6xxx-level courses and a minimum grade of B.

20

Students must take one of the following courses: [BUS 5980](#), [ECON 4430](#), [ECON 5337](#), [ENG MGT 2310](#), [ENG MGT 3320](#), [ENG MGT 4110](#), [ENG MGT 5514](#), or [PHILOS 3225](#).

21

Both [MATH 1210](#) and [MATH 1211](#) may be taken in place of [MATH 1214](#). A C or better grade is required in both courses.

**Note: Student must satisfy the common freshman year academic requirements and be admitted into the department. See Foundational**

**Engineering and Computing Program.** All Electrical Engineering students are encouraged to take the fundamentals of Engineering Examination prior to graduation. It is the first step toward becoming a registered professional engineer.

An accelerated BS/MS program and a formal emphasis in circuits and electronics, optics and devices, controls and systems, communications and signal processing, power and energy, electromagnetics, or computer engineering are optional.

## Emphasis Areas for Electrical Engineering

### Circuits and Electronics, Communications and Signal Processing, Computer Engineering, Controls and Systems, Electromagnetics, Optics and Devices, Power and Energy

A declared emphasis area is not required. A student may choose to obtain an Electrical Engineering degree without a formal emphasis or may choose to obtain an Electrical Engineering degree with a declared emphasis in one or more of the emphasis areas of electrical engineering. A major change request is required to add the emphasis area option to the degree program.

For students who seek an Electrical Engineering degree without a formal emphasis, these emphasis areas may guide the choice of their ELEC ENG Electives A, B, C, D, and E as well as their free electives. Students should consult with their advisors on such course selections.

For students who seek an Electrical Engineering degree with a declared emphasis, courses in the declared emphasis area will be applied to ELEC ENG Electives A, D, and E in the degree requirements. For students who choose to have multiple emphasis areas, the additional courses will apply to ELEC ENG Elective B or C and free elective requirements. Students should seek guidance from their advisors on emphasis areas and on courses that are relevant to more than one emphasis area. Students may have an emphasis area or emphasis areas listed on their transcript by completing three three-credit-hour courses in electrical and computer engineering from the designated lists with at least one of the courses being at the 4XXX-level or above. This requirement will be satisfied by completing the relevant ABC Elective course, a 4XXX-level or above course for Elective D, and another 3XXX-level or above course for Elective E from the designated listing. The required ELEC ENG courses [ELEC ENG 3320](#), [ELEC ENG 3430](#), [ELEC ENG 3100](#), and [ELEC ENG 3600](#) and the course used to satisfy the power requirement ([ELEC ENG 3500](#) or [ELEC ENG 3540](#)) may not be used to meet the three course requirement. Transfer courses do not apply to emphasis areas. A co-listed course may count toward both areas. Experimental courses [ELEC ENG 3001](#), [ELEC ENG 4001](#), [ELEC ENG 5001](#), [COMP ENG 3001](#), [COMP ENG 4001](#), or [COMP ENG 5001](#) require departmental approval to apply toward an emphasis area.

## Accelerated BS/MS Program Option for EE and CpE Majors

Electrical engineering or computer engineering undergraduates in ECE at Missouri S&T may opt to apply for an accelerated BS/MS ECE program where a student can achieve both degrees faster than if pursuing the degrees separately. The degrees may be BS EE and MS EE, BS CpE and MS CpE, BS EE and MS CpE, or BS CpE and MS EE. The benefits of the program for admitted students are:

- Undergraduate and graduate courses may be chosen with greater flexibility,
- Up to ~~nine~~ **six** hours of 5000-level or above ECE coursework may apply to both the BS and MS requirements,
- The classes taken for shared BS/MS credit may be taken at the lower undergraduate tuition rate,
- The GRE is not required for admission,
- Other graduate credit courses may be taken anytime after entering the program, and
- Work on a thesis project may begin before the BS requirements are completed.

~~The BS degree requirements are modified for admitted students such that EE Electives D and E or CpE Electives B and C will be satisfied by six credit hours of 5000-level or above ECE coursework.~~ To be eligible for the accelerated BS/MS ECE program, an EE or CpE undergraduate must be at or beyond the junior level with a minimum of 60 credit hours and must have completed 18 credit hours of EE and/or CpE courses at Missouri S&T with at least a 3.50 GPA in the ECE courses. To be admitted, the student must complete the program application and must have the recommendation of an ECE faculty member who agrees to serve as the graduate thesis advisor. No other MS degree requirements are changed. The MS degree must be for the thesis option. The program may be combined with existing honors research and emphasis area options. Admitted students will have both undergraduate and graduate records in the Registrar's Office.

The Accelerated program application must be completed within one semester after the shared-credit courses are completed. Courses taken for shared credit will be identified on the application form and on Graduate Form 1, which is submitted after the student enters the graduate program. The ~~nine~~ **six** hours of shared-credit coursework will be taken as undergraduate credit, ~~must be approved by the academic advisor,~~ and may not be undergraduate research, special problems, or transfer courses (a co-listed course can only apply for these undergraduate requirements if it is under an EE or CpE registration. Note that the choice of EE or CpE registration may affect how a course can apply within an MS program.) An additional ~~nine~~ **six** credit hours of coursework for graduate credit (beyond the shared BS/MS credits) can be taken while in the undergraduate program by applying for dual undergraduate/graduate enrollment. Taking additional courses for graduate credit will require formal application to the graduate program. Acceptance to the MS degree program from the Accelerated program is automatic so long as the student meets ECE graduate student academic performance requirements. To remain in the Accelerated program, the student must maintain good standing within the undergraduate EE or CpE program and must maintain continuous enrollment at Missouri S&T. If the student exits the program before completion of the MS degree requirements or

fails to maintain continuous enrollment at Missouri S&T, the shared-credit courses may not apply toward graduate requirements in the event of future readmission.

The student is responsible for checking on how dual-enrollment status and graduate coursework will affect scholarships and other financial aid. Once you become a graduate student, you **are not** eligible for Federal Pell Grants, though are still eligible for Federal Financial Aid and will be eligible for fellowships and teaching/research assistantships. International students should check with international affairs during completion of an accelerated BS/MS to ensure immigration status will be maintained throughout the program.

#### Justification for request

The combination of Math 1210 and Math 1211 is now an option for students to take in place of Math 1214.

ECE Faculty approved proposal to increase transfer of credit hours from six to nine for students enrolling in the Accelerated BS/MS Program.

Freshman Engineering Program details have been removed from the EE BS Program description due to the elimination of the Freshman Engineering Program.

#### Course Reviewer Comments

**tibbettsmg (11/22/21 3:41 pm):** updated plan of study formatting. mt

**tibbettsmg (11/22/21 3:42 pm):** updated term to fs22. mt

**sraper (12/20/21 1:28 pm):** Rollback: Hold until Direct admissions Language removal.

**tibbettsmg (12/21/21 8:05 am):** Rollback: rollback per note and conversation with Steve Raper.

**watkins (03/03/22 7:45 pm):** Rollback: Further change needed

**tibbettsmg (03/07/22 11:55 am):** updated formatting on footnote 17 and 21. MR

**sraper (03/18/22 8:38 am):** See note. discuss during CCC. 1) CP-ENG-BS seems to show in the four-year schedule Math 1214 or Math 1211, with footnote 3 and 21. Footnote 21 states Math 1210 and Math 1211 may be taken in place of Math 1214. These don't quite match? I'm not sure that footnote 21 is needed, as the prereq for Math 1211 is Math 1210 or by placement exam. Why reject the placement exam? 2) EL-ENG-BS has the same issue in footnote 21, and I suspect they should alter footnote 3 to include C required in Math 1210.

## Bachelor of Science in Environmental Sciences

An Environmental Science degree at Missouri S&T commences with a first-year seminar course that is taken concurrently with an introductory environmental science course, creating familiar student cohorts that can support and motivate one another through the program. Throughout their four years in the program, students are trained in five core areas: economics, biology, geology, environmental engineering, and humanities. In addition, they build foundational skills in mathematics, physical science, and communications. As they progress through the program, students increasingly connect ideas from among and within core areas to build their understanding of the integrated multidisciplinary concepts in environmental science. During their junior and senior years, students will be able to customize their degrees by selecting from a diverse array of elective courses within core areas. The degree's flexible upper division elective choices also allow students to specialize and earn minors in core areas if they choose to do so.

Students apply the skills they learn in the classroom in hands-on laboratory and field courses. Students will finish their senior year with a capstone course that will be designed to engage them in professional development, connect them to career opportunities, hone their research and presentation skills through hands-on projects, and foster lifelong collegial relationships with their peers and instructors through intensive group work.

This curriculum benefits from a flexible design that allows students who may be transitioning from other programs on campus to complete the program in a timely manner. In addition, the degree creates opportunities for students to complete multiple minors within the degree, adding focus and strength to the interdisciplinary foundation.

## Environmental Engineering Bachelor of Science

The environmental engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

~~Environmental Engineering Bachelor of Science Entering freshmen desiring to study environmental engineering will be admitted to the Foundational Engineering and Computing Program. They will, however, be permitted, if they wish, to state a environmental engineering preference, which will be used as a consideration for available freshman departmental scholarships. The focus of the Foundational Engineering and Computing Program is on enhanced advising and career counseling, with the goal of providing to the student the information necessary to make an informed decision regarding the choice of a major. For the bachelor of science degree in environmental engineering a minimum of 129 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in environmental engineering.~~

Each student's program of study must contain a minimum of 21 credit hours of course work in humanities general education and social sciences, and must be chosen according to the following rules:

1. All students are required to take one American history course, one economics course, one humanities course, and ENGLISH 1120. The history course is to be selected from HISTORY 1200, HISTORY 1300, HISTORY 1310, or POL SCI 1200. The economics course may be either ECON 1100 or ECON 1200. The humanities course must be a class in selected from the approved lists for art, English, foreign languages, music, philosophy, speech and media studies, or theater.
2. HISTORY 2510 or HISTORY 3530 is required.
3. The remaining two courses are to be chosen from humanities (art, English, foreign languages, music, philosophy, speech the list of approved humanities/social sciences courses and media studies, or theater) or social sciences (economics, history, political science, psychology, or sociology) and may include one communications course in addition to ENGLISH 1120.
4. Special topics and special problems and honors seminars are allowed only by petition to and approval by the student's department chair.

1

All general education electives must be approved by the student's advisor. Students must comply with the general education requirements with respect to selection and depth of study. These requirements are specified in the current catalog.

2

A grade of 'C' or better required to satisfy graduation requirements

3

Existing CIV ENG course that is cross-listed as ENV ENG course.

4

Air Pollution Elective: Choose [ENV ENG 5660](#), [ENV ENG 5662](#) or [ENV ENG 5665](#). One class may not be used to fulfill both the air pollution requirement and a depth elective.

5

A grade of 'C' or better may be required in ENV ENG technical and depth elective prerequisite courses. Refer to the Missouri S&T undergraduate catalog for this prerequisite information.

6

Select depth and technical electives from approved lists. A maximum total of 6 credit hours of independent study ([ENV ENG 5000](#) or [ENV ENG 4099](#)) can be used as depth or technical electives in the B.S. environmental engineering curriculum.

7

Choose 1 of the following: [CIV ENG 2003](#), [ENGLISH 1160](#), [ENGLISH 3560](#), or [SP&M S 1185](#)

~~The environmental engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.~~ **Note:** All environmental engineering students must take the Fundamentals of Engineering examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree, however, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in assessment requirements found elsewhere in this catalog. Students must sign a release form giving the university access to their Fundamentals of Engineering Examination score.

## Environmental Engineering Depth Electives

The following classes may be used to fulfill the three depth elective courses required for the B.S. in environmental engineering:

<a href="#">ENV ENG 5640</a>	Environmental Law And Regulations	3
<a href="#">ENV ENG 5630</a>	Remediation of Contaminated Groundwater And Soil	3
<a href="#">ENV ENG 5650</a>	Public Health Engineering	3
<a href="#">ENV ENG 5670</a>	Solid Waste Management	3
<a href="#">ENV ENG 5605</a>	Environmental Systems Modeling	3
<a href="#">ENV ENG 5642</a>	Sustainability, Population, Energy, Water, and Materials	3
<a href="#">ENV ENG 5665</a>	Indoor Air Pollution	3
<a href="#">ENV ENG 5660</a>	Introduction To Air Pollution	3
<a href="#">ENV ENG 5662</a>	Air Pollution Control Methods	3
<a href="#">GEO ENG 5331</a>	Subsurface Hydrology	3
<a href="#">ENV ENG 5360</a>	Water Resources And Wastewater Engineering	3
<a href="#">ENV ENG 5635</a>	Phytoremediation and Natural Treatment Systems: Science and Design	3

One class may not be used to fulfill both the air pollution requirement and depth elective.

## Environmental Engineering Technical Electives

The following classes may be used to fulfill the two technical elective courses required for the B.S. in environmental engineering:

<a href="#">CIV ENG 5331</a>	Hydraulics Of Open Channels	3
<a href="#">CIV ENG 5335</a>	Water Infrastructure Engineering	3
<a href="#">CIV ENG 5446</a>	Management Of Construction Costs	3
<a href="#">CIV ENG 5360</a>	Water Resources And Wastewater Engineering	3
<a href="#">CIV ENG 5448</a>	Green Engineering: Analysis of Constructed Facilities	3
<a href="#">CHEM ENG 3101</a>	Fundamentals of Transport in Chemical and Biochemical Engineering	4
<a href="#">CIV ENG 5744</a>	Geosynthetics in Engineering	3
<a href="#">CHEM ENG 5340</a>	Principles of Environmental Monitoring	3

<a href="#">CIV ENG 5338</a>	Hydrologic Engineering	3

#### Justification for request

- 1) Eliminating FEP requirement
- 2) Modifying 'general education' to humanities and social sciences, and providing list of those areas rather than refer to a mythic list.

A grade of "C" or better is required in [CHEM 1310](#), [MATH 1214](#) (or [MATH 1211](#)), [MATH 1215](#), [MATH 2222](#), [MATH 3304](#), [PHYSICS 1135](#), [PHYSICS 2135](#), programming elective, [MET ENG 2110](#), [CIV ENG 2200](#), [CIV ENG 2210](#), [MECH ENG 2519](#), [MECH ENG 2360](#), and [MECH ENG 3411](#), both as prerequisite for follow-up courses in the curriculum and for graduation.

b  
The programming elective consists of a lecture and lab combination, and may be selected from [COMP SCI 1970/COMP SCI 1980](#), [COMP SCI 1971/COMP SCI 1981](#), or [COMP SCI 1972/COMP SCI 1982](#), or [COMP SCI 1570/COMP SCI 1580](#). Note that [COMP SCI 1570/COMP SCI 1580](#) requires one more credit hour than the other options.

c  
This course must be selected from the following: [ENGLISH 1160](#), [ENGLISH 3560](#) or [SP&M S 1185](#), or the complete four course sequence in Advanced ROTC ([MIL ARMY 3250](#), [MIL ARMY 3500](#), [MIL ARMY 4250](#), and [MIL ARMY 4500](#); or [MIL AIR 3110](#), [MIL AIR 3120](#), [MIL AIR 4110](#) and [MIL AIR 4120](#)).

d  
This course must be selected from the following: [MATH 3108](#), [STAT 3113](#), [STAT 3115](#) or any 5000-level math or stat course approved by the student's advisor.

e  
All electives must be approved by the student's advisor. Humanity and social science electives must be at least 3 credit hours of lecture designation, and also meet requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog.

f  
Six hours of technical electives, subject to approval by the student's advisor, must be in the department of mechanical and aerospace engineering. At least three of these technical elective hours must be at the 5000 level. This elective may not include co-op, special problems, or research credits, such as as 3002, 4000, or 4099. Honors students have special requirements for technical electives.

g  
This elective must be a three credit hour course, subject to approval by the student's advisor, from any of the following areas: math, statistics, science, engineering, or computer science. The course must be at the 3000 or higher level, or have a prerequisite that is part of the required mechanical engineering curriculum. Exceptions to the course level may be approved by the student's advisor. The elective may not include co-op, special problems, or research credits, such as 3002, 4000, or 4099.

h  
This elective consists of three credit hours, subject to approval by the student's advisor, and may be satisfied by any of the following: (1) A three credit hour course from any of the following areas: math, statistics, science, engineering, computer science, business, or IST. The course must be at the 3000 or higher level, or have a prerequisite that is part of the required mechanical engineering curriculum. Exceptions to the course level may be approved by the student's advisor; (2) Any three credit hour course in the list of approved courses for the global studies minor; or (3) Any combination of three credit hours from co-op (3002), special problems (3000, 4000, or 5000), research (4099), or design team credit ([ENG MGT 2011](#), [ENG MGT 2012](#), or [ENG MGT 2013](#)).

i  
All mechanical engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree. However, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in assessment requirements found elsewhere in this catalog.

~~The mechanical engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and~~

**~~laboratory instruction. Note: Students must satisfy the common freshman year academic requirements, and be admitted into the department, in addition to the sophomore, junior and senior year requirements listed above with a minimum of 128 hours.~~ Energy Conversion Emphasis Area for Mechanical Engineering**

Students desiring to obtain a bachelor of science degree in mechanical engineering with an emphasis area in energy conversion must satisfy all the requirements of the bachelor of science degree in mechanical engineering, with the additional stipulation that four courses must be taken as follows:

a. Two courses from the following list:		6
<a href="#">MECH ENG 5527</a>	Combustion Processes	3
or <a href="#">AERO ENG 5527</a>	Combustion Processes	
<a href="#">MECH ENG 5533</a>	Internal Combustion Engines	3
<a href="#">MECH ENG 5566</a>	Solar Energy Technology	3
<a href="#">MECH ENG 5567</a>	Heat Pump And Refrigeration Systems	3
<a href="#">MECH ENG 5571</a>	Environmental Controls	3
<a href="#">MECH ENG 5575</a>	Mechanical Systems For Environmental Control	3
<a href="#">AERO ENG 5169</a>	Introduction to Hypersonic Flow	3
<a href="#">AERO ENG 5535</a>	Aerospace Propulsion Systems	3
b. One course from the following list:		3
<a href="#">MECH ENG 5519</a>	Advanced Thermodynamics	3
or <a href="#">AERO ENG 5519</a>	Advanced Thermodynamics	
<a href="#">MECH ENG 5525</a>	Intermediate Heat Transfer	3
or <a href="#">AERO ENG 5525</a>	Intermediate Heat Transfer	
<a href="#">MECH ENG 5131</a>	Intermediate Thermofluid Mechanics	3
or <a href="#">AERO ENG 5131</a>	Intermediate Thermofluid Mechanics	
<a href="#">MECH ENG 5139</a>	Computational Fluid Dynamics	3
or <a href="#">AERO ENG 5139</a>	Computational Fluid Dynamics	
c. One additional course from either list "a" or list "b", or from the following list:		3
<a href="#">ECON 4540</a>	Energy Economics	3
<a href="#">ELEC ENG 5150</a>	Photovoltaic Systems Engineering	3
<a href="#">ENV ENG 5660</a>	Introduction To Air Pollution	3
<a href="#">NUC ENG 4257</a>	Two-phase Flow in Energy Systems - I	3

**Note:** By using the breadth elective and technical electives to satisfy the above requirements, this emphasis area requires the same total number of credit hours as the BSME degree. A change of major form should be submitted to designate the energy conversion emphasis area.

## Manufacturing Processes Emphasis Area for Mechanical Engineering

Students desiring to obtain a bachelor of science in mechanical engineering with an emphasis area in manufacturing processes must

satisfy all requirements of the bachelor of science in mechanical engineering with the additional stipulation that four courses must be taken as follows:

a. The following course:		3
<a href="#">MECH ENG 3653</a>	Manufacturing	3
b. One course from the following Manufacturing/Automation courses:		3
<a href="#">MECH ENG 5653</a>	Computer Numerical Control of Manufacturing Processes	3
<a href="#">MECH ENG 5655</a>	Manufacturing Equipment Automation	3
<a href="#">MECH ENG 5449</a>	Robotic Manipulators and Mechanisms	3
<a href="#">MECH ENG 5606</a>	Material Processing By High-Pressure Water Jet	3
c. One course from the following Design courses:		3
<a href="#">MECH ENG 5763</a>	Computer Aided Design: Theory and Practice	3
<a href="#">MECH ENG 5656</a>	Design For Manufacture	3
<a href="#">MECH ENG 5702</a>	Synthesis Of Mechanisms	3
d. One course from the following list:		3
<a href="#">MECH ENG 5708</a>	Rapid Product Design And Optimization	3
<a href="#">MECH ENG 5758</a>	Integrated Product Development	3
e. The Math/Stat elective must be one of the following:		3
<a href="#">STAT 3113</a>	Applied Engineering Statistics	3
<a href="#">STAT 3115</a>	Engineering Statistics	3

A suggested sequence for the junior and senior years is given below. Note that by using the breadth elective and technical electives to satisfy the above requirements, this emphasis area requires the same total number of credit hours as the BSME degree. A change of major form should be submitted to designate the manufacturing processes emphasis area.

<b>Junior Year</b>			
<b>First Semester</b>	<b>Credits</b>	<b>Second Semester</b>	<b>Credits</b>
<a href="#">MECH ENG 3313</a>	3	<a href="#">MECH ENG 3411</a> <sup>a</sup>	3

Manufacturing Technical Elective <sup>e</sup>	3	Manufacturing Technical Elective <sup>e</sup>	3
Elective Literature <sup>d</sup>	3	Electives-Hum or Soc Sci <sup>d</sup>	3
	17		13
<b>Total Credits: 63</b>			

a

A grade of "C" or better is required in [CHEM 1310](#), [MATH 1214](#) (or [MATH 1211](#)), [MATH 1215](#), [MATH 2222](#), [MATH 3304](#), [PHYSICS 1135](#), [PHYSICS 2135](#), programming elective, [MET ENG 2110](#), [CIV ENG 2200](#), [CIV ENG 2210](#), [MECH ENG 2519](#), [MECH ENG 2360](#) and [MECH ENG 3411](#), both as prerequisite for follow-up courses in the curriculum and for graduation.

b

The programming elective consists of a lecture and lab combination, and may be selected from [COMP SCI 1970/COMP SCI 1980](#), [COMP SCI 1971/COMP SCI 1981](#), [COMP SCI 1972/COMP SCI 1982](#), or [COMP SCI 1570/COMP SCI 1580](#). Note that [COMP SCI 1570/COMP SCI 1580](#) requires one more credit hour than the other options.

c

This course must be selected from the following: [ENGLISH 1160](#), [ENGLISH 3560](#) or [SP&M S 1185](#), or the complete four course sequence in Advanced ROTC ([MIL ARMY 3250](#), [MIL ARMY 3500](#), [MIL ARMY 4250](#), and [MIL ARMY 4500](#); or [MIL AIR 3110](#), [MIL AIR 3120](#), [MIL AIR 4110](#) and [MIL AIR 4120](#)).

d

All electives must be approved by the student's advisor. Humanity and social science electives must be at least 3 credit hours of lecture designation, and also meet requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog.

e

The nine hours of manufacturing technical elective must be selected as follows:  
 One course from the following manufacturing/automation courses: [MECH ENG 5653](#), [MECH ENG 5655](#), [MECH ENG 5449](#), [MECH ENG 5606](#).  
 One of the following design courses: [MECH ENG 5763](#), [MECH ENG 5656](#), [MECH ENG 5702](#).  
 One course from the following list: [MECH ENG 5708](#), [MECH ENG 5758](#).

f

All mechanical engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree, however, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in Assessment Requirements found elsewhere in this catalog.

## Mechanical Design and Analysis Emphasis Area

Students desiring to obtain a bachelor of science in mechanical engineering with an emphasis area in mechanical design and analysis must satisfy all requirements of the bachelor of science in mechanical engineering, with the additional stipulation that four courses must be taken as follows:

a. One design course from the following list:		3
<a href="#">MECH ENG 5709</a>	Machine Design II	3
<a href="#">MECH ENG 5702</a>	Synthesis Of Mechanisms	3
<a href="#">MECH ENG 5704</a>	Compliant Mechanism Design	3
<a href="#">MECH ENG 5708</a>	Rapid Product Design And Optimization	3
<a href="#">MECH ENG 5715</a>	Concurrent Engineering	3
<a href="#">MECH ENG 5656</a>	Design For Manufacture	3
<a href="#">MECH ENG 5757</a>	Integrated Product And Process Design	3
<a href="#">MECH ENG 5760</a>	Probabilistic Engineering Design	3
<a href="#">MECH ENG 5763</a>	Computer Aided Design: Theory and Practice	3

<a href="#">MECH ENG 5761</a>	Engineering Design Methodology	3
b. One analysis course from the following list:		3
<a href="#">MECH ENG 5307</a>	Vibrations I	3
<a href="#">MECH ENG 5211</a>	Introduction To Continuum Mechanics	3
<a href="#">MECH ENG 5212</a>	Introduction to Finite Element Analysis	3
<a href="#">MECH ENG 5234</a>	Stability of Engineering Structures	3
<a href="#">MECH ENG 5236</a>	Fracture Mechanics	3
<a href="#">MECH ENG 5313</a>	Intermediate Dynamics Of Mechanical And Aerospace Systems	3
<a href="#">MECH ENG 5222</a>	Introduction To Solid Mechanics	3
<a href="#">MECH ENG 5238</a>	Fatigue Analysis	3
<a href="#">MECH ENG 5449</a>	Robotic Manipulators and Mechanisms	3
<a href="#">MECH ENG 5478</a>	Mechatronics	3
c. Two additional courses from either of the previous lists.		6

Note that by using the breadth elective and technical electives to satisfy the above requirements, this emphasis area requires the same total number of credit hours as the BSME degree. A change of major form should be submitted to designate the mechanical design and analysis emphasis area.

## Systems Integration Emphasis Area

The Systems Integration emphasis area is required and available only for students pursuing a bachelor of science in mechanical engineering in the cooperative program delivered at Missouri State University. This emphasis area includes all requirements of the bachelor of science in mechanical engineering, except for the substitutions stipulated below.

The following requirements in the mechanical engineering curriculum are removed (16 credit hours):		
<a href="#">ELEC ENG 2800</a>	Electrical Circuits	3
<a href="#">ENG MGT 1100</a>	Practical Concepts for Technical Managers	1
Elective-Advanced Math/Stat		3
MECH ENG 5000-level technical elective		3
Technical elective		3
Breadth elective		3
The following requirements are added (16 credit hours):		
<a href="#">ELEC ENG 2100</a>	Circuits I	3
<a href="#">ELEC ENG 2101</a>	Circuit Analysis Laboratory I	1
<a href="#">ELEC ENG 2120</a>	Circuits II	3
<a href="#">ENG MGT 3320</a>	Introduction to Project Management	3
Systems Integration technical elective. One of the following:		3
<a href="#">MECH ENG 5307</a>	Vibrations I	3
<a href="#">MECH ENG 5478</a>	Mechatronics	3
<a href="#">MECH ENG 5481</a>	Mechanical And Aerospace Control Systems	3

<a href="#">MECH ENG 5533</a>	Internal Combustion Engines	3
<a href="#">MECH ENG 5571</a>	Environmental Controls	3
<a href="#">MECH ENG 5575</a>	Mechanical Systems For Environmental Control	3
<a href="#">MECH ENG 5656</a>	Design For Manufacture	3
<a href="#">MECH ENG 5704</a>	Compliant Mechanism Design	3
<a href="#">MECH ENG 5708</a>	Rapid Product Design And Optimization	3
<a href="#">MECH ENG 5709</a>	Machine Design II	3
<a href="#">MECH ENG 5715</a>	Concurrent Engineering	3
<a href="#">MECH ENG 5757</a>	Integrated Product And Process Design	3
<a href="#">MECH ENG 5763</a>	Computer Aided Design: Theory and Practice	3
One of the following:		
<a href="#">STAT 3113</a>	Applied Engineering Statistics	3
<a href="#">STAT 3115</a>	Engineering Statistics	3
<a href="#">STAT 3117</a>	Introduction To Probability And Statistics	3

All of the substitutions for this emphasis area appear in the junior and senior years. A suggested sequence for the junior and senior years is given below.

<b>Junior Year</b>			
<b>First Semester</b>	<b>Credits</b>	<b>Second Semester</b>	<b>Credits</b>
<a href="#">MECH ENG 3313</a>	3	<a href="#">MECH ENG 3411</a> <sup>a</sup>	3
<a href="#">MECH ENG 3521</a>	3	<a href="#">MECH ENG 3131</a>	3
<a href="#">ELEC ENG 2100</a>	3	<a href="#">MECH ENG 3525</a>	3
<a href="#">ELEC ENG 2101</a>	1	<a href="#">MECH ENG 3708</a>	3
<a href="#">CIV ENG 2210</a> <sup>a</sup>	3	<a href="#">MECH ENG 4840</a>	2
<a href="#">CIV ENG 2211</a>	1	<a href="#">ELEC ENG 2120</a>	3
<a href="#">STAT 3113</a> , or <a href="#">3115</a> , or <a href="#">3117</a>	3		
	17		17
<b>Senior Year</b>			
<b>First Semester</b>	<b>Credits</b>	<b>Second Semester</b>	<b>Credits</b>
<a href="#">MECH ENG 4842</a>	2	<a href="#">MECH ENG 4761</a>	3
<a href="#">MECH ENG 4479</a>	3	Systems Integration technical elective <sup>f</sup>	3
<a href="#">MECH ENG 4480</a>	1	Literature elective <sup>d</sup>	3
MECH ENG technical elective <sup>e</sup>	3	Elective - Advanced Hum or Soc Sci <sup>d</sup>	3
Elective - Communications <sup>c</sup>	3	<a href="#">ENG MGT 3320</a>	3
<a href="#">ENG MGT 1210</a>	2		
	14		15
Total Credits: 63			

a

A grade of "C" or better is required in [CHEM 1310](#), [MATH 1214](#) (or [MATH 1211](#)), [MATH 1215](#), [MATH 2222](#), [MATH 3304](#), [PHYSICS 1135](#), [PHYSICS 2135](#), programming elective, [MET ENG 2110](#), [CIV ENG 2200](#), [CIV ENG 2210](#), [MECH ENG 2519](#), [MECH ENG 2360](#) and [MECH ENG 3411](#), both as prerequisite for follow-up courses in the curriculum and for graduation.

b

The programming elective consists of a lecture and lab combination, and may be selected from [COMP SCI 1970/COMP SCI 1980](#), [COMP SCI 1971/COMP SCI 1981](#), or [COMP SCI 1972/COMP SCI 1982](#), or [COMP SCI 1570/COMP SCI 1580](#). Note that [COMP SCI 1570/COMP SCI 1580](#) requires one more credit hour than the other options.

c

This course must be selected from the following: [ENGLISH 1160](#), [ENGLISH 3560](#) or [SP&M S 1185](#), or the complete four course sequence in Advanced ROTC ([MIL ARMY 3250](#), [MIL ARMY 3500](#), [MIL ARMY 4250](#), and [MIL ARMY 4500](#); or [MIL AIR 3110](#), [MIL AIR 3120](#), [MIL AIR 4110](#) and [MIL AIR 4120](#)).

d

All electives must be approved by the student's advisor.

Humanity and Social Science electives must be at least 3 credit hours of lecture designation, and also meet requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog.

e

The mechanical engineering technical elective is subject to approval by the student's advisor, and must be in the department of mechanical and aerospace engineering. This elective may not include co-op, special problems, or research credits, such as 3002, 4000, or 4099. Honors students have special requirements for technical electives.

f

The systems integration technical elective must be selected from the following list: [MECH ENG 5307](#), [MECH ENG 5478](#), [MECH ENG 5481](#), [MECH ENG 5533](#), [MECH ENG 5571](#), [MECH ENG 5575](#), [MECH ENG 5656](#), [MECH ENG 5704](#), [MECH ENG 5708](#), [MECH ENG 5709](#), [MECH ENG 5715](#), [MECH ENG 5757](#), [MECH ENG 5763](#).

g

All mechanical engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree. However, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in assessment requirements found elsewhere in this catalog.

Justification for request

Removing reference to Freshmen Engineering.

All students in the B.A. multidisciplinary studies program will complete the basics skills and concepts and general education requirements and generally comply with the requirements for the B.A. degree. However, in lieu of the traditional major and minor requirements, student will complete two (24 and 21 hours respectively) or three (15 hours each) focus area chosen from among the various disciplines offered at Missouri S&T. GPA requirements for each area are the same as those for major fields. B.A. multidisciplinary studies students will also complete a 3-hour capstone course ([ALP 4397](#)) that reflects the students' ability to synthesize methods and knowledge from each focus area into an academically coherent product.

Students design their multidisciplinary programs in coordination with a multidisciplinary studies advisor in the department of arts, languages, and philosophy. For each program, the advisor will work with the student to convene and chair a degree committee consisting of one faculty member from each focus area. Student in the program are expected to develop a sensible rationale for their course of study, justifying both the combination of disciplines and each course chosen within that combination in the context of their own needs and interests. Individual programs and capstone course activities are subject to approval of the degree committee.

### French Language and French-Speaking Cultures Emphasis Area

The B.A. in Multidisciplinary Studies with an emphasis on French Language and French-Speaking Cultures consists of 30 language credits plus 15 credits in a third content area. Content Area 1 is French Language, Content Area 2 is French-Speaking Cultures. At least 18 of the 30 credit hours must be at least the 3000 or 4000 level.

Content Area 1: French Language, 15 credits, selecting from the list below. At least 6 of these credits must be at the 3000 or 4000 level.

<a href="#">FRENCH 1180</a>	<a href="#">Intermediate French</a>	<u>4</u>
<a href="#">FRENCH 2110</a>	<a href="#">Basic French Conversation</a>	<u>3</u>
<a href="#">FRENCH 2180</a>	<a href="#">Basic French Composition</a>	<u>3</u>
<a href="#">FRENCH 2330</a>	<a href="#">Course FRENCH 2330 Not Found</a>	
<a href="#">FRENCH 4311</a>	<a href="#">Advanced French Conversation</a>	<u>3</u>
<a href="#">FRENCH 4330</a>	<a href="#">Professional French</a>	<u>3</u>
<a href="#">FRENCH 4340</a>	<a href="#">Course FRENCH 4340 Not Found</a>	

Content Area 2: French-Speaking Cultures, 15 credits selecting from the list below. At least 12 of these credits must be at the 3000 or 4000 level.

<a href="#">FRENCH 2330</a>	<a href="#">Course FRENCH 2330 Not Found</a>	
<a href="#">FRENCH 2170</a>	<a href="#">Masterpieces Of French Literature</a>	<u>3</u>
<a href="#">FRENCH 3010</a>	<a href="#">Course FRENCH 3010 Not Found</a>	
<a href="#">FRENCH 3020</a>	<a href="#">Course FRENCH 3020 Not Found</a>	

<a href="#">FRENCH 3370</a>	<a href="#">Course FRENCH 3370 Not Found</a>	
<a href="#">FRENCH 3375</a>	<a href="#">Course FRENCH 3375 Not Found</a>	
<a href="#">FRENCH 4320</a>	<a href="#">French and Francophone Cinema</a>	<u>3</u>
<a href="#">FRENCH 4330</a>	<a href="#">Professional French</a>	<u>3</u>
<a href="#">FRENCH 4360</a>	<a href="#">French Culture And Civilization</a>	<u>3</u>

Additional coursework may count toward language content areas with advisor approval. These include:

<a href="#">FRENCH 3000</a>	<a href="#">Special Problems</a>	<u>0-6</u>
<a href="#">FRENCH 3001</a>	<a href="#">Special Topics</a>	<u>0-6</u>
<a href="#">FRENCH 4000</a>	<a href="#">Special Problems</a>	<u>0-6</u>
<a href="#">FRENCH 4001</a>	<a href="#">Special Topics</a>	<u>0-6</u>
<a href="#">FRENCH 4010</a>	<a href="#">Seminar</a>	<u>0-6</u>
<a href="#">Courses taken in French during study abroad</a>		

### **Spanish Language and Spanish-Speaking Cultures Emphasis Area**

The B.A. in Multidisciplinary Studies with an emphasis on Spanish Language and Spanish-Speaking Cultures consists of 30 language credits plus 15 credits in a third content area. Content Area 1 is Spanish Language. Content Area 2 is Spanish-Speaking Cultures. At least 18 of the 30 credit hours must be at the 3000 or 4000 level.

**Content Area 1:** Spanish Language, 15 credits, selecting from the list below. At least 6 of these credits must be at the 3000 or 4000 level.

<a href="#">SPANISH 1180</a>	<a href="#">Intermediate Spanish</a>	<u>4</u>
<a href="#">SPANISH 2110</a>	<a href="#">Basic Spanish Conversation</a>	<u>3</u>
<a href="#">SPANISH 2180</a>	<a href="#">Intermediate Spanish Composition</a>	<u>3</u>

## Bachelor of Science Nuclear Engineering

The nuclear engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

~~Bachelor of Science Nuclear Engineering Entering freshmen desiring to study nuclear engineering will be admitted to the Foundational Engineering and Computing Program. They will, however, be permitted, to state a nuclear engineering preference, which will be used as a consideration for available departmental scholarships.~~ For the bachelor of science degree in nuclear engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. A student must maintain an average of at least two grade points overall and for all courses taken in nuclear engineering.

Each student's program of study must contain a minimum of 21 credit hours of course work from the humanities and the social sciences areas and should be chosen according to the following rules:

1. All students are required to take one American history course and one economics course. The history course is to be selected from [HISTORY 1200](#), [HISTORY 1300](#), [HISTORY 1310](#), or [POL SCI 1200](#). The economics course may be either [ECON 1100](#) or [ECON 1200](#).
2. Students must take [ENGLISH 1120](#). Students must also take one communications elective, selected from [ENGLISH 1160](#), [ENGLISH 3560](#), or [SP&M S 1185](#).
3. The remaining nine hours must be taken in humanities or social sciences at the 1000 level or above. Foreign language courses numbered 1180 can be considered to be one of these courses. (Students may receive humanities credit for foreign language courses in their native tongue only if the course is at the 4000 level.)
4. Skill courses are not allowed to meet humanities and social sciences requirements except in foreign languages. Students who select the foreign language option are urged to take more than one course.
5. Special topics, special problems courses and honors seminars are allowed only by petition to and approval by the student's department chair.

**The nuclear engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.** Note: Minimum credit hours for graduation is 128.

1

Nuclear Engineering students are expected to take Nuclear Technology Applications ([NUC ENG 1105](#)) during their Freshman year. However, transfer students are exempt. Students who attend the Nuclear Engineering Summer Camp as high school students may have this requirement waived.

2

Humanities and Social Science to be taken in accordance with the policy described above.

3

Any Nuclear Engineering course 4000 level or higher.

4

Any Math, Science, or Engineering courses at the appropriate level.

**Fundamentals of Engineering Exam:** All nuclear engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree, however, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in assessment requirements found elsewhere in this catalog.

Justification for request

Updated language removing Freshmen Engineering Program.

For the

~~Bachelor of Science Petroleum Engineering Entering freshmen desiring to study Petroleum Engineering will be admitted to the Foundational Engineering and Computing Program. They will, however, be permitted, if they wish, to state a Petroleum Engineering preference, which will be used as a consideration for available freshman departmental scholarships. The focus of the Foundational Engineering and Computing Program is on enhanced advising and career counseling, with the goal of providing to the student the information necessary to make an informed decision regarding the choice of a major. A grade point average of 2.80 or higher is required to enter the Petroleum Engineering program from the Foundational Engineering and Computing Program.~~**Bachelor of Science  
Petroleum Engineering**

For the Bachelor of Science degree in Petroleum Engineering ~~Petroleum Engineering~~ a minimum of 129 ~~of 128~~ credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. A student must maintain at least two grade points per credit hour for all courses taken in Petroleum Engineering.

Each student's program of study must contain a minimum of 21 credit hours of course work in general education and must be chosen

according to the following rules:

1. Six credit hours of English: All students are required to take [ENGLISH 1120](#) and either [ENGLISH 3560](#) (preferred) or [ENGLISH 1160](#) or [ENGLISH 1600](#).
2. Nine credit hours of basic humanities and social sciences: All students are required to take one history course, one economics course and one humanities course. The history course is to be selected from [HISTORY 1200](#), [HISTORY 1300](#), [HISTORY 1310](#), or [POL SCI 1200](#). The economics course may be either [ECON 1100](#) or [ECON 1200](#). The humanities course selected must meet requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog.
3. Three credit hours as a depth requirement. Three credit hours must be taken in humanities or social sciences at the 2000-level or above and meet requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog. This course must have as a prerequisite one of the humanities or social sciences courses already taken. Foreign language courses numbered 1180 will be considered to satisfy this requirement. Students may receive humanities credit for foreign language courses in their native tongue only if the course is at the 4000-level. All courses taken to satisfy the depth requirement must be taken after graduating from high school.
4. Three credit hours of elective humanities and social sciences must meet requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog..
5. Special topics and special problems and honors seminars are allowed only by petition to and approval by the student's department chair.

The Petroleum Engineering program at Missouri S&T consists of a strong foundation in math, sciences and engineering fundamentals, plus strong content in the traditional Petroleum Engineering core areas of drilling, production and reservoir engineering. ~~Two unique features of the curriculum are a strong sequence of courses in Geology and Geophysics, plus a two course sequence in finite element analysis and mechanical earth modeling.~~ S&T Petroleum Engineering students are prepared to solve today's problems and tomorrow's. Students learn theory, have ample hands-on experiences in laboratories, and they learn many modern software packages used by the petroleum industry.

Students planning on majoring in petroleum engineering should take the following courses.

<b>Freshman Year</b>			
<b>First Semester</b>	<b>Credits</b>	<b>Second Semester</b>	<b>Credits</b>
<a href="#">FR ENG 1100</a>	1	<a href="#">MATH 1215</a> <sup>2</sup>	4

	15		15
Total Credits: 129			

1 All freshmen Petroleum Engineering students must enroll in [CHEM 1100](#) (Intro to Lab Safety and Haz Mat).

2 [MATH 1208](#) or [MATH 1211](#) may be substituted for [MATH 1214](#). [MATH 1221](#) may be substituted for [MATH 1215](#).

3 Select Petroleum Engineering electives in accordance with interest and availability of courses. Courses include secondary recovery of petroleum, advanced drilling technology, well completion design and artificial lift.

4 Humanities/Social Science electives are to be selected from a list of approved courses to be taken in accordance with the University policy. Petroleum Engineering students are especially encouraged to study foreign languages

5

All Petroleum Engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree, however, it is the first step to becoming a registered professional engineer. This requirement is part of Missouri S&T assessment process as described in Assessment Requirements found elsewhere in this catalog. Students must sign a release form giving the University access to their Fundamentals of Engineering Examination score.

6

selection can be [COMP SCI 1972](#) and [COMP SCI 1982](#), or [COMP SCI 2300](#), or be replaced by formal online program course credits.

The total number of credit hours required for a degree in Petroleum Engineering is [129](#), ~~128~~.

Petroleum Engineering students must earn the grade of "C" or better in all Petroleum Engineering courses to receive credit toward graduation.

## Accelerated BS/MS Program Option for Petroleum Engineering Majors

Missouri S&T Petroleum Engineering undergraduate students may opt to apply for an accelerated BS/MS program where a student can earn both the BS and MS degrees in Petroleum Engineering faster than if pursuing the degrees separately. The degrees awarded will be a BS & MS (non-thesis or thesis) in Petroleum Engineering.

The benefits for undergraduate students admitted to the program are:

- Undergraduate and graduate courses may be chosen with greater flexibility,
- Up to nine hours of 5000-level or above Petroleum Engineering coursework may apply to both the BS and MS requirements,
- The classes taken for shared BS/MS credit may be taken at the lower undergraduate tuition rate,
- The GRE is not required for admission,
- Other graduate courses can be taken any time after entering the program as a dual enrolled student,
- Work on a thesis project may begin before the BS requirements are completed.

To be eligible for the accelerated BS/MS Petroleum Engineering program, a Petroleum Engineering undergraduate must be at or beyond the junior level standing with a minimum of 48 credit hours. They must have successfully completed the Chemistry and Math requirements and have completed 21 credit hours of Petroleum Engineering courses at Missouri S&T with at least a 3.2 GPA in the Petroleum Engineering courses. To be admitted, the student must complete the program application and non-thesis MS students must have the recommendation of a Petroleum Engineering faculty member, while thesis MS students must have the recommendation of a Petroleum Engineering faculty member who agrees to serve as the graduate thesis advisor. All other MS degree requirements remain the same. The program may be combined with existing honors research, emphasis areas, and certificate options. Admitted students will have both undergraduate and graduate records in the Registrar's Office.

The Accelerated Program application must be completed within one semester after shared-credit courses are completed. Courses taken for shared credit will be identified on the application form. These courses will also be listed on the student's Graduate Form 1 to be submitted after the student enters the graduate program. The nine hours of shared-credit coursework, to be taken as undergraduate credit, must be approved by the academic advisor, and may not be undergraduate research, special problems, or transfer courses. An additional six credit hours of coursework for graduate credit (beyond the shared BS/MS credits) can be taken while in the undergraduate program by applying for dual undergraduate/graduate enrollment. Taking additional courses for graduate credit as a dual enrolled student will require formal application to the graduate program. Upon application, acceptance to the Petroleum Engineering MS degree from the Accelerated Program is automatic so long as the student remains in good standing (GPA above 3.0 and B's or better in all graduate courses) within the program. To remain in the Accelerated Program, the student must meet Petroleum Engineering graduate student academic performance requirements and must maintain continuous enrollment at Missouri S&T. If the student exits the program before completion of the MS degree requirements, or fails to maintain continuous enrollment at Missouri S&T, the shared-credit courses may not apply toward graduate requirements in the event of future readmission.

It is the student's responsibility to check on how dual-enrollment status and graduate coursework affects scholarships and other financial aid. As a graduate student, you **are not** eligible for Federal Pell Grants. You are still eligible for Federal Financial Aid. You may be eligible for fellowships and teaching/research assistantships. It is the International student's responsibility to check with international affairs

during completion of an accelerated BS/MS to ensure immigration status will be maintained throughout the program.

Justification for request

Curriculum adjustment based on alumni and industrial board input

Secretary
3. 03/18/22 8:40 am  
Stephen Raper  
(sraper): Approved  
for Engineering  
DSCC Chair

The Carbon Management Engineering Certificate Program introduces the students to carbon management strategies related to the engineering principles of carbon capture, transformation, and storage. It is open to all persons holding a B.S., M.S., or Ph.D. degree in chemical engineering, petroleum engineering, mechanical engineering, or a closely allied discipline, including those who are currently accepted into a graduate degree program at Missouri S&T. It requires the students to complete three newly developed carbon management courses offered by Chemical and Biochemical Engineering (ChBE), Mechanical and Aerospace Engineering (MAE), and Geosciences and Geological and Petroleum Engineering (GGPE), respectively, plus an additional course to be selected from a variety of existing courses from these same departments.

In order to be admitted, a student must have an overall GPA of 3.0, or 2.75 with a minimum of one year of work experience. Once admitted to the program, the student must take the four designated courses. To receive the certificate, the student must have an average cumulative grade point of 3.0 or better in the certificate courses. Once admitted to the certificate program, a student will be given three years to complete the program.

Students admitted to the Carbon Management Engineering Certificate Program will have non-degree graduate status but will earn graduate credit for the courses they complete. If the students complete the four-course sequence with a grade of B or better in each of the courses taken, they, upon application, will be automatically admitted to the non-thesis MS degree program that is appropriate based on the undergraduate program from which they graduated in either Chemical Engineering, Petroleum Engineering, or Mechanic Engineering. Students may also apply and be considered for admission to thesis-based MS or PhD programs in the same areas. The certificate credits taken by the students admitted to any of these degree programs will count towards their degree requirements.

The following three courses are required:

**CHEM ENG 5325** **Course CHEM ENG 5325 Not Found**

**PET ENG 5050** **Course PET ENG 5050 Not Found**

**MECH ENG 5535** **Course MECH ENG 5535 Not Found**

One 3-credit course selected from the following list:

<a href="#">CHEM ENG 4540</a>	Energy Economics	3
<a href="#">CHEM ENG 5100</a>	Intermediate Transport Phenomena	3
<a href="#">CHEM ENG 5110</a>	Intermediate Chemical Reactor Design	3
<a href="#">CHEM ENG 5120</a>	Interfacial Phenomena In Chemical Engineering	3
<a href="#">CHEM ENG 5150</a>	Intermediate Process Computing	3
<a href="#">CHEM ENG 5161</a>	Intermediate Molecular Engineering	3
<a href="#">CHEM ENG 5170</a>	Physical Property Estimation	3
<a href="#">CHEM ENG 5190</a>	Plantwide Process Control	3
<a href="#">CHEM ENG 5220</a>	Intermediate Engineering Thermodynamics	3
<a href="#">CHEM ENG 5330</a>	Alternative Fuels	3
<a href="#">CHEM ENG 5340</a>	Principles of Environmental Monitoring	3
<a href="#">CHEM ENG 5350</a>	Environmental Chemodynamics	3
<a href="#">CHEM ENG 6150</a>	Molecular Modeling and Simulation	3
<a href="#">CHEM ENG 6180</a>	Advanced Applications of Computational Fluid Dynamics	3
<a href="#">CHEM ENG 6241</a>	Intermediate Chemical Process Safety	3
<a href="#">GEOPHYS 4231</a>	Seismic Interpretation	3
<a href="#">GEOPHYS 5202</a>	Exploration and Development Seismology	3
<a href="#">GEOLOGY 5311</a>	Depositional Systems	3
<a href="#">GEOLOGY 5511</a>	Applied Petroleum Geology	3
<a href="#">GEOLOGY 5513</a>	Petroleum Geology	3
<a href="#">GEOLOGY 5661</a>	Advanced Stratigraphy and Basin Evolution	3
<a href="#">GEOLOGY 6511</a>	Advanced Petroleum Geology	3
<a href="#">GEOLOGY 6621</a>	Clastic Sedimentary Petrology	3

<a href="#">GEOLOGY 6811</a>	Sedimentary Basin Analysis	3
<a href="#">PET ENG 4111</a>	Fundamental Digital Applications In Petroleum Engineering	3
<a href="#">PET ENG 4210</a>	Drilling and Well Integrity	3
<a href="#">PET ENG 4311</a>	Reservoir Characterization	3
<a href="#">PET ENG 4590</a>	Subsurface Energy Economics	3
<a href="#">PET ENG 4720</a>	Reservoir Geomechanics	3
<a href="#">PET ENG 6621</a>	Advanced Applied Reservoir Simulation	3
<a href="#">PET ENG 6711</a>	Geodynamics	3
<a href="#">MECH ENG 5229</a>	Smart Materials And Sensors	3
<a href="#">MECH ENG 5420</a>	Signal Processing for Instrumentation and Control	3
<a href="#">MECH ENG 5523</a>	Transport Phenomena In Manufacturing Processes	3
<a href="#">MECH ENG 5527</a>	Combustion Processes	3
<a href="#">MECH ENG 5533</a>	Internal Combustion Engines	3
<a href="#">MECH ENG 5537</a>	Fuel Cell Principles	3
<a href="#">MECH ENG 5541</a>	Applied Energy Conversion	3
<a href="#">MECH ENG 5543</a>	Energy Efficiency of Vehicles	3
<a href="#">MECH ENG 5544</a>	Non-Intrusive Measurement Methods	3
<a href="#">MECH ENG 5566</a>	Solar Energy Technology	3
<a href="#">MECH ENG 5571</a>	Environmental Controls	3
<a href="#">MECH ENG 5757</a>	Integrated Product And Process Design	3
<a href="#">MECH ENG 5764</a>	Introduction to Decision Analysis	3

### Justification for request

CIP Code: 140701

Climate change has called for scientific, engineering, and policy solutions to manage and mitigate the impact of carbon emission from human activities. This certificate program is a joint effort between three engineering departments to introduce the students to important carbon management strategies and help them become carbon conscious engineers with a multifaceted understanding of relevant problems and solutions. The students targeted for this certificate are on-campus graduate students and early-career or mid-career working professionals who are looking for additional education and credentialing related to carbon management engineering. This certificate program will aid their professional development and make them more marketable in the green engineering job sector. It will also give them a gateway into MS and PhD programs in Chemical and Biochemical Engineering and related disciplines. The Chemical and Biochemical Engineering Department will market this certificate to national and international students. This effort will increase the visibility of our department and our university.

10. kristyg

### Approval Path

1. 03/01/22 11:34 am  
Audra Merfeld-Langston (audram):  
Approved for RPHILOSO Chair
2. 03/09/22 12:53 pm  
Marita Tibbetts (tibbettsmg):  
Approved for CCC Secretary
3. 03/09/22 2:50 pm  
Petra Dewitt (dewittp): Approved for Arts & Humanities DSCC Chair

This certificate program is for students from any major who wish to expand their knowledge of intercultural issues from a multidisciplinary perspective, and develop the knowledge, skills and aptitudes necessary to work successfully in today's global and interconnected world. Students select four courses from an approved list in consultation with their certificate advisor. Many of the courses also fulfill requirements for degree programs.

Students must meet regular Missouri S&T undergraduate admission requirements.

## Certificate Requirements

## Choose one:

<a href="#">HISTORY 1200</a>	Modern Western Civilization	3
<a href="#">ENGLISH 1212</a>	British Literature II 1800 To Present	3

## Choose three additional courses:

<a href="#">SP&amp;M S 3235</a>	Intercultural Communication	3
<a href="#">PSYCH 4992</a>	Cross-Cultural Psychology	3
<a href="#">HISTORY 2110</a>	World Regional Geography	3
<a href="#">HISTORY 2220</a>	Making Of Modern Britain	3
<a href="#">HISTORY 2221</a>	Making of Modern Germany	3
<a href="#">HISTORY 2222</a>	The Making Of Modern France	3
<a href="#">HISTORY 2224</a>	Making Of Modern Russia	3
<a href="#">HISTORY 3240</a>	Contemporary Europe	3
<a href="#">HISTORY 3660</a>	Modern East Asia	3
<a href="#">POL SCI 2500</a>	International Relations	3
<a href="#">POL SCI 4500</a>	Geopolitics and International Security	3
<a href="#">POL SCI 4510</a>	The Politics of the Third World	3
<a href="#">ENGLISH 2002</a>	Critical Approaches To Literature	3
<a href="#">ENGLISH 3219</a>	The British Novel II	3
<a href="#">ENGLISH 3233</a>	Contemporary British Literature	3
<a href="#">ENGLISH 3304</a>	Language in Society	3
<a href="#">TCH COM 4450</a>	International Dimensions of Technical Communication	3
<a href="#">ECON 4642</a>	Introduction to Global Eco- and Social-preneurship and Innovation	3
<a href="#">ECON 4643</a>	Ethical Problems in a Global Environment	3

## Justification for request

This certificate will increase student familiarity with different cultures, improve their global literacy, and support student confidence in interacting with others. This certificate will also help prepare students who are interested in study abroad or international internship opportunities by providing important contextual, cultural, and interpersonal skills.

Chair

## Advanced Problem Solving

Experimental      Advanced Problem Solving

Abbreviated

Course Title

Instructors      Dr. Aleksandr Chernatynskiy

### Experimental

#### Catalog

#### Description

This course discusses advanced problem solving techniques and strategies in graduate-level physics. Example problems are taken from previous PhD qualifying exams.

#### Prerequisites

Physics 6101, Physics 6111, and Physics 6201.

#### Field Trip

#### Statement

Credit Hours

LEC: 0

LAB: 0

IND: 0

RSD: 1

Total: 1

Justification for  
new course:

This course formalizes the preparation for the PhD qualifying exam that has been taught in various informal ways over the years. It is aimed at PhD students in the semester before the qualifying exam.
