Architectural Design I

Abbreviated Arch Dsgn I
Course Title

Catalog

Description

Introduction to the interaction between architecture and the engineering disciplines. Theories of building and site design, technology as an integral component of design, plan and spatial organization, structural clarity, formal composition, and environmental context are considered as principle form determinants.

Prerequisites

Sophomore standing.

Information Technology Applications in the Construction Industry

Abbreviated IT App in Const Industry
 Course Title

Catalog

Description

Study of IT in construction industry including building information modeling and mobile sensing. Topics will include: collaborative design, clash detection, level of development, BIM contracts, automated code checking, and finally, information systems specific functions such as estimating, scheduling and cost control, lean, and integrated project delivery.

Prerequisites

Civ Eng 2451 or Civ Eng 4448. ~~2451.~~

Discrete Mathematics for Computer Science

Abbreviated Discrete Math For Cmp Sc
 Course Title

Catalog

Description

This course provides a rigorous treatment of topics from discrete mathematics which are essential to computer science. Principal topics include: formal logic (propositional & predicate), set theory, proof techniques, mathematical induction, program correctness, combinatorics, discrete probability, relations, functions, matrices, and graph theory.

Prerequisites

A grade of "C" or better in either Comp Sci 1500 or Comp Sci 1570 and in one of Math 1120, Math 1140, Math 1208, ~~or~~ Math 1210, Math 1211, or Math 1214.

Introduction to ~~Astronomy and~~ Planetary Science

Abbreviated Intro ~~Astronomy and~~ Planet
Course Title Sci

Catalog

Description

Basic principles of astronomy, the origin and evolution of the universe, stellar evolution, and the origin, composition, and processes operating on the planetary bodies in the solar system. ~~system (besides the Earth).~~

Prerequisites

~~Entrance requirements for the MST program in Earth Science.~~

Field Trip

Statement

Credit Hours LEC: 3 LAB: 0 IND: 0 RSD: 0

Total: 3

Required for No

Majors

Elective for No

Majors

Justification for

change:

The change is part of GGPE's curriculum redevelopment efforts to better reflect

current educational needs through improved offerings of intro-level geology classes. Lowering to 2000 level will allow more students to take it as a science elective and learn about geology careers paths currently not covered by GGPE entry level classes. The title is changed to better reflect the geologic nature of the class.

Calculus I-A

Abbreviated Calculus I-A

Course Title

Catalog

Description

An introduction to differential and integral calculus for students needing extra algebra or trigonometry content. Emphasizes differential calculus along with linear, polynomial, rational, and radical functions and equations. Math 1210 and 1211 combined cover the same calculus content as Math 1214. Credit will be given for only one of Math 1210 or Math 1214.

Prerequisites

A grade of "C" or better in either Math 1120 or Math 1140, or by placement exam.

Field Trip

Statement

Credit Hours LEC: 3 LAB: 2 ± IND: 0 RSD: 0

Total: 5 4

Required for Yes

Majors

Elective for No

Majors

Justification for
change:

When offering this course for the first time in Fall 2021, we discovered that many students in this course would benefit from extra contact time. Thus, we want to convert this to a 5 day per week course, allowing us to add in more algebra content and provide more students with more extensive opportunities for in-class practice and assistance with the challenging portions of the foundational material contained within this course. We do not anticipate needing to make a similar change in credit hours to Math 1211, although we are going to slightly modify the catalog description of 1211 to more accurately reflect the division of material between the two courses moving forward (and a CC form for that should be in the same cycle as this one).

Our intent is to offer this course in a 5 day per week format where students will have the same instructor (either faculty or graduate TA) for all five days, which should greatly improve instructor/student communications in this vital course where most enrolled students are brand new freshmen. However, we prefer to keep the credit hours split between lecture and lab instead of moving them all to lecture so that we have the flexibility to use a lecture/lab format with separate instructors if staffing and/or scheduling demands were to necessitate such arrangement in the future.

It is our understanding that most degree programs are listing "Math 1214 or Math 1211" as the required course for the degree, so this change in credit hours should NOT impact the total required hours for a degree. Prior to Fall 2021, students needing work below calculus would take the Math 1140/1160 combination for a total of $3+2=5$ credits prior to taking Math 1214 for 4 credits, and Math 1214 was the only course listed on the degree program for engineering degrees, Comp Sci, Physics, Chemistry, and Math. Thus, this will require the same number of credits for the same material as before.

It should be noted that the attitude of students in Math 1210 was greatly improved from what we typically saw in Math 1140/1160 because these students are in a

course called calculus and calculus content forms the central core of the material in Math 1210. Thus, the students saw immediately the relevance of the algebra content that we were covering. Thus, we feel strongly that the new Math 1210/1211 approach is working and that it should be continued going forward, and we believe that the small adjustment we are proposing will help a strong course sequence become even stronger and more beneficial for the students.

Abbreviated Course Title	Calculus I-B

History

1. Feb 25, 2021 by
Paul Runnion
(prunnion)

Catalog

Description

A continuation of Math 1210. Emphasizes differential and integral calculus along with exponential, logarithmic, ~~trigonometric~~, and trigonometric inverse functions and equations, plus trigonometric ~~trigonometric~~ identities and solutions of general triangles. Math 1210 and 1211 combined cover the same calculus content as Math 1214.

Prerequisites

A grade of "C" or better in either Math 1210 or 1214, or by placement exam.

Field Trip

Statement

Credit Hours	LEC: 3	LAB: 1	IND: 0	RSD: 0
Total: 4				
Required for Majors	Yes			
Elective for Majors	No			

Justification for
change:

We are making a small change to the catalog description to more accurately reflect the division of material between Math 1210, Math 1211, and the subsequent Math 1215 courses.

This is being submitted in conjunction with a more substantive change to the Math 1210 course, and a lengthier justification is included with the Math 1210 changes.

Requested	<u>Fall 2022</u> 08/14/2018
Effective Change	
Date	
Department	Mathematics & Statistics
Discipline	Mathematics (MATH)
Course Number	3304
Title	Elementary Differential Equations
Abbreviated	Elem Differen Equations
Course Title	

Catalog

Description

First order differential equations and linear differential equations of higher order are studied. The Laplace transform and systems of linear equations as well as selected physical applications are covered. Credit will not be given for both Math 3329 and Math 3304.

Prerequisites

Math 1215 ~~2222~~ with a grade of "C" or better.

Field Trip

Statement

Credit Hours	LEC: 3	LAB: 0	IND: 0	RSD: 0
Total: 3				
Required for Majors	No			
Elective for Majors	No			

Justification for change:

We are changing the prerequisite to more accurately match the mathematical needs of this course. In some cases and for certain majors, it may be beneficial for a student to take Math 3304 prior to Math 2222. Both of these courses require the material from Math 1215. Math 3304 does not depend in any way whatsoever on the material in Math 2222.

While we will encourage advisors to counsel students that taking Math 2222 and 3304 concurrently may not be in their best interest (unless the student is particularly strong mathematically), we will no longer care which order students choose to take these two courses. We hope this flexibility will prove helpful to students and to our colleagues around the campus.

Intermediate Differential Equations

Abbreviated Intermed Diff Equations
 Course Title

Catalog

Description

Linear differential equations, vector-matrix systems, existence and uniqueness theory, nonlinear systems, phase-plane analysis, introduction to stability theory.

Prerequisites

A grade of "C" or better in Math 2222 and Math 3304. ~~Math 3304 or Math 3329.~~

Field Trip

Statement

Credit Hours

LEC: 3

LAB: 0

IND: 0

RSD: 0

Total: 3

Required for

No

Majors

Elective for

No

Majors

Justification for
change:

Now that Math 2222 will no longer be prerequisite to Math 3304, we need to add Math 2222 as a prerequisite to a variety of courses, including this one. We are also adding the "C" or better requirement for consistency with other prerequisites involving these courses. Almost all students taking this course will have already met (or exceeded) this requirement of a "C" or better due to degree requirements or other prerequisites which required a grade of "C" or better in 2222 and 3304.

Students who have already taken Math 3304 and are planning to take this course will not be affected since Math 2222 has been an enforced prerequisite on 3304; thus, they have already taken 2222.

Students wanting to take this course in the future who have not yet taken 3304 will still need to take both 3304 and 2222, just as would have been the case currently.

Thus, this change should not have a negative impact on any students. It only has the positive impact of allowing the flexibility of which order the student plans to take 2222 and 3304.

Students who have already taken Math 3304 and are planning to take this course will not be affected since Math 2222 has been an enforced prerequisite on 3304; thus, they have already taken 2222.

Students wanting to take this course in the future who have not yet taken 3304 will still need to take both 3304 and 2222, just as would have been the case currently.

Thus, this change should not have a negative impact on any students. It only has the positive impact of allowing the flexibility of which order the student plans to take 2222 and 3304.

Stochastic Processes

Abbreviated Stochastic Processes
 Course Title

Catalog

Description

Development and application of Poisson and nonhomogeneous Poisson processes; renewal processes; Markov chains and processes including birth and death processes; and normal processes, including Brownian motion.

Prerequisites

A grade of "C" Stat 5643 and Math 3304 or better in Math 2222, Math 3304, and Stat 5643. 3329.

Field Trip

Statement

Credit Hours	LEC: 3	LAB: 0	IND: 0	RSD: 0
--------------	--------	--------	--------	--------

Total: 3

Required for Majors	No
------------------------	----

Elective for Majors	No
------------------------	----

Justification for

change:

Now that Math 2222 will no longer be prerequisite to Math 3304, we need to add Math 2222 as a prerequisite to a variety of courses, including this one. We are also adding the "C" or better requirement for consistency with other prerequisites involving these courses. Almost all students taking this course will have already met (or exceeded) this requirement of a "C" or better due to degree requirements or other prerequisites which required a grade of "C" or better in 2222 and 3304.

Students who have already taken Math 3304 and are planning to take this course will not be affected since Math 2222 has been an enforced prerequisite on 3304; thus, they have already taken 2222.

Students wanting to take this course in the future who have not yet taken 3304 will still need to take both 3304 and 2222, just as would have been the case currently.

Thus, this change should not have a negative impact on any students. It only has the positive impact of allowing the flexibility of which order the student plans to take 2222 and 3304.

Degree Requirements M.S. - with thesis

BIO SCI 6202	Problems In Applied And Environmental Biology
BIO SCI 5010	Graduate Seminar
or BIO SCI 5020	Course BIO SCI 5020 Not Found
BIO SCI 5099	Graduate Research
BIO SCI 6223	Research Proposal Writing

Degree Requirements M.S. - without thesis

BIO SCI 6202	Problems In Applied And Environmental Biology
BIO SCI 5010	Graduate Seminar

Elective courses are chosen with guidance from the advisor and advisory committee. A minimum of 30 credit hours is required for a M.S. degree. Up to 6 credit hours may be taken at the 3000-level in courses offered by other departments. Candidates for the M.S. degree with thesis conduct original research that is defended in a final oral examination. Non-thesis M.S. degree candidates take a comprehensive written final examination.

Justification for request

We are adding a new class and students can take either 5010 or 5020 to fulfill this requirement.

Also, just a note that last year we put through a name change for this degree, but the name change is not reflected here. It is now Biological Sciences MS, not Applied and Environmental Biology MS

Bachelor of Arts Psychology

A minimum of 120 credit hours is required for a bachelor of arts degree in psychology and an average of at least two grade points per credit hour must be obtained. The psychology B.A. curriculum requires 6 hours of English Composition, 14 hours of math and science, 12 semester hours in humanities, 12 semester hours is required in social sciences, 11-16 hours of foreign language and a minimum of 35 hours are required in psychology. Up to 12 credit hours of advanced ROTC may be credited toward the degree. Specific requirements for the bachelor of arts degree are outlined in the sample program listed below.

1. [ENGLISH 1120](#) and one additional three hour composition course (6 hours).
2. Western civilization ([HISTORY 1100](#) and [HISTORY 1200](#)) (6 hours).
3. Foreign languages for at least 3 semesters of basic study in French, German, Russian, Spanish or an approved substitute; or one year of basic study in a foreign language in either French, German, Russian, Spanish, or an approved substitute, and a humanities or social sciences course taught in a foreign country and employing the language of that country; or one year of basic study in each of two of the foreign languages of French, German, Russian or Spanish or an approved substitute (11-16 hours).
4. Sciences. At least one course taken in biological (biological sciences) and physical (chemistry, geology and geophysics, physics) sciences. A laboratory course is required (and a lab offered in engineering also may count at the discretion of the student's major advisor) toward the total requirement. Stat 1115 is required, and an additional elective in Science or Math (14 hours).
5. Humanities and fine arts. Courses used to satisfy this requirement must include one course in each of the three areas of literature (English or American), philosophy, and fine arts (art, music or theater), but not to include studio and performance offerings (12 hours).
6. Social Sciences. At least two of the following social science areas are to be included: economics, political science, or history (6 hours).

7.	Psychology Courses (35 hours)		
	Required:*		
	General Skills Courses:		
	PSYCH 1100	Introduction to Psychology	1
	PSYCH 1101	General Psychology	3
	PSYCH 2200	Research Methods	4

Content Courses:		
PSYCH 3310	Developmental Psychology	3
PSYCH 4400	Cognitive Psychology	3
PSYCH 4501	Abnormal Psychology	3
PSYCH 4600	Social Psychology	3
And one of the following 2 courses:		
PSYCH 4410	Neuroscience	3
PSYCH 4411	Sensation and Perception	3
Capstone Course:		
Select three credit hours from the Capstone courses:		
PSYCH 4010	Seminar	0-6
PSYCH 4099	Undergraduate Research	0-6
PSYCH 4200	Tests and Measurements	3
PSYCH 4590	Health Psychology	3
PSYCH 4994	Psychology in Media	3
PSYCH 4992	Cross-Cultural Psychology	3
PSYCH 4993	Psychology of Gender	3
PSYCH 4990	Internship	0-6
*These required courses total 26 hours.		
Elective Courses:		
Select an additional 9 hours of psychology electives to complete the 35 hour degree requirement.		

8. Major-field requirements: A cumulative grade point average of 2.0 must be earned in all course work taken in the major field. Upper-class (3000-4000-level) courses completed with grades of "D" may not be included in the course work for the major field without the approval of the chair of the department. At least nine hours of upper-class work in the major field must be completed in residence at Missouri S&T.
9. Minor: A minor will be selected from any discipline other than the major with the approval of the student's advisor. A total of at least 15 hours is required for the minor, but may include courses which also satisfy other requirements. At least nine hours must be beyond the introductory level. A cumulative grade point average of 2.0 must be earned in all course work required in the minor field. At least six hours of work in the minor field must be completed in residence at Missouri S&T.
10. Basic ROTC may be elected in the freshman and sophomore years, but is not creditable toward a degree. Up to 12 credit hours of advanced ROTC may be credited toward a degree.
11. Elective Credits: In consultation with his/her advisor, each student will elect sufficient additional courses to complete a minimum of 120 credit hours.

Emphasis Areas

Note: The following areas identify courses from which a student may opt to develop an emphasis area. It is not required that students obtain an emphasis specialty within psychology. At least one class for each emphasis area is already required for all majors, so the remaining three may be taken as the additional 9 hours of required psychology electives. In this way, getting an emphasis requires no additional courses, just less flexibility in which courses you take.

Industrial/Organizational Psychology		
PSYCH 4600	Social Psychology	3

PSYCH 4700	Industrial Psychology	3
PSYCH 4602	Organizational Psychology	3
And 1 of the following 4:		
PSYCH 4601	Group Dynamics	3
PSYCH 4610	Psychology of Leadership in Organizations	3
PSYCH 4500	Personality Theory	3
PSYCH 4200	Tests and Measurements	3
Health Psychology		
PSYCH 4501	Abnormal Psychology	3
And 3 of the following 4:		
PSYCH 4510	Clinical Psychology	3
PSYCH 4990	Internship	0-6
PSYCH 4590	Health Psychology	3
PSYCH 3501	Drugs and Behavior	3
Cognition and Neuroscience		
PSYCH 4400	Cognitive Psychology	3
And 3 of the following 4:		
PSYCH 4411	Sensation and Perception	3
PSYCH 3400	Theories Of Learning	3
PSYCH 4410	Neuroscience	3
PSYCH 3501	Drugs and Behavior	3
Human Factors		
PSYCH 4400	Cognitive Psychology	3
PSYCH 4710	Human Factors	3
PSYCH 4720	Psychology of Social Technology	3
And 1 of the following 3:		
PSYCH 4411	Sensation and Perception	3
PSYCH 4700	Industrial Psychology	3
PSYCH 4602	Organizational Psychology	3
Diversity and Inclusion		
PSYCH 4600	Social Psychology	3
And 3 of the following 4:		
PSYCH 4993	Psychology of Gender	3
PSYCH 4500	Personality Theory	3
PSYCH 4992	Cross-Cultural Psychology	3
PSYCH 4310	Psychology Of The Exceptional Child	3

Bachelor of Arts Psychology

(Secondary Education Emphasis Area)

You may earn a B.A. degree in psychology from Missouri S&T and certification to teach at the secondary level in the schools of Missouri with the secondary education emphasis area program.

In addition to maintaining a 3.0 content and professional requirement GPA, students must pass the appropriate content assessment to be eligible for student teaching. Missouri S&T allows students to choose their student teaching placement, if the district agrees and a qualified cooperating teacher is available. This program is approved by the Missouri Department of Elementary and Secondary Education for initial teacher certification. Students intending to teach in other states are responsible for investigating the reciprocity agreement of that state agency.

A degree with this emphasis area requires 121 credit hours. The required courses are provided below.

Communications Skills: 6 semester hours		
ENGLISH 1120	Exposition And Argumentation	3
ENGLISH 1160	Writing And Research	3
Humanities: 12 semester hours		
Art, Music, or Theatre course		3
Philosophy course		3
Literature course		3
One additional humanities from the above course groups, Foreign Language, or Etymology		3
Social Sciences: 21 semester hours		
HISTORY 1300	American History To 1877	3
HISTORY 1310	American History Since 1877	3
POL SCI 1200	American Government	3
POL SCI 3211	American Political Parties	3
or POL SCI 3300	Principles Of Public Policy	
or POL SCI 3760	The American Presidency	
or POL SCI 3763	Contemporary Political Thought	
PSYCH 1101	General Psychology	3
ECON 1100	Principles Of Microeconomics	3
or ECON 1200	Principles Of Macroeconomics	
Geography		3
Natural Science/Mathematics: 12 semester hours		
One course in Physics, Chemistry or Geology		3
Mathematics 1120, 1103, 1140+		3
STAT 1115	Statistics For The Social Sciences I	3
BIO SCI 1113	General Biology	3
Professional Requirements: 23 semester hours		
EDUC 1040	Perspectives In Education	2
EDUC 1174	School Organization and Administration For Teachers	2

EDUC 2251	Historical Foundation Of American Education	3
EDUC 3216	Instructional Literacy in the Content Area	3
EDUC 3280	Instructional Strategies in the Content Area	3
EDUC 4298	Student Teaching Seminar	1
PSYCH 2300	Educational Psychology	3
PSYCH 3311	Psychological & Educational Development Of The Adolescent	3
PSYCH 4310	Psychology Of The Exceptional Child	3
Clinical Experience: 15 semester hours		
EDUC 1104	Teacher Field Experience I	1

Bachelor of Science Psychology

A minimum of 120 credit hours is required for a bachelor of science degree in psychology and a cumulative grade point average of 2.0 must be obtained. These requirements for the B.S. degree are in addition to credit received for basic ROTC.

The psychology bachelor of science curriculum requires six hours of English composition; 20 hours of math, science and computer science; twelve semester hours in the humanities; and twelve semester hours in the social sciences. Specific requirements for the bachelor degree are outlined in the sample program listed below.

1. [ENGLISH 1120](#) and [ENGLISH 1160](#) (entering students will normally take [ENGLISH 1120](#) either semester of the first year.) (6 hours)
2. A total of 20 hours in biological, physical, (chemistry, geology and geophysics, and physics), and mathematical (mathematics/statistics and computer science or information science & technology) sciences, to include at least one course taken in the biological and one in the physical sciences. Of the biological and physical science offerings, at least one must be a laboratory course. Stat 1115 is required. Engineering courses may, at the discretion of the student's major advisor, also count toward this total requirement. (20 hours)
3. 12 hours in humanities and fine arts (literature, philosophy, art, music, or theater). Foreign language courses may count toward fulfilling this requirement. Courses used to satisfy this requirement must be taken in at least two humanities areas. (12 hours)
4. 12 hours in at least two social sciences fields outside the major area (economics or history or political science). A course in Modern Western Civilization ([HISTORY 1200](#)), American History To 1877 ([HISTORY 1300](#)) or American History Since 1877 ([HISTORY 1310](#)), or American Government ([POL SCI 1200](#)) must be taken to satisfy the requirement of the state of Missouri (the "Williams Law"), and this course may count toward fulfilling the social sciences requirement. (12 hours)
5. Minor: A minor will be selected from any discipline other than the major with the approval of the student's advisor. A total of at least 15 hours is required for the minor, but may include courses which also satisfy other requirements. At least nine hours must be beyond the introductory level.
6. Basic ROTC may be elected in the freshman and sophomore years, but is not creditable toward a degree. Six credit hours of advanced ROTC may be credited toward a degree.
7. Elective Credits: In consultation with his/her advisor, each student will elect sufficient additional courses to complete a

minimum of 120 credit hours which may include [MATH 1160](#) and one of [MATH 1120](#) or [MATH 1140](#) .

8.	Psychology Courses (35 hours)		
	Required:*		
	General Skills Courses:		
	PSYCH 1100	Introduction to Psychology	1
	PSYCH 1101	General Psychology	3
	PSYCH 2200	Research Methods	4
	Content Courses:		
	PSYCH 3310	Developmental Psychology	3
	PSYCH 4400	Cognitive Psychology	3
	PSYCH 4501	Abnormal Psychology	3
	PSYCH 4600	Social Psychology	3
	And one of the following 2 courses:		
	PSYCH 4410	Neuroscience	3
	PSYCH 4411	Sensation and Perception	3
	Capstone Course:		
	Select three credit hours from the following Capstone courses:		
	PSYCH 4010	Seminar	0-6
	PSYCH 4099	Undergraduate Research	0-6
	PSYCH 4200	Tests and Measurements	3
	PSYCH 4590	Health Psychology	3
	PSYCH 4994	Psychology in Media	3
	PSYCH 4992	Cross-Cultural Psychology	3
	PSYCH 4993	Psychology of Gender	3
	PSYCH 4990	Internship	0-6
	*These required courses total 26 hours.		
	Elective Courses:		
	Select an additional 9 hours of psychology electives to complete the 35 hour degree requirement.		

9. A cumulative grade point average of 2.0 must be earned in all course work taken in the major field. Upper class (3000-level and above) courses completed with grades of "D" may not be included in the course work for the major field without the approval of the advisor and the chair of the department concerned.

Emphasis Areas

Note: The following areas identify courses from which a student may opt to develop an emphasis area. It is not required that students obtain an emphasis specialty within psychology. At least one class for each emphasis area is already required for all majors, so the remaining three may be taken as the additional 9 hours of required psychology electives. In this way, getting an emphasis requires no additional courses, just less flexibility in which courses you take.

Industrial/Organizational Psychology

PSYCH 4600	Social Psychology	3
PSYCH 4700	Industrial Psychology	3
PSYCH 4602	Organizational Psychology	3
And 1 of the following 4:		
PSYCH 4601	Group Dynamics	3
PSYCH 4500	Personality Theory	3
PSYCH 4610	Psychology of Leadership in Organizations	3
PSYCH 4200	Tests and Measurements	3
Health Psychology		
PSYCH 4501	Abnormal Psychology	3
And 3 of the following 4:		
PSYCH 4510	Clinical Psychology	3
PSYCH 3501	Drugs and Behavior	3
PSYCH 4590	Health Psychology	3
PSYCH 4990	Internship	0-6
Cognition and Neuroscience		
PSYCH 4400	Cognitive Psychology	3
PSYCH 4410	Neuroscience	3
PSYCH 4411	Sensation and Perception	3
And 1 of the following 2:		
PSYCH 3400	Theories Of Learning	3
PSYCH 3501	Drugs and Behavior	3
Human Factors		
PSYCH 4400	Cognitive Psychology	3
PSYCH 4710	Human Factors	3
PSYCH 4720	Psychology of Social Technology	3
And 1 of the following 3:		
PSYCH 4700	Industrial Psychology	3
PSYCH 4602	Organizational Psychology	3
PSYCH 4411	Sensation and Perception	3
Diversity and Inclusion		
PSYCH 4600	Social Psychology	3
And 3 of the following 4:		
PSYCH 4993	Psychology of Gender	3
PSYCH 4992	Cross-Cultural Psychology	3
PSYCH 4310	Psychology Of The Exceptional Child	3
PSYCH 4500	Personality Theory	3

Bachelor of Science Psychology (Secondary Education Emphasis Area)

You may earn a B.S. degree in psychology from Missouri S&T and certification to teach at the secondary level in the schools of Missouri with the secondary education emphasis area program.

In addition to maintaining a 3.0 content and professional requirement GPA, students must pass the appropriate content assessment to be eligible for student teaching. Missouri S&T allows students to choose their student teaching placement, if the district agrees and a qualified cooperating teacher is available. This program is approved by the Missouri Department of Elementary and Secondary Education for initial teacher certification. Students intending to teach in other states are responsible for investigating the reciprocity agreement of that state agency.

Renewable Energy – Storage Systems for Buildings

Experimental Ren Ener-Stor Sys Bldg
Abbreviated
Course Title

Instructors Baur

Experimental
Catalog
Description

The fundamentals of storage systems from renewable power systems (photovoltaic) for buildings will be covered. This includes identifying various systems, sizing a storage system, designing and analyzing the various storage systems.

Prerequisites

Mech Eng 2527 or consent of instructor.

Field Trip

Statement

Credit Hours

LEC: 3

LAB: 0

IND: 0

RSD: 0

Total: 3

Justification for

new course:

The course will also serve as an expansion of the building systems focus area of the architectural engineering graduate certificate program. The course will provide greater depth into not only the various types of storage systems from both an individuals home use but even expanding into the use of micro-grids as well as utility use systems.

Causal Data Science

Experimental Causal Data Science

Abbreviated

Course Title

Instructors Robert Paige

Experimental

Catalog

Description

An introduction to Causal Inference for Data Science. Topics to be covered include potential outcomes; causality; adjustment for confounding, selection bias; measurement bias; causal inference with models and causal inference from complex longitudinal data.

Prerequisites

Stat 3113, Stat 3115, Stat 3117, or Stat 5643.

Field Trip

Statement

Credit Hours LEC: 3 LAB: 0 IND: 0 RSD: 0

Total: 3

Justification for

new course:

This adage "correlation does not imply causation" is widely taught to data scientists in order to prevent the logical fallacy of cum hoc ergo propter hoc ("with this, therefore because of this").

The overwhelming majority of statistical learning models used in Data Science are predictive.

The downside to this is that predictive models, even with extremely high accuracy

are of limited

help when one is trying to ascertain what might happen if we change a system or take an action.

Causal inference bridges the gap between prediction and decision making. It helps one to better understand the underlying causes of a phenomenon and as such leads to better decisions.

New Miscellaneous Request

Date Submitted: 12/15/21 11:41 am

Viewing: **7 : Department of Mining & Explosives Engineering**

Last edit: 12/15/21 11:41 am

Changes proposed by: kabp3

Request Type	Name Change
Title	Department of Mining & Explosives Engineering
Description	<p>The Mining & Explosives Engineering programs would like to change its name to the "Department of Mining & Explosives Engineering". This change will not impact the names of our programs, degrees or certificates. Our respective faculty have discussed this change and we have consulted with our alumni on this issue. All stakeholders are in favor of the programs becoming a standalone department. The programs have been operating independently for more than 2 years. Since the University formed the Department of Nuclear Engineering & Radiation Science, the Mining & Explosives Engineering programs have operated as programs outside of a department. This uncertainty has implications for tenure and promotion cases, and faculty retention and morale. The Dean of CEC, the Provost and the Chancellor have also approved this change.</p>
