Course Change Request

New Course Proposal

Date Submitted: 10/08/25 4:16 pm

Viewing: **BUS 5510 : Corporate Entrepreneurship and Ecosystem Strategy**

Last edit: 10/09/25 3:38 pm

Changes proposed by: Cecil Eng Huang Chua (cecq8z)

Programs	<u>MGMT-MI: Management Minor</u>
referencing this	<u>BUS&MS-BS: Business and Mgmt Systems BS</u>
course	<u>ENTPRNS-MI: Entrepreneurship Minor</u>

Justification for this

Requested Effective Date	Fall 2026
Department	Business and Information Tech (RBUS&IT)
Discipline	Business (BUS)
Course Number	5510
Title	Corporate Entrepreneurship and Ecosystem Strategy
Abbreviated Course Title	Entrp Strat
Co-Listed Course	

Catalog Description

Course explores how established organizations identify, develop, and capitalize on innovative opportunities within dynamic ecosystems. Topics include corporate venturing, collaborative innovation, entrepreneurial leadership, public–private partnerships, and ecosystem development at the local and regional levels. Students will learn frameworks for ecosystem mapping, stakeholder analysis, strategic partnership formation, and managing intrapreneurial ventures. Emphasis is placed on real-world case studies, ecosystem projects, and applied research in various organizational contexts.

Prerequisite(s):

Corequisite(s):

Credit Hours

In Workflow

1. RBUS&IT Chair
2. CCC Secretary
3. Social Sciences DSCC Chair
4. Pending CCC Agenda post
5. CCC Meeting Agenda
6. Campus Curricula Committee Chair
7. FS Meeting Agenda
8. Faculty Senate Chair
9. Registrar
10. CAT entry
11. Peoplesoft

Approval Path

1. 10/08/25 4:20 pm
Cassie Elrod (cassa):
Approved for
RBUS&IT Chair
2. 10/09/25 3:39 pm
Jade McCain
(jm558v): Approved
for CCC Secretary
3. 10/09/25 4:03 pm
Cecil Eng Huang
Chua (cchua):
Approved for Social
Sciences DSCC Chair
4. 11/03/25 3:33 pm
Jade McCain
(jm558v): Approved
for Pending CCC
Agenda post

Credit Hours

Credit Type	Credit Hours

Communication Emphasized No

Grading Basis Graded

Repeatable No

Justification Comp Eng 3150/3151 is being changed to Comp Eng 3150 (2 hrs lecture/1 hr lab) to integrate the introductory microcontroller and embedded system curriculum using a target microcontroller with hands-on laboratory experiments and projects. The change from 4 credit hours (Comp Eng 3150/3151) to 3 credit hours (Comp Eng 3150) requires all students to enroll in the 2 credit hour lecture and 1 credit hour lab. The Computer Engineering faculty approved this course change on May 5, 2025 and the ECE faculty in May 2025. A CC form has been submitted for this course change to be effective Fall 2026.

Please note that Comp Eng 3150 has been viewed as Comp Eng 3550 on CourseLeaf. Comp Eng 3150 is the correct course number.

No

Justification

Two changes:

(i) Comp Sci 5408 is made the primary offering as it has always been offering by Sid Nadendla, a faculty in Comp Sci department since the beginning (even as an experimental course). Also, it is now listed as one of the electives for MS (Applied AI) program, which is offered by the Comp Sci department.

(ii) Updated the prerequisites by omitting Stat 3115 as it is being discontinued from Fall 2026.

Reviewer **Jade McCain (jm558v) (10/31/24 4:10 pm)**: Rollback: The course was only taught once during Spring 2024 and is scheduled to be taught again in Spring 2025. Once the Spring semester is completed and the course is successfully taught, the CC form can be resubmitted.

Comments **Crystal Wilson (wilsoncry) (09/25/25 2:56 pm)**: Removed Stat 3115 from per-requisites as it will no longer be taught per math/stat department. Added graded for grading basis.

Jade McCain (jm558v) (10/09/25 10:13 am): Changed requested effective date to Fall 2026 per CCC deadlines and selected "no" for communication intensive and communication emphasized.

Department	Computer Science (RCOMPSCI)
Discipline	Computer Science (COMP SCI)
Course Number	5420
Title	Introduction to Machine Learning
Abbreviated Course Title	Machine Learning
Co-Listed Course	

Catalog Description

This course introduces foundational theories and techniques in machine learning. Topics will include basics of machine learning, learning theory, various regression and classification models, as well as unsupervised learning methods. Students will implement course concepts in intensive programming assignments and mini-projects.

Prerequisite(s):

A grade of "C" or better in Comp Sci 2500, Math 3108, and one of Stat 3113, Stat ~~3115~~, Stat 3117, or Stat 5643.

PROPOSED: Applied Artificial Intelligence MS

Requested Effective Date	Fall 2026
Department	Computer Science (RCOMPSCI)
Discipline	Computer Science (COMP SCI)
Course Number	6411
Title	Large Language Models
Abbreviated Course Title	LLMs
Co-Listed Course	

Catalog Description

This course focuses on the cutting-edge research topics surrounding pre-trained large language models (LLMs). Key topics include the technical foundations of LLMs (BERT, GPT, T5 models, mixture-of-expert models, retrieval-based models etc.), emerging capabilities (knowledge, reasoning, few-shot learning, in-context learning), post-training: instruction fine-tuning, alignment, reinforcement learning with human feedback (RLHF) and constitutional AI. The course will also cover metacognitive capabilities of LLMs alongside critical discussions on security and ethical considerations.

Requested Effective Date	Fall 2026
Department	Economics (RECONOMI)
Discipline	Economics (ECON)
Course Number	5380
Title	Data Intelligence using Case Studies
Abbreviated Course Title	Data Case Studies
Co-Listed Course	

Catalog Description

This course designates a corporate executive to teach students the processes of data collecting, analyzing, visualization, and statistical tests with case studies from various industries. Students will have the opportunity to do group projects showcasing their ability to apply data intelligence in real-world scenarios using Python programming.

Prerequisite(s):

Econ 1100 and Econ 1200, and one of the following: Stat ~~3111~~, Stat 3113, Stat ~~3115~~, Stat 3117, or Stat 5346, with programming knowledge, or instructor approval.

Title Electromagnetics

Abbreviated Course Electromagnetics

Title

Co-Listed Course

Catalog Description

Static electric and magnetic fields using vector analysis and time-varying electromagnetic fields using Maxwell's equations. Topics include Coulomb's law, Gauss's law, Ampere's law, dielectric and magnetic materials, plane waves, and transmission lines.

Prerequisite(s):

Elec Eng 2120, Elec Eng 2101, Physics 2135, and Math 2222 each with a grade of "C" or better.

~~Passing grade on Elec Eng Advancement Exam II.~~

Agenda post

History

- Feb 26, 2024 by
Kelvin Erickson (kte)

Decrease the number of hours to reflect the actual number of contact hours. The course has 3 contact hours weekly. Originally, the 4th hour was for online content, but the instructors have not been posting or using any online content for the past few years. An extra hour of free electives will be added to the BS Elec Eng degree to maintain the degree credit-hours total. Approved at the Nov. 21, 2024 ECE Faculty meeting.

modify the structure and properties of metallic materials, including alloying, deformation and heat treating.

Prerequisite(s): Chem 1305 ~~Preceded~~ or Chem 1310 ~~accompanied by Chem 1310, prior or concurrent.~~

Corequisite(s):

Credit Hours

Credit Hours

Credit Type	Credit Hours
Lecture	3

Total: 3

Required for Majors No

Elective for Majors Yes

Communication No

Intensive

Communication No

Emphasized

Grading Basis Graded

Repeatable No

Justification Majors requiring this course now allow Chem 1305 as alternative to Chem 1310. Additionally, instructing faculty have determined that concepts from General Chemistry 1 or equivalent are necessary pre-requisites and students co-enrolled are at disadvantage. Given that this course in affected majors is recommended multiple semesters after General Chemistry 1, we feel making this a hard pre-requisite and disallowing co-requisite will improve student learning outcomes without negatively affecting progress towards degrees.

Semesters Previously Offered

Aerospace Engineering BS

CIP Code

Intended Audience

Program Requirements and Description

Bachelor of Science Aerospace Engineering

The aerospace engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application. Indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction. Students must comply with the requirements specified in the current online catalog published by the registrar. For the bachelor of science degree in aerospace engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in aerospace engineering.

	17		16

Total Credits: 128

1

The programming elective consists of a lecture and lab combination, and may be selected from [COMP SCI 1972](#)/[COMP SCI 1982](#) or [COMP SCI 1570](#) / [COMP SCI 1580](#). Note that [COMP SCI 1570](#)/[COMP SCI 1580](#) requires one more credit hour.

2

Gen. Ed. Elective must fulfill the Missouri S&T general education requirements applicable to the student's catalog year.

3

Must be a course on engineering ethics, business ethics, bio ethics, social ethics, or any ethics course approved by the student's advisor.

4

A grade of "C" or better in [CHEM 1305](#), [MATH 1214](#) or [MATH 1211](#), [MATH 1215](#), [MATH 2222](#), [MATH 3304](#), [PHYSICS 1135](#), [PHYSICS 2135](#), [CIV ENG 2200](#), [CIV ENG 2210](#), and computer programming elective, [AERO ENG 2360](#), [AERO ENG 2861](#), and [MECH ENG 2519](#), as prerequisite for follow-up courses in the curriculum and for graduation.

5

Must be one of the following: [AERO ENG 5830](#), [COMP SCI 3200](#), [MATH 3108](#), [STAT 3113](#), or any 5000-level math or computer science course approved by the student's advisor.

6

Electives must be approved by the student's advisor. Nine hours of technical electives must be in mechanical and aerospace engineering. Three hours of departmental technical electives must be at the 5000-level.

[AERO ENG 3877](#) and the 5000-level Asteroid Mining course co-listed with geological engineering are not to be

used for 5000-level technical elective.

Justification for
request

The math department has informed us that they are discontinuing the STAT 3115 course and as such, the AE curriculum needs to be updated. One of the math elective course for our AE-B.S. students is Stat 3115, which is deleted in this DC form.

Secondary Education Emphasis Area

Degree Requirements

You may earn a B.A. degree in biological sciences from Missouri S&T and certification to teach at the secondary level in the schools of Missouri with this emphasis area. This program can be completed in four academic years, and student teaching is arranged with public schools anywhere in the state.

Students interested in this emphasis area should consult with the advisor for biological sciences education majors in the biological sciences department.

In order to successfully complete this emphasis area, students must have an 3.0 education GPA. Students must also pass the appropriate content assessment. Students must attain at least a 2.5 GPA for all biology courses and professional education courses required by the Missouri Department of Elementary and Secondary Education for teacher certification. This program is approved by the Missouri Department of Elementary and Secondary Education. License reciprocity determinations outside of Missouri can be found at <https://teaching.missouri.edu/student/state-authorization/mst/licensure>. Students must also meet all requirements listed under the teacher education website including passing the state-required assessments.

A degree in this emphasis area requires 127 credit hours. The required courses are provided below. A minimum grade of "C" is required by the department in all biological sciences courses counted toward this degree.

Humanities and Social Science courses for the B.A. must fulfill the Missouri S&T general education requirements applicable to the student's catalog year.

Humanities: 18 semester hours

<u>ENGLISH 1120</u>	Exposition And Argumentation	3
<u>ENGLISH 1160</u>	Writing And Research	3
or <u>ENGLISH 3560</u>	Technical Writing	
<u>SP&M S 1185</u>	Principles Of Speech	3

At least one course in each of the following: Literature, Philosophy and Fine Arts	9
--	---

Social Sciences: 15 semester hours

<u>HISTORY 3530</u>	History of Science	3
<u>HISTORY 1100</u>	Early Western Civilization	3
<u>HISTORY 1200</u>	Modern Western Civilization	3
<u>POL SCI 1200</u>	American Government	3
<u>PSYCH 1101</u>	General Psychology	3

Business and Mgmt Systems BS

CIP Code 52.9999 - Business, Management, Marketing,
and Related Support Services, Other.

Program Requirements and Description

Bachelor of Science

Business and Management Systems

In Business and Management Systems, the Bachelor of Science degree consists of 120 credit hours. All undergraduate students in Business and Management Systems are required to complete a General Education Requirements Core, including courses in Humanities, Social Sciences, Mathematics, Science, and Communication Skills.

A common departmental core of courses in Business and Information Technology helps provide students with skills to succeed in a fast-changing and globalized environment. Business Core courses with Business and Information Technology Electives provide students with comprehensive knowledge in technological business disciplines.

A minimum grade of "C" is required in the courses designated accordingly.

Students have 11 credit hours for free electives.

1

General education elective courses in two of the following areas: biology, chemistry, geology, or physics must fulfill the Missouri S&T general education requirements applicable to the students catalog year.

2

General education elective courses in two of the following areas: art, history, music, or theater must fulfill the Missouri S&T general education requirements applicable to the students catalog year.

3

General education discipline required course. These fulfill the Missouri S&T general education requirements applicable to the student's catalog year.

Bachelor of Science

Business and Management Systems

Military Science and Leadership Emphasis Area

Degree Requirements

You may earn a B.S. degree in business and management systems from Missouri S&T with an emphasis in Military Science as a member of the ROTC Program at Missouri S&T. This program can be completed in four academic years.

Students interested in this emphasis area should consult with an advisor for business and management systems degree program in the business and information technology department.

In order to successfully complete this emphasis area, students must maintain a cumulative GPA of at least 2.0.

Current Missouri S&T or transfer students who wish to pursue this emphasis area must meet this GPA requirement to be eligible for the emphasis area.

A minimum grade of "C" is required by the department in all courses designated BUS, MKT, FINANCE, IS&T, ECON, or ERP that are counted toward this degree and/or emphasis area.

Successful completion of coursework in a minor listed below will count as the corresponding number of credit hours in the Military Science and Leadership Emphasis Area. These courses are in lieu of business/free/humanities electives in the Business and Management Systems Bachelor of Science curriculum.

Military Aerospace Minor (12 credit hours)

Adaptive Leadership Minor (15 credit hours)

Secondary Education Emphasis Area

Degree Requirements

You may earn a B.S. degree in business and management systems from Missouri S&T and certification to teach at the secondary level in the schools of Missouri with this emphasis area. This program is approved by the Missouri Department of Elementary and Secondary Education. License reciprocity determinations outside of Missouri can be found at <https://teaching.missouri.edu/student/state-authorization/mst/licensure>.

Students interested in this emphasis area should consult with both an advisor for business and management systems education majors in the business and management systems department and an advisor in the teacher education department.

In order to successfully complete this emphasis area, students must maintain at least a 2.5 GPA average for all business content and professional education courses required by the Missouri Department of Elementary and Secondary Education for teacher certification. To be eligible for student teaching and certification, students must have a 2.5 content GPA and a 3.0 education GPA. Students must also pass the appropriate content assessment. Current Missouri S&T or transfer students who wish to pursue this emphasis area must meet both these GPA requirements to be accepted into the program. Students must also meet all requirements listed under the teacher education program in this catalog. Students who do not meet all the teacher certification requirements will not be eligible for the secondary education emphasis area, even if they have completed all required course work.

The required courses for a secondary education emphasis with the Bachelor of Science in Business and Management Systems degree are listed below. A minimum grade of "C" is required by the department in all courses designated BUS, MKT, FINANCE, IS&T, ECON, or ERP that are counted toward this degree.

Program Requirements and Description

Bachelor of Science Chemical Engineering

The chemical engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

For the bachelor of science degree in chemical engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry and basic ROTC courses. An average of at least two grade points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in chemical engineering.

Chemical engineering majors are encouraged to take the fundamentals of engineering exam prior to graduation. It is the first step toward becoming a registered professional engineer.

Total Credits: 130

Note: The minimum number of hours required for a degree in chemical engineering with an emphasis in biochemical engineering is 130.

A cumulative grade point average of 2.50 or better and a "C" or better in [CHEM 1310](#), [CHEM 1319](#), [CHEM 1320](#), [MATH 1214](#), [MATH 1215](#) and [PHYSICS 1135](#) are required to be admitted into the chemical engineering major.

1

A grade of "C" or better is required in [CHEM ENG 2100](#) & [CHEM ENG 2110](#) in order to enroll in [CHEM ENG 3120](#).

2

Gen. Ed. electives must fulfill the Missouri S&T general education requirements applicable to the student's catalog year.

3

Gen. Ed. discipline-specific required course

4

A minimum of 12 credit hours in Science Electives are required. Select three courses from [CHEM 2220](#), [CHEM 4610](#), [CHEM 4620](#), [BIO SCI 2213](#), [BIO SCI 3313](#), and [BIO SCI 4323](#); and a minimum of two laboratory courses from [CHEM 2229](#) or [CHEM 2219](#), [CHEM 4619](#), [BIO SCI 2219](#), [BIO SCI 3319](#), and [BIO SCI 4329](#).

5

[MATH 1210](#) and [MATH 1211](#) may be substituted for [MATH 1214](#).

Justification for
request

Removed stat courses the math department says is being inactivated per their email sent to departments on September 15.

Gen. Ed. Elective must fulfill the Missouri S&T general education requirements applicable to the students catalog year.

Students must complete a minimum of 120 credit hours for the Bachelor of Arts in Chemistry degree and comply with the campus B.A. requirements.

Elective credits must include an approved campus minor; see Undergraduate catalog for courses required for specific minors. All chemistry majors are encouraged to conduct research through [CHEM 4099](#). A total of 12 credits of a modern foreign language must also be taken as part of the electives above. Chemistry Electives must be selected from 3000 or higher-level courses. A grade of "C" or better is required for each Chemistry course counted towards the degree.

Total Credits: 122

Students must complete a minimum of 122 credit hours for the Bachelor of Arts in Chemistry degree with a Secondary Education Emphasis Area. The degree program is intended to culminate in a Certification Recommendation for an initial Missouri teaching certification. To be eligible for student teaching and certification, students must have a 2.5 content GPA and a 3.0 education GPA. Students should also consult the Education department for Teacher Certification requirements. This program is approved by the Missouri Department of Elementary and Secondary Education. License reciprocity determinations outside of Missouri can be found at <https://teaching.missouri.edu/student/state-authorization/mst/licensure>.

For this Bachelor of Arts degree program, the minor degree and foreign language requirements of the typical program of study are waived and there are other course substitutions in lieu of education coursework and requirements. A total of nine humanities credit hours are required to be selected from ENGLISH 1221 or ENGLISH 1222 ; PHILOS 1105 ; and one of ART 1180 , MUSIC 1150 , or THEATRE 1190 . All chemistry majors are encouraged to conduct research through CHEM 4099 . A grade of "C" or better is required for each Chemistry course counted towards the degree.

Bachelor of Science

Chemistry

A minimum of 120 credit hours is required for a Bachelor of Science degree in Chemistry and an average of at least two grade points per credit hour must be obtained. These requirements for the B.S. degree are in addition to credit received for algebra, trigonometry, and basic ROTC.

General Education Electives must fulfill the Missouri S&T general education requirements applicable to the student's catalog year. The Chemistry science curriculum requires twelve (12) semester hours in humanities and must include [ENGLISH 1120](#) and [ENGLISH 1160](#) or [ENGLISH 3560](#) . A minimum of nine (9) semester hours is required in social sciences, including either [HISTORY 1300](#) , [HISTORY 1310](#) , [HISTORY 1200](#) , or [POL SCI 1200](#) . Specific requirements for the bachelor degree are outlined in the sample program listed below.

Freshman Year

Gen. Ed. Elective must fulfill the Missouri S&T general education requirements applicable to the students catalog year.

Notes:

Grade Requirements: A minimum grade of "C" is required for each chemistry course counted towards the degree.

ROTC: Basic ROTC may be taken in the freshman and sophomore year, but does not count towards the degree.

Electives: The degree has eighteen (18) hours of general electives credit that may not include Math courses prerequisite to calculus. Not more than one (1) credit hour of [CHEM 4010](#) can be included for degree credit. Up to eight (8) credit hours may be taken of [CHEM 4099](#).

Program Requirements and Description

Bachelor of Science Computer Engineering¹

For the Bachelor of Science degree in Computer Engineering, a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in Computer Engineering.

The Computer Engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design. These interrelations are presented and discussed through classroom and laboratory instruction.

Free Electives Footnote:

Each student is required to take three hours of free electives in consultation with his/her academic advisor. Credits which do not count towards this requirement are deficiency courses (such as algebra and trigonometry), and extra credits in required courses. Any courses outside of engineering and science must be at least three credit hours.

Total Credits: 128

1

The minimum number of hours required for a degree in Computer Engineering is 128.

2

Students that transfer to Missouri S&T after their freshman year are not required to enroll in Foundational Engineering and Computing Seminars.

3

A minimum grade of "C" must be attained in MATH 1214 or MATH 1211, MATH 1215, MATH 2222, and MATH 3304, PHYSICS 1135 and PHYSICS 2135 (or their equivalents), COMP SCI 1570, COMP SCI 1575, COMP SCI 1580, COMP SCI 1200, COMP SCI 2500 or COMP SCI 3800, COMP ENG 2210, COMP ENG 2211, COMP ENG 3110, COMP ENG 3150, COMP ENG 4096, COMP ENG 5410, and ELEC ENG 2100, ELEC ENG 2101, ELEC ENG 2120, ELEC ENG 2200, ELEC ENG 2201, and ELEC ENG 3410 and the COMP ENG electives A, B, C, D and E. Also, students may not enroll in other courses that use these courses as prerequisites until the minimum grade of "C" is attained.

4

Students may take PHYSICS 1111 and PHYSICS 1119 in place of PHYSICS 1135. Students may take PHYSICS 2111 and PHYSICS 2119 in place of PHYSICS 2135.

5

All electives must be approved by the student's advisor. Gen. Ed. electives must fulfill the Missouri S&T general education requirements applicable to the student's catalog year. These requirements are specified in the current catalog.

6

Students who drop a lecture course prior to the deadline to drop a class must also drop the corequisite lab course.

7

Students must take one of the following courses:

[MATH 3108](#), [MATH 3109](#), [MATH 5302](#), [MATH 5603](#), [MATH 5105](#), [MATH 5106](#), [MATH 5107](#), [MATH 5108](#), [MATH 4209](#), [MATH 4211](#), [MATH 5215](#), [MATH 5222](#), [MATH 5325](#), [MATH 4530](#), [MATH 5737](#), [MATH 5351](#), [MATH 5154](#), [MATH 4096](#), [MATH 5483](#), [MATH 5585](#), [STAT 5644](#), [STAT 5346](#), [STAT 5353](#).

8

Students must take one of [MECH ENG 2340](#), [MECH ENG 2519](#), [MECH ENG 2527](#), [PHYSICS 2311](#), [PHYSICS 2401](#), [CHEM 2210](#), [BIO SCI 2213](#), [BIO SCI 2223](#), [CIV ENG 2200](#), [MECH ENG 2350](#), [PHYSICS 2305](#), [PHYSICS 4311](#), [CER ENG 4240](#), or [NUC ENG 3205](#).

9

Students may replace [STAT 3117](#) with [STAT 5643](#).

10

Students may replace [SP&M S 1185](#) with the ROTC sequence of [MIL ARMY 4250](#) and [MIL ARMY 4500](#) or [MIL AIR 4110](#) and [MIL AIR 4120](#).

11

Comp Eng Senior Electives A and B, respectively, must be selected from 4xxx or 5xxx courses in Comp Eng, except [COMP ENG 4000](#), [COMP ENG 4099](#), [COMP ENG 4096](#), [COMP ENG 4097](#), [COMP ENG 5000](#), and [COMP ENG 5099](#). The two courses selected for electives A and B, respectively, should be from two different Comp Eng emphasis areas. The emphasis areas, with course number options, are as follows:

Electronic Computer System Design: Elec Eng 36xx, Elec Eng 56xx, Comp Eng 51xx

Computational Intelligence: Comp Eng 53xx

Computer Chips and Semiconductor Engineering: Elec Eng 5230, Elec Eng 3100, Comp Eng 32xx/42xx/52xx, Comp Eng 51xx

Networks and Cyber Physical Systems: Comp Eng 44xx, Comp Eng 54xx, Elec Eng 5160, Elec Eng 53xx, except [COMP ENG 5410](#).

12

Comp Eng Senior Electives D and E must be selected from an approved list that contains most 3xxx, 4xxx and 5xxx courses in science, mathematics, and engineering except required courses in Comp Eng, Elec Eng, and Comp Sci and except [COMP SCI 3610](#) and [COMP SCI 5600](#).

13

COMP ENG Electives D and E cannot include more than three hours of [COMP ENG 3002](#)/[ELEC ENG 3002](#), [COMP ENG 4000](#)/[COMP ENG 4099](#), [ELEC ENG 4000](#)/[ELEC ENG 4099](#), [COMP SCI 4000](#)/[COMP SCI 4099](#).

14

Comp Eng Senior Elective C must be selected from 3xxx, 4xxx or 5xxx courses in Comp Eng, Elec Eng, or Comp Sci, except [COMP ENG 3000](#)/[COMP ENG 4000](#)/[COMP ENG 4096](#)/[COMP ENG 4097](#)/[COMP ENG 4099](#)/[COMP ENG 5000](#)/[COMP ENG 5099](#), [ELEC ENG 3000](#)/[ELEC ENG 4000](#)/[ELEC ENG 4096](#)/[ELEC ENG 4097](#)/[ELEC ENG 4099](#)/[ELEC ENG 5000](#)/[ELEC ENG 5099](#), [COMP SCI 3000](#)/[COMP SCI 4000](#)/[COMP SCI 4096](#)/[COMP SCI 4097](#)/[COMP SCI 4099](#)/[COMP SCI 5000](#), and [COMP SCI 5099](#) and [COMP SCI 4010](#), [COMP SCI 3610](#) . and [COMP SCI 5600](#). The emphasis area with course number

options, are as follows:

Networking, Security, and Reliability: 44xx/54xx, except COMP ENG 5410.

15

Students pursuing dual degrees in COMP ENG and ELEC ENG may take either COMP ENG 4096 or ELEC ENG 4096 and COMP ENG 4097 or ELEC ENG 4097. Students may not receive credit for both COMP ENG 4096 and ELEC ENG 4096 or COMP ENG 4097 and ELEC ENG 4097 in the same degree program.

16

Students are required to take at least three credit hours. ELEC ENG 2800 level, ELEC ENG 4096, ELEC ENG 4097, COMP ENG 4096 and COMP ENG 4097 may not be used for free electives. No more than one credit hour of COMP ENG 3002 or ELEC ENG 3002 may be applied to the BS degree for free electives.

17

Students must take one of the following courses: BUS 5980, ECON 4430, ECON 5337, ENG MGT 2310, ENG MGT 3320, ENG MGT 4110, ENG MGT 5514, PHILOS 3225.

18

The course combination MATH 1210 and MATH 1211 may be taken in place of MATH 1214.

19

~~Comp Eng Senior Elective C must be selected from 3xxx, 4xxx or 5xxx courses in Comp Eng, Elec Eng, or Comp Sci, except COMP ENG 3000/ COMP ENG 4000/ COMP ENG 4096/ COMP ENG 4097/ COMP ENG 4099/ COMP ENG 5000/ COMP ENG 5099, ELEC ENG 3000/ELEC ENG 4000/ ELEC ENG 4096/ ELEC ENG 4097/ELEC ENG 4099/ELEC ENG 5000/ ELEC ENG 5099, COMP SCI 3000/ COMP SCI 4000/ COMP SCI 4096/COMP SCI 4097/COMP SCI 4099/ COMP SCI 5000, and COMP SCI 5099 and COMP SCI 4010, COMP SCI 3610 . and COMP SCI 5600.~~

20

~~Students must take one of the following courses: BUS 5980, ECON 4430, ECON 5337, ENG MGT 2310, ENG MGT 3320, ENG MGT 4110, ENG MGT 5514, PHILOS 3225.~~

~~²¹The course combination MATH 1210 and MATH 1211 may be taken in place of MATH 1214.~~

Emphasis Areas for Computer Engineering

A declared emphasis area is not required. A student may choose to obtain a Computer Engineering degree without a formal emphasis or may choose to obtain a Computer Engineering degree with a declared emphasis in one or more of the emphasis areas of computer engineering. A major change request is required to add the emphasis area option to the degree program.

~~Emphasis areas that may be declared include: Integrated Circuits and Logic Design, Computer Architecture and Embedded Systems, and Networking, Security, and Dependability.~~ Emphasis areas Note that may be declared, include: Integrated Circuits and Logic Design, Computational Intelligence is also a Computer Architecture and Embedded Systems, and Networking, Security, and Dependability. Note that Computational Intelligence is also a Computer Engineering emphasis area but is focused in the graduate program.

For students who seek a Computer Engineering degree without a formal emphasis, these emphasis areas may guide the choice of their COMP ENG Electives A, B, C, D, and E as well as their free electives. Students should consult with their advisors on such course selections.

For students who seek a Computer Engineering degree with a declared emphasis, courses in the declared emphasis area will be applied to COMP ENG Electives A, C, and D in the degree requirements. For students who choose to have multiple emphasis areas, the additional courses will apply to COMP ENG Electives B and E and free elective

requirements. Students should seek guidance from their advisors on emphasis areas and on courses that are relevant to more than one emphasis area. Students may have an emphasis area or emphasis areas listed on their transcript by completing **three three-credit-hour courses** in computer engineering from the designated lists. For a single emphasis area, this requirement will be satisfied by completing the relevant 4XXX-level or above course for Elective A and 3XXX-level or above courses for Electives C and D from the designated emphasis area course list. For a second emphasis area, this requirement will be satisfied by completing the relevant 4XXX-level or above course for Elective B, a 3XXX-level or above course for Electives E, and a 3XXX-level or above course for the free elective from the designated second emphasis area course list. Courses not on the emphasis area list, including experimental courses (5001) require departmental approval to apply toward the designated emphasis area.

Computer Engineering Course List Designations:

Integrated Circuits and Logic Design	9
COMP ENG 42XX and COMP ENG 52XX Courses	
Computer Architecture and Embedded Systems	9
COMP ENG 41XX, COMP ENG 51XX, COMP ENG 45XX, COMP ENG 55XX, COMP ENG 46XX, and COMP ENG 56XX Courses	
Networking, Security, and Dependability	9
COMP ENG 44XX and COMP ENG 54XX Courses, Except COMP ENG 5410	
Computational Intelligence	9
COMP ENG 53XX Courses	

Justification for request

Comp Eng 5410 course number has been changed to Comp Eng 4410 to reflect that it's a senior-level undergraduate course. CC forms have been submitted to renumber Comp Eng 5410 to Comp 4410 and to replace Comp Eng 5410 with Comp Eng 4410 as the correct prerequisite in other courses.

The current Computer Engineering emphasis areas have been in place, with minor tweaks, since 2013. Computer Engineering faculty turnover, technology changes, the inability to regularly offer courses in current emphasis areas, and faculty research areas of expertise changes have led to examine the Computer Engineering emphasis areas. The emphasis areas with associated courses have been revised to address emerging areas of technology and Computer Engineering faculty strengths and areas of research. The ECE faculty approved the emphasis area changes with associated courses on Oct 9, 2025.

Comp Eng 3150/3151 is being changed to Comp Eng 3150 (2 hrs lecture/1 hr lab) to integrate the introductory microcontroller and embedded system curriculum using a target microcontroller with hands-on laboratory experiments and projects. The change from 4 credit hours (Comp Eng 3150/3151) to 3 credit hours (Comp Eng 3150) requires all students to enroll in the 2 credit hour lecture and 1 credit hour lab. The Computer Engineering faculty approved

this course change on May 5, 2025 and the ECE faculty in May 2025. A CC form has been submitted for this course change to be effective Fall 2026.

Also, in May 2025, the ECE faculty approved a separate Computer Engineering sophomore seminar course (1 credit hour) that covers relevant topics that are currently covered in seminars that are included in Elec Eng 2120. A CC form for the Computer Engineering sophomore seminar course (Comp Eng 2010, 1 credit hour) is also submitted to be effective Fall 2026.

In August 2025, the ECE department approved a change to the advancement exam policy for the core sophomore level courses (Elec Eng 2100, Elec Eng 2120, Elec Eng 2200, Comp Eng 2210) to remove the C or better requirement on the advancement exam to pass the respective courses. The footnotes related to passing the advancement exams have been removed from the Comp Eng BS program.

Comp Eng 3110 is the foundational course for computer organization and has been moved to precede Comp Eng 3150 in the Comp Eng BS program (rather than being taken concurrently with Comp Eng 3150). The curriculum and prerequisites for Comp Eng 3110 are unchanged.

Reviewer	Crystal Wilson (wilsoncry) (10/15/25 8:22 am): Removed the number 3 footnote reference
Comments	from senior year, second semester, listing for COMP ENG 4097. DC from history September 21, 2015 shows this course was removed from footnote 3, but the number was not removed from the grid.
	Jade McCain (jm558v) (10/16/25 11:27 am): Added back Comp Eng 5410 and removed Comp Eng 4410 from senior year first semester of the plan of study grid due to needing necessary approval paperwork to remove Comp Eng 5410 from graduate certificates.
	Jade McCain (jm558v) (10/16/25 11:32 am): Added footnote 3 to Comp Eng 5410 in plan of study grid and replaced Comp Eng 4410 with Comp Eng 5410 in footnote 3.
	Jade McCain (jm558v) (10/17/25 9:55 am): Made updates to footnotes regarding Comp Eng 5410 per department request via email on 10/16/2025.
	Jade McCain (jm558v) (10/17/25 1:34 pm): Added Elec Eng 2010 as "or class" to Comp Eng 2010 in sophomore year, second semester per department request via email on 10/17/2025.
	Crystal Wilson (wilsoncry) (10/31/25 3:15 pm): Fixed formatting for footnote 3.
	Crystal Wilson (wilsoncry) (11/03/25 12:09 pm): Added footnote 3 to Math 3304 and Math 2222 on plan of study grid as they appear to have been left off when changes were previously

made, these courses are listed under footnote 3.

Jade McCain (jm558v) (11/03/25 3:25 pm): Reversed changes to emphasis areas due to not having required approval paperwork.

Total Credits: 128

1

A grade of "C" or better is required in the following courses to satisfy prerequisite requirements for subsequent coursework and to meet graduation criteria: [CER ENG 2110](#), [CER ENG 2210](#), [CER ENG 2325](#), [CER ENG 3315](#), [CER ENG 3220](#), [CER ENG 3230](#), [CER ENG 4096](#), [CHEM 1310](#), [CHEM 1320](#), [CIV ENG 2210](#), [MATH 1215](#), [MATH 3304](#),

PHYSICS 2135, PHYSICS 2305.

2

Gen. Ed. electives must fulfill the Missouri S&T general education requirements applicable to the student's catalog year.

3

All ceramic engineering students must select an advanced chemistry elective with the advisor's approval. The courses that can be considered are CHEM 2210, CHEM 3310, CHEM 3420, CHEM 4310, or CHEM 4810.

4

Technical Electives must be selected from upper-level (i.e., 2000-level with pre-requisite or 3000-level and above) courses with advisor approval in any of the following disciplines: MATH, STAT, PHYS, CHEM, BIO SCI, GEOLOGY, COMP SCI, IS&T, ENG MGT, or any engineering program. Courses designated BUS, ECON, EDUC, ERP, MIL SCI, or any H/SS program do not satisfy Technical Electives requirements.

5

Students may replace SP&M S 1185 with the ROTC sequence of MIL ARMY 4250 and MIL ARMY 4500 or MIL AIR 4110 and MIL AIR 4120.

Justification for
request

Removed stat courses the math department says is being inactivated per their email sent to departments on September 15. Removed math 1221. Fixed formatting of footnote 1.

Admission

Program Requirements and Description

Bachelor of Science Electrical Engineering¹

For the Bachelor of Science degree in Electrical Engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. At least two grade points per credit hour must also be attained in all courses taken in Electrical Engineering.

The Electrical Engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

Free Electives Footnote:

Students are required to take six hours of free electives in consultation with their academic advisor. Credits which do not count towards this requirement are deficiency courses (such as algebra and trigonometry), and extra credits in required

courses. Any courses outside of engineering and science must be at least three credit hours.

Total Credits: 128

1

The minimum number of hours required for a degree in Electrical Engineering is 128.

2

Students that transfer after their freshman year are not required to enroll in FR ENG 1100.

3

A minimum grade of "C" must be attained in [MATH 1214](#), [MATH 1215](#), [MATH 2222](#), and [MATH 3304](#), [PHYSICS 1135](#) and [PHYSICS 2135](#) (or their equivalents), [ELEC ENG 2100](#), [ELEC ENG 2101](#), [ELEC ENG 2120](#), [ELEC ENG 2410](#), [ELEC ENG 2411](#), [ELEC ENG 3320](#), [ELEC ENG 3321](#), [ELEC ENG 3430](#), [ELEC ENG 3431](#), [ELEC ENG 3100](#), [ELEC ENG 3101](#), and [ELEC ENG 3600](#), the ELEC ENG power elective ([ELEC ENG 3500](#) and [ELEC ENG 3501](#) or [ELEC ENG 3540](#) and [ELEC ENG 3541](#)), [ELEC ENG 4096](#) and [COMP ENG 2210](#) and [COMP ENG 2211](#). Also, students may not enroll in other courses that use these courses as prerequisites until the minimum grade of "C" is attained.

4

Students may take [PHYSICS 1111](#) and [PHYSICS 1119](#) in place of [PHYSICS 1135](#). Students may take [PHYSICS 2111](#) and [PHYSICS 2119](#) in place of [PHYSICS 2135](#).

5

All electives must be approved by the student's advisor. Gen. Ed. electives must fulfill the Missouri S&T general education requirements applicable to the student's catalog year. These requirements are specified in the current catalog.

6

Students who drop a lecture course prior to the last week to drop a class must also drop the corequisite lab.

7

Students must take [MECH ENG 2340](#), [MECH ENG 2519](#), [MECH ENG 2527](#), [PHYSICS 2305](#), [PHYSICS 2311](#), [PHYSICS 2401](#), [NUC ENG 3103](#), [CHEM 2210](#), [BIO SCI 2213](#), or [BIO SCI 2223](#). The following pairs of course are substitutions: [CIV ENG 2200](#) and [MECH ENG 2350](#) or [ENG MGT 2110](#) and [ENG MGT 3310](#).

8

Students may replace [STAT 3117](#) with [STAT 5643](#).

9

Students may replace [SP&M S 1185](#) with the ROTC sequence of [MIL ARMY 4250](#) and [MIL ARMY 4500](#) or [MIL AIR 4110](#) and [MIL AIR 4120](#).

10

ELEC ENG Electives A, B, and C must be chosen from ELEC ENG 56XX, [ELEC ENG 3500](#), [ELEC ENG 3540](#), [ELEC ENG 3410](#), [ELEC ENG 3250](#), [ELEC ENG 3340](#), [ELEC ENG 3440](#), [ELEC ENG 3120](#), and [COMP ENG 3150](#). Only one ELEC ENG 56XX course may be used.

11

The ELEC ENG Power Elective may be satisfied with [ELEC ENG 3500](#) and [ELEC ENG 3501](#) or [ELEC ENG 3540](#) and [ELEC ENG 3541](#).

12

ELEC ENG Elective D must be a 4XXX-level or above ELEC ENG or COMP ENG course with at least a 3-hour lecture component. [ELEC ENG 4000](#), [ELEC ENG 5000](#), [COMP ENG 4000](#), [COMP ENG 5000](#), [ELEC ENG 4099](#), [COMP ENG 4099](#), [ELEC ENG 4096](#), [COMP ENG 4096](#), [ELEC ENG 4097](#), [COMP ENG 4097](#), [ELEC ENG 5070](#), [COMP ENG 5070](#), ELEC ENG 58XX, and COMP ENG 58XX may not be used for Elective D.

13

ELEC ENG Elective E may be any 3XXX-level or above ELEC ENG or COMP ENG course except [ELEC ENG 3002](#), ELEC ENG 38XX, [ELEC ENG 4096](#), [ELEC ENG 4097](#), [ELEC ENG 5070](#), [COMP ENG 3002](#), COMP ENG 38XX, [COMP ENG 4000](#), [COMP ENG 4096](#), [COMP ENG 4097](#), and [COMP ENG 5070](#).

14

Students are required to take six hours of free elective in consultation with their academic advisors. Credits that do not count toward this requirement are deficiency courses (such as algebra and trigonometry) and extra credits from courses meeting other requirements. Any courses outside of engineering and science must be at least three credit hours. ELEC ENG 28XX, ELEC ENG 38XX, [ELEC ENG 4096](#), [ELEC ENG 4097](#), COMP ENG 28XX, COMP ENG 38XX, [COMP ENG 4096](#) and [COMP ENG 4097](#) may not be used for free electives. No more than one credit hour

of [ELEC ENG 3002](#) or [COMP ENG 3002](#) may be applied to the BS degree for free electives.

15

Students that pursue an optional degree emphasis area have restricted options for EI Eng Electives A, D, and E. Students admitted to the accelerated BS/MS program must satisfy EI Eng Electives D and E with 5xxx or 6xxx-level courses and a minimum grade of B.

16

Students must take one of the following courses: [BUS 5980](#), [ECON 4430](#), [ECON 5337](#), [ENG MGT 2310](#), [ENG MGT 3320](#), [ENG MGT 4110](#), [ENG MGT 5514](#), or [PHILOS 3225](#).

17

Both [MATH 1210](#) and [MATH 1211](#) may be taken in place of [MATH 1214](#). A C or better grade is required in both courses.

18

~~Students that pursue an optional degree emphasis area have restricted options for EI Eng Electives A, D, and E. Students admitted to the accelerated BS/MS program must satisfy EI Eng Electives D and E with 5xxx or 6xxx-level courses and a minimum grade of B.~~

19

~~Students must take one of the following courses: BUS 5980, ECON 4430, ECON 5337, ENG MGT 2310, ENG MGT 3320, ENG MGT 4110, ENG MGT 5514, or PHILOS 3225.~~

~~20 Both MATH 1210 and MATH 1211 may be taken in place of MATH 1214. A C or better grade is required in both courses.~~

All Electrical Engineering students are encouraged to take the fundamentals of Engineering Examination prior to graduation. It is the first step toward becoming a registered professional engineer.

An accelerated BS/MS program and a formal emphasis in circuits and electronics, optics and devices, controls and systems, communications and signal processing, power and energy, electromagnetics, or computer engineering are optional.

Emphasis Areas for Electrical Engineering

Circuits and Electronics, Communications and Signal Processing, Computer Engineering, Controls and Systems, Electromagnetics, Optics and Devices, Power and Energy

A declared emphasis area is not required. A student may choose to obtain an Electrical Engineering degree without a formal emphasis or may choose to obtain an Electrical Engineering degree with a declared emphasis in one or more of the emphasis areas of electrical engineering. A major change request is required to add the emphasis area option to the degree program.

For students who seek an Electrical Engineering degree without a formal emphasis, these emphasis areas may guide the choice of their ELEC ENG Electives A, B, C, D, and E as well as their free electives. Students should consult with their advisors on such course selections.

For students who seek an Electrical Engineering degree with a declared emphasis, courses in the declared emphasis area will be applied to ELEC ENG Electives A, D, and E in the degree requirements. For students who choose to have multiple emphasis areas, the additional courses will apply to ELEC ENG Elective B or C and free elective requirements. Students should seek guidance from their advisors on emphasis areas and on courses that are relevant to more than one emphasis area. Students may have an emphasis area or emphasis areas listed on their transcript by completing three three-credit-hour courses in electrical and computer engineering from the designated lists with at least one of the courses being at the 4XXX-level or above. This requirement will be satisfied by completing the relevant ABC Elective course, a 4XXX-level or above course for Elective D, and another 3XXX-level or above course for Elective E from the designated listing. The required ELEC ENG courses [ELEC ENG 3320](#), [ELEC ENG 3430](#), [ELEC ENG 3100](#), and [ELEC ENG 3600](#) and the course used to satisfy the power requirement ([ELEC ENG 3500](#) or [ELEC ENG 3540](#)) may not be used to meet the three course requirement. Transfer courses do not apply to emphasis areas. A co-listed course may count toward both areas. Experimental courses [ELEC ENG 3001](#),

[ELEC ENG 4001](#), [ELEC ENG 5001](#), [COMP ENG 3001](#), [COMP ENG 4001](#), or [COMP ENG 5001](#) require departmental approval to apply toward an emphasis area.

Circuits and Electronics

ELEC ENG 3120	Electronics II	3

ELEC ENG 45XX and ELEC ENG 55XX Courses

Justification for request

Add EE 2010 or CpE 2010 to Sophomore year, first semester. Number of hours increases from 15 to 16

Decrease EE 3600 hours (Junior year, second semester) to 3.0. Number of hours decreases from 17 to 16

Footnote for Stat 3117 deleted Stat 3115 since it will not longer be offered.

Delete footnotes about advancement exams, as they were eliminated.

Example Emphasis Area Programs for Engineering Management Students

One unique aspect of the engineering management degree is the student's ability to select an established emphasis area or create a specialized emphasis. Two examples of established emphasis areas are shown below.

Management of Technology

ENG MGT 5511	Technical Entrepreneurship	3
ENG MGT 5512	Legal Environment	3
ENG MGT 5410	Industrial System Simulation	3
ENG MGT 5614	Supply Chain Management Systems	3
ENG MGT Technical Elective (in consultation with your advisor)		3

Industrial Engineering

ENG MGT 4310	Materials Handling and Plant Layout	3
ENG MGT 4330	Human Factors	3
ENG MGT 5410	Industrial System Simulation	3
ENG MGT 5414	Introduction To Operations Research	3
ENG MGT Technical Elective (in consultation with your advisor)		3

General

Engineering Area Courses (Engineering Discipline)	12
ENG MGT-Technical Elective (in consultation with your advisor)	3

Note: All electives must be chosen in consultation with the student's advisor. Students must satisfy the common freshman year academic requirements in addition to the sophomore, junior, and senior year requirements listed above with a minimum of 121 hours.

Must have a grade of "C" or better in these courses for graduation.

2

General Education Elective must fulfill the Missouri S&T general education requirements applicable to the students catalog year.

3

The programming elective consists of a lecture and lab combination, and may be selected from [COMP SCI 1971/COMP SCI 1981](#), [COMP SCI 1972/COMP SCI 1982](#), or [COMP SCI 1570/COMP SCI 1580](#). Note that [COMP SCI 1570/COMP SCI 1580](#) requires one more credit hour than the other options. The lecture component must be completed with a grade of "C" or better.

4

General Education discipline specific required course.

Accelerated BS/MS Program Option for Engineering Management

Undergraduates currently majoring in Engineering Management at Missouri S&T may opt to apply for a Graduate Track Pathway, which allows students to transfer nine credit hours from their Missouri S&T Engineering Management bachelor's degree to their Engineering Management or Systems Engineering master's degree. In this pathway, a student can achieve both degrees faster than if pursuing the degrees separately. The benefits of the pathway for admitted students include:

1. Nine hours of 5000 graduate-level or above EMSE courses may be transferred from their Missouri S&T bachelor's degree to their EMSE master's degree,
2. The classes taken for shared BS/MS credit may be taken at the lower undergraduate tuition rate,
3. The GRE is not required for admission into the master's degree, and
4. Work on a thesis project may begin before the bachelor's degree requirements are completed (if thesis option is chosen)

No M.S. degree requirements are changed. The MS degree may be either a thesis or non-thesis option. To be admitted, the student must complete the Grad Track Pathway Admission and Course Approval Form. To be admitted to the student must have approval of their EMSE academic advisor. The program may be combined with existing honors research and emphasis area options. Admitted students will only have an undergraduate record in the Registrar's Office. Once they complete the bachelor's degree, and apply and are admitted into the master's degree then they will have a graduate record in the Registrar's Office. The Grad Track Pathway Admission and Course Approval Form must be completed when the student has one year left in the bachelor's program. Courses to be transferred will be identified on this form, and on Graduate Form 1, which is submitted after the student has been accepted to the master's program. Students must apply for admission to the master's program but will not be fully accepted until meeting all undergraduate degree requirements and earning their bachelor's degree. The nine hours of transferred coursework that will be taken as undergraduate credit must be approved by the student's academic advisor, and may not be undergraduate research, special problems, or courses transferred to the bachelor's degree.

To be eligible for the Grad Track Pathway, an EMSE undergraduate student must be:

- One year from graduation of their bachelor's degree (excluding the semester they are currently enrolled)
- Have at least a 3.50 GPA in all EMSE courses taken at Missouri S&T,
- Have a 3.0 cumulative GPA.

Students will be admitted into the master's degree, so long as they meet EMSE graduate student academic performance requirements: To remain in the pathway, the student must maintain good standing within the undergraduate EMSE program, and must maintain continuous enrollment at Missouri S&T. Students must maintain a cumulative GPA of at least 3.00 until they receive their bachelor's degree. Students must receive grades of B or better in the graduate courses they enroll in as part of the pathway course sequence. The semester admit term for the master's degree immediately follows the semester that the bachelor's degree is awarded. If the student exits the pathway before completion of the MS degree requirements, or fails to maintain continuous enrollment at Missouri S&T, the courses taken as part of the pathway may not apply toward graduate requirements in the event of future readmission. Credits earned in graduate-level courses will be posted according to established registrar procedures to the undergraduate transcript and will apply toward the student's undergraduate degree hours as needed to obtain the undergraduate degree and thus ensure all stated degree requirements are met. Once the bachelor's degree is awarded, the student is fully admitted to the master's program, Form 1 is approved, the courses from the pathway will be included on the student's graduate degree audit.

The student applicant is responsible for checking on how graduate coursework will affect scholarships and other financial aid. Once a student becomes a graduate student, they are not eligible for Federal Pell Grants, though are still eligible for Federal Financial Aid, and will be eligible for fellowships and teaching/research assistantships. International students should check with international affairs during completion of a Grad Track Pathway, to ensure immigration status will be maintained throughout the program.

Justification for
request

Removed reference of Math 1208 and 1221 from the DC form. These courses are not printed in the catalog and have not been taught since fall 2016.

Entrepreneurship Minor

CIP Code

Program Requirements and Description

Minor in Entrepreneurship

The minor in entrepreneurship requires the following 15 hours of coursework:

<u>BUS 1110</u>	Introduction to Management and Entrepreneurship	3
<u>BUS 5980</u>	Business Models for Entrepreneurship and Innovation	3
<u>MKT 5310</u>	Digital Marketing and Promotions	3
Two courses from the following list:		6
<u>BUS 5150</u>	Customer Focus and Satisfaction	
BUS 5580	Strategic Management	

<u>IS&T 4654</u>	Introduction to Web Design and Digital Media Studies
<u>BUS 5510</u>	<u>Corporate Entrepreneurship and Ecosystem Strategy</u>
<u>IS&T 5251</u>	Management and Leadership of Technological Innovation
<u>ENG MGT 5511</u>	Technical Entrepreneurship
<u>ENG MGT 5411</u>	Engineering Design Optimization

Justification for
request

Updating curriculum to reflect current business topics and also the mission of the Kummer College (entrepreneurship). Also, makes sense an entrepreneurship course is in the entrepreneurship minor.

Program Requirements and Description

Bachelor of Science

Geological Engineering

For the bachelor of science degree in geological engineering a minimum of 125 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. The student must maintain at least two grade points per credit hour (grade of C) for all courses taken in geological engineering. Geological engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade is not required; however, passing this examination is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process.

The geological engineering program at Missouri S&T is characterized by comprehensive understanding of the scientific basics of engineering and innovative application. We focus on solving the problems and meeting the needs of civilization as those are affected by geological materials, structures, or events. The necessary interactions required for this among the various sciences, engineering disciplines, and human professions are emphasized in research, analysis, synthesis, and design. Learning occurs in classroom, laboratory, online, field, and combined modes.

1

[MATH 1211](#) may be substituted for [MATH 1214](#).

2

General Education Requirement: General education electives must fulfill the Missouri S&T general education requirements applicable to the student's catalog year.

3

Programming Elective: Select from [COMP SCI 1500](#), both [COMP SCI 1971](#) and [COMP SCI 1981](#), or both [COMP SCI 1972](#) and [COMP SCI 1982](#).

4

Technical Elective: Select from advanced courses in engineering as approved by advisor.

5

Geophysics Elective: Select from [GEO ENG 5736](#), [GEO ENG 5761](#), or [GEO ENG 5782](#).

6

General Education Requirement - discipline specific requirement

7

Geological Engineering Elective: Select from [GEO ENG 5471](#), [GEO ENG 5381](#), [GEO ENG 5556](#), [MIN ENG 5823](#), [PET ENG 2510](#), [PET ENG 3520](#), [CIV ENG 3715](#), [CIV ENG 4729](#), or [CIV ENG 5715](#).

8

Engineering Economics Elective: Select from [ENG MGT 5210](#), [MIN ENG 3512](#), or [PET ENG 4590](#) or both [ENG MGT 1100](#) and [ENG MGT 1210](#).

9

Statistics Elective: Select one course from [GEO ENG 4115](#) or [STAT 3113](#).

Geological Engineering Focus Areas

The student uses the following course lists as guidance to satisfy the various elective requirements (chemistry/geochemistry, technical, geophysics, and geological engineering) while focusing preparation for their chosen career specialty. Other courses can be substituted with advisor approval.

Dual Professional Registration as a Geologist

<u>GEOLOGY 2096</u>	Field Geology	3
<u>GEOLOGY 3410</u>	Introduction To Geochemistry	3
<u>GEOLOGY 3620</u>	Stratigraphy And Sedimentation	3
<u>GEOLOGY 4097</u>	Advanced Field Geology	3
<u>GEOLOGY 4841</u>	Geological Field Studies	3
<u>GEO ENG 5144</u>	Remote Sensing Technology	3

Engineering Geology and Geotechnics

<u>GEO ENG 5146</u>	Applications Of Geographic Information Systems	3
<u>GEO ENG 5471</u>	Rock Engineering	3
<u>CIV ENG 3715</u>	Fundamentals of Geotechnical Engineering	3
<u>CIV ENG 4729</u>	Foundation Engineering	3
<u>MIN ENG 5823</u>	Rock Mechanics	3

Environmental and Engineering Geophysics

<u>GEO ENG 5144</u>	Remote Sensing Technology	3
<u>GEO ENG 5736</u>	Geophysical Field Methods	3
<u>GEO ENG 5761</u>	Transportation Applications of Geophysics	3
<u>GEO ENG 5782</u>	Environmental and Engineering Geophysics	3
<u>GEOPHYS 4241</u>	Electrical Methods In Geophysics	3
<u>GEOPHYS 4261</u>	Geophysical Instrumentation	1
<u>GEOPHYS 5231</u>	Seismic Data Processing	3

Groundwater Hydrology and Environmental Protection

<u>GEO ENG 4276</u>	Environmental Aspects Of Mining	
<u>GEO ENG 5233</u>	Risk Assessment In Environmental Studies	3
<u>GEO ENG 5235</u>	Environmental Geological Engineering	3
<u>GEO ENG 5237</u>	Geological Aspects Of Hazardous Waste Management	3

<u>GEO ENG 5320</u>	Groundwater Modeling	3
<u>GEO ENG 5381</u>	Intermediate Subsurface Hydrology And Contaminant Transport Mechs	3
<u>CIV ENG 5640</u>	Environmental Law And Regulations	3
<u>PET ENG 3330</u>	Formation Evaluation	3
Quarry and Mine Engineering		
<u>GEO ENG 4276</u>	Environmental Aspects Of Mining	3
<u>GEO ENG 5471</u>	Rock Engineering	3
<u>GEO ENG 5575</u>	Aggregates And Quarrying	3
<u>CIV ENG 3116</u>	Construction Materials, Properties And Testing	3
<u>MIN ENG 3913</u>	Mineral Identification and Exploration	3
<u>MIN ENG 5612</u>	Principles of Explosives Engineering	3
<u>MIN ENG 5822</u>	Strata Control	3
<u>MIN ENG 5823</u>	Rock Mechanics	3
<u>MIN ENG 5912</u>	Mine Power and Drainage	3
Renewable and Conventional Energy Resources		
<u>GEO ENG 5146</u>	Applications Of Geographic Information Systems	3
<u>GEO ENG 5556</u>	Renewable Energy Systems	3
<u>GEOLOGY 5511</u>	Applied Petroleum Geology	3
<u>MIN ENG 5322</u>	Coal Mining Methods	3
<u>MIN ENG 5422</u>	Coal Preparation	3
<u>MIN ENG 5823</u>	Rock Mechanics	3
<u>PET ENG 2510</u>	Properties of Hydrocarbon Fluids	3
<u>PET ENG 3330</u>	Formation Evaluation	3
<u>PET ENG 3520</u>	Petroleum Reservoir Engineering	3
<u>PET ENG 4520</u>	Well Test Analysis	3

Accelerated BS/MS Option (Graduate Pathway)

Students nearing completion of a BS in geological engineering can share up to nine 5000- or 6000-level credit hours toward their BS degree and a MS degree in geological engineering simultaneously, if they satisfy the following criteria:

Have completed 64 credit hours of course work, including:

All chemistry and mathematics requirements, and

21 credit hours of geological engineering courses with a minimum GPA of 3.20 in the geological engineering courses.

Complete an application listing the courses to be shared, with approval from the undergraduate advisor and a recommendation from the geological engineering faculty member who agrees to serve as their MS advisor. The shared courses may not be undergraduate research, special problems, or transfer courses. Applications are due within one semester of completing the last shared course.

Follow all geological engineering non-thesis MS program requirements (see the Graduate Catalog).

All other MS degree requirements remain the same. The program may be combined with existing honors research, emphasis areas, and certificate options. An additional six credit hours of coursework for graduate credit (beyond the shared BS/MS credits) can be taken while in the undergraduate program by applying for dual undergraduate/graduate enrollment. Taking additional courses for graduate credit as a dual enrolled student will require formal application to the graduate program. Upon application, acceptance to the geological engineering MS degree program from this option is automatic as long as the student remains in good standing (GPA above 3.0 and B's or better in all graduate courses within the program). To remain in this option, the student must meet geological engineering graduate academic performance requirements and maintain continuous enrollment at Missouri S&T. If the student exits the program before completion of the MS degree, or fails to maintain continuous enrollment at Missouri S&T, the shared-credit courses may not apply toward graduate requirements in the event of future readmission.

It is the student's responsibility to check how dual-enrollment status and graduate coursework would affect scholarships and other financial aid. Graduate students are not eligible for Federal Pell Grants, though they are eligible for Federal Financial Aid, as well as fellowships and teaching/research assistantships. International students are responsible for checking with the International Affairs Office during completion of an accelerated BS/MS to ensure immigration status is properly maintained throughout the program.

This option reduces the cost and the time required to earn a MS. See the Graduate Pathway section of this catalog, and the Geological Engineering Masters section of the Graduate Catalog, for additional details.

Justification for
request

Removed stat courses the math department says is being inactivated per their email sent to departments on September 15.

1

General Education Requirement. General education electives must fulfill the Missouri S&T general education requirements applicable to the student's catalog year.

2

All Geology and Geophysics students must complete at least 18 hours of elective course work in science (which may include additional Geology/Geophysics courses), mathematics, and/or engineering, courses required for the basic program. 12 hours of this course work must be numbered 2000 or above.

3

MATH 1211 may be substituted for MATH 1214.

4

All Geology and Geophysics students must complete at least 21 hours of elective course work numbered 2000 or above in Geology/Geophysics, in addition to the required core curriculum.

5

Students may substitute PHYSICS 1111 and PHYSICS 1119 for PHYSICS 1135.

6

Free elective hours may be taken in any combination of credit hours (1, 2, 3, etc.) and can include any course offerings at the University.

Core Curriculum

Taken by all students in Geology & Geophysics.

<u>GEOLOGY 1110</u>	Physical and Environmental Geology	3
<u>GEOLOGY 1120</u>	Evolution Of The Earth	3
<u>GEOLOGY 1129</u>	Evolution of the Earth Laboratory ⁵	1
<u>GEOLOGY 2611</u>	Physical Mineralogy And Petrology	3

<u>GEOLOGY 3310</u>	Structural Geology	3
<u>GEOLOGY 3319</u>	Structural Geology Lab	1
<u>GEOLOGY 3410</u>	Introduction To Geochemistry	3
<u>GEOLOGY 3620</u>	Stratigraphy And Sedimentation	3
<u>GEOLOGY 3629</u>	Stratigraphy Lab	1
<u>GEOLOGY 4010</u>	Seminar	0.5
<u>GEOLOGY 2096</u>	Field Geology	3
<u>GEOLOGY 4097</u>	Advanced Field Geology	3
<u>GEOPHYS 3210</u>	Introduction to Geophysics	3
<u>GEOPHYS 5096</u>	Global Tectonics	3
Total Credits		33.5

Geology and Geophysics Focus Areas

Geochemistry

Students should complete at least 5 courses (15 hours minimum) from the list. Students may also choose additional courses to be selected from an approval list and with guidance from student's advisor.

<u>GEOLOGY 3511</u>	Introduction to Mineral Deposits	3
<u>GEOLOGY 4451</u>	Aqueous Geochemistry	3
<u>GEOLOGY 4461</u>	Isotope Geochemistry	3
<u>GEOLOGY 4631</u>	Advanced Igneous and Metamorphic Petrology	4
<u>GEOLOGY 4841</u>	Geological Field Studies	3
<u>GEOLOGY 5611</u>	Granites And Rhyolites	4
<u>GEOLOGY 5671</u>	Clay Mineralogy	3
<u>CER ENG 2110</u>	Atomic Structure Of Crystalline Ceramics	3
<u>CER ENG 3220</u>	Phase Equilibria	3

General Geology

Students should complete at least 5 courses (15 hours minimum) from the list. Students may also choose additional courses to be selected from an approval list and with guidance from student's advisor.

<u>GEOLOGY 3511</u>	Introduction to Mineral Deposits	3
<u>GEOLOGY 4630</u>	Systematic Paleontology	3
<u>GEOLOGY 3811</u>	Fundamentals Of Geographic Information Systems	3
or <u>GEO ENG 3148</u>	Fundamentals Of Geographic Information Systems	
<u>GEOLOGY 4631</u>	Advanced Igneous and Metamorphic Petrology	4
<u>GEOLOGY 4711</u>	Paleoclimatology and Paleoecology	3
<u>GEOLOGY 4841</u>	Geological Field Studies	3
<u>GEOLOGY 5513</u>	Petroleum Geology	3
<u>GEOLOGY 5611</u>	Granites And Rhyolites	4
<u>GEOLOGY 5741</u>	Micropaleontology	3
<u>GEOLOGY 6311</u>	Advanced Structural Geology	3
<u>GEO ENG 3175</u>	Geomorphology And Terrain Analysis	3

Geophysics

Students must choose 1 math and 3 geophysics courses from the list. Students should also choose at least one additional course to be selected from an approved list and with guidance from student's advisor.

<u>MATH 2222</u>	Calculus III	4
<u>MATH 3304</u>	Elementary Differential Equations	3
<u>MATH 3108</u>	Linear Algebra I	3
<u>MATH 5325</u>	Partial Differential Equations	3
<u>GEOPHYS 4231</u>	Seismic Interpretation	3
<u>GEOPHYS 5202</u>	Exploration and Development Seismology	3
<u>GEOPHYS 5231</u>	Seismic Data Processing	3
<u>GEOPHYS 5261</u>	Computational Geophysics	3
<u>GEOPHYS 5736</u>	Geophysical Field Methods	3
or <u>GEO ENG 5736</u>	Geophysical Field Methods	

<u>GEOLOGY 4310</u>	Remote Sensing Technology	3
-------------------------------------	---------------------------	---

Groundwater and Environmental Geochemistry

Students should complete at least 5 courses (15 hours minimum) from the list. Students may also choose additional courses to be selected from an approval list and with guidance from student's advisor.

<u>GEOLOGY 4431</u>	Methods Of Karst Hydrogeology	3
<u>GEOLOGY 4451</u>	Aqueous Geochemistry	3
<u>GEOLOGY 4711</u>	Paleoclimatology and Paleoecology	3
<u>GEOPHYS 5782</u>	Environmental and Engineering Geophysics	3
or <u>GEO ENG 5782</u>	Environmental and Engineering Geophysics	
<u>BIO SCI 1173</u>	Introduction to Environmental Sciences	3
<u>ENV ENG 2601</u>	Fundamentals of Environmental Engineering and Science	3
<u>ENV ENG 5640</u>	Environmental Law And Regulations	3
<u>GEO ENG 5237</u>	Geological Aspects Of Hazardous Waste Management	3
<u>GEO ENG 5331</u>	Subsurface Hydrology	3
<u>GEO ENG 5381</u>	Intermediate Subsurface Hydrology And Contaminant Transport Mechs	3

Petroleum Geology

Students should complete at least 5 courses (15 hours minimum) from the list. Students may also choose additional courses to be selected from an approval list and with guidance from student's advisor.

<u>GEOLOGY 4630</u>	Systematic Paleontology	3
<u>GEOLOGY 5311</u>	Depositional Systems	3
<u>GEOLOGY 5513</u>	Petroleum Geology	3
<u>GEOLOGY 5661</u>	Advanced Stratigraphy and Basin Evolution	3
<u>GEOLOGY 5741</u>	Micropaleontology	3
<u>GEOPHYS 5202</u>	Exploration and Development Seismology	3
<u>PET ENG 3330</u>	Formation Evaluation	3
<u>GEOLOGY 4310</u>	Remote Sensing Technology	3

Accelerated BS/MS Program Option for Geology and Geophysics Majors

Geology and Geophysics undergraduates in G&G at Missouri S&T may opt to apply for an accelerated BS/MS G&G program where a student can achieve both the BS and MS degrees in G&G faster than if pursuing the degrees separately. The degrees awarded will be a BS & MS (non-thesis or thesis) in Geology and Geophysics.

The benefits for undergraduate students admitted to the program are:

Undergraduate and graduate courses may be chosen with greater flexibility,

Up to nine hours of 5000-level or above G&G coursework may apply to both the BS and MS requirements,

The classes taken for shared BS/MS credit may be taken at the lower undergraduate tuition rate,

The GRE is not required for admission,

Other graduate courses can be taken any time after entering the program as a dual enrolled student,

Work on a thesis project may begin before the BS requirements are completed.

To be eligible for the accelerated BS/MS G&G program, a G&G undergraduate must be at or beyond the junior level standing with a minimum of 48 credit hours. They must have successfully completed the Chemistry and Math requirements and have completed 21 credit hours of G&G courses at Missouri S&T with at least a 3.2 GPA in the G&G courses. To be admitted, the student must complete the program application and non-thesis MS students must have the recommendation of a G&G faculty member, while thesis MS students must have the recommendation of a G&G faculty member who agrees to serve as the graduate thesis advisor. All other MS degree requirements remain the same. The program may be combined with existing honors research, emphasis areas, and certificate options.

The Accelerated Program application must be completed within one semester after shared-credit courses are completed. Courses taken for shared credit will be identified on the application form. These courses will also be listed on the student's Graduate Form 1 to be submitted after the student enters the graduate program. The nine hours of shared-credit coursework, to be taken as undergraduate credit, must be approved by the academic advisor, and may not be undergraduate research, special problems, or transfer courses. An additional six credit hours of coursework for graduate credit (beyond the shared BS/MS credits) can be taken while in the undergraduate program by applying for dual undergraduate/graduate enrollment. Taking additional courses for graduate credit as a dual enrolled student will require formal application to the graduate program. Upon application, acceptance to the G&G MS degree from the Accelerated Program is automatic so long as the student remains in good standing (GPA above 3.0 and B's or better in all graduate courses) within the program. To remain in the Accelerated Program, the student must maintain good standing within the undergraduate G&G program and must maintain continuous enrollment at Missouri S&T. If the student exits the program before completion of the MS degree requirements, or fails to maintain continuous enrollment at Missouri S&T, the shared-credit courses may not apply toward graduate requirements in the event of future readmission.

It is the student's responsibility to check on how dual-enrollment status and graduate coursework affects scholarships and other financial aid. As a graduate student, you **are not** eligible for Federal Pell Grants. You are still eligible for Federal Financial Aid. You may be eligible for fellowships and teaching/research assistantships. It is the International student's responsibility to check with international affairs during completion of an accelerated

BS/MS to ensure immigration status will be maintained throughout the program.

Justification for
request

Removed stat courses the math department says is being inactivated per their email sent to departments on September 15.

Due to recent developments in the field of Geology and Geophysics, the faculty recognizes that the content covered in Physics 2135 is becoming less relevant for the vast majority of our students. To better align the curriculum with current and emerging areas of the discipline, such as applications in Artificial Intelligence and Geospatial Science, we propose replacing Physics 2135 with a Geology and Geophysics elective. This change will provide students with greater flexibility and the opportunity to gain training in both foundational and cutting-edge topics within the field.

Mechanical Engineering BS

CIP Code

Program Requirements and Description

Bachelor of Science

Mechanical Engineering

The mechanical engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application; indeed, the underlying theme of this educational program is the application of the scientific basics to engineering practice through attention to problems and needs of the public. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

For the bachelor of science degree in mechanical engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. An average of at least two grade points per credit hour must be attained. An average of at least two grade points per credit hour must also be attained in all courses taken in mechanical engineering.

a

A grade of "C" or better is required in [CHEM 1305](#), [MATH 1214](#) (or [MATH 1211](#)), [MATH 1215](#), [MATH 2222](#), [MATH 3304](#), [PHYSICS 1135](#), [PHYSICS 2135](#), programming elective, [MET ENG 2110](#), [CIV ENG 2200](#), [CIV ENG 2210](#), [MECH ENG 2519](#), [MECH ENG 2360](#), and [MECH ENG 3411](#), both as prerequisite for follow-up courses in the curriculum and for graduation.

b

The programming elective consists of a lecture and lab combination, and may be selected from [COMP SCI 1970](#)/[COMP SCI 1980](#), [COMP SCI 1971](#)/[COMP SCI 1981](#), or [COMP SCI 1972](#)/[COMP SCI 1982](#), or [COMP SCI 1570](#)/[COMP SCI 1580](#). Note that [COMP SCI 1570](#)/[COMP SCI 1580](#) requires one more credit hour than the other options.

c

Gen. Ed. Elective must fulfill the Missouri S&T general education requirements applicable to the students catalog year.

d

This course must be selected from the following: [MATH 3108](#), [STAT 3113](#) or any 5000-level math or stat course approved by the student's advisor.

e

All mechanical engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree. However, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in assessment requirements found elsewhere in this catalog.

f

Six hours of technical electives, subject to approval by the student's advisor, must be in the department of mechanical and aerospace engineering. At least three of these technical elective hours must be at the 5000 level. This elective may not include co-op, special problems, or research credits, such as 3002, 4000, or 4099. Honors students have special requirements for technical electives.

g

This elective must be a three credit hour course, subject to approval by the student's advisor, from any of the following areas: math, statistics, science, engineering, or computer science. The course must be at the 3000 or higher level, or have a prerequisite that is part of the required mechanical engineering curriculum. Exceptions to

the course level may be approved by the student's advisor. The elective may not include co-op, special problems, or research credits, such as 3002, 4000, or 4099.

h

This elective consists of three credit hours, subject to approval by the student's advisor, and may be satisfied by any of the following: (1) A three credit hour course from any of the following areas: math, statistics, science, engineering, computer science, business, or IST. The course must be at the 3000 or higher level, or have a prerequisite that is part of the required mechanical engineering curriculum. Exceptions to the course level may be approved by the student's advisor; (2) Any three credit hour course in the list of approved courses for the global studies minor; or (3) Any combination of three credit hours from co-op (3002), special problems (3000, 4000, or 5000), or research (4099).

Energy Conversion Emphasis Area for Mechanical Engineering

Students desiring to obtain a bachelor of science degree in mechanical engineering with an emphasis area in energy conversion must satisfy all the requirements of the bachelor of science degree in mechanical engineering, with the additional stipulation that four courses must be taken as follows:

a. Two courses from the following list:		6
<u>MECH ENG 5527</u>	Combustion Processes	3
or <u>AERO ENG 5527</u>	Combustion Processes	
<u>MECH ENG 5533</u>	Internal Combustion Engines	3
<u>MECH ENG 5566</u>	Solar Energy Technology	3
<u>MECH ENG 5567</u>	Heat Pump And Refrigeration Systems	3
<u>MECH ENG 5571</u>	Environmental Controls	3
<u>MECH ENG 5575</u>	Mechanical Systems For Environmental Control	3
<u>AERO ENG 5169</u>	Introduction to Hypersonic Flow	3
<u>AERO ENG 5535</u>	Aerospace Propulsion Systems	3
b. One course from the following list:		3
<u>MECH ENG 5519</u>	Advanced Thermodynamics	3
or <u>AERO ENG 5519</u>	Advanced Thermodynamics	
<u>MECH ENG 5525</u>	Intermediate Heat Transfer	3
or <u>AERO ENG 5525</u>	Intermediate Heat Transfer	
<u>MECH ENG 5131</u>	Intermediate Thermofluid Mechanics	3

or AERO ENG 5131	Intermediate Thermofluid Mechanics	
MECH ENG 5139	Computational Fluid Dynamics	3
or AERO ENG 5139	Computational Fluid Dynamics	
c. One additional course from either list “a” or list “b”, or from the following list:		3
ECON 4540	Energy Economics	3
ELEC ENG 5150	Photovoltaic Systems Engineering	3
ENV ENG 5660	Introduction To Air Pollution	3
NUC ENG 5257	Introduction to Nuclear Thermal Hydraulics	3

Note: By using the breadth elective and technical electives to satisfy the above requirements, this emphasis area requires the same total number of credit hours as the BSME degree. A change of major form should be submitted to designate the energy conversion emphasis area.

Manufacturing Processes Emphasis Area for Mechanical Engineering

Students desiring to obtain a bachelor of science in mechanical engineering with an emphasis area in manufacturing processes must satisfy all requirements of the bachelor of science in mechanical engineering with the additional stipulation that four courses must be taken as follows:

a. The following course:		3
MECH ENG 3653	Manufacturing	3
b. Three of the following courses:		3
MECH ENG 3001	Special Topics	3
MECH ENG 5282	Introduction to Composite Materials & Structures	3
MECH ENG 5449	Robotic Manipulators and Mechanisms	3
MECH ENG 5479	Machine Learning for Manufacturing Automation	3
MECH ENG 5653	Computer Numerical Control of Manufacturing Processes	3
MECH ENG 5655	Manufacturing Equipment Automation	3
MECH ENG 5656	Design For Manufacture	3
MECH ENG 5708	Rapid Product Design And Optimization	3
MECH ENG 5763	Computer Aided Design: Theory and Practice	3
c. The Math/Stat elective must be the following course:		3

A suggested sequence for the junior and senior years is given below. Note that by using the breadth elective and technical electives to satisfy the above requirements, this emphasis area requires the same total number of credit hours as the BSME degree. A change of major form should be submitted to designate the manufacturing processes emphasis area.

Junior Year

First Semester	Credits	Second Semester	Credits
<u>MECH ENG 3313</u>	3	<u>MECH ENG 3411</u> ^a	3

Elective Literature ^d	3	Electives-Hum or Soc Sci ^d	3
	17		13

Total Credits: 63

a

A grade of "C" or better is required in CHEM 1305, MATH 1214 (or MATH 1211), MATH 1215, MATH 2222, MATH 3304, PHYSICS 1135, PHYSICS 2135, programming elective, MET ENG 2110, CIV ENG 2200, CIV ENG 2210, MECH ENG 2519, MECH ENG 2360 and MECH ENG 3411, both as prerequisite for follow-up courses in the curriculum and for graduation.

b

The programming elective consists of a lecture and lab combination, and may be selected from COMP SCI 1970/COMP SCI 1980, COMP SCI 1971/COMP SCI 1981, COMP SCI 1972/COMP SCI 1982, or COMP SCI 1570/COMP SCI 1580. Note that COMP SCI 1570/COMP SCI 1580 requires one more credit hour than the other options.

c

This course must be selected from the following: ENGLISH 1160, ENGLISH 3560 or SP&M S 1185, or the complete four course sequence in Advanced ROTC (MIL ARMY 3250, MIL ARMY 3500, MIL ARMY 4250, and MIL ARMY 4500; or MIL AIR 3110, MIL AIR 3120, MIL AIR 4110 and MIL AIR 4120).

d

All electives must be approved by the student's advisor. Humanity and social science electives must be at least 3

credit hours of lecture designation, and also meet requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog.

e

All mechanical engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree, however, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in Assessment Requirements found elsewhere in this catalog.

Mechanical Design and Analysis Emphasis Area

Students desiring to obtain a bachelor of science in mechanical engineering with an emphasis area in mechanical design and analysis must satisfy all requirements of the bachelor of science in mechanical engineering, with the additional stipulation that four courses must be taken as follows:

a. One design course from the following list:		3
<u>MECH ENG 5709</u>	Machine Design II	3
<u>MECH ENG 5702</u>	Synthesis Of Mechanisms	3
<u>MECH ENG 5704</u>	Compliant Mechanism Design	3
<u>MECH ENG 5708</u>	Rapid Product Design And Optimization	3
<u>MECH ENG 5715</u>	Concurrent Engineering	3
<u>MECH ENG 5656</u>	Design For Manufacture	3
<u>MECH ENG 5757</u>	Integrated Product And Process Design	3
<u>MECH ENG 5760</u>	Probabilistic Engineering Design	3
<u>MECH ENG 5763</u>	Computer Aided Design: Theory and Practice	3
<u>MECH ENG 5761</u>	Engineering Design Methodology	3
b. One analysis course from the following list:		3
<u>MECH ENG 5307</u>	Vibrations I	3
<u>MECH ENG 5211</u>	Introduction To Continuum Mechanics	3
<u>MECH ENG 5212</u>	Introduction to Finite Element Analysis	3
<u>MECH ENG 5234</u>	Stability of Engineering Structures	3
<u>MECH ENG 5236</u>	Fracture Mechanics	3
<u>MECH ENG 5313</u>	Intermediate Dynamics Of Mechanical And Aerospace Systems	3
<u>MECH ENG 5222</u>	Introduction To Solid Mechanics	3

<u>MECH ENG 5238</u>	Fatigue Analysis	3
<u>MECH ENG 5449</u>	Robotic Manipulators and Mechanisms	3
<u>MECH ENG 5478</u>	Mechatronics	3
c. Two additional courses from either of the previous lists.		6
Note that by using the breadth elective and technical electives to satisfy the above requirements, this emphasis area requires the same total number of credit hours as the BSME degree. A change of major form should be submitted to designate the mechanical design and analysis emphasis area.		
Systems Integration Emphasis Area		
The Systems Integration emphasis area is required and available only for students pursuing a bachelor of science in mechanical engineering in the cooperative program delivered at Missouri State University. This emphasis area includes all requirements of the bachelor of science in mechanical engineering, except for the substitutions stipulated below.		
The following requirements in the mechanical engineering curriculum are removed (16 credit hours):		
<u>ELEC ENG 2800</u>	Electrical Circuits	3
<u>ENG MGT 1100</u>	Practical Concepts for Technical Managers	1
Elective-Advanced Math/Stat		3
MECH ENG 5000-level technical elective		3
Technical elective		3
Breadth elective		3
The following requirements are added (16 credit hours):		
<u>ELEC ENG 2100</u>	Circuits I	3
<u>ELEC ENG 2101</u>	Circuit Analysis Laboratory I	1
<u>ELEC ENG 2120</u>	Circuits II	3
Systems Management elective. One of the following:		
<u>MECH ENG 5715</u>	Concurrent Engineering	3
<u>MECH ENG 5757</u>	Integrated Product And Process Design	3
<u>MECH ENG 5758</u>	Integrated Product Development	3
<u>ENG MGT 3320</u>	Introduction to Project Management	3
<u>ENG MGT 4710</u>	Quality	3
Systems Integration technical elective. One of the following:		3

<u>MECH ENG 5307</u>	Vibrations I	3
<u>MECH ENG 5478</u>	Mechatronics	3
<u>MECH ENG 5481</u>	Mechanical And Aerospace Control Systems	3
<u>MECH ENG 5533</u>	Internal Combustion Engines	3
<u>MECH ENG 5571</u>	Environmental Controls	3
<u>MECH ENG 5575</u>	Mechanical Systems For Environmental Control	3
<u>MECH ENG 5656</u>	Design For Manufacture	3
<u>MECH ENG 5704</u>	Compliant Mechanism Design	3
<u>MECH ENG 5708</u>	Rapid Product Design And Optimization	3
<u>MECH ENG 5709</u>	Machine Design II	3
<u>MECH ENG 5715</u>	Concurrent Engineering	3
<u>MECH ENG 5757</u>	Integrated Product And Process Design	3
<u>MECH ENG 5760</u>	Probabilistic Engineering Design	3
<u>MECH ENG 5763</u>	Computer Aided Design: Theory and Practice	3
One of the following:		
<u>STAT 3113</u>	Applied Engineering Statistics	3
<u>STAT 3115</u>	Engineering Statistics	3
<u>STAT 3117</u>	Introduction To Probability And Statistics	3
All of the substitutions for this emphasis area appear in the junior and senior years. A suggested sequence for the junior and senior years is given below.		
Junior Year		
First Semester	Credits	Second Semester Credits
<u>MECH ENG 3313</u>	3	<u>MECH ENG 3411</u> ^a 3

a

A grade of "C" or better is required in [CHEM 1305](#), [MATH 1214](#) (or [MATH 1211](#)), [MATH 1215](#), [MATH 2222](#), [MATH 3304](#), [PHYSICS 1135](#), [PHYSICS 2135](#), programming elective, [MET ENG 2110](#), [CIV ENG 2200](#), [CIV ENG 2210](#), [MECH ENG 2519](#), [MECH ENG 2360](#) and [MECH ENG 3411](#), both as prerequisite for follow-up courses in the curriculum and for graduation.

b

The programming elective consists of a lecture and lab combination, and may be selected from [COMP SCI 1970/COMP SCI 1980](#), [COMP SCI 1971/COMP SCI 1981](#), or [COMP SCI 1972/COMP SCI 1982](#), or [COMP SCI 1570/COMP SCI 1580](#). Note that [COMP SCI 1570/COMP SCI 1580](#) requires one more credit hour than the other options.

c

This course must be selected from the following: [ENGLISH 1160](#), [ENGLISH 3560](#) or [SP&M S 1185](#), or the complete four course sequence in Advanced ROTC ([MIL ARMY 3250](#), [MIL ARMY 3500](#), [MIL ARMY 4250](#), and [MIL ARMY 4500](#); or [MIL AIR 3110](#), [MIL AIR 3120](#), [MIL AIR 4110](#) and [MIL AIR 4120](#)).

d

All electives must be approved by the student's advisor.

Humanity and Social Science electives must be at least 3 credit hours of lecture designation, and also meet requirements as specified under "Engineering Degree Requirements" published in the current undergraduate catalog.

e

The mechanical engineering technical elective is subject to approval by the student's advisor, and must be in the department of mechanical and aerospace engineering. This elective may not include co-op, special problems, or research credits, such as 3002, 4000, or 4099. Honors students have special requirements for technical electives.

f

The systems integration technical elective must be selected from the following list: [MECH ENG 5307](#), [MECH ENG 5478](#), [MECH ENG 5481](#), [MECH ENG 5533](#), [MECH ENG 5571](#), [MECH ENG 5575](#), [MECH ENG 5656](#), [MECH ENG 5704](#), [MECH ENG 5708](#), [MECH ENG 5709](#), [MECH ENG 5715](#), [MECH ENG 5757](#), [MECH ENG 5760](#), [MECH ENG 5763](#).

g

The systems management elective must be selected from the following list: [MECH ENG 5715](#), [MECH ENG 5757](#), [MECH ENG 5758](#), [ENG MGT 3320](#), [ENG MGT 4710](#).

h

All mechanical engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree. However, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as

described in assessment requirements found elsewhere in this catalog.

Justification for
request

Removed Stat courses the math department says are being inactivated per the email sent to departments on September 15.

Admission

Program Requirements and Description

Minor in Management

The minor in management requires the following 15 hours of coursework:

<u>BUS 1110</u>	Introduction to Management and Entrepreneurship	3
Four courses from the following list:		12
<u>BUS 2910</u>	Business Law	
<u>BUS 5111</u>	Business Negotiations	
<u>BUS 5150</u>	Customer Focus and Satisfaction	
<u>BUS 5360</u>	Business Operations	
<u>BUS 5470</u>	Human Resource Management	
BUS 5580	Strategic Management	
<u>BUS 5910</u>	Privacy and Information Security	
<u>BUS 5510</u>	<u>Corporate Entrepreneurship and Ecosystem Strategy</u>	
<u>IS&T 4261</u>	Information Systems Project Management	
<u>ENG MGT 3320</u>	Introduction to Project Management	

Justification for
request

Updating curriculum to reflect current business topics and also the mission of the Kummer College (entrepreneurship).

Program Requirements and Description

Bachelor of Science Mining Engineering

The Mining Engineering program at Missouri S&T is characterized by its focus on the scientific basics of engineering and its innovative application to the extraction of (critical) minerals to meet societal needs. Indeed, the underlying theme of this educational program is the application of basic science to engineering practice by solving engineering problems related to mineral extraction. These problems include the safe and sustainable extraction of minerals to power green energy. The necessary interrelations among the various topics, the engineering disciplines, and the other professions as they naturally come together in the solution of real-world problems are emphasized as research, analysis, synthesis, and design are presented and discussed through classroom and laboratory instruction.

Incoming students who state the Mining Engineering preference are required to complete [MIN ENG 1912](#) during the first or second semester on campus.

For the Bachelor of Science degree in Mining Engineering a minimum of 128 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. A student must maintain at least two grade points per credit hour for all courses taken in the student's major department, and an average of at least two grade points per credit hour must be maintained in Mining Engineering. The Mining Engineering program must meet Missouri S&T general education requirements as stipulated in the catalog.

Freshman Year

Total Credits: 128

1

General Education Elective must fulfill the Missouri S&T general education requirements applicable to the student's catalog year.

2

General Education Elective, Mining Engineering program requirement.

3

Explosives Engineering Emphasis: [EXP ENG 5622](#) (Blasting Design and Technology) and [MIN ENG 5823](#) (Rock Mechanics) or [EXP ENG 5922](#) (Tunneling & Underground Construction Techniques) have to be taken as Technical Electives.

4

Quarrying Emphasis: Two of [CIV ENG 3116](#) (Construction Materials, Properties and Testing); [MIN ENG 5212](#) (Aggregates and Quarrying); and [MIN ENG 5412](#) (Aggregates Materials Sizing and Characterization) have to be taken as Technical Electives.

5

Coal Emphasis: [MIN ENG 5322](#) (Coal Mining Methods), [MIN ENG 4414](#) (Mine Plant Management) or an approved substitute course must be taken as Technical Electives.

6

Mining and the Environment Emphasis: [GEO ENG 5235](#) (Environmental Geological Engineering) and [GEO ENG 5233](#) (Risk Assessment in Environmental Studies), or approved substitute courses have to be taken as Technical Electives.

7

Mining Health and Safety Emphasis: [MIN ENG 3002](#) (Mine Rescue), [ENG MGT 4330](#) (Human Factors), or other approved substitute courses must be taken as Technical Electives.

8

Sustainable Development Emphasis: [POL SCI 3310](#) (Public Policy Analysis), [ECON 4440](#) (Environmental and Natural Resource Economics), or other approved substitute courses must be taken as Technical Electives.

Graduating Mining Engineers Examination

Mining engineering students must complete the Fundamentals of Engineering Examination prior to graduation as a senior assessment requirement. A passing grade is not required to earn a B.S. degree in mining engineering; however it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process.

Mining Health and Safety Emphasis

Senior Year

MIN ENG 3002	Mine Rescue (or approved substitute course.)	3
ENG MGT 4330	Human Factors (or approved substitute course.)	3

Sustainable Development Emphasis

Senior Year

POL SCI 3300	Principles Of Public Policy (or approved substitute course in lieu of Technical Elective.)	3
<u>POL SCI 3310</u>	<u>Public Policy Analysis (or approved substitute course.)</u>	<u>3</u>
<u>ECON 4440</u>	Environmental And Natural Resource Economics (or approved substitute course.)	3

Quarrying Engineering Emphasis

Senior Year		
<u>Choose two of the following which have to be taken as Technical Electives.</u>		
<u>CIV ENG 3116</u>	Construction Materials, Properties And Testing	3
<u>MIN ENG 5212</u>	Aggregates and Quarrying	3
<u>MIN ENG 5412</u>	<u>Aggregates Materials Sizing and Characterization</u>	<u>3</u>

Explosives Engineering Emphasis

Senior Year		
Courses have to be taken as technical electives.		
A three-credit hour explosives engineering (EXP ENG) course		
EXP ENG 5922	Tunneling & Underground Construction Techniques	3
GEO ENG 5471	Rock Engineering	
In lieu of Technical Elective in Senior Year:		
<u>EXP ENG 5622</u>	Blasting Design And Technology	3
<u>MIN ENG 5823</u>	<u>Rock Mechanics</u>	<u>3</u>
<u>or EXP ENG 5922</u>	<u>Tunneling & Underground Construction Techniques</u>	

Coal Emphasis

Senior Year		
<u>MIN ENG 5322</u>	Coal Mining Methods	3
<u>MIN ENG 4414</u>	Mine Plant Management (or approved substitute course.)	2

Mining and the Environment Emphasis

Senior Year		
<u>ENV ENG 5640</u>	Environmental Law And Regulations	3

<u>GEO ENG 5233</u>	Risk Assessment In Environmental Studies (or approved substitute course.)	3
<u>GEO ENG 5235</u>	<u>Environmental Geological Engineering (or approved substitute course.)</u>	<u>3</u>

Justification for request	Removed Stat 3115 from Junior Year, First Semester. Per email received from the math/stat department, "Stat 3115: will no longer be offered. The statistics faculty group believes the redesigned Stat 3113 provides stronger, broader preparation for students in majors that previously required 3115."

Note: Minimum credit hours for graduation is 129.

1

General Education Electives must satisfy Missouri S&T's general education requirements in the catalog.

2

Nuclear Engineering students are expected to take Nuclear Technology Applications ([NUC ENG 1105](#)) during their Freshman year. However, transfer students are exempt. Students who attend the Nuclear Engineering Summer Camp as high school students may have this requirement waived.

3

Any Nuclear Engineering course 4000 level or higher.

4

Technical Electives can be any Math, Science, or Engineering courses. One elective must be taken at the 3000 level or above. The other must be taken at the 4000 level or above.

Fundamentals of Engineering Exam: All nuclear engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree, however, it is the first step toward becoming a registered professional engineer. This requirement is part of the Missouri S&T assessment process as described in assessment requirements found elsewhere in this catalog.

Justification for
request

Removed stat courses the math department says is being inactivated per their email sent to departments on September 15.

Petroleum Engineering BS

CIP Code 14.2501 - Petroleum Engineering.

Intended Audience

Program-Specific

Program Requirements and Description

Bachelor of Science

Petroleum Engineering

For the Bachelor of Science degree in Petroleum Engineering a minimum of 129 credit hours is required. These requirements are in addition to credit received for algebra, trigonometry, and basic ROTC courses. A student must maintain at least two grade points per credit hour for all courses taken in Petroleum Engineering.

The Petroleum Engineering program at Missouri S&T consists of a strong foundation in math, sciences and engineering fundamentals, plus strong content in the traditional Petroleum Engineering core areas of drilling, production and reservoir engineering. S&T Petroleum Engineering students are prepared to solve today's problems and tomorrow's. Students learn theory, have ample hands-on experiences in laboratories, and they learn many modern software packages used by the petroleum industry.

Total Credits: 129

1

All freshmen Petroleum Engineering students must enroll in [CHEM 1100](#) (Intro to Lab Safety and Haz Mat).

2

[MATH 1211](#) may be substituted for [MATH 1214](#).

3

General Education Requirement. General education electives must fulfill the Missouri S&T general education requirements applicable to the student's catalog year.

4

Select Petroleum Engineering electives in accordance with interest and availability of courses. Courses include secondary recovery of petroleum, advanced drilling technology, well completion design and artificial lift.

5

Selection can be [COMP SCI 1972](#) and [COMP SCI 1982](#), or [COMP SCI 2300](#), or be replaced by formal online program course credits.

All Petroleum Engineering students must take the Fundamentals of Engineering Examination prior to graduation. A passing grade on this examination is not required to earn a B.S. degree, however, it is the first step to becoming a registered professional engineer. This requirement is part of Missouri S&T assessment process as described in Assessment Requirements found elsewhere in this catalog. Students must sign a release form giving the University access to their Fundamentals of Engineering Examination score.

The total number of credit hours required for a degree in Petroleum Engineering is 129.

Petroleum Engineering students must earn the grade of "C" or better in all Petroleum Engineering courses to receive credit toward graduation.

Accelerated BS/MS Program Option for Petroleum Engineering Majors

Missouri S&T Petroleum Engineering undergraduate students may opt to apply for an accelerated BS/MS program where a student can earn both the BS and MS degrees in Petroleum Engineering faster than if pursuing the degrees separately. The degrees awarded will be a BS & MS (non-thesis or thesis) in Petroleum Engineering.

The benefits for undergraduate students admitted to the program are:

Undergraduate and graduate courses may be chosen with greater flexibility,

Up to nine hours of 5000-level or above Petroleum Engineering coursework may apply to both the BS and MS requirements,

The classes taken for shared BS/MS credit may be taken at the lower undergraduate tuition rate,

The GRE is not required for admission,

Other graduate courses can be taken any time after entering the program as a dual enrolled student,

Work on a thesis project may begin before the BS requirements are completed.

To be eligible for the accelerated BS/MS Petroleum Engineering program, a Petroleum Engineering undergraduate must be at or beyond the junior level standing with a minimum of 48 credit hours. They must have successfully completed the Chemistry and Math requirements and have completed 21 credit hours of Petroleum Engineering courses at Missouri S&T with at least a 3.2 GPA in the Petroleum Engineering courses. To be admitted, the student must complete the program application and non-thesis MS students must have the recommendation of a Petroleum Engineering faculty member, while thesis MS students must have the recommendation of a Petroleum Engineering faculty member who agrees to serve as the graduate thesis advisor. All other MS degree requirements remain the same. The program may be combined with existing honors research, emphasis areas, and certificate options.

The Accelerated Program application must be completed within one semester after shared-credit courses are completed. Courses taken for shared credit will be identified on the application form. These courses will also be listed on the student's Graduate Form 1 to be submitted after the student enters the graduate program. The nine hours of shared-credit coursework, to be taken as undergraduate credit, must be approved by the academic advisor, and may not be undergraduate research, special problems, or transfer courses. An additional six credit hours of coursework for graduate credit (beyond the shared BS/MS credits) can be taken while in the undergraduate program by applying for dual undergraduate/graduate enrollment. Taking additional courses for graduate credit as a dual enrolled student will require formal application to the graduate program. Upon application, acceptance to the Petroleum Engineering MS degree from the Accelerated Program is automatic so long as the student remains in good standing (GPA above 3.0 and B's or better in all graduate courses) within the program. To remain in the Accelerated Program, the student must meet Petroleum Engineering graduate student academic performance requirements and must maintain continuous enrollment at Missouri S&T. If the student exits the program before completion of the MS degree requirements, or fails to maintain continuous enrollment at Missouri S&T, the shared-credit courses may not apply toward graduate requirements in the event of future readmission.

It is the student's responsibility to check on how dual-enrollment status and graduate coursework affects scholarships and other financial aid. As a graduate student, you **are not** eligible for Federal Pell Grants. You are still eligible for Federal Financial Aid. You may be eligible for fellowships and teaching/research assistantships. It is the International student's responsibility to check with international affairs during completion of an accelerated BS/MS to ensure immigration status will be maintained throughout the program.

Justification for

request

Added STAT 3113 and Stat 3117 as options for senior year, second semester, per department request.

Title

Applied Artificial Intelligence MS

CIP Code

11.0102 - Artificial Intelligence.

Purpose

Intended Audience

Program-Specific

Admission

Program Requirements and Description

Master of Science Applied Artificial Intelligence

The Master of Science in Applied AI (informally refer to the program as 'AI+X', where the 'X' represents different technical degree areas, which includes most STEM disciplines) is a non-thesis M.S. degree program. It is designed for students who already hold an undergraduate or graduate degree in STEM fields and wish to continue advancing in their original area of study while mastering cutting-edge AI techniques and tools to make a transformative impact in their chosen domain 'X'.

Program Objectives

Advance Understanding: Provide students with an advanced understanding of the foundational principles, theories, and techniques of artificial intelligence (AI), including machine learning, neural networks, and computer vision;

Develop Applied Skills: Foster practical skills through hands-on experience with AI tools, frameworks, and programming languages empowering students to design, implement, and evaluate AI solutions for real-world problems; and

Collaborate Across Disciplines: Encourage interdisciplinary collaboration by integrating AI with other STEM fields fostering innovation and addressing complex societal challenges through AI-driven solutions.

Program Outcomes

Students who complete the M.S. in AI+X program will be able to demonstrate:

Proficiency in advanced object-oriented programming techniques (e.g., C++ or Python), and in applying these skills in the development of cutting-edge AI systems.

Competence to model abstract AI challenges and the corresponding informational uncertainties into well-defined, ethical descriptions of specific AI project requirements.

Expertise in machine learning, game theory and multi-agent decision making, natural language processing, robotics and computer vision algorithms, models and state-of-the-art system architectures.

Skill to identify well-defined performance metrics (e.g., sensitivity and specificity of the AI system), and design and run simulations/experiments to validate and enhance system/software performance.

Ability to design and develop scalable software on specialized hardware (e.g., graphic processor units) as well as application programming interfaces (APIs), to design state-of-the-art AI solutions.

Ability to work and communicate effectively in diverse teams with AI professionals, software engineers and domain experts.

Program Structure

For the M.S. degree in AI+X program, a total of **31 credit hours** will be required, of which a **minimum of 9 credit hours must come from 6000-level lecture courses**. The curriculum consists of three major parts: program core (required) courses, program elective courses, and discipline-specific elective courses.

Program-Core (Required) Courses (10 credit hours)

The following four courses (totaling to **10 credit hours**) are chosen in order to accomplish the desired Program Outcomes 1 and 2.

<u>COMP SCI 5111</u>	Bridge to Advanced Computing (Alternative requirement for students with B.S. degree in Comp Sci) ¹	3
<u>COMP SCI 5206</u>	Probability and Its Applications in Computing	3
<u>COMP SCI 5400</u>	Introduction To Artificial Intelligence	3
<u>COMP SCI 6010</u>	Seminar	1

Program-Elective Courses (9 credit hours)

In consultation with their advisor(s), students should select **9 credit hours** from the following list of AI electives currently offered by the Comp Sci department at Missouri S&T.

<u>COMP SCI 5401</u>	Evolutionary Computing	3
<u>COMP SCI 5402</u>	Introduction to Data Mining	3
<u>COMP SCI 5403</u>	Introduction to Robotics	3
<u>COMP SCI 5404</u>	Introduction to Computer Vision	3
<u>COMP SCI 5408</u>	Game Theory for Computing	3

<u>COMP SCI 5411</u>	Natural Language Processing	3
<u>COMP SCI 5420</u>	Introduction to Machine Learning	3
<u>COMP SCI 5421</u>	Reinforcement Learning	3
<u>COMP SCI 5480</u>	Deep Learning	3
<u>COMP SCI 6202</u>	Markov Decision Processes	3
<u>COMP SCI 6400</u>	Advanced Topics In Artificial Intelligence	3
<u>COMP SCI 6401</u>	Advanced Evolutionary Computing	3
<u>COMP SCI 6402</u>	Advanced Topics in Data Mining	3
<u>COMP SCI 6405</u>	Clustering Algorithms	3
<u>COMP SCI 6406</u>	Machine Learning in Computer Vision	3
<u>COMP SCI 6408</u>	Algorithmic Game Theory	3
<u>COMP SCI 6411</u>	Large Language Models	3

Discipline-Specific Elective Courses (12 credit hours)

Students should take at least 3 courses from the same “X” department. The discipline-specific elective courses should be at the 5000- or 6000-level lecture courses from the “X” department. Students should take at least one 6000-level lecture course from the “X” department. Students may take a fourth course from the “X” department, or any other discipline upon consulting their advisor. For example, there are existing courses in other programs, such as [MATH 5762](#), [MECH ENG 5479](#), [SYS ENG 5212](#), etc.

1

If a student has a B.S. degree of Computer Science (Comp Sci) or Computer Engineering (Comp Eng) or enrolls in Comp Sci or Comp Eng, the student can replace the core course, [COMP SCI 5111](#), with [COMP SCI 5480](#).

Justification for
request

The proposed Applied AI program (approved by the UM Board of Curators on June 26, 2025) aims to address the growing demand for expertise in AI in Missouri and the broader Midwest region, especially in high-tech industries that are currently present in or state or companies and industries we want to attract. As modern engineered systems increasingly integrate AI technologies, graduates of the program will be uniquely equipped with the knowledge and skills to both understand and innovate within these technologies. This will enable them to develop cutting-edge solutions, enhancing products and processes that are essential for supporting high-tech industries, thereby contributing to economic growth and technological advancement in the region. Graduates of the AI+X program will be well-positioned to serve as product managers, or application developers, leveraging AI to innovate and enhance their field.

Note: This DC form is also submitted along with CC forms for the following courses: Comp Sci

5111, Comp Sci 5410, Comp Sci 5411, Comp Sci 6411.

Comments

Jade McCain (jm558v) (09/22/25 2:28 pm): Changed the requested effective date to Fall 2026 per CCC deadlines and changed program code to "PROPOSED".

Jade McCain (jm558v) (09/23/25 11:11 am): Added pro forma budget spreadsheet.

Jade McCain (jm558v) (09/23/25 11:20 am): Attached UM System approval.

Crystal Wilson (wilsoncry) (10/08/25 9:22 am): Added MS to title for naming consistency.

Crystal Wilson (wilsoncry) (10/09/25 10:21 am): Added Comp Sci 6202 per department request. Course was on the proposal, but mistakenly left off of the DC form.

Jade McCain (jm558v) (10/17/25 11:21 am): Removed sentence from program structure section per department request via email on 10/17/2025.

Jade McCain (jm558v) (10/17/25 1:42 pm): Corrected course number of Comp Sci 5410 to Comp Sci 5421 for consistency with the approved degree proposal per department request via email on 10/17/2025.

Systems Engineering PhD

CIP Code 14.2701 - Systems Engineering.

Program Requirements and Description

A candidate for the Ph.D. in systems engineering must complete the equivalent of at least three years of full time work beyond the bachelor's degree. The content of all Ph.D. programs are individually structured by the student in consultation with and approved by the student's advisory committee. All requirements for the degree must normally be completed within an eight year period. At appropriate points in their program, Ph.D. students must pass both a Qualifying Exam and Comprehensive Exam. Off-campus students are expected to complete all requirements listed in the Missouri S&T Graduate Catalog under the section entitled Doctor of Philosophy Degree and follow all procedures listed under the Procedures for Ph.D. Candidates.

The total credit requirements for graduation are a minimum of 45 ~~54~~ credit hours after the successful completion of M.S. degree in systems engineering. Actual courses taken will be determined by the candidate's committee and his/her plan of study. The student is expected to complete all requirements.

Major Requirements

(Direct Doctorate) After B.S. degree in Engineering

Core Curriculum		15
<u>SYS ENG 5101</u>	System Engineering and Analysis	3
<u>SYS ENG 6101</u>	<u>Advanced Research Methodology</u>	<u>3</u>
<u>SYS ENG 6102</u>	<u>Information Based Design</u>	<u>3</u>
<u>SYS ENG 6103</u>	<u>Systems Life Cycle Costing</u>	<u>3</u>
<u>SYS ENG 6104</u>	Systems Architecting	3
SYS ENG 6110	Optimization under Uncertainty	3
SYS ENG 6239	Smart Engineering System Design	3
SYS ENG 6321	Modeling Complex Systems	3

SYS ENG 6412	Mathematical Programming	3
SYS ENG 6542	Model Based Systems Engineering	3
SYS ENG 6543	Digital Engineering	3
Research		36
SYS ENG 6099	Research	1-15
Electives		24
<u>Minimum 15 credit hours of 6XXX courses. Maximum 12 credit hours outside the department.</u>		
Research Specialization Areas — 24 credit hours		
<u>(Traditional Doctorate)</u>		
<u>Qualifying master's degree ¹</u>		<u>30</u>
<u>Research</u>		<u>24</u>
<u>Electives</u>		<u>21</u>
<u>Minimum 15 credit hours of 6XXX courses. Maximum 12 credit hours outside the department.</u>		
¹ = <u>If the qualifying master's degree did not include one or more of the core curriculum courses listed under the direct doctorate section, the student may need to complete those courses as part of the elective credits.</u>		
For Off-Campus Students		
The qualifying exam must be taken within the first 5 semesters of enrollment; the student will have at minimum one virtual conference per month with his/her research advisor; the Ph.D. comprehensive exam is recommended to be taken on campus; the student has the option of conducting research that is beneficial to the student's professional work; the defense of dissertation is recommended to take place on campus.		
Requirements for Dissertation		
Students will conduct original research demonstrated by journal or referred proceedings, publication under the supervision of a doctoral advisor, communicate their findings, write a dissertation on research conducted, and provide satisfactory defense of their dissertation in a final oral examination. Students are required to publish their work in approved journals and referred proceedings. A minimum of three articles is expected.		
<u>Requirements for Seminars</u>		
<u>All graduate students are required to attend the department seminar series.</u>		
Qualifying Exam		
The objective of the systems engineering Ph.D. qualifying exam is to test the knowledge and understanding of the graduate student on systems engineering fundamentals and the student's research capability. It is expected that		

the graduate student has a clear understanding of the research issues in the student's area of interest, as well as the possible impact of successful research contributions to systems engineering research and literature. For more information, contact the department graduate staff.

Comprehensive Exam

The student's advisory committee will administer the comprehensive examination after the student has completed seventy-five percent of the coursework for the Ph.D. program and one published refereed conference proceeding or journal paper. The examination is written and oral. Upon successful completion of the written examination, an additional oral exam might be required by the advisory committee.

Dissertation

The dissertation, embodying the results of an original investigation, must be written upon a subject mutually agreed upon between the student and the advisor.

Research Areas

Research areas include, but are not limited to: Complex Adaptive Systems Architecting, Machine ~~Cyber Physical Systems, Modeling~~ and Deep Learning, Modeling and Simulation. ~~Simulation, Model-Based Systems Engineering, System of Systems Architecting, Complex Adaptive Systems, Human System Integration, Infrastructure Systems, Model-Based Systems Engineering and Digital Twins, System of Systems Architecting, Transdisciplinary Systems Engineering Solutions with AI, Use of LLM in Engineering, Human-AI Teaming, Infrastructure Systems.~~

Justification for
request

The change provides more flexibility to the students to align courses to take to their research topics . It also provide modulatory to their PhD program.

Comments

Crystal Wilson (wilsoncry) (09/17/25 6:30 pm): Updated credit hours in text per department request.

Crystal Wilson (wilsoncry) (09/18/25 7:04 pm): Added footnote 1 to traditional doctorate list of courses for clarification per department request.

Jade McCain (jm558v) (10/14/25 2:33 pm): Corrected spacing issues and added punctuation.

Crystal Wilson (wilsoncry) (10/16/25 9:25 am): Per Dr. Raper and Sharon Matson, this form does not need to go through system level and can just go through campus CCC/FS process.

Crystal Wilson (wilsoncry) (10/23/25 8:30 am): Rollback: Rollback for clarification for the traditional doctorate section.

Crystal Wilson (wilsoncry) (10/23/25 9:13 am): Updated traditional doctorate section per Dr. Dagli's approval.

UCT - War and Society

CIP Code

Intended Audience

Main Campus Students

Program Requirements and Description

War and Society

The undergraduate certificate in War and Society is designed to provide students with a strong understanding of the history of war and its social effects. The American Revolution, the French Revolution, and the wars of the nineteenth and twentieth centuries completely transformed politics, culture, and society. The effects of these wars continue to influence our ideas and our actions even today. Understanding this transformational role is thus essential in creating global citizens and engaging with the consequences of armed conflict.

To receive S&T's undergraduate certificate in War and Society, a student must take FOUR of the following courses

<u>HISTORY 3230</u>	Europe In The Age Of The French Revolution And Napoleon	3
<u>HISTORY 3240</u>	Contemporary Europe	3
<u>HISTORY 3241</u>	World War I A Global Perspective	3
<u>HISTORY 3320</u>	<u>Colonial America</u>	<u>3</u>
<u>HISTORY 3325</u>	Revolutionary America, 1754-1789	3
<u>HISTORY 3345</u>	Civil War And Reconstruction	3
<u>HISTORY 3440</u>	Grunts: 20th Century Americans In Combat	3
<u>HISTORY 3441</u>	The United States In World War II	3
<u>HISTORY 3442</u>	The United States in Vietnam	3
<u>HISTORY 3443</u>	The American Military Experience	3

<u>HISTORY 4085</u>	Internship ¹	3
<u>HISTORY 4097</u>	Senior Project ²	3
<u>HISTORY 4245</u>	Nazi Germany and the Holocaust	3
<u>HISTORY 4246</u>	War and Society in Twentieth-Century Europe	3

¹

In order to count towards the certificate, the History 4085 internship needs to be taken for at least 3 credit hours and with an organization related to the certificate topic, such as a military history museum. Requires certificate advisor approval.

²

In order to count towards certificate, the History 4097 senior project needs to be on topic related to the certificate. Requires certificate advisor approval.

Justification for
request

Add History 3320 to the choices. Colonial America examines a significant history of colonial and imperial warfare in early America and the impact of these conflicts on early American society.

Jade McCain (jm558v) (10/16/25 3:32 pm): This a minor change per the Office of the Provost stated on 10/16/2025 via email.

Approval Process for Missouri S&T's General Education Curriculum

1. The one-time creation of a new general education curriculum will originate with the General Education subgroup formed by the Provost and guided by the Associate Provost for Academic Operations, Accreditation, and Assessment. This group was created to address the mandate from the Higher Learning Commission (HLC) accrediting agency to create General Education guidelines for all students seeking undergraduate degrees at Missouri S&T. The initial general education curriculum will need to be approved by Campus Curriculum Committee and Faculty Senate.
2. After the initial creation of a general education curriculum, future changes to the general education curriculum may originate from any group of ten or more regular faculty members at Missouri S&T, meeting either at their own initiative, or that of the Faculty Senate officers, or that of the Provost's office. If the originating group, officer, or administrator so desires, the group may include non-voting members who are not regular faculty members.
3. In all cases, the group making the proposal submits a cover letter and general education curriculum proposal to the Campus Curriculum Committee (CCC), by sending the relevant documents to the chair of the CCC. The sender should copy the Faculty Senate President, the Provost, the Vice Provosts and Deans of all the colleges, and the chair of the Department Chairs Committee.
4. The CCC solicits feedback on the proposal from each Discipline Specific Curriculum Committee (DSCC).
5. After considering the feedback from the DSCC, if the CCC approves the proposal, it shall present a motion for approval to the Faculty Senate. If the CCC does not approve the

proposal, it shall return the proposal to the originating group with feedback explaining why it was rejected. If the originating group so desires, it may then make changes and start the process over again.

6. The Faculty Senate votes on the CCC's motion for approval.
7. Upon approval of the Faculty Senate, the Registrar's Office adds the new/revised general education curriculum into the catalog and adds the required courses into the Degree Audit System.
8. If desired or necessary, each department shall adjust its undergraduate degree requirements in light of the new/revised general education curriculum through the normal Degree Change (DC) process. The department will not be allowed to make any adjustments to the approved general education curriculum.
9. Assessment of the General Education Program will be the responsibility of the University Assessment Committee.

(approved Faculty Senate, Feb 22, 2024)

Chair, Campus Curriculum Committee

10/22/2025

Dear Dr. Chua,

According to the “Approval Process for Missouri S&T’s General Education Curriculum” (approved by Faculty Senate February 2024), the undersigned ten faculty members met on their own initiative to discuss changes to the General Education Program.

We make the attached proposal for adding courses to the approved General Education Program (approved by Faculty Senate March 2025). The need for these courses became apparent during the updating of DC forms in April 2025 that implemented the General Education Program for catalog year 2025-2026.

In several cases, we realized that some courses listed in the approved General Education Program had not been taught in years and required additional options for students so that they could be graduating on time. Not all students attending Missouri S&T are engineers and their majors require lower-level math courses or statistics courses that are better suited for their field of study. One degree program, Architectural Engineering, requires discipline specific general education courses that needed to be added to the approved list of courses.

Please let us know whether you need additional information, or further explanation about the approval process.

Sincerely,

Dr. Stuart Baur

Dr. Michael Bruening

Dr. Petra DeWitt

Dr. Shannon Fogg

Dr. Merilee Krueger

Dr. Clair Kueny

Dr. John Singler

Dr. Daniel Shank

Dr. Katie Shannon

Dr. Kris Swenson

Cc: Dr. Paul Runnion, Faculty Senate President
Dr. John Harris, Provost and Executive Vice Chancellor for Academic Affairs
Dr. David Spivey, Vice Provost of Enrollment Management
Dr. Debra Bourdeau, Vice Provost for Online Learning & Educational Innovation
Roger Weaver, Associate Dean of Libraries
Dr. John Harris, Interim Vice Provost of Graduate Education
Dr. David Borrok, Vice Provost and Dean, CEC
Dr. Mehrzad Boroujerdi, Vice Provost and Dean, CASE
Dr. James Sterling, Vice Provost and Dean, Kummer College
Dr. Melody Lo, Chair Department Chairs Committee

Proposal to add courses to General Education Curriculum

We, the undersigned faculty, make the following proposal to add courses to the General Education Curriculum (highlighted in yellow) to offer additional choices for students, especially in circumstances when approved courses are not taught on a regular basis and could delay students from graduating.

General Education Credit Hour Requirements

Foundational Goals – (31 credit hours total, distributed in the following areas)

-Mathematical Science (3 credit hours) Choose from Math 1120, 1140, and Math 1210 or higher course number.

We propose to simplify the math section by stating: **Choose from Math 1110 or higher course number or from STAT 1115 or higher course number** to offer more options, especially for non-engineering majors.

-Natural Sciences (7 credit hours including a minimum 1 credit hour of lab) Choose from at least two specific disciplines: Biology 1113 or higher, Chemistry 1301 or higher, Geology 1110 or higher, Physics 1111 or higher.

-Communications (6 credit hours) English 1120 (a) and choose one course from ENGL 1160, ENGL 3560, or Speech & Media 1185.

We propose **to add ENGL 1600** as a technical communication option.

-Humanities, Arts, and Social Sciences (15 credit hours) Choose courses from History, Art, Music, Theater, English and Technical Communication, Philosophy, Political Science, Psychology, Economics, Etymology, or Foreign Languages

- 6 credits in the Humanities and Fine Arts, selected from two specific disciplines: History 1300*, 1310*, Art 1180, Music 1150, Theater 1150, and English 1211, 1212, 1221, 1222, 1231 **and other literature courses that require no more than ENGL 1120 as a prerequisite.**

We propose to add Art 3203 and Theatre 1190, in case Art 1180 or Theater 1150 are not taught and to recognize the discipline specific general education requirement of Art 3203 for Architectural Engineering.

We also propose to add History 2510 (History of Technology), to meet the discipline specific general education requirement for Architectural Engineering.

- 6 credits in the Behavioral and Social Sciences, selected from two specific disciplines:

History 1100, 1200*, 2110, Philosophy 1105, 1115, Political Science 1200*, Psychology 1101, Econ 1100 or 1200, Foreign Languages 1101, 1102, and 1180.

- 3 additional credits from any of these Humanities, Arts, and Social Sciences disciplines.

* Fulfills Williams Law
